Independent Auditor's Report

To the Administrator of the L-3 Communication Systems – East Retirement Income Plan:

We have audited the accompanying financial statements of L-3 Communication Systems – East Retirement Income Plan (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2015 and 2014, and the related statements of changes in net assets available for benefits for the years then ended and the statement of accumulated plan benefits as of January 1, 2015 and the related statement of changes in accumulated plan benefits for the year then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on the financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on our judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, we consider internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, information regarding the Plan's net assets available for benefits as of December 31, 2015 and changes therein for the year then ended and its financial status as of December 31, 2014, and changes therein for the year then ended in accordance with accounting principles generally accepted in the United States of America.

1. Plan Description

The following brief description of the L-3 Communication Systems-East Retirement Income Plan (the "Plan"), formerly known as the L-3 Communication Systems-Camden Retirement Income Plan, is provided for general information purposes only. Participants should refer to the Plan document for more complete information.

The Plan was established effective May 1, 1997 in connection with the acquisition of certain entities, including the L-3 Communication Systems-East division by L-3 Communications Corporation (the "Company"), a wholly owned subsidiary of L-3 Communications Holdings, Inc., from Lockheed Martin Corporation ("Lockheed Martin"). On that date, certain participants in the Lockheed Martin Corporation Retirement Plan I and the Lockheed Martin Corporation Retirement Plan II (collectively referred to as the "Prior Plan") became participants in the Plan. Lockheed Martin transferred the assets from the Prior Plan attributable to the accrued benefits of the participants to the Plan in 1997.

The Plan is a non-contributory defined benefit plan covering non-union employees at certain locations of the Company. Participation in the Plan commenced as of the participant's hire date. The Plan is subject to the Employee Retirement Income Security Act of 1974, as amended ("ERISA").

The Plan is frozen with respect to new participants hired on or after January 1, 2007. As such, any employees hired on or after January 1, 2007 are not eligible to participate in the Plan. Effective January 1, 2010, employees who earn in excess of $130 in the plan year prior to the year under consideration cease to accrue future benefits.

The Plan was amended effective January 1, 2014. The Plan amendment states, if a Plan participant is transferred to any business unit within the Company on or after January 1, 2014, any service and compensation earned by the participant of the Plan from the date of transfer until the date of the participant's termination of employment with the Company will be treated as though earned by the participant at the business unit of the Plan. The Plan amendment does not affect the benefits of a Plan participant who continues to be employed by the Company but becomes or ceases to be a represented employee covered by a collective bargaining agreement.

During the year ended December 31, 2014, one employee from the Plan transferred to the L-3 Communication Systems-East Pension Plan for Bargaining Unit Employees ("Communication Systems-East Plan") and one employee from the Communication Systems-East Plan transferred to the Plan. The net assets related to these employees were transferred to the Plan from the Communication Systems-East Plan during the year ended December 31, 2014. The benefit obligation related to the employee that transferred to the Plan is approximately $162 as of January 1, 2015.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared using the accrual basis of accounting.

Interest in Master Trust

Investment assets of the Plan are maintained in the L-3 Communications Corporation Master Trust (the "Master Trust") administered by The Bank of New York ("BNY") Mellon, as Trustee. The Plan participates in the Master Trust along with other defined benefit plans sponsored by the Company (collectively, the "L-3 Participating Plans"). The only investment of the Plan is its undivided interest in the net assets of the Master Trust. The fair value of the Plan's interest in the Master Trust is determined based on the beginning of year value of the Plan's undivided interest in the Master Trust plus actual contributions and allocated investment income (loss) less actual distributions and actual administrative expenses. Assets held in the Master Trust primarily consist of equity securities, fixed income securities, a mutual fund, a commingled trust fund and short term investments. See Note 6 for a description of the valuation methodologies of the assets of the Master Trust.

The Master Trust records investment transactions on the trade-date, dividend income on the ex-dividend date, interest income as earned and determines realized gains and losses on sales of securities based on the average cost method.

Net Investment Income from Master Trust

The net investment income from the Master Trust includes interest and dividend income and net appreciation or depreciation in the fair value of investments, which includes net gains or losses realized upon disposition of investments and net unrealized appreciation or depreciation of investments. The net investment income or loss is allocated to the L-3 Participating Plans based upon the relationship of each plan's respective ending monthly balances in the investment pool to the total investments of the Master Trust, as determined on a monthly basis.

Benefit Payments

Benefit payments are recorded when paid.

Plan Expenses

The administrative expenses of the Plan are paid for by the Plan. Administrative expenses are allocated to the Plan at the direction of the Company based upon the Plan's respective portion of the expense. Investment management fees of the Master Trust are allocated to the L-3 Participating Plans based upon the relationship of each plan's respective ending monthly

balances in the investment pool to the total investments of the Master Trust, as determined on a monthly basis.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("U.S. GAAP") requires management to make significant estimates and assumptions that affect the reported amounts of assets, liabilities, benefit obligations, and changes therein, disclosures of contingent assets, liabilities and benefit obligations, and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results may differ from those estimates.

Risks and Uncertainties

Plan contributions and the actuarial present value of accumulated plan benefits are determined based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption process, it is at least reasonably possible that changes in the estimates and assumptions in the near term would be material to the financial statements.

The investments held in the Master Trust are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investments and the level of uncertainty related to changes in the value of investments, it is at least reasonably possible that changes in risks in the near term would materially affect the investments and related allocation reported in the Statements of Net Assets Available for Benefits and the Statements of Changes in Net Assets Available for Benefits.

New Accounting Standards Implemented

In July 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2015-12, which eliminates the requirement for plans to disclose (1) individual investments that represent 5 percent or more of net assets available for benefits and (2) the net appreciation or depreciation by general type. The net appreciation or depreciation in investments for the period will still be required to be presented in the aggregate, but will no longer be required to be disaggregated and disclosed by general type. ASU 2015-12 also removes the requirement to disaggregate investments of employee benefit plans by nature, characteristics and risks and will require that these investments be grouped only by general type. This update is effective for the interim and fiscal periods beginning after December 15, 2015, and early adoption is permitted. The Plan has elected to early adopt ASU 2015-12 for the year ended December 31, 2015. The adoption of this standard did not impact the Plan's statements of net assets available for benefits, statements of changes in net assets available for benefits or statements of accumulated plan benefits and changes in accumulated plan benefits. See Note 5 for additional information.

In May 2015, the FASB issued ASU 2015-07, which removes the requirement for reporting entities to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share as a practical expedient. ASU 2015-07 also removes the requirement to make certain disclosures for all investments that are measured at fair value using the net asset value per share as a practical expedient. This update is effective for interim and fiscal periods beginning after December 15, 2016, and early adoption is permitted. The Plan has elected to early adopt ASU 2015-07 for the year ended December 31, 2015, and apply the amendments related to the presentation of investments measured using the net asset value per share practical expedient. The adoption of this standard did not impact the Plan's statements of net assets available for benefits, statements of changes in net assets available for benefits or statements of accumulated plan benefits and changes in accumulated plan benefits. See Note 6 for additional information.

Subsequent Events

The Plan continued to evaluate events after the Statement of Net Assets Available for Benefits date through September 8, 2016, the date the financial statements were available to be issued.

3. Contributions

Generally, the Company's funding policy is to contribute amounts in accordance with the Internal Revenue Code ("IRC") that are at least equal to the minimum funding requirements under ERISA. There was no minimum funding requirement in 2015 and 2014. Therefore, no contributions were made in 2015 or 2014. Minimum contributions are calculated using the Unit Credit Actuarial Cost Method, as prescribed by law. Under this method, the liability is measured on an accrued-to-date basis using mandated mortality tables and interest rates with no salary projection past the end of the year. Assuming all assumptions are met (including the investment earnings implicitly assumed by the interest rate), funding the minimum required contribution is generally designed to achieve the following: (1) if the plan is underfunded, funding at the minimum level would achieve 100% funding within seven years, and then contributions would equal the target normal cost, or (2) if the plan is overfunded, there will be no required contributions unless the target normal cost exceeds the overfunding.

4. Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump sum distributions that are attributable under the Plan's provisions to the service that employees have rendered. Accumulated plan benefits include benefits expected to be paid to (*a*) retired or terminated employees or their beneficiaries, (*b*) beneficiaries of employees who have died, and (*c*) present employees or their beneficiaries.

The Plan provides an annual benefit for participants equal to the greater of (i) 1.165% of the lesser of Final Average Earnings or Social Security Covered Compensation plus 1.5% of Final Average Earnings in excess of Social Security Covered Compensation multiplied by years of

credited service up to 35 years plus 1.5% of Final Average Earnings multiplied by years of credited service in excess of 35 years, (ii) the GE Trans Ops Benefit as of April 5, 1993 plus 1.45% of the employee's compensation earned in each calendar year up to Special Covered Compensation plus 1.90% of remaining compensation for the first 34 years of service (1.45% of all compensation earned in each calendar year after service as of January 1 exceeds 34 years) or (iii) two hundred and fifty-two dollars multiplied by years of credited service. Special Covered Compensation is Social Security Covered Compensation minus $3.192 per year (i.e., the difference between $18 and the Social Security Covered Compensation of an employee attaining age 65 in 1992). Final Average Earnings is the sum of average pensionable earnings of the highest 3 years out of the last 10 years preceding retirement plus the average of management incentive bonuses in the highest 3 years out of the last 10 years preceding retirement. Formula (ii) is only available to employees hired prior to December 31, 1994. The minimum annual benefit under the Plan is two hundred and fifty-two dollars multiplied by years of credited service. Benefits vest 100% after 5 years of service and are payable at age 65. Service in the Prior Plan is considered as service under the Plan.

The Plan permits early retirement for participants at age 55 with at least 5 years of service. Effective January 1, 2011, there is no early retirement supplement. The benefit may begin at the date of early retirement, reduced by 7.0% per year by which commencement of benefits precedes the retirees 60^{th} birthday for retirees with less than 5 years of service. The 7.0% benefit reduction is decreased by 0.14% for each additional year of service at retirement in excess of 5 years, but may not be decreased to less than 3.5% per year. Retirees may elect to receive their pension benefits in the form of a joint and survivor annuity or a life annuity payable monthly from the date of retirement. Under the joint and survivor annuity, if a vested participant dies prior to the date pension benefits commence, the surviving spouse of the deceased vested participant receives benefits equal to the greater of 75% of the benefit accrued to the date of death, reduced by the appropriate early retirement and joint and survivor factors or 50% of the unreduced amount which would have been payable to the retiree under a joint and survivor annuity. Under the life annuity, there are no continuing payments after the death of the retiree.

The actuarial present value of the accumulated plan benefits is determined by an independent actuary and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. The significant actuarial assumptions used in the valuations as of January 1, 2015 and 2014 were:

Mortality basis	Total Collar RP-2014 Mortality Table (adjusted back to 2006), projected generationally with the 2014 SSA Intermediate – Cost Projections Scale.
Retirement	Retirement at ages 55 through 70, at varying rates with 100% by age 70.
Interest rate for the determination of the present value of accumulated plan benefits	2015: 8.00% 2014: 8.25%

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors may be applicable in determining the actuarial present value of accumulated plan benefits. The computation of the actuarial present value of accumulated plan benefits was made as of January 1, 2015.

5. Master Trust Investments

The fair value of the assets and liabilities of the Master Trust at December 31, 2015 and 2014 is presented in the table below. The Plan's percentage interest in the Master Trust was 8.3% at December 31, 2015 and 8.6% at December 31, 2014.

	2015	2014
Equity securities	$ 1,471,256	$ 1,438,681
Fixed income securities	316,631	317,286
Mutual fund	204,891	204,037
Commingled trust fund	173,105	142,471
Short term investments	168,468	211,207
Forward contracts	96	23
Cash	294	300
Accrued income	5,750	5,282
Receivable for unsettled trades	8,373	3,645
Payable for unsettled trades	(44,513)	(22,403)
	$ 2,304,351	$ 2,300,529

The following presents the investment income of the Master Trust for the years ended December 31, 2015 and 2014.

	2015	2014
Net (depreciation) appreciation of investments	$ (21,141)	$ 139,515
Interest	13,872	13,533
Dividends	40,534	37,835
Other	572	55
	$ 33,837	$ 190,938

The Plan, through the Master Trust, may enter into foreign currency forward exchange contracts primarily to hedge against foreign currency exchange rate risks on its non-U.S dollar denominated investment securities. When entering into a foreign currency forward contract, the Plan agrees to receive or deliver a fixed quantity of foreign currency for an agreed-upon price on an agreed future date. The Plan's net equity therein, representing unrealized gain or loss on the contracts, as measured by the difference between the forward foreign exchange rates at the dates of entry in the contracts and the forward foreign exchange rates at the reporting date is included in Plan's statement of net assets available for benefits. Realized and unrealized gains and losses are included in the Plan's statement of changes in net assets available for benefits. These instruments involve market and/or credit risks. The Plan, through the Master Trust, manages exposure to credit risk by entering into foreign currency forward exchange contracts only with major institutions that are expected to fully perform under the terms of such contracts. The average notional amounts for the years ended December 31, 2015 and 2014 were $4,065 and $6,246, respectively.

At December 31, 2015 and 2014, the Plan had the following foreign currency forward exchange contracts.

	2015			2014		
	Asset	**Liability**	**U.S. Dollar Notional**	**Asset**	**Liability**	**U.S. Dollar Notional**
Foreign currency forward exchange contracts	$ 96	$ —	$ 4,375	$ 23	$ —	$ 3,298

6. Fair Value Measurements

The Plan adopted the standards for fair value measurements. The provisions of the standards are applicable to all of the Plan's assets and liabilities that are measured and recorded at fair value. The Benefit Plan Committee determines the Plan's valuation policies utilizing information provided by the investment advisors and trustee. The standards establish a framework for measuring fair value and expand related disclosures. The standards define fair value as the price that would be received for an asset or the exit price that would be paid to transfer a liability in the principal or most advantageous market in an orderly transaction between market participants. It establishes a fair value hierarchy that gives the highest priority to observable inputs and the lowest priority to unobservable inputs. The three levels of the fair value hierarchy are described below.

Level 1: Quoted market prices available in active markets for identical assets or liabilities as of the reporting date. The Plan's Level 1 assets primarily include equity securities, a mutual fund classified under Fixed Income – Investment Grade and Real Estate Investment Trusts ("REITs"), all of which fair value is derived from quoted market prices.

Level 2: Pricing inputs other than quoted prices in active markets included in Level 1, which are either directly or indirectly observable as of the reporting date. The fair value is determined using a valuation model based on observable market inputs. The Plan's Level 2 assets primarily include money market accounts and both investment grade and high-yield fixed income securities.

Level 3: Pricing inputs that are generally unobservable inputs and not corroborated by market data. The Plan has no Level 3 assets.

The table below reports by level, within the fair value hierarchy, the assets held in the Master Trust at fair value as of December 31, 2015 and 2014, including a description of the valuation methodologies. As required by the standards, each asset is classified based on the lowest level of input that is significant to the fair value measurement. There have been no changes in the methodologies used at December 31, 2015 and 2014. There were no transfers between Levels 1, 2 or 3 during the years ended December 31, 2015 and 2014.

Accrued income, cash and net unsettled trades				(30,096)				(13,176)
Other investments measured at net asset value[6] [7]				173,105				142,471
Total Master Trust Investments				$ 2,304,351				$ 2,300,529

(1) Equity securities consist of investments in common stock of U.S. and international companies. The fair value of equity securities is based on quoted market prices available in active markets at the close of a trading day, primarily the New York Stock Exchange (NYSE), National Association of Securities Dealers Automated Quotations (NASDAQ), and various international exchanges.

(2) Approximately 59% at December 31, 2015 and 60% at December 31, 2014 of plan assets that are invested in the Fixed Income — Investment Grade asset category consist of a mutual fund offered by a registered investment company (the "Fund") and fixed income securities. The Fund invests in investment grade fixed income securities, mortgaged-backed securities, U.S. treasury and agency bonds and corporate bonds. These investments are classified by the Company as a Level 1 measurement within the fair value hierarchy, as the mutual fund trades on an active market and daily, quoted prices are available. The remaining 41% at December 31, 2015 and 40% at December 31, 2014 of plan assets are fixed income securities, primarily investment grade corporate bonds from various industries held directly by the plan. The fair values of these investments are based on yields currently available on comparable bonds of issuers with similar credit ratings, quoted prices of similar bonds in an active market, or cash flows based on observable inputs and are classified as Level 2.

(3) Fixed Income — High Yield consists of investments in corporate high-yield bonds from various industries. The fair values of these investments are based on yields currently available on comparable bonds of issuers with similar credit ratings, quoted prices of similar bonds in an active market, or cash flows based on observable inputs.

(4) REITs consist of securities that trade on the major exchanges and invest directly in real estate, either through properties or mortgages.

(5) Other consists primarily of money market accounts, which invest primarily in short term, high quality money market securities such as government obligations, commercial paper, time deposits and certificates of deposit.

(6) In accordance with ASU 2015-07, certain investments that are measured at fair value using the net asset value (NAV) per share (or its equivalent) practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the amounts presented in Note 5.

(7) All of the plan's other investments measured using NAV as a practical expedient at December 31, 2015 and 2014 consist of a regulated commingled equity trust fund, for which fair value is based on NAV at the end of each month. The NAV is calculated by the fund manager based on the fair value of fund's holdings, primarily equity securities traded in active markets, determined as of the end of each month as a practical expedient to estimating fair value. This practical expedient is not used when it is determined to be probable that the Plan will sell the investment for an amount different than the reported NAV. Withdrawals are permitted, with notice by the 20th day of each month, based on NAV.

7. Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated July 28, 2008, that the Plan is designed in accordance with the applicable sections of the IRC. The Plan has been amended since receiving the determination letter. The Plan administrator and the Plan's counsel believe that the Plan is designed and is currently being operated in compliance with the applicable regulations of the IRC; therefore, no provision for income taxes has been included in the Plan's financial statements.

U.S. GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions by the Plan, and has concluded that as of December 31, 2015, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to the year ended December 31, 2012.

The Plan recognizes accrued interest and penalties related to unrecognized tax benefits in tax expense. There were no interest and penalties included in the Plan's financial statements.

8. Parties-in-Interest and Related Party Transactions

Certain plan investments held in the Master Trust are units of a commingled trust fund managed by BNY Mellon, the Plan's trustee. As described in Note 2, the Plan (through the Master Trust) paid certain expenses related to plan operations and investment activity to various related party service providers. These transactions are exempt party in interest transactions under ERISA.

9. Termination Priorities

While the Company has not expressed any intention to do so, it is free to discontinue its contributions at any time and to terminate the Plan, subject to provisions set forth in ERISA.

In the event of Plan termination, the net assets of the Plan will be allocated as specified by the Plan in accordance with ERISA, generally to provide the following benefits in the order indicated:

a. Benefits attributable to employee contributions, taking into account those paid out before termination.

b. Benefits attributable to participants who have retired at least three years before the termination date of the Plan or those participants who were eligible to retire and

receive pension benefits at least three years before, but who did not elect to retire at that time.

c. Benefits commencing at retirement age to participants who are eligible to receive guaranteed benefits under ERISA.

d. All vested and non-vested benefits.

Whether participants receive all benefits to which they are entitled under the terms of the Plan should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Company and the level of benefits guaranteed by the Pension Benefit Guaranty Corporation, up to specified limits.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Actuarial Assumptions and Methodologies (Funding)

Certain assumptions are prescribed as described below. The other assumptions are estimates derived from historical and recent experience as well as market observations, combined with professional judgment about future expectations. Sibson Consulting's reports as of November 29, 2011 and January 12, 2015 show recent analysis upon which these assumptions are based.

<table>
<tr><td>Interest:</td><td>The interest rates used for the 2015 plan year are the 24-month average corporate bond segment rates for September 2014 (a four-month lookback) subject to funding stabilization. Under stabilization, the interest rates used for funding purposes are calculated in the usual manner (24-month average corporate bond rates) but are then constrained to be within a corridor around a 25-year average of those same bond rates. For 2015, the stabilization corridor is 10%. It will remain at 10% through 2017, then increase by 5% per year until it reaches 30% for 2021. The rates are as follows:
<table>
<tr><th></th><th>Payments in the First 5 Years</th><th>Payments in Years 6 – 20</th><th>Payments Thereafter</th><th>Effective Interest Rate</th></tr>
<tr><td>Current Year, reflecting stabilization (under HATFA)</td><td>4.72%</td><td>6.11%</td><td>6.81%</td><td>6.31%</td></tr>
<tr><td>Current Year, without stabilization</td><td>1.15%</td><td>4.06%</td><td>5.15%</td><td>4.42%</td></tr>
<tr><td>Prior Year, reflecting stabilization (under HATFA)</td><td>4.99%</td><td>6.32%</td><td>6.99%</td><td>6.52%</td></tr>
<tr><td>Prior Year, without stabilization</td><td>1.37%</td><td>4.05%</td><td>5.06%</td><td>4.42%</td></tr>
</table>
These interest rates are based on the plan sponsor's election subject to the constraints established by law.</td></tr>
<tr><td>Mortality rates:</td><td>RP2000 separate annuitant and non-annuitant healthy mortality tables (sex-specific) with static projection using Scale AA and no collar-adjustment. Mortality is projected from 2000 through the valuation date plus another 7 years for annuitants, and through the valuation date plus another 15 years for non-annuitants. This assumption is one of the choices allowed by the regulations.</td></tr>

<tr><td>Benefit election:</td><td>(1) For a married participant: Actuarially reduced 50% Qualified Joint and Survivor annuity (pop-up annuity for first 5 years).
(2) For a single participant: a life annuity with 5 years certain under GE Trans Ops Benefit Formula, or a life annuity under RIP Benefit Formula.
(3) For all employees with a Personal Pension Account and/or Voluntary Pension Account: a lump sum equal to the account balances.
This assumption is based on historical and current data, adjusted to reflect estimated future experience and professional judgment.</td></tr>

Retirement from inactive status:	Age 65

Actuarial Assumptions and Methodologies (Funding) *continued*

Social Security Benefits:	3.00% per year			
Percent married:	70% male; 55% female. Spouse is assumed to be the opposite gender.			
Age difference:	Male spouses are assumed to be three years older than female spouses.			
Administrative expenses:	An expense assumption is required under the funding rules. Plan-related expenses of $720,000 are expected to be paid by the plan during the year (previously, $350,000). This assumption is based on recent historical data, adjusted to reflect PBGC variable-rate premium changes, advice from the plan sponsor, and estimated future experience and professional judgment.			
Asset method:	As selected by the plan sponsor, assets are determined by averaging the market value as of the valuation date and the adjusted market values as of the preceding two years. The resulting value is limited to between 90% to 110% of market value of assets. The adjusted market values reflect cash flow and expected earnings to the valuation date. The expected earnings are based on an assumed rate of return of 7.50%, not to exceed the applicable third segment rate of 6.76% for 2013 and 6.99% for 2014.			
Funding method:	Funding method is unit credit actuarial cost method, as prescribed by law. The liability is measured on an accrual-to-date basis using mandated mortality tables and interest rates with no salary projection past the end of the year. If all assumptions are met (including the investment earnings implicitly assumed by the interest rate), funding the plan at the minimum required contribution level is generally designed to achieve a 100% funded status within seven years. Once that is achieved, or for overfunded plans, the required contribution will generally equal the target normal cost reduced by any overfunding.			
Assumption changes since prior valuation:	Assumption Type Administrative Expenses	Current Assumption $720,000	Prior Assumption $350,000	Reason for Change Based on recent historical data, adjusted to reflect PBGC variable-rate premium changes, advice from the plan sponsor, and estimated future experience and professional judgment
