FAIRWAY MARKET III
401(K) PROFIT SHARING PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2015

NOTE A: DESCRIPTION OF THE PLAN

The following description of the Fairway Market III 401(k) Profit Sharing Plan provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

1. **GENERAL.** The Plan is a defined contribution plan covering all full-time employees of Fairway Super Market of Visalia, Inc., Gongco Foods, Inc., Gong and Gong Company, Inc., and Gongco Properties, LLC (Employer) who have one year of service and are age 21 or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Board of Trustees oversees governance of the Plan. The Plan's Investment Committee determines the appropriateness of the Plan's investment offerings, monitors investment performance, and reports to the Plan's Board of Trustees.

2. **CONTRIBUTIONS.** Each year, participants may contribute up to 15% of pretax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers various mutual funds, common stocks, bonds, and government securities as part of several pooled-separate accounts, and an insurance investment contract as investment options for participants. Employer contributes 50% of the first 5% of base compensation that a participant contributes to the Plan. The matching Employer contribution is credited to the employee's Matching Contribution Account and is invested in the same investment options as the employee's contribution. Contributions are subject to certain statutory limitations.

NOTE A: DESCRIPTION OF THE PLAN (Continued)

3. **PARTICIPANT ACCOUNTS**. Each participant's account is credited with the participant's contribution and allocations of (a) the Employer's matching contributions and, (b) Plan earnings (losses), and charged with an allocation of any administrative expenses paid by the Plan. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

4. **VESTING.** Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Employer's contribution portion of their accounts is based on years of continuous service. A participant is 100% vested after five years of credited service.

5. **NOTES RECEIVABLE FROM PARTICIPANTS.** Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested interest in their account. The notes are secured by the balance in the participant's account and bear interest at a rate equal to the Federal prime rate in effect on the date the loan is made plus 1%. Principle and interest is paid ratably through weekly payroll deductions. The maximum term for repayment of the loan is 60 months.

6. **PAYMENT OF BENEFITS**. On termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, a Life Annuity under which the participant will receive a monthly income for as long as he or she lives (no death benefit is payable after death), an immediate or deferred annuity to provide fixed or variable income that ends when the participant dies or continues during the life of the participant's Beneficiary and with or without a minimum guaranteed payment period, or installments not exceeding the shorter of 15 years of the participant's life expectancy. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum payment.

NOTE A: DESCRIPTION OF THE PLAN (Continued)

7. **FORFEITED ACCOUNTS.** At December 31, 2015 and 2014, forfeited nonvested accounts totaled $28,857 and $27,133, respectively. No forfeitures were used during the year to offset employer contributions. Forfeitures in the amount of $150 were used to pay plan expenses.

NOTE B: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

DATE OF MANAGEMENT'S REVIEW

Subsequent events were evaluated through October 5, 2016, which is the date the financial statements were available to be issued.

ESTIMATES

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America ("GAAP") requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

BASIS OF ACCOUNTING

The financial statements of the plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared using contract value for the fully benefit-responsive investment contract.

NOTE B: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

NOTES RECEIVABLE FROM PARTICIPANTS

Participants may borrow from their accounts a minimum of $1,000 or up to a maximum, equal to the lesser of $50,000 or 50% of their account balance. The loans are secured by the balance in the participant's account and bear interest at rates equal to the Federal prime rate in effect on the date the loan is made plus 1%, currently ranging from 4.25% to 8.75%. Loan transactions are treated as a transfer to (from) the investment funds from (to) a participant's loan receivable. Loan terms cannot exceed 5 years, unless the loan qualifies as a residential mortgage, in which case a loan term may qualify for a period of up to 20 years. Principal and interest payments are made through payroll deductions, not less than quarterly. Loans that are considered uncollectible are treated as deemed distributions; and, therefore, there is no allowance for uncollectible loans. Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are charged directly to the borrowing participant's account and are included in administrative expenses when incurred.

INFORMATION CERTIFIED BY TRUSTEE

Other than the fair value of the guaranteed investment contract and the related adjustment from fair value to contract value for fully benefit-responsive investment contracts, certain information related to investments and notes receivable from participants disclosed in the accompanying financial statements and supplemental schedule, including investments and notes receivable from participants held at December 31, 2015 and 2014, and net appreciation in fair value of investments, interest and dividends for the year ended December 31, 2015, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by Transamerica Retirement Services (the trustee of the Plan). The contract value of the guaranteed investment contract was certified by the trustee.

NOTE B: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

INVESTMENT VALUATION

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The investment committee determines the Plan's valuation policies. See Note C for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

EXCESS CONTRIBUTIONS PAYABLE

Amounts payable to participants for contributions in excess of amounts allowed by the IRS are recorded as accounts payable, with a corresponding reduction to 2015 contributions. The Plan distributed the excess contributions prior to March 15, 2016. Excess contributions for the year ended December 31, 2014, were distributed prior to March 15, 2015.

PAYMENT OF BENEFITS

Benefits are recorded when paid.

ADMINISTRATION EXPENSES

Certain expenses of maintaining the Plan are paid directly by the Organization and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

NOTE B: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

PLAN TERMINATION

Although it has not expressed any intent to do so, the Plan sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

NOTE C: FAIR VALUE MEASUREMENTS

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefit. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, and Level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 3 inputs were only used when Level 1 or Level 2 inputs were not available.

Level 1 Fair Value Measurements

The fair value of mutual funds is based on quoted net asset values of the shares held by the Plan at year-end. The values of common stocks, corporate bonds, and U.S. Government securities are based on the closing price reported on the active market where the individual securities are traded.

NOTE C: FAIR VALUE MEASUREMENTS (Continued)

Level 2 Fair Value Measurements

The fair value of certain corporate bonds for which quoted market price are not available are value based on yields currently available on comparable securities of issuers with similar credit ratings. Investments in certain restricted common stocks are valued at the quoted market price of the issuer's unrestricted common stock less an appropriate discount. The fair value of certificates of deposit is based on amortized cost or original cost plus accrued interest.

The guaranteed investment contract with Transamerica is an investment in the general account of Transamerica, and the value is guaranteed by Transamerica as a going concern. Regardless of the activity of the general fund, Transamerica pays the stated interest rate and backs the capital deposit where the "risk" is measured by Transamerica's insurance credit rating. This is a depository liability with no formal underlying maturities, and it is considered fairly valued at contract value because of this specific distinction. Transamerica is not a bank, but it may be similar to a bank CD which isn't connected directly with all of the bank's loans, but is guaranteed and carried at contract value because of this treatment.

Level 3 Fair Value Measurements

The fair value of participant loans approximates the amortized cost of the loans because the loans are secured by each respective participant's account balance.

NOTE C: FAIR VALUE MEASUREMENTS (Continued)

For those assets with fair value measured using Level 3 inputs, the Plan Investment Committee determines the fair value measurement policies and procedures in consultation with the Employers' chief financial officer and the Plan trustee. Those policies and procedures are reassessed at least annually to determine if the current valuation techniques are still appropriate. At that time, the unobservable inputs used in the fair value measurements are evaluated and adjusted, as necessary, based on current market conditions and other third-party information. The following tables set forth, by level within the fair value hierarchy, the Plan's investments at fair values as of December 31, 2015 and 2014:

Gains and losses included in changes in net assets available for benefits for the years ended December 31, 2015 and 2014, are reported in net appreciation in fair value of investments. Unrealized gains/(losses) from the guaranteed investment contract are not reported in the statement of changes in net assets available for benefits as the contract is recorded at contract value for presentation in the net assets available for benefits.

The Plan's policy is to recognize transfers into and out of Level 3 as of the date of the event or change in circumstances that caused the transfer.

NOTE E: GUARANTEED INVESTMENT CONTRACT WITH INSURANCE COMPANY

The Plan has entered into a fully benefit-responsive guaranteed investment contract with Transamerica. Transamerica maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

NOTE E: GUARANTEED INVESTMENT CONTRACT WITH INSURANCE COMPANY (Continued)

Because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. The guaranteed investment contract is presented on the face of the statement of net assets available for benefits at contract value. Contract value, as reported to the Plan by Transamerica represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The average yield and crediting interest rates were approximately 1.35% and 1.30% for 2015 and 1.40% and 1.35% for 2014 respectively. The crediting interest rate is based on a formula agreed upon with the issuer. Such interest rates are reviewed on a regular basis for resetting. The fair value (contract value) of the investment contract at December 31, 2015 and 2014 was $905,316 and $1,046,512, respectively.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include (1) amendments to the Plan documents (including the complete or partial Plan termination or merger with another plan), (2) changes to the Plans prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator believes that any events that would limit the Plan's ability to transact at contract value with participants are probable of not occurring.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

NOTE F: TAX STATUS

The Plan has an effective date of January 1, 1987. At its inception the Internal Revenue Service (IRS) determined and informed the Plan sponsor that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believe that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require the plan administrator to evaluate tax positions taken by the Plan and recognize a tax liability for any uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by tax authorities; however, there are currently no audits for any tax periods in progress. The Plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2012.

NOTE G: RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE H: RELATED PARTY TRANSACTIONS

Certain Plan investments are shares of mutual funds managed by Transamerica Retirement Services. Transamerica Retirement Services is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees incurred by the plan for the investment management services are included in net appreciation in fair value of the investment, as they are paid through revenue sharing, rather than a direct payment. The Plan made direct payments to Transamerica Retirement Service of $50,477 for the year ended December 31, 2015 which was not covered by revenue sharing. The Plan Sponsor pays directly any other fees related to the plan's operations.
