RETIREMENT PLAN OF SYBRON
CHEMICALS INC. FOR UNION EMPLOYEES

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2015 AND 2014

NOTE 1 - DESCRIPTION OF PLAN

The following brief description of the Retirement Plan of Sybron Chemicals Inc. for Union Employees (Plan) is provided for general information purposes only. Participants should refer to the Plan document or the summary plan description for complete information.

General - Effective January 1, 2003, Bayer Corporation in the United States reorganized into independent operating subsidiaries, including Bayer Chemicals Corporation (Bayer). On July 1, 2004, Bayer Corporation established a new operating subsidiary, LANXESS Corporation. LANXESS Corporation was spun-off from Bayer Corporation on January 28, 2005. The Plan is a defined benefit retirement plan that provides benefits to full-time employees of Sybron Chemicals Inc., a subsidiary of LANXESS Corporation (Company or LANXESS), who are members of the United Steelworkers of America Union, AFL-CIO-CLC, Local Number 12238 and Local Number 13939 at the Birmingham, New Jersey plant. The Company is responsible for the administration of the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Effective May 2, 2008, LANXESS Corporation's wholly owned subsidiary LANXESS Sybron Chemicals discontinued production at its facility in Birmingham, New Jersey. As a result of this event, the Plan was frozen and participants will not accrue additional benefits after May 2, 2008. Additionally, participants became 100% vested as of May 2, 2008.

Vesting and Benefits - Normal retirement age under the Plan is age 65. The Plan permits early retirement with actuarially reduced benefits at age 62 and ten years of service. Participants may elect to receive their pension benefits in the form of a qualified joint and survivor annuity or any of the optional forms of benefits payments set forth in the Plan, including a single life annuity. Monthly benefits under the Plan accrued based upon years of service, as defined by the Plan, multiplied by a retirement income factor determined by date of termination up until May 2, 2008.

The monthly benefit payable to a participant who retires on the participant's normal retirement date on or after January 1, 2004 shall be an amount, commencing as the participant's normal retirement date, determined by multiplying the participant's years of credited service by the applicable amount determined below:

For a participant who retires on or after May 3, 2003 but prior to May 3, 2004, \$31.00

For a participant who retires on or after May 3, 2004 but prior to May 3, 2005, \$32.00

For a participant who retires on or after May 3, 2005 but prior to May 3, 2006, \$33.00

For a participant who retires on or after May 3, 2006 but prior to May 3, 2007, \$34.00

For a participant who retires on or after May 3, 2007 and thereafter, \$35.00

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A summary of significant accounting policies consistently applied by management in the preparation of the accompanying financial statements follows:

Basis of Accounting - The financial statements of the Plan are prepared on the accrual basis of accounting.

RETIREMENT PLAN OF SYBRON
CHEMICALS INC. FOR UNION EMPLOYEES

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2015 AND 2014

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Valuation of Investments and Income Recognition - The Plan's investments are stated at fair value, which is the price that would be received to sell an asset or paid to transfer a liability (i.e., exit price) in an orderly transaction between market participants at the measurement date. (See Note 4 for discussion of fair value measurement.)

Purchases and sales of investments are recorded on a trade-date basis. Net (depreciation) appreciation in the fair value of investments is composed of the unrealized (depreciation) appreciation on investments held during the year and the realized gain (loss) on investments sold during the year. Interest income is recorded when earned. Dividends are recorded on the ex-dividend date.

Valuation of Accumulated Plan Benefits - Accumulated plan benefits are those future payments attributable under the Plan's provisions to employee service rendered to the valuation date, the date as of which the benefit information is presented. Benefits payable under all circumstances - retirement, death, termination of employment - are included to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits has been determined by Aon Hewitt Associates, the Plan's actuary. It is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for retirement, death, disability or withdrawal) between the valuation date and the expected date of payment. Actuarial valuations are based on demographic information as of the beginning of the plan year.

Among the significant assumptions used in the valuations of accumulated plan benefits were:

	<u>2015</u>	<u>2014</u>
Interest rate	5.75%	5.75%
Life expectancy of participants	RP-2014 Mortality Table with blue collar adjustments (with fully generational projection using scale MP-2014)	Generational Mortality Table for annuitants and non-annuitants per §1.430(h)(3)-1(d) Revenue Ruling 96-7 Mortality Table for disability after December 31, 1994 - disabled
Average retirement age	62	62

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. If the Plan were to be terminated, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

DECEMBER 31, 2015 AND 2014

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits and changes therein at the date of the financial statements. Actual results could differ from those estimates.

Risks and Uncertainties - The Plan invests in various investment instruments, primarily registered investment companies. Investment securities, in general, are exposed to various risks, such as interest rate, credit and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Plan Expenses - The administrative costs and fees of the Plan are generally paid by the Company, with the exception of trustee fees, which are paid by the Plan.

Payment of Benefits - Benefit payments are recorded when paid.

Subsequent events are events or transactions that occur after the balance sheet date, but before the financial statements are issued or are available to be issued. Management has evaluated subsequent events through October 10, 2016, the date on which the financial statements were available to be issued.

NOTE 3 - ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

The composition of the actuarial present value of accumulated plan benefits as of December 31, 2014 is:

Vested benefits:		
Retirees and beneficiaries	\$	5,387,404
Deferred vested		<u>2,218,953</u>
Total vested benefits	\$	<u>7,606,357</u>

NOTE 3 - ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS (Continued)

The actuarial present value of accumulated plan benefits as of December 31, 2014 and the changes in the benefits are presented below:

Actuarial present value of accumulated plan benefits, January 1, 2014	\$ 7,312,784
Interest accumulation	407,239
Benefits paid	(467,250)
Actuarial assumption changes	245,173
Other changes	<u>108,411</u>
Actuarial present value of accumulated plan benefits, December 31, 2014	\$ <u>7,606,357</u>

The "other changes" component represents the normal operation of the Plan. It consists primarily of the increase due to ongoing benefit accruals (if any) and those items of plan experience that are not associated with plan asset performance.

NOTE 4 - FAIR VALUE MEASUREMENT

Financial Accounting Standards Board Accounting Standards Codification topic Fair Value Measurement provides a framework for measuring fair value under generally accepted accounting principles and, among other things, requires enhanced disclosures about assets and liabilities recognized at fair value.

This topic defines fair value as the price that would be received to sell an asset or paid to transfer a liability (i.e., exit price) in an orderly transaction between market participants at the measurement date. This topic requires disclosures that categorize assets and liabilities measured at fair value into one of three different levels depending on the assumptions (i.e., inputs) used in the valuation. Level 1 provides the most reliable measure of fair value, while Level 3 generally requires significant management judgment. Financial assets and liabilities are classified in their entirety based on the lowest level of input significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. The fair value hierarchy is defined as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

**RETIREMENT PLAN OF SYBRON
CHEMICALS INC. FOR UNION EMPLOYEES**

**NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2015 AND 2014**

NOTE 4 - FAIR VALUE MEASUREMENT (Continued)

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

At December 31, 2015 and 2014, the Plan's investments consist of registered investment companies and interest-bearing cash. Shares of registered investment companies are valued at quoted market prices. Interest-bearing cash is valued at the net asset value of shares held by the Plan at year-end. There have been no changes in the methodologies used at December 31, 2015 and 2014.

The valuations of the Plan's investments at December 31 according to the fair value hierarchy are summarized as follows:

		2015				
		Level 1	Level 2	Level 3	Total	
Registered investment companies	\$	5,771,729	-	-	\$	5,771,729
Interest-bearing cash		38,618	-	-		38,618
Total investments at fair value	\$	<u>5,810,347</u>	<u>-</u>	<u>-</u>	\$	<u>5,810,347</u>
		2014				
		Level 1	Level 2	Level 3	Total	
Registered investment companies	\$	5,929,084	-	-	\$	5,929,084
Interest-bearing cash		38,402	-	-		38,402
Total investments at fair value	\$	<u>5,967,486</u>	<u>-</u>	<u>-</u>	\$	<u>5,967,486</u>

There were no transfers between levels during the years ended December 31, 2015 and 2014.

NOTE 5 - FUNDING POLICY

Contributions to provide for all participants' and beneficiaries' benefits under the Plan by the time they become eligible to receive such benefits are made solely by the Company. Annual contributions are actuarially computed using the standard unit credit cost method. In 2014 and 2015, the Company's contributions met the minimum funding requirements of ERISA.

NOTE 6 - PLAN TERMINATION

Although it has not expressed any intention to do so, the Company has the right under the Plan in certain circumstances to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

In the event the Plan is terminated, the Plan's net assets will be allocated in the order of priority set forth by ERISA and its related regulations.

RETIREMENT PLAN OF SYBRON
CHEMICALS INC. FOR UNION EMPLOYEES

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2015 AND 2014

NOTE 6 - PLAN TERMINATION (Continued)

Whether all participants and/or beneficiaries receive their full benefits if the Plan were to be terminated will depend on the sufficiency of the Plan's net assets, at that time, to pay those benefits and may also depend on the level of benefits guaranteed by the Pension Benefit Guaranty Corporation (PBGC).

If the Plan is terminated, certain pension benefits under the Plan are insured by the PBGC. Generally, the PBGC guarantees most vested normal retirement, early retirement and beneficiary benefits. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection provided by the PBGC is subject to certain limitations. Vested benefits are guaranteed at the level in effect on the date of the Plan's termination, except for those benefits that become nonforfeitable solely because of Plan termination.

NOTE 7 - TAX STATUS

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated April 18, 2002 that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and has no income subject to unrelated business income tax. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2015 and 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes that the Plan is no longer subject to income tax examinations for years prior to 2012.

NOTE 8 - INFORMATION CERTIFIED BY TRUSTEE

Vanguard Fiduciary Trust Company (Vanguard), the trustee of the Plan, has certified that certain information disclosed in the accompanying financial statements and supplemental schedule is complete and accurate. Such information includes the current value of the investments reported in the statements of net assets available for benefits as of December 31, 2015 and 2014, and net (depreciation) appreciation in fair value of investments and interest and dividends reported in the statements of changes in net assets available for benefits for the years ended December 31, 2015 and 2014.

NOTE 9 - RELATED-PARTY TRANSACTIONS

The Plan invests in certain funds managed by Vanguard. As discussed in Note 2, the Company may pay certain administrative expenses or perform administrative functions on behalf of the Plan for which no fees are charged. These transactions qualify as party-in-interest transactions that are allowable under ERISA.
