Other Matter – Supplemental Schedule

The supplemental schedule, Schedule H Item 4i – Schedule of Assets Held for Investment Purposes at End of Year, as of December 31, 2015, is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and is presented for the purposes of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedule.

Other Matter – 2014 Financial Statements

The financial statements of the plan as of December 31, 2014, were audited by predecessor auditors. As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), the Plan Administrator instructed the predecessor auditors not to perform, and they did not perform, any auditing procedures with respect to the information certified by the trustee. Their report, dated July 1, 2015, indicated that (a) because of the significance of the information that they did not audit, they were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion and accordingly, they did not express an opinion on the financial statements (b) the form and content of the information included in the financial statements other than that derived from the information certified by the trustee, were presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Report on Form and Content in Compliance with DOL Rules and Regulations 2015

The form and content of the information included in the 2015 financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

1. Summary description of Plan:

The following description of the Transit Team, Inc. (the Company) 401 (k) Profit Sharing Plan (the Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

Plan inception:

The inception date of the Plan was January 1, 1993.

General:

The Plan is subject to the provisions of ERISA and is a defined contribution plan covering all full-time employees who have completed three months of service and are age eighteen (18) or older. Entry dates to the Plan are the first day of the Plan year and the first day of the seventh month of the Plan year. Employees are eligible to continue in the Plan even if they have a break in service subject to certain requirements. A break in service is a period of at least twelve consecutive months during which no services are performed for the company. Eligibility requirements for the Profit Sharing contribution require an employee work at least one day during the Plan year. In addition, if an employee terminates before the end of the Plan year, they will not receive a profit sharing contribution for that year unless they worked more than 500 hours of service during the Plan year.

During 2015, the Plan was amended to accept after-tax (Roth) contributions. The effective date of this amendment was July 1, 2015.

Contributions:

Each year, participants may contribute up to 100% of eligible compensation, as defined in the Plan, limited to the provisions of Internal Revenue Service. Participants who have attained age 50 before the end of the year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. The Company may provide discretionary matching and profit sharing contributions for eligible participants. For both 2015 and 2014, the discretionary matching contribution was equal to 25% of the first 6% of the base compensation contributed by each participant.

Participant accounts:

Each participant's account is credited with the participant's contributions and allocations of the Company's matching and profit sharing contribution, Plan earnings (losses), and charged an allocation of investment fund and administration expenses. Allocations are based on participant earnings, account balances or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

TRANSIT TEAM, INC. 401(k) PROFIT SHARING PLANNOTES TO FINANCIAL STATEMENTS
YEARS ENDED DECEMBER 31, 2015 AND 20141. Summary description of Plan (continued):**Vesting:**

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's profit sharing and discretionary contributions of their accounts plus actual earnings thereon is based on years of service as noted in the table below. Participants are fully vested if they have reached normal retirement age of 65, die, or become disabled.

<u>Years of service</u>	<u>Vested percentage</u>
Less than 1 year	0%
1	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Investment options:

A participant may direct employee contributions in one percent increments in any one or more of the Plan Sponsor's pre-determined investment options. Participants may change their investment options daily.

Notes receivable from participants:

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50 percent of their account balances. Loans are made on a pro rata basis from all investment funds in which an account is invested. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined by the Plan Administrator. Principal and interest is paid ratably through payroll deductions.

Payment of benefits:

On termination of service due to death, disability or retirement, a participant may receive a lump-sum amount equal to the value of the participant's vested interest in his or her account or, as applicable, in Plan specified annual installments. For termination of services due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution. There were no amounts allocated to accounts of persons who have elected to withdraw from the Plan but have not been paid as of December 31, 2015.

Forfeited accounts:

Forfeited nonvested accounts are used to pay employer contributions and/or administrative expenses. Forfeited nonvested accounts as of December 31, 2015 and 2014 totaled \$24,375 and \$18,051, respectively.

2. Summary of significant accounting policies:**Basis of accounting:**

The financial statements of the Plan are prepared using the accrual method of accounting. Investment contracts held by a defined contribution plan are to be reported at fair value. However, contract value is the relevant measurement attribute for that position of net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate transactions under the terms of the plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

The Plan Administrator has determined at December 31, 2015 and 2014 that the difference between fair value and contract value attributable to fully benefit-responsive investment contracts is immaterial to the financial statements. Accordingly, the Plan Administrator has not made this adjustment, taking the position that contract value attributable to fully benefit-responsive contracts approximates fair value as of this reporting date.

Investments valuation and income recognition:

Investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis, and dividend income is recorded on the ex-dividend date. Net appreciation or depreciation in the market value of investments consists of the realized gains or losses and the unrealized appreciation or depreciation on those investments.

Notes receivable from participants:

Notes receivable from participants are measured at their unpaid principal balances plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2015 and 2014. If a participant ceases to make note repayments and the Plan administrator deems the participant note to be in default, the participant note balance is reduced and a benefit payment is recorded.

Payment of benefits:

Benefits are recorded when paid.

Administrative expenses:

Certain expenses of maintaining the Plan are paid for directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants and benefit payments are charged directly to the participants account and are included in administrative expenses. Investment related expenses are included in net appreciation in fair value of investments.

2. Summary of significant accounting policies (continued):**Use of estimates in the preparation of financial statements:**

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

Risks and uncertainties:

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Subsequent events:

Subsequent events were evaluated through September 21, 2016, which is the date the financial statements were available to be issued.

3. Certified Investments:

The Plan Sponsor has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Investments held at December 31, 2015 and 2014 and investment income for the year ended December 31, 2015 and 2014, that is disclosed in the accompanying financial statements and supplemental schedule, was obtained or derived from information supplied to the Plan Sponsor and certified as complete and accurate by the trustee of the Plan.

4. Fair value measurement:

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

4. Fair value measurement (continued):

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Guaranteed investment contract: This contract is with an insurance company and is not actively traded and significant observable inputs are not available. The fair value of the guaranteed investment contract is measured by projecting contract balances at the valuation date, forward to maturity dates using the contract guaranteed interest rate, net of management fees and then discounting this value back using the current new money declared interest rates for each appropriate maturity term. In cases where the remaining maturity term does not fall on a declared rate term, the rate is linearly interpolated from the nearest two maturity term rates. The discount rates ranged from 0% to 2.19% over terms of 0.25 to 9.00 years. This contract is classified as a Level 3 investment.

Pooled separate accounts: The Plan has investments in participation units held in pooled separate accounts through sub-accounts of an insurance company at December 31, 2015 and 2014. The Plan concluded that the net asset value (NAV) as adjusted and reported by the insurance company approximates fair value of the investments. The investments are redeemable at the adjusted NAV under agreements with the insurance company. Pooled separate accounts are valued on market prices from a variety of industry-standard data providers or pricing that considers various assumptions, including time value, yield curve, volatility factors, credit spreads, default rates, loss severity, current market and contractual prices for the underlying instruments, and broker and dealer quotes. All are observable in the market or can be derived principally from or corroborated by observable market data for which the Plan is able to obtain independent external valuation information. Pooled separate accounts are classified as a Level 2 investment in the fair value hierarchy.

4. Fair value measurement (continued):

The summary of changes in the fair value of the Plan's Level 3 assets for the year ended December 31, 2015 and 2014 is as follows:

	<u>2015</u>	<u>2014</u>
Beginning balance	\$ 155,310	\$ 177,662
Contributions	31,926	37,161
Net appreciation in fair value	1,356

5. Investments:

The following presents investments that represent 5% or more of the Plan's net assets at December 31:

	<u>2015</u>	<u>2014</u>
Mutual Directions 23	\$ 249,141	\$ 232,224
Vanguard Target Retirement 2020 Fund	333,448	296,661

Vanguard Target Retirement 2030 Fund	438,887	401,266
Vanguard Target Retirement Income Fund	555,752	515,572

The Plan's investments (including gains and losses on investments bought and sold, as well as on investments held during the year) appreciated (depreciated) in value as follows:

	<u>2015</u>	<u>2014</u>
Guaranteed investment contract	\$ 1,356	\$ 1,369
Pooled separate accounts	<u>(70,664)</u>	<u>205,274</u>
Net (depreciation) appreciation in fair value of investments	<u>\$ (69,308)</u>	<u>\$ 206,643</u>

6. Investment contract with insurance company:

The Plan entered into a benefit-responsive guaranteed investment contract with Mutual of Omaha. Mutual of Omaha maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the guaranteed investment contract is fully benefit responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. The guaranteed investment contract is presented on the face of the statement of net assets available for benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits. Contract value, as reported to the Plan by Mutual of Omaha, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2015 and 2014 was \$179,239 and \$155,310, respectively. The crediting interest rate is based on a formula agreed upon with the issuer and resets monthly. The average rate of return and the actual rate credited to participants for the years ended December 31, 2015 and 2014 was .81% and .85%, respectively.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

7. Plan termination:

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

8. Income tax status:

The Plan obtained its latest determination letter on March 31, 2008, in which the Internal Revenue Service stated that the Plan, as then designed was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. The Plan was restated subsequent to fiscal year end 2015 for the pension protection act.

8. Income tax status (continued):

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely than not would be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2015 and 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2012.

9. Transactions with parties in interest:

Certain plan investments are units of pooled separate accounts and guaranteed investment contract managed by United of Omaha Life Insurance Company. United of Omaha Life Insurance Company is the trustee as defined by the Plan and therefore, these transactions qualify as party-in-interest.
