(1) Description of the Plan

The following description of the Virginia Mason Medical Center Retirement Plan (the Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

(a) General

The Plan is a defined-contribution plan covering all eligible employees of the Virginia Mason Medical Center (the Employer or Plan Sponsor). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

(b) Eligibility

Employees who are at least 21 years of age, except those in an excludable group as defined by the Plan, are eligible on the first day of the month after completing one year of service, as defined in the Plan. Participants must be employed by the Employer on the last day of the year and complete 1,000 hours of service in the year to receive the employer contributions for that year, except in the case of termination of employment during the year due to disability, death, or retirement on or after age 65.

(c) Plan Administration

The Plan is administered by the Compensation and Benefits Committee of the Plan Sponsor. Fidelity Management Trust Company (Fidelity) serves as the trustee; Principal Life Insurance Company (Principal) and Northwestern Mutual Life Insurance Company (Northwestern) serve as custodians.

(d) Contributions

The Employer contributes an amount for each participant based on the Plan's contribution formula, as follows:

- 3.5% of the participant's eligible compensation up to the Social Security taxable wage base through the fifth year of service. Beginning with the sixth year of service, the contribution percentage for this portion is increased to 6.3%.
- 9.2% of the participant's eligible compensation in excess of the Social Security taxable wage base, up to $180,000, through the fifth year of service. Beginning with the sixth year of service, the contribution percentage for this portion is increased to 12%.

The Employer funds the contributions annually subsequent to year-end.

Eligible compensation includes all payments before payroll deductions made as remuneration for services during the plan year, as defined in the Plan. Excluded are contributions by the Employer for social security, group insurance, medical and pension benefits, disability, severance pay, and pay in lieu of benefits. Total annual additions to the Plan, as defined in the Plan, for a participant are subject to certain limitations under the Internal Revenue Code (IRC).

Effective January 1, 2004, voluntary participant contributions are not allowed under the Plan.

(e) Participant Accounts

Each participant's account is credited with the allocations of (a) the Employer's contribution and (b) plan earnings and losses and is charged with an allocation of administrative expenses. Allocations are based on participant account balances, as defined in the plan agreement, and investment elections. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

(f) Vesting

A participant has a forfeitable interest in employer contributions made prior to the 2007 plan year and earnings thereon until five completed years of service, at which time the participant vests 100%. For employer contributions made for the 2007 and subsequent plan years and earnings thereon, a participant vests 20% after two years of service, with additional 20% for each additional year of service and is 100% vested after five completed years of service. A participant's interest in voluntary contributions is fully vested regardless of completed years of service.

(g) Investment Options

Upon enrollment in the Plan, a participant may direct contributions to numerous Fidelity and other registered investment company funds offered by the Plan, a guaranteed investment contract issued by Principal, and investments through the Fidelity BrokerageLink accounts. Through Fidelity BrokerageLink, participants may hold a wide variety of securities such as stocks, corporate bonds, zero-coupon bonds, U.S. treasury securities, mortgage securities, U.S. Government agency bonds, certificates of deposit, taxable unit investment trusts, foreign securities, and registered investment company funds. Participants may change their investment options and transfer amounts between funds at any time.

In prior years, participants could also direct contributions to life insurance policies with Northwestern.

(h) Notes Receivable from Participants

As allowed under the Plan's provisions, the Plan has made loans to eligible participants. Combined loans to participants may not exceed the lesser of $50,000 or one-half of the participant's nonforfeitable accrued benefit under the Plan. Loans bear interest at a commercially reasonable rate, have a defined maturity date not exceeding five years except for loans used to acquire a primary residence (maturity date would be determined by the Finance Committee) and are secured by the participant's accrued benefit. The interest rate on outstanding loans ranged from 4.25% to 9.25% at December 31, 2015. The outstanding loans mature through December 2030.

(i) Payment of Benefits

A participant or beneficiary is eligible to receive benefits as follows:

- On reaching age 65
- On reaching age 55 and having elected early retirement

- Upon being determined to be disabled
- Upon death of the participant.

A participant is also allowed to make withdrawals of voluntary employee contributions prior to retirement.

In the event a participant's employment is terminated, the participant will receive benefits in an amount equal to the nonforfeitable interest in employer and voluntary employee contributions, plus net accumulated earnings.

The Plan provides for either lump-sum distributions equal to the participant's vested account balance or annuity purchase options for the distribution of benefits. No annuity purchase options were requested in 2015 and 2014. For termination of service with vested benefits of $1,000 or less, a participant or beneficiary will automatically receive the value of the vested account as a lump-sum distribution.

(j) Forfeitures

At December 31, 2015 and 2014, unallocated forfeitures totaled approximately $270,000 and $265,000, respectively. Forfeitures totaling $220,000 were used to reduce employer contributions funded in 2016 relating to the 2015 plan year and forfeitures totaling $250,000 were used to reduce employer contributions funded in 2015 relating to the 2014 plan year.

(k) Administrative Expenses

Administrative expenses include participant loan fees, short term trading fees generated by participant requested transactions, and fees for overnight mailing requested by participants. These fees are paid by the participants who incur them. The Plan Sponsor pays expenses that are not paid by the Plan.

(2) Summary of Significant Accounting Policies

(a) Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

(b) Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions to and deductions from plan assets during the reporting period. Actual results could differ from those estimates.

(c) Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Shares of registered investment company funds are valued at quoted market prices, which represent the net asset values of shares held by the Plan at year-end. U.S. government securities, common stocks, preferred stock, and corporate bonds and notes

are valued at quoted market prices. Life insurance policies are valued based on the cash surrender value as reported by the insurance companies. Cash equivalents consist of money market funds and are valued at fair value based on reported closing price.

The Fidelity Principal Fixed Interest Plus Annuity Fund (the Principal Fund) consists of a guaranteed investment contract (GIC) with a minimum interest rate. The GIC is fully benefit-responsive. See note 8 for valuation.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is a relevant measurement attributable for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The statements of net assets available for plan benefits present the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statements of changes in net assets available for plan benefits are prepared on a contract-value basis.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer, but may not be less than 1% or greater than 3%. Such interest rates are reviewed on an annual basis for resetting. There are no unfunded commitments from the Plan.

Certain events may limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan Sponsor or other Plan Sponsor events (e.g., divestures or spin-offs of a subsidiary) that cause a significant withdrawal from the plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

For the years ended December 31, 2015 and 2014, the minimum interest rate of the Principal Fund was 1.00%, and the average yield was 1.74% and 1.85%, respectively. Contract value is equal to principal balance plus accrued interest. The fair value of the GIC is calculated by discounting the related cash flows based on current yields of similar instruments with comparable durations.

The net change in the unrealized appreciation from one period to the next, and realized gains and losses on the sale of securities, are recognized as net appreciation (depreciation) in fair value of investments. Investment transactions are recorded on the trade date. Interest is recorded on an accrual basis. Dividends are recorded on the ex-dividend date.

(d) Notes Receivable from Participants

Participant loans are classified as notes receivable from participants, which are segregated from plan investments and measured at their unpaid principal balance plus any accrued but unpaid interest.

(e) Risks and Uncertainties

The plan assets are invested in a variety of investments. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

(f) Payment of Benefits

Benefits are recorded when paid.

(g) Recently Issued Accounting Standards

In July 2015, the FASB issued ASU No. 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient.* Part I eliminates the requirements to measure the fair value of fully benefit-responsive investment contracts and provide certain disclosures. Contract value is the only required measure for fully benefit-responsive investment contracts. Part II eliminates the requirements to disclose individual investments that represent 5 percent or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. Part II also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics and risks. Further, the disclosure of information about fair value measurements shall be provided by general type of plan asset. Part III is not applicable to the Plan. The ASU is effective for fiscal years beginning after December 15, 2015, with early adoption permitted. Parts I and II are to be applied retrospectively.

(3) Investments

The investments in the Fidelity BrokerageLink accounts as of December 31, 2015 and 2014 are categorized by type of investments as follows:

	2015	2014
Money market fund	$ 3,429,777	3,750,781

Registered investment company funds	21,053,771	22,759,607
	$ 43,133,553	45,134,191

There were no investments in the Fidelity BrokerageLink accounts that exceeded 5% of net assets available for benefits as of December 31, 2015 and 2014.

Net appreciation (depreciation) in fair value of investments by type of investments of the Plan for the years ended December 31, 2015 and 2014 was as follows:

	2015	2014
Registered investment company funds	$ (9,340,441)	1,844,107
U.S. government securities	(451)	(662)

Other assets	(2,260)	104
Net appreciation (depreciation)	$ (9,244,423)	3,721,566

(4) Information Certified by the Trustee/Custodian

The following information included in the financial statements and supplemental schedule, excluding amounts related to the cash surrender value of life insurance, was provided and certified by Fidelity and Principal, the trustee and custodian of the Plan, respectively, as complete and accurate:

- Participant-directed investments at fair value
- Notes receivable from participants
- Interest and dividend income
- Interest on notes receivable from participants

(Continued)

- Net appreciation (depreciation) in fair value of investments
- Investment information included in notes 3 and 8, excluding level designations
- Schedule of assets (held at end of year)

(5) Plan Termination

Although it has not expressed any intent to do so, the Employer has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. If the Plan is terminated, or contributions are completely discontinued, participants become fully vested with respect to benefits accrued to the date of such termination or discontinuance.

(6) Party-in-Interest and Related-Party Transactions

Certain plan investments are managed by Fidelity, Principal, and Northwestern. Fidelity, Principal, and Northwestern are the trustee/custodians as defined by the Plan, and therefore, these transactions qualify as party-in-interest transactions.

(7) Tax Status

The Internal Revenue Service has determined and informed the Employer by a letter dated February 10, 2012, that the Plan is designed in accordance with applicable sections of the IRC. The Plan has been amended since receiving the determination letter. However, plan management believes that the Plan is designed and currently being operated in compliance with the applicable requirements of the IRC.

U.S. generally accepted accounting principles require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2015, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes the Plan is no longer subject to income tax examinations for years prior to 2012.

(8) Fair Value of Financial Instruments

The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to measurements involving significant unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the Plan has the ability to access at the measurement date. Registered investment company funds, money market funds, U.S. government securities, common stocks, preferred stock, and corporate bonds and notes are included in this category.

- Level 2 inputs are inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly. The guaranteed investment contract is included in this category.
- Level 3 inputs are unobservable inputs for the asset or liability. Cash surrender value of life insurance policies are included in this category.

The level in the fair value hierarchy within which a fair measurement in its entirety falls is based on the lowest level input that is significant to the fair value measurement in its entirety.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table presents investments that are measured at fair value on a recurring basis (including items that are required to be measured at fair value) at December 31, 2015:
