Employee Retirement 401(k) Savings Plan

Notes to Financial Statements

December 31, 2015

1. Description of the Plan

Western & Southern Financial Group Employee Retirement 401(k) Savings Plan (the Plan) is a defined contribution plan covering all eligible full-time and part-time employees of The Western and Southern Life Insurance Company (the Company) and certain of its wholly owned subsidiaries. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). A more complete description of the Plan's provisions is contained in the plan document and the Summary Plan Description. Copies of these documents are available from the Company.

Vesting

Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the remainder of their accounts is based on years of service. A participant is 100% vested after five years of credited service.

Loans

Employees may, subject to certain limitations, borrow against their vested account balance. Generally, the loan is to be repaid in equal installments over a period not to exceed five years. Interest is charged at a fixed rate of prime plus 2.00% at issuance and ranged from 5.25% to 9.75% on outstanding loans at December 31, 2015, and 5.25% to 10.25% at December 31, 2014. The loans are valued at the outstanding principal balance, plus any accrued interest thereon. As of December 31, 2015 and 2014, there were outstanding loans of $6,091,625 and $5,776,637, respectively.

Contributions

The Company makes contributions for each plan participant. The Company's matching contributions are equal to one-half of the participant's basic contributions up to a maximum of 3% of the participant's total compensation. The Company has the discretion to increase or decrease this contribution percentage.

1. Description of the Plan (continued)

All amounts in participant accounts are participant-directed. Participants may generally contribute up to the Internal Revenue Service (IRS) maximum limit of their pretax annual compensation, as defined by the Plan's provisions. Forfeited balances on terminated participants' non-vested accounts are used to reduce future employer matching contributions. Forfeitures of $303,425 were used to reduce the employer contribution for 2015. The Company may also make additional contributions at its discretion. In 2015, the Company made an additional discretionary contribution to the Plan in the amount of $1,436,400 due to financial results in 2014. Each eligible full-time associate received $600 of the contribution while each eligible part-time associate received $300.

2. Summary of Significant Accounting Policies

The following describes the significant accounting policies followed in the preparation of these financial statements, which have been prepared on the accrual basis of accounting.

New Accounting Pronouncements

In May 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update 2015-07, *Disclosures for Investments in Certain Entities that Calculate Net Asset Value Per Share (or its Equivalent),* (ASU 2015-07). ASU 2015-07 removes the requirement to categorize within the fair value hierarchy investments for which fair values are estimated using the net asset value practical expedient provided by Accounting Standards Codification 820, *Fair Value Measurement*. Disclosures about investments in certain entities that calculate net asset value per share are limited under ASU 2015-07 to those investments for which the entity has elected to estimate the fair value using the net asset value practical expedient. ASU 2015-07 is effective for entities (other than public business entities) for fiscal years beginning after December 15, 2016, with retrospective application to all periods presented. Early application is permitted. Management is currently evaluating this updated guidance.

In July 2015, the FASB issued ASU 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient*. Part II of the ASU eliminates the requirements to disclose individual investments that represent 5 percent or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. It also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics and risks. Further, the disclosure of information about fair value measurements

shall be provided by general type of plan asset. The ASU is effective for fiscal years beginning after December 15, 2015. Management has elected to adopt Part II of the ASU early and has applied it retrospectively. Parts I and III are not applicable to the Plan.

Investment Valuation and Income Recognition

The Plan offers seventeen investment options to participants: sixteen mutual funds and one collective trust. Eight of the mutual funds are advised by a wholly-owned subsidiary of the Company. One of the mutual funds is managed by the Plan's custodian. The remaining seven mutual fund options - including one mutual fund option that is a group of ten target date funds - are offered and managed by third parties. All investments are stated at fair value. Fair value is defined as the price that would be received to sell an asset or transfer a liability in an orderly transaction between market participants at the measurement date.

The fair value framework establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The fair value hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

- Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

- Level 2 – Inputs to the valuation methodology include:

  – Quoted prices for similar assets or liabilities in active markets

  – Quoted prices for identical or similar assets or liabilities in inactive markets

  – Inputs other than quoted prices that are observable for the asset or liability

  – Inputs that are derived principally from or corroborated by observable market data by correlation or other means

  If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

2. Summary of Significant Accounting Policies (continued)

- Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation techniques and inputs used for each major class of assets measured at fair value. There have been no changes in the methodologies used in December 31, 2015 or 2014.

Money market funds: The fair value of the money market funds has been determined utilizing publicly quoted prices obtained from third-party pricing services.

Mutual funds: The fair values of mutual funds are valued at the net asset value (NAV) of shares held by the Plan at year-end.

Collective trust: The investment objective of the Putnam Stable Value Fund is to provide a competitive yield with minimal market-related risk. The fund is primarily invested in guaranteed investment contracts or funding agreements, security-backed investment contracts, separate accounts issued or wrapped by insurance companies, banks or other financial institutions, or externally managed stable value commingled investment funds. The fund may also invest in high quality money market instruments or other similar short-term investments. Withdrawals from the fund are generally permitted daily at contract value. The fair value of this fund has been estimated at NAV, which is based on the fair value of the underlying investment contracts in the fund as reported by the issuer of the fund. NAV is used as a practical expedient in determining the fair value of the Plan's interest in the collective trust.

2. Summary of Significant Accounting Policies (continued)

Assets measured at fair value on a recurring basis are outlined below:

[(a)] The fair value of this fund has been estimated at NAV.

The Plan did not have any assets measured at fair value on a nonrecurring basis as of December 31, 2015 or 2014.

Investment information included in the accompanying financial statements and supplemental schedule, including investments held and notes receivables from participants, at December 31, 2015 and 2014, and net depreciation in fair value of investments and dividend and interest income for the year ended December 31, 2015, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by Fifth Third Bank, the custodian. Fifth Third Bank is not certifying the fair value hierarchy narrative or leveling information.

2. Summary of Significant Accounting Policies (continued)

Notes Receivable From Participants

Notes receivable from participants represent participant loans that are recorded at their unpaid principal balance plus any accrued but unpaid interest. Interest income on notes receivable from participants is recorded when it is earned. No allowance for credit losses has been recorded as of December 31, 2015 or 2014. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be a distribution, the participant loan balance is reduced and a benefit payment is recorded.

Administrative Expenses

All administrative expenses of the Plan are paid by the Company, and are excluded from the financial statements of the Plan.

Payment of Benefits

Benefits are recorded when paid.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates that affect the amounts reported in the financial statements and accompanying notes and supplemental schedule. Actual results could differ from those estimates.

Subsequent Events

Management has evaluated subsequent events through September 27, 2016, the date the financial statements were available to be issued.

3. Income Tax Status

The Plan has received a determination letter from the IRS dated September 20, 2012, stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code (the Code) and, therefore, the related trust is exempt from taxation. Subsequent to this determination by the IRS, the Plan was amended. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The plan sponsor believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan, as amended, is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States require plan management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2015, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2012.

4. Reconciliation of Financial Statements to Form 5500

The following reconciles net assets available for benefits per the financial statements at December 31, 2014, to the Form 5500*:

	December 31 2014
Net assets available for benefits per financial statements	$ 217,965,779
Add: Adjustment from fair value to contract value for fully benefit-responsive contracts	154,007
Net assets available for benefits per the Form 5500	$ 218,119,786

* The reconciliation is not applicable for December 31, 2015

4. Reconciliation of Financial Statements to Form 5500 (continued)

The following is a reconciliation of total additions per the financial statements to total income per the Form 5500 for the year ended December 31, 2015:

Total additions per financial statements net of depreciation in fair value of investments	$ 23,328,622
Less: Adjustment from fair value to contract value for fully benefit-responsive contracts at December 31, 2015	154,007
Total income per the Form 5500	$ 23,174,615

5. Plan Termination

The Company has not expressed any intent to terminate the Plan; however, it may do so at anytime. In the event of such termination, all participant accounts shall be vested and subject to distribution under provisions of the Plan.

6. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
