INDEPENDENT AUDITORS' REPORT

To the Administrative Committee of
Vanguard Logistics Services (USA) 401(k) Profit Sharing Plan
Long Beach, California

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Vanguard Logistics Services (USA) 401(k) Profit Sharing Plan (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2015 and 2014, and the related statement of changes in net assets available for benefits for the year ended December 31, 2015, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4, which was certified by T. Rowe Price Trust Company ("TRP"), the trustee of the Plan, except for comparing the information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of December 31, 2015 and 2014 and for the year ended December 31, 2015, that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Emphasis of Matter

As discussed in Note 1 to the financial statements, in 2015, the Plan adopted new accounting guidance, Financial Accounting Standards Board Accounting Standards Update 2015-12, *"Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient"*. Our opinion is not modified with respect to this matter.

Other Matter

The supplemental schedule, Schedule H, Line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2015, is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedule referred to above.

Report on Form and Content in Compliance With DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

VANGUARD LOGISTICS SERVICES (USA) 401(k) PROFIT SHARING PLAN
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2015

Note 1: Description of the Plan

The following description of the Vanguard Logistics Services (USA) 401(k) Profit Sharing Plan (the "Plan"), formerly known as NACA Logistics (USA) 401(k) Profit Sharing Plan, provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan that was adopted by a resolution of the Board of Directors of Vanguard Logistics Services (USA) (the "Company") and is subject to the requirements of the Employee Retirement Income Security Act of 1974 ("ERISA") and the Internal Revenue Code of 1986, as amended. The purpose of the Plan is to provide retirement benefits for employees over the age of 21 who have completed two months of service with the Company.

Contributions

Participants may elect to contribute between 1 and 60 percent of their pretax annual compensation not to exceed the maximum deferral limitation, as defined in the Internal Revenue Code ("IRC"). Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other tax qualified plans. Participants direct the investment of their contributions into various investment options offered by the Plan. Effective January 1, 2014, the Company elected to make matching contributions with an amount equal to 25 percent of the participant's contributions up to a maximum of 6 percent of the employee's compensation. In addition, the Company can make a discretionary profit sharing contribution on an annual basis. For the year ended December 31, 2015, the Company made matching contributions totaling $290,889 and elected not to make a discretionary profit sharing contribution.

Participant Accounts

Each participant's account is credited with the participant's and employer's matching contributions and allocations of (a) the Company's profit sharing contribution, (b) Plan earnings, and (c) is charged with an allocation of administrative expenses. Allocations are based on participant compensation or account balances, as defined in the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's matching and discretionary profit sharing contributions plus actual earnings thereon is based on years of continuous service. A participant is 100 percent vested after three years of credited service.

Note 1: Description of the Plan (Continued)

Notes Receivable from Participants

Participants may borrow against their Plan account balance within Plan guidelines. Loan terms are at the discretion of the borrower but generally cannot exceed five years. The loan amount can be a minimum of $1,000 but cannot exceed the lesser of (a) one-half of the participant's non-forfeitable interest under the Plan or (b) $50,000. Interest is charged on the outstanding balance at rates determined by the plan administrator based on the prevailing interest rates. Principal and interest is paid ratably through biweekly payroll deductions. The loans are secured by the vested account balance in the participant's account, and a participant can only have one loan outstanding at any time.

Benefit Payments

If a participant's employment ceases as a result of death, the entire account becomes fully vested and the participant's beneficiaries are entitled to receive the contents of the account. If a participant is terminated for any other reason, the participant is entitled to receive only the vested percentage of the account. Participants or their beneficiaries may elect to receive benefits in a single lump sum or in installments. If the value of the participant's account is less than $5,000 but greater than $1,000, the entire amount will be rolled into an IRA on behalf of the participant or the participant's beneficiaries. Additionally, under certain circumstances of financial hardship or upon attaining the age of 59 ½, participants are allowed to withdraw their funds from the Plan.

Forfeitures

Forfeitures of the employee's non-vested portion of the Company's contributions can be used to apply against administrative expenses and employer's contributions. At December 31, 2015 and 2014, the forfeited non-allocated accounts totaled $168 and $2,508, respectively. In 2015, employer matching contributions were reduced by $6,687 from forfeited non-vested accounts and forfeitures applied against administrative expenses totaled $629.

Administrative Expenses

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee received compensation from the Plan. The majority of administrative expenses incurred by the Plan are absorbed by the Company, except for fees related to administration of participant loans, which are deducted from the applicable participants' accounts.

Investment management fees and operating expenses charged to the Plan for investments in the various funds are deducted from income earned on a daily basis and are reflected as a component of earnings (losses) on investments.

Note 2: Summary of Significant Accounting Policies

Basis of Presentation

The financial statements of the Plan are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP"). References to the "ASC" hereafter refer to the Accounting Standards Codification established by the Financial Accounting Standards Board ("FASB") as the source of authoritative U.S. GAAP.

Investment Valuation and Income Recognition

The Plan's investments in mutual funds are stated at fair value at December 31, 2015 and 2014. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 11 for discussion of fair value measurements.

The Plan's investment in the stable value fund are stated at contract value at December 31, 2015 and 2014, as more fully described in Note 5.

Purchases and sales of investments are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Capital gains and/or losses are reported the day after the trade date.

Net realized and unrealized appreciation (depreciation) is recorded in the accompanying statement of changes in net assets available for benefits as net realized and unrealized losses on mutual funds.

Brokerage fees are added to the acquisition costs of assets purchased and subtracted from the proceeds of assets sold.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2015 and 2014. Delinquent participant loans are reclassified as distributions based upon terms of the Plan document.

Payment of Benefits

Benefits are recorded when paid.

Note 2: Summary of Significant Accounting Policies (Continued)

Use of Estimates

The process of preparing financial statements in accordance with U.S. GAAP requires the use of estimates and assumptions regarding certain types of assets, liabilities, revenues and gains, and expenses and losses. Such estimates primarily relate to unsettled transactions and events as of the date of the financial statements. Accordingly, upon settlement, actual results may differ from estimated amounts.

New Pronouncement

In July 2015, the FASB issued Accounting Standards Update ("ASU") 2015-12, *"Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient"*. Part I eliminates the requirements to measure the fair value of fully benefit-responsive investment contracts and provide certain disclosures. Contract value is the only required measure for fully benefit-responsive investment contracts. Part II eliminates the requirements to disclose individual investments that represent five percent of more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. Part II also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics, and risks. Further, the disclosure of information about fair value measurements shall be provided by general type of plan asset. Part III is not applicable to the Plan. The ASU is effective for fiscal years beginning after December 15, 2015, with early adoption permitted. Parts I and II are to be applied retrospectively. Management has elected to early adopt all provisions of this ASU and accordingly has also presented the changes retrospectively to 2014.

Note 3: Concentrations, Risks, and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 4: Information Prepared and Certified by TRP

Certain information disclosed in the accompanying financial statements and supplemental schedule, including investments and notes receivable from participants held at December 31, 2015 and 2014, and net appreciation (depreciation) on investments, interest, and dividends for the year ended December 31, 2015, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by the trustee.

Note 5: Investment Contract with Insurance Company

The Stable Value Fund is a group of benefit-responsive investment contracts issued by TRP. The investment objectives of the trust are to maximize current income consistent with the maintenance of principal and to provide for withdrawals for certain participant initiated transactions under a retirement plan without penalty or adjustment. The trust will attempt to achieve these objectives by investing principally in guaranteed investment contracts ("GICs") issued by insurance companies; investment contracts issued by banks ("BICs"); structured or synthetic investment contracts ("SICs") issued by banks, insurance companies, and other issuers, as well as the securities supporting such SICs (underlying assets); separate account contracts ("SACs"); and other similar instruments that are intended to maintain a constant net asset value while permitting participant initiated, benefit-responsive withdrawals for certain events (collectively, "investment contracts").

Income from investment contracts is recorded at the contract rate, which in the case of SICs and SACs is referred to as the crediting rate. SICs and SACs provide for a variable crediting rate, which typically resets at least quarterly, and the issuer of the wrap contract provides assurance that future adjustments to the crediting rate cannot result in a crediting rate less than zero. Crediting rates are determined in accordance with contract terms and are net of investment-related costs permitted by the contract, generally issuer fees and, for SICs, custody charges for underlying assets.

Under the terms of fully benefit-responsive SICs and SACs, earnings on the underlying assets, including interest income, dividends, and realized and unrealized gains and losses, as well as dividends and capital gain distributions received from investments in other trusts, if any, are factored into the next computation of the crediting rate. At times, the crediting rate may be more or less than prevailing rates or the actual income earned on the underlying assets.

In most synthetic structures, realized and unrealized gains and losses on the underlying investments typically are not reflected immediately in the net assets of the trust but rather are amortized either over the time to maturity or the duration of the underlying investments, through adjustments to the future interest crediting rate. The degree of any increase or decrease in the crediting rate will depend in part on the amount of the contract/market value difference as well as the duration and yield of the trust's portfolio. The crediting rate may also be affected by increases and decreases in the amount of assets underlying a wrap contract resulting from participant-initiated unitholder contributions to and withdrawals from the trust. To the extent a SIC's crediting rate exceeds current market interest rates, the trust has a deferred benefit that withdrawing unit holders will not receive. Similarly, to the extent a SIC's crediting rate is below prevailing interest rates, the trust has deferred recognition of losses that incoming unitholders will bear through reduced future credit rates.

The existence of certain conditions can limit the trust's ability to transact at contract value with the issuers of its investment contracts. Specifically, any event outside the normal operation of the trust that causes a withdrawal from an investment contract may result in a negative market value adjustment with respect to such withdrawal. Examples of such events include, but are not limited to, partial or complete legal termination of the trust or a unitholder, tax disqualification of the trust or a unitholder, and certain trust amendments if the issuers' consent is not obtained. No such events existed at December 31, 2015.

Note 5: Investment Contract with Insurance Company (Continued)

Issuers of investment contracts have certain rights to terminate a contract and settle at an amount that differs from contract value. For example, certain breaches by the trust of its obligations, representations, or warranties under the terms of an investment contract can result in its termination at market value, which may differ from contract value. Investment contracts also may provide for termination with no payment obligation from the issuer if the performance of the contract constitutes a prohibited transaction under ERISA or other applicable law, if the trust suffers an insolvency, or if there is a change in law or accounting standards that makes it impermissible to account for an investment contract on a contract-value basis.

Note 6: Excess Contributions Payable

ERISA requires the Plan to satisfy certain nondiscrimination provisions. For the years ended December 31, 2015 and 2014, the Plan was required to return some contributions in order to satisfy these provisions. At December 31, 2015 and 2014, the excess contributions payable are $19,202 and $691, respectively.

Note 7: Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination, all participants would become fully vested in their employer contributions.

Note 8: Tax Status

The Plan is based on the Prototype Non-Standardized Profit Sharing Plan with TRP, the trustee of the Plan, which received a determination letter from the Internal Revenue Service ("IRS") dated March 31, 2008, stating that the Prototype Plan was designed in accordance with the provisions of the Internal Revenue Code ("IRC"). The Plan has not filed for its own determination letter from the IRS. However, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. The related trust, therefore, is not subject to tax under present income tax law.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS.

The plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2015 and 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2012.

Note 9: Withdrawn Participants

At December 31, 2015 and 2014, there were no amounts allocated to accounts of participants who have elected to withdraw from the Plan but have not been paid.

Note 10: Parties in Interest

The investment in the stable value fund is managed by TRP, which is the trustee, as defined by the Plan, and therefore, this investment qualifies as a party in interest transaction. Notes receivable from participants represent loans to employees and, therefore, also qualify as party in interest transactions.

Note 11: Fair Value Measurements

FASB ASC 820, "*Fair Value Measurements and Disclosures*", provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Note 11: Fair Value Measurements (Continued)

Following is a description of the valuation methodology used for assets measured at fair value:

Mutual Funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The preceding method may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets, measured on a recurring basis, at fair value as of December 31, 2015:

	Level 1	Level 2	Level 3	Total
Mutual Funds	$ 28,831,791	-	-	$28,831,791
Total Assets at Fair Value	$ 28,831,791	$ -	$ -	$ 28,831,791

The following table sets forth by level, within the fair value hierarchy, the Plan's assets, measured on a recurring basis, at fair value as of December 31, 2014:

	Level 1	Level 2	Level 3	Total
Mutual Funds:	$28,347,900	-	-	$28,347,900
Total Assets at Fair Value	$ 28,347,900	$ -	$ -	$ 28,347,900

Note 12: Differences on the Form 5500

The financial statements have been prepared based on valuing the investment in the fully benefit-responsive Stable Value Fund at contract value. However, for the year ended December 31, 2014, the Form 5500 to be filed with the IRS was based on valuing investments at fair value.

Note 12: Differences on the Form 5500 (Continued)

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500:

	2014
Net Assets Available for Benefits Per the Financial Statements	$ 32,278,254
Add: Adjustment from Contract Value to Fair Value for Fully Benefit-Responsive Stable Value Fund	44,028
Net Assets Available for Benefits Per the Form 5500	$ 32,322,282
