REPORT OF INDEPENDENT AUDITORS

To the Plan Administrator
Esterline Technologies Retirement Plan

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Esterline Technologies Retirement Plan (the Plan), which comprise the statements of net assets available for benefits as of December 31, 2015 and 2014, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL's) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 7, which was certified by U.S. Bank and Trust Company (U.S. Bank), the trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of December 31, 2015 and 2014, and for the years then ended, that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The Schedule H, Line 4(i) – Schedule of Assets (Held at End of Year) and Schedule H, Line 4(j) – Schedule of Reportable Transactions as of and for the year ended December 31, 2015 are required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA and are presented for the purpose of additional analysis and are not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on this supplementary information.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplementary information, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

ESTERLINE TECHNOLOGIES RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS

Note 1 – Description of Plan

The following description of the Esterline Technologies Retirement Plan (the Plan) provides only general information. Employees should refer to the Plan document for a more complete description of the Plan's provisions.

General – The Plan is a defined benefit pension plan covering certain eligible employees (Esterline Participants) of Esterline Technologies Corporation (the Company). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. The complete provisions covering Plan benefits are included in the Plan document, which is available to all participants.

In August 2004, the Company acquired Leach International. Effective March 31, 2008, the Leach International Corporation Retirement Plan (Leach Plan) merged into the Plan. Effective December 31, 2003, all benefits under the Leach Plan were frozen. As a result of the merger, there were no changes in participant benefits under the Plan. The assets held by the Leach Plan were transferred to the Plan effective as of the merger date.

Plan Administration – The Plan is administered by certain employees of the Company. U.S. Bank and Trust Company serves as the trustee of the Plan.

Eligibility

Esterline Participants – Employees of the Company and certain subsidiaries who are at least 25 years of age with six months of service (as defined by the plan provisions) or employees who are ages 21-24 with one year of service are eligible to participate in the Plan. Employees are admitted to the Plan on the first of the month coincident with or immediately following attainment of eligibility requirements.

Leach Participants – Prior to January 1, 2004, eligible Leach employees (Leach Participants) became participants in the Leach Plan after attainment of age 21. Upon employment with the Company, Leach participants became eligible for the Plan.

Retirement Plan Benefits

Esterline Participants – The Plan provides for Retirement Benefits under a Final Average Pay Formula and effective September 1, 2002, the Plan also includes a cash balance formula. Effective January 1, 2003, active participants were given a choice to 1) continue to earn benefits from January 1, 2003 under the Final Average Pay Formula or 2) earn future benefits under the new cash balance formula and receive a benefit under the Final Average Pay formula equivalent to the frozen benefit as of December 31, 2002. Effective January 1, 2003, all new Plan entrants earn benefits under the cash balance formula and are enrolled automatically once meeting eligibility requirements.

ESTERLINE TECHNOLOGIES RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS

Note 1 – Description of Plan (Continued)

The cash balance formula accrues by applying:

- Annual pay credit – varies from 2% – 6% of eligible pay, based on age. Participants with earnings in excess of the social security wage base receive an additional 2% pay credit on the excess amount.
- Annual interest credit – an Internal Revenue Service (IRS) approved interest credit is applied annually based on the beginning balance of the participant's account. The interest credit rate was 4.32% and 4.24% for 2015 and 2014, respectively.

Benefits earned under the cash balance formula as of December 31, 2015 and 2014 were approximately \$39.5 million and \$35.3 million, respectively.

The Final Average Pay Formula of the Plan uses several formulas (including location specific and grandfathered plan provisions) to determine benefits but generally provides normal retirement benefits at age 65 based on compensation levels and credited service prior to retirement.

Effective January 1, 2008, participants accruing benefits under the cash balance formula become fully vested after the completion of three years of service. Prior to January 1, 2008, benefits were 100% vested following completion of five years of service. There are provisions for early or deferred retirement and death or disability benefits.

Participants may elect, subject to participant account balance levels, to receive benefits in the form of a single-life annuity, 50%, 75%, or 100% joint and survivor annuity, and 5-, 10-, or 15-year certain annuity. The normal form of benefit is a single-life annuity for single participants or a 50% joint and survivor annuity for married participants (other annuity options exist). Employees with a present value benefit that is less than \$1,000 receive lump-sum payments. Participants with account balances less than \$5,000 and more than \$1,000 automatically receive a rollover into a Vanguard IRA unless they affirmatively elect otherwise. Cash balance formula participants may also receive their benefit as a lump sum.

Leach Participants – Retirement benefits previously provided under the Leach Plan were calculated based on the participant's compensation and credited service. Average final compensation was based on the highest compensation for the 60 consecutive months of employment during the last 120 months of credited service. Average final pay was based on compensation for the last three consecutive years of credited service, excluding any amounts in excess of the Social Security wage base in effect at the beginning of the calendar year. Credited service is calculated through the earlier of December 31, 2003, retirement, or termination date. Participants became vested after five years of service.

ESTERLINE TECHNOLOGIES RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS

Note 1 – Description of Plan (Continued)

Participants terminating prior to July 1, 1989 receive a normal monthly retirement benefit at age 65 equal to 57% of the participant's average final monthly compensation less 50% of his or her primary Social Security benefit, reduced by 1/35 for each year of service less than 35 years. Participants retiring after June 30, 1989 receive a normal monthly retirement benefit equal to 1.629% of the participant's average final compensation, multiplied by his or her years of credited service as of December 31, 2003 (up to 35 years), less 0.5857% of the participant's average final pay, multiplied by his or her years of credited service (up to 35 years). Participants from the previously merged plan and meeting certain service requirements may receive the greater of their benefit under the Plan or the merged plan.

Participants may elect early retirement beginning at age 55 with a minimum vesting service of five years. Participants may receive their benefits in the form of life annuity, joint and survivor annuity, installments, and Social Security leveling benefits. Participants with a present value benefit of \$1,000 or less receive lump-sum payments.

If an active married participant dies before retirement, the designated beneficiary will receive a death benefit calculated based on the date of death or termination, the participant's age at death, and the participant's years of service. The Plan does not provide benefits for unmarried participants who die before retirement. Disability benefits may begin at early or normal retirement.

Participant Contributions – Participation in the Final Average Pay Formula of the Plan requires a participant contribution of 1% of compensation, which is held in a separate account under the Esterline Technologies Voluntary Savings Plan (the VSP). These funds, together with interest credited at market rates compounded annually, aggregated approximately \$4.6 million and \$4.8 million at December 31, 2015 and 2014, respectively. The aforementioned amounts are not reflected in the Plan's net assets available for benefits at December 31, 2015 and 2014, nor are they considered in calculating the accumulated plan benefit obligation of the Plan. However, these amounts are included in total net assets available for benefits of the VSP. Assets are transferred from the VSP to the Plan based on the participant's benefit elections and as needed to provide for participant distributions. These amounts are reflected as Interplan transfers on the statements of changes in net assets available for benefits.

Plan Termination – In the event the Plan is terminated, the net assets of the Plan will be allocated as prescribed by ERISA and its related regulations. Whether all participants receive their benefits should the Plan be terminated at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits and may also depend on the level of benefits guaranteed by the Pension Benefit Guaranty Corporation (PBGC).

ESTERLINE TECHNOLOGIES RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS

Note 1 – Description of Plan (Continued)

The Company pays premiums to the PBGC to insure certain benefits under the Plan. If the Plan terminates, the PBGC generally guarantees most vested normal and early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling, which is adjusted periodically, on the amount of an individual's monthly benefit that the PBGC guarantees. For plan terminations occurring during 2015, that ceiling is \$5,011 per month. The ceiling applies to those pensioners who elect to receive their benefits in the form of a single-life annuity and are at least 65 years old at the time of retirement or plan termination (whichever comes later). For younger annuitants or for those who elect to receive their benefits in some form more valuable than a single-life annuity, the corresponding ceilings are actuarially adjusted downward.

Note 2 – Significant Accounting Policies

Basis of Accounting – The financial statements of the Plan are prepared on the accrual basis.

Use of Estimates – The preparation of the financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from those estimates.

Recent Accounting Pronouncements - ASU 2015-07 – In April 2015, the Financial Accounting Standards board (FASB) issued Accounting Standards Update (ASU) 2015-07, Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent). The amendment removes the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient (NAV practical expedient). ASU 2015-07 has been adopted for the December 31, 2015 plan year end, however, the retrospective approach requires that an investment for which fair value is measured using a NAV practical expedient be removed from the fair value hierarchy in all periods presented in the financial statements. Accordingly, the investment disclosures in Note 3 have been modified as of December 31, 2014 as well.

ESTERLINE TECHNOLOGIES RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS

Note 2 – Significant Accounting Policies (Continued)

ASU 2015-12 – In July 2015 FASB issued ASU 2015-12, Plan Accounting: Defined Benefit Pension Plans (Topic 960) II. Plan Investment Disclosures. The amendments remove the requirement to:

- Disclose individual investments held which exceed 5% of net assets available for benefits.
- Disclose net appreciation (depreciation) in fair value of investments by type of investment held.
- Disaggregate investments reported in the fair value hierarchy table by class of investment. They may be presented by general type only.
- Disclose investment strategy for investments for which fair value is measured using the NAV practical expedient, if they are Form 5500 Direct Filing Entities.

ASU 2015-12 has been adopted for the December 31, 2015 plan year end, however, the retrospective approach requires that the above items, applicable to the prior year, be presented in accordance with ASU 2015-12 as well.

Risks and Uncertainties – The Plan invests in a combination of stocks and other investment securities. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Investment Valuation and Income Recognition – The Plan's investments are stated at fair value as certified by the Plan's trustee. Fair value is the price that would be received to sell an asset or paid to transfer a liability (the "exit price") in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade date basis. Interest and dividend income are accrued as earned. Net appreciation (depreciation) in fair value of investments is the net realized gain or loss on disposition of investments plus the change in net unrealized gain or loss on investments held at year-end.

Payment of Benefits – Benefits are recorded when paid.

ESTERLINE TECHNOLOGIES RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS

Note 2 – Significant Accounting Policies (Continued)

Administrative Expenses – Administrative expenses, including investment management and certain Plan operating costs, are paid by the Plan. Certain expenses incurred to value the accumulated Plan benefits are paid by the Plan Sponsor.

Note 3 – Fair Value of Financial Instruments

Fair value is defined as the price that the Plan would receive upon selling an investment in an orderly transaction to an independent buyer in the principal or most advantageous market of the investment. A three-tier hierarchy, as established by FASB Accounting Standards Codification 820, *Fair Value Measurements and Disclosures*, maximizes the use of observable market data and minimizes the use of unobservable inputs, and establishes classification criteria of fair value measurements for disclosure purposes. Inputs refer broadly to the assumptions that market participants would use in pricing the asset or liability, including assumptions about risk. Inputs may be observable or unobservable. Observable inputs are inputs that reflect the assumptions market participants would use in pricing the asset or liability developed based on market data obtained from sources independent of the reporting entity. Unobservable inputs are inputs that reflect the reporting entity's own assumptions about the assumptions market participants would use in pricing the asset or liability developed based on the best information available.

The three-tier hierarchy of inputs is summarized in the three broad levels listed below:

- | | |
|----------------|--|
| Level 1 | Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access. |
| Level 2 | Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability. |
| Level 3 | Inputs to the valuation methodology are unobservable and significant to the fair value measurement. |

ESTERLINE TECHNOLOGIES RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS

Note 3 – Fair Value of Financial Instruments (Continued)

Following is a description of the valuation methodologies used for assets measured at fair value. There were no changes in methodology at December 31, 2015 or 2014.

Registered investment company and money market funds: Valued at the net asset value of shares held by the Plan at year end based on quoted market prices.

Common commingled trust funds: Units held in collective trusts (CT) are valued using the net asset value practical expedient (NAV practical expedient) of the CT as reported by the CT managers. The NAV practical expedient is based on the fair value of the underlying assets owned by the CT, minus its liabilities, and then divided by the number of units outstanding. The NAV practical expedient of a CT is calculated based on a compilation of primarily observable market information. There are no restrictions to trading CTs at NAV at or near the Plan's year end.

Common stocks: Valued at quoted market prices.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date. There are no unfunded commitments associated with any of the investments.

The following tables summarize the fair values of the Plan's investments as of December 31, 2015 and 2014.

NOTES TO FINANCIAL STATEMENTS

Note 4 – Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future benefit payments, which individual participants have accumulated under the Plan's provisions based on compensation and service rendered to date.

Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits under the Plan are based on the participants' cash balance account value and/or employees' compensation during their highest five consecutive years (see Note 1). The accumulated plan benefits for active employees are based on their average compensation during the five years ending on the date as of which the benefit information is presented (the valuation date). Benefits payable under all circumstances – retirement, death, disability, and termination of employment – are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by actuaries from Willis Towers Watson and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The actuarial present value of accumulated plan benefits, as of December 31, 2015 and 2014 are as follows:

	2015	2014
Vested benefits		
Participants currently receiving payments	\$ 110,588,061	\$ 101,279,109

NOTES TO FINANCIAL STATEMENTS

Note 4 – Actuarial Present Value of Accumulated Plan Benefits (Continued)

Changes to the actuarial present value of accumulated Plan benefits were a result of the following for the years ended December 31, 2015 and 2014:

	2015	2014
Actuarial present value of accumulated plan benefits, beginning of year	\$ 199,108,703	\$ 200,052,020
Changes during the year attributable to:		
Benefits paid	(14,005,000)	(29,798,497)
Benefits accumulated	5,725,922	5,053,628
Decrease in the discount period	13,614,491	13,842,724
Actuarial losses (gains)	(223,983)	536,444
Change in assumptions	(3,012,498)	6,103,435
Method change	1,732,572	-
Plan amendments	-	3,318,949
Actuarial present value of accumulated plan benefits, end of year	<u>\$ 202,940,207</u>	<u>\$ 199,108,703</u>

The significant actuarial assumptions used in the valuations were as follows:

Investment return	7.0%, per annum, compounded annually
Mortality	2015: RP-2014 male and female tables for annuitants and non-annuitants, projected back to 2007 using MP-2014 and then projected forward from 2007 using the adjusted improvement scales for male and female converging linearly from the MP-2014 in 2007 to 0.8% in 2017. 2014: RP-2014 male and female tables for annuitants and non-annuitants
Retirement age	Rates of retirement from age 55 to age 70
Termination of employment	Based on actual Company experience

ESTERLINE TECHNOLOGIES RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS

Note 4 – Actuarial Present Value of Accumulated Plan Benefits (Continued)

The change in actuarial assumptions from 2014 to 2015 represents changes in the following:

- Mortality tables were updated
- Termination rates were updated to better reflect plan experience
- Retirement rates were updated to better reflect plan experience
- The assumed form of payment elections were updated in 2015 to better reflect plan experience

The method change included in the changes to the actuarial present value of accumulated Plan benefits results from the timing of census data used in the calculation from beginning of year to end of year to perform the valuation with more current data.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors would be applicable in determining the actuarial present value of accumulated plan benefits.

Note 5 – Funding Policy

The Company's funding policy is to make annual contributions to the Plan in actuarially computed amounts such that all employee benefits will be fully provided for by the time they retire.

Note 6 – Tax Status

The IRS has determined and informed the Company by letter dated July 12, 2013 that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

NOTES TO FINANCIAL STATEMENTS

Note 6 – Tax Status (continued)

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan's administrative committee has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2015, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 7 – Information Certified by Trustee of the Plan

The following information included in the financial statements and supplemental schedules was provided and certified by U.S. Bank and Trust Company as of December 31, 2015 and 2014, and for the year ended December 31, 2015, as complete and accurate:

- Investments at fair value
- Cash
- Accrued interest receivable
- Dividend and interest income
- Net appreciation (depreciation) in fair value of investments
- Schedule of assets (held at end of year)
- Schedule of reportable transactions

Note 8 – Party-in-Interest

Certain Plan investments include Funds managed by U.S. Bank and Trust Company who is the trustee as defined by the Plan, and therefore, these transactions qualify as party-in-interest transactions.

Note 9 – Subsequent Events

Subsequent events have been evaluated through September 23, 2016, the date the financial statements were available to be issued.

- Statutory limits on compensation Accrued benefits projected to be paid in future years are limited to the maximum presently allowed under IRC Section 415. Plan compensation is limited to the maximum presently allowed under IRC Section 401(a)(17). No provision is made for future increases in the maximum annual benefit or compensation limit.

Plan Related Expenses

The amount included this year for administrative expenses is \$40,000 which is the average of the actual administrative expenses for the prior two plan years rounded to the nearest \$10,000.

Demographic Assumptions

Inclusion date The valuation date coincident with or next following the date on which the employee becomes a participant.

New or rehired employees It was assumed there will be no new or rehired employees.

Mortality For all participants: The prescribed mortality assumption under Section 430(h)(3)(A) of the Internal Revenue Code using static tables with separate mortality rates for annuitants and non-annuitants.

Termination Rates varying by age

Percentage leaving during the year	
Attained Age	Males and Females
Under 25	15.0
25-29	15.0
30-34	12.5
35-39	10.0
40-44	7.5
45-49	7.5
50-54	7.5

Disability Rates of disability assumed to be included in the termination rates.

Percentage retiring during the year	
Attained Age	Males and Females
Under 55	0.0
55-60	5.0
61-62	10.0
63-64	15.0
65-68	25.0
69	35.0
70+	100.00

It is assumed that all participants with deferred benefits will commence benefits upon reaching age 65, or current age if later.

Benefit commencement date

- ▶ Preretirement death benefit If the participant had more than 10 years of vesting service, the later of the death of the active participant or the date the participant would have attained age 55. If the participant had less than 10 but more than 5 years of vesting service, the date the participant would have attained age 65.
- ▶ Deferred vested benefit The later of age 65 or termination of employment, for both actives and current vested terminated participants.
- ▶ Retirement benefit Upon becoming eligible for retirement, based on decrements.

Form of payment

- ▶ Final Average Pay and Leach 25% elect a single life annuity, 25% elect a 50% joint and survivor annuity, and 50% elect a 100% joint and survivor annuity. The final average pay benefit is assumed to be net of employee contributions.
- ▶ Cash Balance 100% elect lump sum

Employee contribution balance conversion

Conversion to an annuity is based on the 417(e) mortality tables and the valuation interest rates.

Percent married

For purposes of valuing the pre-retirement surviving spouse's benefit, 80% of eligible participants are assumed to be married.

Spouse age

Male spouses are assumed to be 3 years older than female spouses.

|-----------------------------------|--|
| ▶ Esterline Technologies sub-plan | The greater of the prior year's pay and the annual rate of pay as of the valuation date. |
| ▶ Leach sub-plan | Not applicable. |

At-risk assumptions

For at-risk calculations, all participants eligible to elect benefits during the current and subsequent ten plan years are assumed to commence benefits at the earliest possible date under the plan, but not before the end of the current plan year, except in accordance with the regular valuation assumptions. In addition, all participants (not just those eligible to begin benefits within the next 11 years) are assumed to elect the most valuable form of benefit under the plan, which is usually the normal form of payment.

Timing of benefit payments

Annuity payments are payable monthly at the beginning of the month and lump sum payments are payable on date of decrement.

Methods

Valuation date

First day of plan year

Funding target

Present value of accrued benefits as required by regulations under IRC §430.

Target normal cost

Present value of benefits expected to accrue during plan year plus plan-related expenses expected to be paid from plan assets during plan year as required by regulations under IRC §430.

Actuarial value of assets

Average of the fair market value of assets on the valuation date and the two immediately preceding valuation dates, adjusted for contributions, benefits, administrative expenses and expected earnings of 7.00% (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the prior plan year.)

The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.

Benefits not valued

All benefits described in the Plan Provisions section of this report were valued.

The plan pays small benefits (with a present value up to \$5,000) in a single lump sum payment. Such lumps sums are not explicitly valued as such; rather such participants benefits are valued using the benefit choice assumptions described above.

Employee contributions for active participants are excluded from both the liability and the assets used in the valuation

Assumptions Rationale - Significant Economic Assumptions

Discount rate

The basis chosen by the plan sponsor among choices prescribed by law all of which are based on observed market data over certain periods of time

Rates of increase in compensation

Assumed compensation increases are based on plan sponsor expectations reflecting both current conditions and future expectations.

Pension plan administrative expenses

Administrative expenses are based on the average of the actual administrative expenses for the prior two plan years, rounded to the nearest \$10,000. PBGC premiums are not paid out of plan assets so future increases in premiums have not been considered.

Limit on Expected Return on Assets for AVA

Esterline analyzed their investments with their external investment advisors and, based on their investment allocation, chose an assumption of 7% for long term expected return on assets for ASC 715. Based on our high level review, we believe their best estimate for the return on assets is reasonable.

Assumptions Rationale - Significant Demographic Assumptions

Mortality

Assumptions used are as prescribed by IRC §430(h).

Termination

The assumed termination rates are based on actual termination experience by the plan over the period 2010-2014, with consideration for future conditions that might be expected to produce different results in the future. The analysis of historical termination rates was presented in the experience study delivered to Esterline on September 15, 2015.

Retirement

The assumed retirement rates from active employment are based on actual retirement experience by the plan over the period 2010-2014, with consideration for future conditions that might be expected to produce different results in the future. The analysis of historical retirement from active employment rates was presented in the experience study delivered to Esterline on September 15, 2015.

SCHEDULE SB ATTACHMENTS

Benefit commencement date

Preretirement death benefit	Surviving spouses are assumed to begin benefits at the earliest permitted commencement date provided under the plan. If the spouse elects to defer, actuarial increases from the earliest commencement date must be given, so that a later commencement date is expected to be of approximately equal value, and experience indicates that most spouses do take the benefit as soon as it is available.
Deferred vested benefit	Deferred vested participants' assumed commencement age is a single age intended to capture the average age at commencement.

Source of Prescribed Methods

Funding methods	The methods used for funding purposes as described in Appendix A, including the method of determining plan assets, are "prescribed methods set by law", as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.
-----------------	--

Changes since prior valuation

- The segment interest rates used to calculate the funding target and target normal cost were updated from an applicable month of September 2013 to September 2014 before application of HATFA corridors.
- The assumed mortality for healthy participants has been updated to include one additional year of projected mortality improvements in IRS-prescribed annuitant and non-annuitant static tables.
- The compensation increase assumption was updated to better reflect anticipated experience. It was changed from 4.50% for all participants to 4.00% for final average pay participants and 4.50% for cash balance participants.
- The assumed termination rates were updated to better reflect plan experience.
- The assumed retirement rates were updated to better reflect plan experience.
- The assumed form of payment elections were updated to better reflect plan experience.

SCHEDULE SB ATTACHMENTS

Schedule SB, Part V Summary of Principal Plan Provisions Esterline Technologies Sub-Plan

Plan Provisions

The most recent amendment reflected in the following plan provisions was effective September 8, 2014.

Coverage and Participation	Any employee in an eligible classification is eligible to become a participant on the first of the month coincident with or next following the later of completion of one-half year of service with a covered employer and attainment of age 25 or one year of service with a covered employer and attainment of age 21. For the Final Average Pay formula the participant agrees to make a 1% aftertax mandatory contribution to the Voluntary Savings Plan (VSP). Effective July 1, 1995, all participants formerly covered by the Master Hourly Plan, with the exception of hourly employees of Hytek Finishes Company, began accruing benefits under the Final Average Pay formula. Employees who became eligible on or after January 1, 2003 earn benefits under a cash balance benefit formula which does not require mandatory contributions to the VSP.
----------------------------	---

Definitions

Vesting service	A year of service is 12 consecutive months of employment with the employer (elapsed time).
Credited service	A year of service is 12 consecutive months of employment with the employer and begins at the date of plan participation.
Pensionable pay	Compensation for benefit purposes includes W-2 compensation paid by the employer to the employee including overtime pay and most bonuses and pre-tax deferrals to the VSP, but excluding living allowances and moving expenses.
Average earnings	Benefits for the Final Average Pay formula are based on the five-year average of annual compensation paid either in the last 60 months of employment prior to normal retirement or the five consecutive calendar years producing the highest such average. (Basic pay for former Esterline Corporation Plan participants is their Base Rate of Pay for their final five years of employment.)
Primary Social Security	Annual amount which would be available to Participant at age 65 under the Federal Social Security Act.
Normal Retirement Date (NRD)	The normal retirement date for any participant shall usually be the first day of the month preceding the attainment of age 65 with five years of participation.

SCHEDULE SB ATTACHMENTS

Monthly pension benefit

• Benefit Formula – Final Average Pay

A participant as of December 31, 1980 will be eligible to receive a benefit at the Normal Retirement Date equal to the greater of (a) or (b) as shown below. An employee who becomes a participant on or after January 1, 1981 will be eligible to receive a benefit determined under (b) at the Normal Retirement Date.

- (a) is equal to the sum of annual benefit accruals. For each year of plan participation, a participant earns a benefit accrual equal to 1% of total compensation (excluding living allowances and expense reimbursements) for that year, plus 1.4% of compensation in excess of the Social Security Taxable Wage Base.
- (b) is equal to the difference between (i) and (ii), where (i) equals 1.6% multiplied by years of "credited service" (not to exceed 30), multiplied by highest 60 consecutive months of average compensation; and (ii) equals 1.6% multiplied by years of credited service (not to exceed 30), multiplied by the Primary Social Security Benefit.

• Benefit Formula – Cash Balance

Benefits accrued under the final average pay (FAP) portion of the plan before January 1, 2003 will not increase if the former FAP participant made a one-time election to switch to the Cash Balance formula of the Plan. They will be adjusted for age at benefit commencement and for form of payment and will be added to the benefit payable under the cash balance portion of the plan.

At the end of each plan year, participants receive pay credits based on the following:

Age	% of Pay
21-24	2.00%
25-29	2.25%
30-39	3.00%
40-49	4.00%
50-59	5.00%
60 and older	6.00%

Participants receive an additional pay credit equal to 2% of pay in excess of the Social Security Wage Base.

Cash Balance accounts earn interest each year based on the Consumer Price Index (CPI-U) plus the associated margin as described in IRS Notice 96-8.

Monthly preretirement death benefit

Participants who are vested and married or have a registered domestic partner (for at least one year) at the time of death will receive a survivor benefit from this plan.

- ▶ Death before age 55: Spouse/domestic partner receives the survivor benefit as if the participant had retired on the day before death and elected a 50% joint and survivor annuity.

- ▶ Death after age 55: Spouse/domestic partner receives the survivor benefit as if the participant had retired on the day before death and elected a 100% joint and survivor annuity.

Eligibility for Benefits

Normal retirement	Retirement on NRD
Early retirement	An early retirement date is permitted provided the participant's attained age plus years of service is equal to 65 or more with five years of participation.
Postponed retirement	Retirement after NRD
Vested termination	Termination for reasons other than death or retirement after completing five years of vesting service for FAP participants and three years of service for cash balance participants.
Disability	Permanent and total disability prior to NRD, and participant has either been waived under ESL's Life Insurance or is receiving a Social Security disability benefit
Preretirement death benefit	Death while eligible for normal, early, postponed, or deferred vested retirement benefits, with a surviving spouse/registered domestic partner.

Benefits Paid Upon the Following Events

Normal retirement	Monthly pension benefit payable as a reduced 50% Joint and Survivor benefit (if married or have a registered domestic partner) or a life annuity benefit (if single), unless the participant elected otherwise.
Early retirement	A participant is eligible to receive at Normal Retirement Date a benefit equal to the annual benefit accruals earned for all years of participation in the plan. He or she may elect to commence reduced benefit payments prior to Normal Retirement Date, with the reduction based on age at the time of benefit commencement. The actual percentage reductions for the FAP formulas are as follows: • For each of first five years before age 65, 6-2/3% per year; • For each of next five years before age 60, 3-1/3% per year; • For each of next five years before age 55, 3% per year; • For each year before age 50, 2% per year.
Postponed retirement	Greater of: • <u>Accrued Benefit</u>: Monthly pension benefit determined as of actual retirement date, based on years of service and earnings through the actual retirement date.

	• <u>Actuarial Equivalent</u>: The actuarial equivalent of the benefit the participant would have received if actual retirement date had been the later of NRD or the last day of the previous plan year.
Vested termination	If a participant terminates employment for any reason other than death or retirement under the plan, and • If the participant has fewer than five years of vesting service and a FAP benefit, he or she will receive only his or her accumulated mandatory contributions with interest; • If the participant has at least five years of vesting service and a FAP benefit, he or she may elect to receive either: – A return of mandatory contributions accumulated, with interest, plus a reduced benefit, or – The accrued benefit, to commence in full at the Normal Retirement Date, or on a reduced basis at any time after becoming eligible for Early Retirement. • If participant has at least three years of vesting service and a cash balance benefit, he or she may elect either – accumulated balance of cash balance or – equivalent annuity

Preretirement death	Monthly preretirement death benefit
---------------------	-------------------------------------

Other Plan Provisions

Forms of payment	A participant may elect to receive an actuarially equivalent optional benefit in one of the following forms: • Life annuity; • 50%, 75% or 100% joint and survivor benefit; or • 5-, 10- or 15-year certain and life benefit. • Cash balance is available as a lump sum. • Effective September 8, 2014, a voluntary lump sum window (Esterline Technologies Pension Lump Sum Offer) permits a one-time lump sum cash-out (or immediate annuity) option as of December 1, 2014 for certain vested terminated participants.
Pension Increases	None
Plan participants' contributions	Participants who remain in the final average pay portion of the plan are required to make contributions equal to 1% of compensation. Effective January 1, 1985, participant 1% contributions were made to

the VSP on a pre-tax basis. Effective January 1, 1989, participant contributions were made to the VSP on an after-tax basis again.

Employee contributions are neither required nor allowed for those accruing benefits under the cash balance portion of the plan.

Maximum on benefits and pay

All benefits and pay for any calendar year may not exceed the maximum limitations for that year as defined in the Internal Revenue Code. The plan provides for increasing the dollar limits automatically as such changes become effective. Increases in the dollar limits are assumed for determining pension cost but not for determining contributions.

Future Plan Changes

No future plan changes were recognized in determining minimum and maximum contributions.

Changes in Benefits Valued Since Prior Year

Effective September 8, 2014, a voluntary lump sum window (Esterline Technologies Pension Lump Sum Offer) permitted a one-time lump sum cash-out (or immediate annuity) option as of December 1, 2014 for certain vested terminated participants.

There have been no other changes in benefits valued since the prior year.

Leach Sub-Plan

Plan Provisions

Coverage and Participation	All hourly and salaried employees are covered. Participation begins on the date of becoming a covered employee and attaining age 21, but not later than December 31, 2003.
----------------------------	--

Definitions

Vesting service	One year for each year of employment with over 1,000 hours.
-----------------	---

Pension service	Years and months of service from participation date. Pension service was frozen as of December 31, 2003.
-----------------	--

Pensionable pay	Includes regular pay, bonuses, overtime and all forms of special pay. It does not include employer contributions to welfare or retirement plans, reimbursement of expenses or compensation from exercising nonqualified stock options. Pay was frozen as of December 31, 2003. Average Final Compensation is the average monthly Compensation of the highest five consecutive calendar years of pensionable pay during ten-year period ending on the participant's termination date or retirement date.
-----------------	---

Average earnings	Average Final Pay is the lesser of (i) and (ii) below: (i) The average of the three full consecutive plan years of compensation (limited to the Social Security Wage Base) ending coincident with or prior to the participant's termination date or retirement date. (ii) The participant's Covered Compensation.
------------------	---

Normal Retirement Date (NRD)	The normal retirement date for any participant shall be the first day of the month coinciding or following the attainment of age 65 with five years of participation.
------------------------------	---

Monthly pension benefit formula

- (a) is equal to the larger of (i) and (ii), where (i) equals 1.6290% of Average Final Compensation less 0.5857% of Average Final Pay, multiplied by pension service limited to 35 years; and (ii) equals amount a participant would have received under the "Restated Retirement Plan for Bargaining Employees of Leach Corporation" had they retired under that plan with at least 15 years of service.
- (b) For any participant who transferred from the Bargaining Plan in connection with the October 23, 1991, is equal to the sum of (i) and (ii), where (i) equals benefits for pre-October 23, 1991 service based on the provisions of the former Bargaining Plan; and (ii) equals benefits for post-October 23, 1991 based on the provisions of this Plan.
- (c) Transfer from the Bargaining Plan prior to the October 23, 1991 merger: (i) transfers prior to July 1, 1990 - benefits are determined based on this plan for all service, reduced for benefits earned

under the Bargaining Plan; (ii) transfer on or after July 1, 1990 - benefits are determined based on this plan for service from transfer date. Benefits were frozen as of December 31, 2003.

Monthly preretirement death benefit	50% of the monthly pension benefit as of the date of death, reduced for the 50% joint and survivor election and reduced for payment as early as the participant's 55th birthday.
-------------------------------------	--

Eligibility for Benefits

Normal retirement	Retirement on NRD
Early retirement	Retirement before NRD after attaining age 55 and five years vesting service.
Postponed retirement	Retirement after NRD
Vested termination	Termination for reasons other than death or retirement after completing five years of vesting service
Disability	Disability prior to NRD
Preretirement death benefit	Death while eligible for normal, early, postponed, or deferred vested retirement benefits, with a surviving spouse/registered domestic partner.

Benefits Paid Upon the Following Events

Normal retirement	The normal form of benefit payment (i.e., the form payable unless the participant elected otherwise) is a reduced 50% joint and survivor benefit (if married or have a registered domestic partner) or a life annuity benefit (if single).
Early retirement	Monthly pension benefit determined as of early retirement date, reduced 0.41% for each month of payment before age 65. Accrued benefits under the former Bargaining Plan are reduced 0.50% per month of payment before age 65 for those who became participants of this plan by virtue of the October 23, 1991 merger.
Postponed retirement	Monthly pension benefit determined as of actual retirement date
Vested termination	Monthly pension benefit determined as of termination date, unreduced at age 65 or reduced prior to age 65.
Disablement	Monthly pension benefit would have included accruals to NRD assuming constant pay. Benefit is payable at NRD, or earlier if requirements for early retirement are satisfied. Since Plan was frozen 12/31/03 – no disability provisions are applicable now.
Preretirement death	Monthly preretirement death benefit.
