Note 1: Description Of Plan

The following description of the Haraden Motor Car Corp. 401(k) Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General - The Haraden Motor Car Corp. 401(k) Retirement Plan was established to provide retirement benefits for employees of Haraden Motor Car Corp. d/b/a Mohawk Honda (the Company). Eligible employees become participants in the Plan following one year of eligible service and attainment of age 21, as defined in the Plan Agreement. The Plan is subject to the requirements of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions - Each year, eligible participants may contribute up to 50% of their annual compensation on a pre-tax basis, subject to Internal Revenue Code limitations as defined by the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants have the option of making after tax Roth contributions to the Plan. Participants may also contribute amounts representing distributions from other qualified plans. Participants direct the investment of their contributions into various investment options offered by the Plan. Prior to July 1, 2014, the Company's matching contribution was equal to 25% of the participants' elective deferral contributions that were not in excess of 50% of their compensation. Effective July 1, 2014, the Company's matching contribution is equal to 50% of the participants' elective deferral contributions that are not in excess of 100% of their compensation. The total amount of matching contributions allocated to a participant in any plan year will not exceed $500. The Company may also make a discretionary profit sharing contribution as determined each plan year. Contributions are subject to certain limitations.

Participants' accounts - Each participant's account is credited or charged, as applicable, with the participant's contribution and allocations of the Company's contribution, plan earnings, and forfeitures of terminated participants' nonvested accounts, or transfers and distributions made to or from such accounts during the period. Allocations are based on participant earnings or account balances, as defined in the Plan Agreement. The benefit to which a participant is entitled is the benefit that can be provided by the participant's vested account.

Vesting - Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's portion of their accounts is based on years of continuous service. As defined by the Plan Agreement, a participant is 100% vested after three years of credited service.

Payment of benefits - On termination of service, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in their account, substantially equal installments over a period of time, or elect to defer payment until a later date. A hardship provision allows for distributions up to 100% of a participant's elective deferral vested account balance for specific purposes as denoted in the Plan.

Note 1: Description Of Plan (Continued)

Participant loans - Participants may borrow from their fund accounts. The loans must be adequately secured and made in accordance with the terms of the Plan. Principal and interest is paid ratably through weekly payroll deductions.

Plan termination - Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

Forfeited accounts - At December 31, 2015 and 2014, the Plan had forfeitures from terminated, non-vested participant accounts of $-0- and $4,409, respectively. These amounts can be used to offset future plan expenses or reduce future employer contributions. During the years ended December 31, 2015 and 2014, forfeitures used to pay plan expenses were $11,236 and $7, respectively.

Note 2: Summary Of Significant Accounting Policies

Investment valuation - Accounting principles generally accepted in the United States of America establish a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, and Level 3 inputs have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 3 inputs are used only when Level 1 or Level 2 inputs are not available. The three levels of the fair value hierarchy in accordance with accounting principles generally accepted in the United States of America are described below:

(a) Level 1: Unadjusted quoted prices in active markets for identical, unrestricted assets, or liabilities that the Plan has the ability to access at the measurement date;

(b) Level 2: Quoted prices which are not active, quoted prices for similar assets or liabilities in active markets, or inputs other than quoted prices that are observable (either directly or indirectly) for substantially the full term of the asset or liability; and

(c) Level 3: Significant unobservable prices or inputs (including the Plan's own assumptions in determining the fair value of investments) where there is little or no market activity for the asset or liability at the measurement date.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Note 2: Summary Of Significant Accounting Policies (Continued)

The Plan's investments are held by an independent trust company. Interest and dividend income is recorded on the accrual basis of accounting. Purchases and sales of securities are recorded on a trade date basis with the gain or loss based upon the actual cost of the securities.

For the year ended December 31, 2014, the Plan adopted Accounting Standards Update 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient.* Parts I and III are not applicable to the Plan. Part II eliminates the requirements to disclose individual investments that represent five percent or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. Part II also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics, and risks. The ASU is effective for fiscal years beginning after December 15, 2015, with early adoption permitted. Part II is to be applied retrospectively. Management elected to adopt Part II early.

Notes receivable from participants - Loans to participants are reported at their unpaid principal balances plus any accrued but unpaid interest.

Income taxes - The Plan is exempt from federal income tax under the Internal Revenue Code. Tax positions are evaluated and recognized in the financial statements when it is more-likely-than-not the position will be sustained upon examination by the tax authorities.

The Plan obtained its latest determination letter on March 31, 2014, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the Plan Administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

Estimates - The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. The application of these accounting principles involves the exercise of judgment and use of assumptions as to future uncertainties and, as a result, actual results could differ from these estimates. The Plan periodically evaluates estimates and assumptions used in the preparation of the financial statements and makes changes on a prospective basis when adjustments are necessary.

Note 2: Summary Of Significant Accounting Policies (Continued)

Presentation - Certain reclassifications, when applicable, are made to the prior year financial statement presentation to correspond to the current year's format. Reclassifications, when made, have no effect on net assets available for benefits or changes in net assets available for benefits.

Change in Accounting Principle - In May 2015, the FASB issued Accounting Standards Update (ASU) *2015-07, Fair Value Measurement (Topic 820), Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent).* The update removes the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient. The ASU is effective for fiscal years beginning after December 15, 2016, with early adoption permitted. The update is to be applied retrospectively. Management has elected to adopt the update early. There was no material impact on the Plan's net assets available for benefits or changes in net assets available for benefits upon adoption of the new ASU.

Note 3: Investments

The statements of net assets available for benefits, the investment activities included in the statements of changes in net assets available for benefits for the years ended December 31, 2015 and 2014, and the accompanying notes to the financial statements (other than the assignment of levels) were prepared in part or entirely from information certified by Hand Benefits & Trust Company, the Custodian, in accordance with 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The information certified includes investments and notes receivable from participants of $4,001,600 and $3,723,777 at December 31, 2015 and 2014, respectively, and related investment income of $27,940 and $271,254 for the years ended December 31, 2015 and 2014, respectively.

Note 4: Fair Value Measurements

The following is a description of the valuation methodologies used for assets at fair value at December 31, 2015 and 2014:

Mutual funds: Valued at quoted market prices.

Collective Investment Fund: Valued at the net asset value (NAV) of the underlying units held by the Fund. The objective of the Fund is to preserve capital and provide stability of principal while earning current income that exceeds money market rates over the long term. Participant transactions (purchases and sales) may occur daily. Certain events would limit the ability of the Plan and the Trust to transact at fair value. The Plan Administrator does not believe that any such events are probable of occurring.

Note 4: Fair Value Measurements (Continued)

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in different fair value measurements at the reporting date.

Fair Value Measurements At Reporting Date Using:

	Quoted Prices In Active Markets For Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total Fair Value
December 31, 2015				
Mutual funds	$ 3,834,734	$ -	$ -	$ 3,834,734
Total Investments In The Fair Value Hierarchy	$ 3,834,734	$ -	$ -	3,834,734
Investments measured at net asset value:				
Collective Investment Fund				77,126
Total Investments At Fair Value				$ 3,911,860

Note 4: Fair Value Measurements (Continued)

	Quoted Prices In Active Markets For Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total Fair Value
December 31, 2014				
Mutual funds	$ 3,513,349	$ -	$ -	$ 3,513,349
Total Investments In The Fair Value Hierarchy	$ 3,513,349	$ -	$ -	3,513,349
Investments measured at net asset value:				
Collective Investment Fund				95,925
Total Investments At Fair Value				$ 3,609,274

Note 5: Related Party Transactions

Certain fees of the Plan for administrative services are paid by the Plan Sponsor.

Note 6: Risks And Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 7: Significant Plan Amendment

Effective July 1, 2014, the Plan was amended to change the entry date for eligible participants to 'immediate' for all contribution types, and the Matching Contribution Formula was changed to 50% of employee contributions that are not in excess of 100% of compensation. The amount of matching contribution allocated to a participant in any plan year will not exceed $500. Additionally, effective January 1, 2015, an Eligible Automatic Contribution Arrangement has been added to the Plan, and effective December 1, 2015, the maximum number of loans outstanding for an individual at any one time was amended to one.

Note 8: Commitments And Contingencies

The Plan follows the guidance for uncertainty in income taxes. As of December 31, 2015, the Plan believes that it has appropriate support for the income tax positions taken and to be taken on its returns based on an assessment of many factors including experience and interpretations of tax laws applied to the facts of each matter. The Plan has concluded that there are no significant uncertain tax positions requiring disclosure, and there are no material amounts of unrecognized tax benefits.

Note 9: Subsequent Events

Subsequent events have been evaluated through October 11, 2016, which is the date the financial statements were available to be issued.
