- Joint and survivor annuity (50 percent)
- An amendment was added to the Plan to allow, during a 45-day period beginning October 13, 2014 to November 30, 2014, terminated participants with a present value of accrued benefits greater than \$5,000, but less than or equal to \$100,000, that have not yet received monthly benefit payments, to elect to receive their benefit in one lump-sum payment. Approximately 70 terminated participants elected to receive the lump-sum payment totaling payouts of approximately \$2,500,000.
- Effective December 1, 2014, the maximum limit on the present value of the accrued benefit lump-sum payment was restored to \$15,000.

Death and Disability Benefits - Death benefits are paid to a union and nonunion vested participant's beneficiary in accordance with the benefit option chosen if a joint and survivor or certain annuity option is elected. A union participant who becomes totally and permanently disabled after completing 10 years of vesting service and who has not previously commenced receipt of benefits from the Plan or the Central States Plan at any time may retire and receive a monthly disability retirement benefit of \$250 less the benefit actually payable from the Central States Plan. The disability benefit shall cease at the end of the month in which the participant reaches age 62, dies, or recovers from total and permanent disability, whichever comes first. In lieu of the monthly disability retirement benefit, a union participant who has completed 10 years of vesting service and who has attained at least age 45 at the time of disability may elect to receive one lump-sum cash payment of \$3,000 less the benefit actually payable from the Central States Plan.

Notes to Financial Statements December 31, 2015 and 2014

Note 1 - Plan Description (Continued)

Funding - Contributions are made by the Company in actuarially determined amounts. The Company's policy is to make contributions necessary to satisfy ERISA funding standards. Annual contributions meet the minimum funding requirements of ERISA.

Administration - The Company is the sponsor of the Plan. The administrative committee, as provided in the plan agreement, is the plan administrator and has responsibility for the administration of the Plan. MG Trust Company (Matrix Trust Company) (formerly Wilmington Trust Company) functions as trustee and investment manager. Investment management fees and trustee fees are paid by the Plan in accordance with the plan agreement.

Party-in-interest Transactions - Certain plan assets are in investment funds managed by MG Trust Company (Matrix Trust Company) (formerly Wilmington Trust Company) or its affiliates. MG Trust Company is the trustee of the Plan; therefore, these transactions qualify as party-in-interest transactions as defined under ERISA guidelines.

Note 2 - Summary of Significant Accounting Policies

Investment Valuation - The Plan's investments are stated at fair value.

The money market fund is valued at fair value based on its outstanding balances. All other investments are valued based on quoted market prices. See Note 7 for additional information.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Benefit Payments - Benefits are recorded when paid.

Administrative Expenses - Various administrative costs are paid by the Company. Administrative expenses directly related to the investments of the Plan are paid by the Plan, except to the extent paid directly by the Company.

Actuarial Present Value of Accumulated Plan Benefits - Accumulated plan benefits are those future periodic payments that are attributable, under the Plan's provisions, to the service employees have rendered. These include benefits expected to be paid to:

- a. Retired or terminated employees or their beneficiaries
- b. Beneficiaries of employees who have died
- c. Present employees or their beneficiaries

Anderson Concrete Corp. Retirement Plan

Notes to Financial Statements December 31, 2015 and 2014

Note 2 - Summary of Significant Accounting Policies (Continued)

Benefits are calculated based on active employees' credited years of service for union employees and employees' final average compensation multiplied by years of benefit service for nonunion employees. Benefits payable under all circumstances (retirement, death, disability, and termination) are included to the extent they are deemed attributable to employee service rendered to the valuation date.

Benefits provided via annuity contracts are deducted from plan assets and from accumulated plan benefits.

Actuarial Assumptions - The actuarial present value of accumulated plan benefits is determined by an actuary from Findley Davies Consultants and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money and probability of payment between the valuation date and the expected date of payment.

The significant actuarial assumptions used in the valuation of the Plan at December 31, 2015 and 2014 are summarized as follows:

- | | |
|-------------------|---|
| Investment return | - 8.00 percent per year, compounded annually for December 31, 2014 and 2013 |
| Mortality | - The RP-2014 Mortality Tables projected back to 2007 using the the MP-2014 projection scale, then projected forward generationally using a modification of the MP-2014 scale. The long-term improvement scale percentages are 0.8 percent for all ages until age 85, then grade linearly to 0.0 percent at age 105. The select period uses the MP-2014 scale for 2007 and converges linearly to the long-term scale over 10 years, reaching the ultimate scale in 2017 |
| Withdrawal | - The Actuary's Pension Handbook, Table T-3 without GA51 mortality |

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Notes to Financial Statements December 31, 2015 and 2014

Note 2 - Summary of Significant Accounting Policies (Continued)

Risks and Uncertainties - Contributions to the Plan and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee compensation and demographics. Due to the changing nature of these assumptions, it is at least reasonably possible that changes in these assumptions will occur in the near term and, due to the uncertainties inherent in setting assumptions, that the effect of such changes could be material to the financial statements.

New Accounting Pronouncement - During 2015, the Plan adopted Accounting Standards Update (ASU) No. 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), and Health and Welfare Benefit Plans (Topic 965) - I. Fully Benefit-Responsive Investment Contracts, II. Plan Investment Disclosures, and III. Measurement Date Practical Expedient*. Part II of the ASU was applicable to the Plan and modified the investment disclosures under ASC 820 and 962. This standard was adopted retrospectively and had no impact on the Plan's net assets or changes in net assets.

Subsequent Events - The financial statements and related disclosures include evaluation of events up through and including October 3, 2016, which is the date the financial statements were available to be issued.

Note 3 - Unaudited Information

MG Trust Company (Matrix Trust Company) (formerly Wilmington Trust Company) (the "Trustee") holds the Plan's investments and executes all investment transactions. The investment balances and related investment income and losses included in the accompanying financial statements and supplemental schedule of assets held at end of year are based solely on information provided by the Trustee.

Note 4 - Benefits Obligations

The actuarial present value of accumulated plan benefits is determined by consulting actuaries. The calculations of the postretirement benefit obligation attributable to participants in the Plan, which were made as of and for the years ended December 31, 2015 and 2014, the most recent actuarial valuations, are as follows:

	2015	2014
Actuarial present value of accumulated plan benefits:		
Vested benefits:		
Active and terminated vested participants	\$ 4,760,963	\$ 4,818,076
Retired participants and beneficiaries	12,696,971	12,756,589

Nonvested benefits	84,278	113,447
Total actuarial present value of accumulated plan benefits	<u>\$ 17,542,212</u>	<u>\$ 17,688,112</u>
Actuarial present value of accumulated plan benefits -		
Beginning of year	\$ 17,688,113	\$ 19,222,754
(Decrease) increase during the year attributable to:		
Benefits accumulated	(43,813)	1,058,616
Increase for interest due to the decrease in the discount period	1,357,778	1,382,945
Change in actuarial assumptions	-	(27,882)
Benefits paid	<u>(1,459,866)</u>	<u>(3,948,321)</u>
Actuarial present value of accumulated plan benefits -		
End of year	<u>\$ 17,542,212</u>	<u>\$ 17,688,112</u>

Note 5 - Plan Termination

Should the Plan terminate at some future time, its net assets generally will not be available on a pro-rata basis to provide participants' benefits. Whether a particular participant's accumulated plan benefits will be paid depends on both the priority of those benefits and the level of benefits guaranteed by the PBGC at that time. Some benefits may be fully or partially provided for by the then-existing assets and the PBGC guaranty, while other benefits may not be provided for at all.

Anderson Concrete Corp. Retirement Plan

Notes to Financial Statements December 31, 2015 and 2014

Note 6 - Tax Status

The Plan has received a determination letter from the Internal Revenue Service indicating that the Plan, as designed, is qualified for tax-exempt treatment under the applicable section of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, management believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Note 7 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the inputs and valuation techniques used to measure fair value.

The following tables present information about the Plan's assets measured at fair value on a recurring basis at December 31, 2015 and 2014.

Level 1 - Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Level 2 - Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, and inputs other than quoted prices that are observable for the asset.

Level 3 - Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on management's own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset.

In instances whereby inputs used to measure fair value fall into different levels in the above fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

Assets Measured at Fair Value on a Recurring Basis at December 31, 2015

	Investments (at Fair Value)	Level 1	Level 2
Mutual funds	\$ 20,391,844	\$ 20,391,844	\$ -
Money market fund	220,137	-	220,137
Total investments at fair value	<u>\$ 20,611,981</u>	<u>\$ 20,391,844</u>	<u>\$ 220,137</u>

Anderson Concrete Corp. Retirement Plan

Note 7 - Fair Value Measurements (Continued)

Assets Measured at Fair Value on a Recurring Basis at December 31, 2014

	Investments (at Fair Value)	Level 1	Level 2
Mutual funds	\$ 21,901,232	\$ 21,901,232	\$ -
Money market fund	631,106	-	631,106
Total investments at fair value	<u>\$ 22,532,338</u>	<u>\$ 21,901,232</u>	<u>\$ 631,106</u>

There were no unfunded commitments or redemption restrictions on the investments described above.

The Plan's policy is to recognize transfers between levels of the fair value hierarchy as of the actual date of the event of change in circumstances that caused the transfer. There were no transfers between levels of the fair value hierarchy during 2015 and 2014.

Administrative expenses will be paid by the employer.

Standing Elections

The client has not signed an election that provides for the automatic use of the Carryover and/or Prefunding Balance if necessary at the end of the plan year to meet the minimum funding requirement.

Asset Method

Funding: Market Value of Assets plus interest adjusted accrued but unpaid contributions as of the valuation date plus an adjustment to defer full recognition of investment losses and gains over a two-year period. The investment (gain)/loss for every year equals the market value at the beginning of the year projected to the end of the year using the interest rate above, but no greater than the third segment rate for the plan year, minus the end of the year actual market value. The actuarial value of assets will be no less than 90% and no more than 110% of the market value (including interest-adjusted accrued but unpaid contributions). Note that due to the regulatory constraint on the interest rate, a characteristic of this asset valuation method is that, over time, it may be more likely to produce an actuarial value of assets that is less than the market value of assets.
