PENSION PLAN FOR NON-UNION EMPLOYEES
NOTES TO FINANCIAL STATEMENTS
December 31, 2015 and 2014

NOTE 1 - DESCRIPTION OF PLAN

The following description of the NACCO Materials Handling Group, Inc. Pension Plan for Non-Union Employees (the "Plan") provides only general information. Reference should be made to the Plan document for a more complete description of the Plan's provisions.

General: The Plan (as amended and restated as of September 1, 2015) is sponsored by Hyster-Yale Group, Inc. (the "Company") formerly known as NACCO Materials Handling Group, Inc., and is a defined benefit pension plan within the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA") (as amended).

Hyster-Yale Group, Inc. established the Plan, effective October 1, 2012. The Plan was formed by a spin-off of the net assets and obligations of The Combined Defined Benefit Plan for NACCO Industries, Inc. and Its Subsidiaries Plan (the "Combined Plan") which were attributable to participants and beneficiaries of Part III of the Combined Plan.

The Plan is frozen for purposes of eligibility and benefit accruals, except for interest rate credits on theoretical cash balances.

The assets of the Plan are held under the Trust established for this Plan.

Plan Administration: The Company is the Plan sponsor and Plan administrator. Vanguard Fiduciary Trust Company ("Trustee") is the trustee of the Plan. Investment decisions are made by the Hyster-Yale Group, Inc. Retirement Funds Investment Committee.

Vesting: Plan participants are 100% vested in their benefits under the Plan.

Contributions: The Company intends to contribute, at a minimum, amounts necessary to provide the Plan with sufficient assets to meet or exceed the minimum funding requirements under ERISA. Company contributions, if any, made for the 2015 and 2014 plan years, met or exceeded the ERISA minimum funding requirements.

Benefits: Plan benefits are equal to the sum of prior plan benefits plus cash balance pension benefits. Under the cash balance formula, a separate account was established for each participant in the Plan. The interest credited to the cash balance accounts is indexed to the one-year constant maturity yield published by the Federal Reserve as in effect on the last business day of the preceding plan year, subject to a 12% maximum. Various minimum benefits and prior plan benefits also apply. The Plan permits early retirement with reduced benefits at age 55 with 15 or more years of service.

Various pre-retirement and post-retirement death benefits are payable under the Plan. In general, benefits are distributed in the form of monthly payments or in certain circumstances a lump-sum distribution, as defined by the Plan. Effective September 1, 2014, the Plan was amended to allow lump-sum payments of a participant's entire Plan benefit for all types of benefits. The actuarial present value of accumulated plan benefits at December 31, 2014 does reflect the effect of this amendment.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting: The financial statements of the Plan are prepared on the accrual basis of accounting.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Adoption of New Accounting Standards: In July 2015 the FASB amended various disclosure requirements applicable to investments held by defined benefit pension plans. The new guidance eliminates or simplifies various disclosure requirements applicable to plan investments. Adoption of the new guidance resulted in the reporting of investments within the fair value hierarchy by general type rather than by classes of investments, and other changes in investment disclosure requirements. The Plan elected to early adopt this standard which requires retrospective application to all periods presented. The adoption of this standard had no effect on the Plan's net assets available for benefits or changes therein.

Expenses: Certain expenses of administering the Plan, principally actuarial fees, accounting fees and some investment management fees, are paid by the Plan. These costs are reflected on the accompanying financial statements. Other administrative expenses, such as legal fees and miscellaneous costs, are paid by the Company and are not reflected in the accompanying financial statements. Investment management fees are charged to the Plan as a reduction of investment return and included in the investment income reported by the Plan.

Use of Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Benefit Payments: Benefits are recorded when paid.

Risks and Uncertainties: The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, liquidity and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption processes, it is at least reasonably possible that changes in these estimates and assumptions in the near term could materially affect the amounts reported and disclosed in the financial statements.

Investment Valuation and Income Recognition: The Plan's investments are reported at fair value. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Fair value is defined as the price that would be received by the Plan for an asset or paid by the Plan to transfer a liability (an exit price) in an orderly transaction between market participants on the measurement date in the Plan's principal or most advantageous market for the asset or liability. Fair value measurements are determined by maximizing the use of observable inputs and minimizing the use of unobservable inputs. The hierarchy places the highest priority on unadjusted quoted market prices in active markets for identical assets or liabilities (Level 1 measurements) and gives the lowest priority to unobservable inputs (Level 3 measurements). The three levels of inputs within the fair value hierarchy are defined as follows:

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the Plan has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect the Plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

In some cases, a valuation technique used to measure fair value may include inputs from multiple levels of the fair value hierarchy. The lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy.

The following descriptions are of the valuation methods and assumptions used by the Plan to estimate the fair values of investments.

Mutual funds: The fair values of mutual fund investments are determined by obtaining quoted prices on nationally recognized securities exchanges (Level 1 inputs).

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Investments measured at fair value on a recurring basis are summarized below:

	Fair Value Measurements at December 31, 2015 Using Quoted Prices in Active Markets for Identical Assets (Level 1)	Fair Value Measurements at December 31, 2014 Using Quoted Prices in Active Markets for Identical Assets (Level 1)
Investments		
Mutual funds	\$ 37,021,784	\$ 40,087,388

NOTE 3 - ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to retired or terminated employees or their beneficiaries, beneficiaries of employees who have died, and present eligible employees or their beneficiaries. Benefits under the Plan are based on the accumulation of the cash balance account as well as frozen prior plan benefits. Benefits payable under all circumstances (retirement, death, full and permanent disability, and termination of employment) are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

NOTE 3 - ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS (Continued)

The actuarial present value of accumulated plan benefits is determined by actuaries from Towers Watson, the Plan's actuary and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, full and permanent disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The more significant actuarial assumptions used by the Plan's actuaries to arrive at the valuations of the Plan as of December 31, 2014 and 2013 are as follows:

Assumed rate of return	7.75%
Mortality basis	RP/MP 2014
Retirement age	Rates vary by age, ranging from 3% (age 55) to 25% (age 65) to 100% (age 69)
Cash balance crediting rate	2.50%

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The \$83,679 decrease due to assumption changes for the year ended December 31, 2013 is attributable to the use of updated mortality assumptions from the IRS 2013 prescribed table to the sex-distinct RP2014 mortality tables with no collar or quartile adjustments, projected generationally with scale MP2014 and the cash balance crediting rate being decreased to 2.50% from 3.25%. There were no changes in assumptions for the year ended December 31, 2014.

NOTE 4 - INVESTMENTS (UNAUDITED INFORMATION)

Vanguard Fiduciary Trust Company, the Trustee of the Plan, holds investment assets and executes transactions therein, and substantially all information pertaining to the Plan's investments included in the financial statements, including the associated investment income (loss), has been certified by them. This information has not been audited by independent accountants.

NOTE 5 - PARTY-IN-INTEREST TRANSACTIONS

Parties-in-interest are defined under Department of Labor regulations as any fiduciary of the Plan, any party rendering services to the Plan, the employer, and certain others. The investments held by the Plan at December 31, 2015 and 2014 are shares of mutual funds managed by Vanguard Group, Inc. Vanguard Fiduciary Trust Company is a wholly-owned subsidiary of the Vanguard Group, Inc. Vanguard Fiduciary Trust Company is the Trustee, as defined by the Plan, therefore, these investments and investment transactions qualify as party-in-interest transactions. Amounts paid by the Plan to parties-in-interest included fees for investment management, actuarial, audit and trustee services. However, these investments and transactions are not considered prohibited transactions.

NOTE 6 - PLAN TERMINATION

The Company has the right to terminate the Plan at any time within the constraints of ERISA and the Internal Revenue Code. In the event the Plan terminates, the net assets of the Plan will be allocated as prescribed in the Plan document and by ERISA and its related regulations. Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation ("PBGC") if the Plan terminates. However, benefit improvements attributable to plan amendments may not be fully guaranteed by the PBGC. Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits and may also depend on the level of benefits guaranteed by the PBGC.

NOTE 7 - INCOME TAX STATUS

The Plan has received a determination letter from the Internal Revenue Service dated July 28, 2016 stating that the Plan is qualified under 401(a) of the Internal Revenue Code (the "Code"), and therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. Although the Plan has been amended since receiving the determination letter, Plan management believes that the Plan is designed and being operated in compliance with the applicable requirements of the Code and therefore, they believe the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States require Plan management to evaluate tax positions taken by the Plan. The plan administrator has analyzed tax positions taken by the Plan, and has concluded that as of December 31, 2015 and 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing authorities; however, there are currently no audits for any tax periods in progress. The Plan is subject to federal income tax examinations for all periods subsequent to its inception.

NOTE 8 - SUBSEQUENT EVENTS

The Plan name was changed to the Hyster-Yale Group, Inc. Pension Plan for Non-Union Employees effective January 1, 2016 in conjunction with the change of the Company name to Hyster-Yale Group, Inc.

Plan management has evaluated subsequent events for recognition and disclosure through October 6, 2016, which is the date the financial statements were available to be issued.

NOTE 9 - DECEMBER 31, 2015 ACTUARIAL VALUATION (UNAUDITED)

The December 31, 2015 actuarial valuation was completed prior to the release of the financial statements. A summary of the actuarial valuation information provided by the Plan's actuary, which has not been audited by independent accountants, is provided below for informational purposes.

Actuarial present value of accumulated plan benefits:

Vested benefits:

Participants currently receiving payments	\$ 11,124,826

Total vested benefits	29,995,615

Nonvested benefits	<u>62,264</u>
--------------------	---------------

Total actuarial present value of accumulated plan benefits	<u>\$ 30,057,879</u>
---	-----------------------------

The change in actuarial present value of accumulated plan benefits for the plan year ended December 31, 2015 consists of the following:

Actuarial present value of plan benefits at beginning of the year	\$ 31,280,944
Net actuarial losses	(3,284)
Increase due to decrease in the discount period	2,286,304
Benefits paid	(3,628,197)
Assumption changes	<u>122,112</u>

Actuarial present value of plan benefits at end of the year	<u>\$ 30,057,879</u>
--	-----------------------------

The \$122,112 increase in the present value of accumulated plan benefits in 2015 that is due to the change in actuarial assumptions was attributed to the change in the assumed rate of return to 7.50% in 2015 from 7.75% in 2014 offset by the change to the mortality improvement scale to MP-2015.

Methods

Valuation date First day of plan year

Funding target Present value of accrued benefits as required by regulations under IRC §430.

Target normal cost Present value of benefits expected to accrue during the plan year plus plan-related expenses expected to be paid from plan assets during the plan year as required by regulations under IRC §430 (based on actual expenses paid in previous year; \$171,012 for plan year 2015).

Actuarial value of assets Average of the fair market value of assets on the valuation date and the five immediately preceding months, adjusted for contributions, benefits, administrative expenses and expected investment returns, including contributions receivable. The average asset value must be within 10% of market value, including discounted contributions receivable.

The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.

Benefits not valued All benefits described in the Plan Provisions section of this report were valued except for disability benefits which are determined to be immaterial. Willis Towers Watson has reviewed the plan provisions with HYG and, based on that review, is not aware of any significant benefits required to be valued that were not.

Data Sources

Willis Towers Watson used asset data supplied by the trustee. HYG furnished participant data as of the valuation date. Data were reviewed for reasonableness and consistency, but no audit was performed. Based on discussions with the company, assumptions or estimates were made when data were not available. We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

Assumptions Rationale - Significant Economic Assumptions

Discount rate	The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.
Cash balance interest crediting rate	The plan credits interest to cash balance accounts using the sum of 1% plus one-year constant maturity yield published by the Federal Reserve as in effect on the last business day of the preceding plan year. HYG has selected an expected future one-year constant maturity yield of 1.50%. After examining historical variability in this rate, we believe that the selected assumption does not significantly conflict with what would be reasonable based on a combination of market conditions at the measurement date and future expectations consistent with other economic assumptions used, other than the discount rate.
IRC §417(e) form of payment conversion rate	As required by IRC §430, lump sum benefits are valued using "annuity substitution", so that the interest rates assumed are effectively the same as described above for the discount rate.
Administrative Expenses	Administrative expenses are estimated as the actual expenses paid from the trust the preceding year.

Assumptions Rationale - Significant Demographic Assumptions

Healthy Mortality	Assumptions were selected by the plan sponsor from among choices prescribed by law and represent a best estimate of future experience.
Disabled Mortality	Assumptions were selected by the plan sponsor from among choices prescribed by law and represent a best estimate of future experience.

Source of Prescribed Methods

Funding methods The methods used for funding purposes as described herein, including the method of determining plan assets, are “prescribed methods set by law”, as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.

Changes in Assumptions and Methods

Changes in assumptions since prior valuation The interest rates used to calculate the funding target and to convert IRC §417(e) based forms of payments were updated from the segment rates as of October 2013 to the segment rates as of October 2014.

The mortality table used to calculate the funding target and target normal cost was updated to include one additional year of projected mortality improvements.

Assumed plan-related expenses of \$171,012 were added to the target normal cost (as compared to \$221,522 for plan year 2014).

Change in methods since prior valuation None.

Disablement Monthly benefit determined as of disability date, reduced for commencement before 65.

Preretirement death Monthly preretirement spouse benefit is payable.

Other Plan Provisions

Forms of payment Monthly pension benefits are paid as a life annuity in the amount described above, if the participant has no spouse as of the date payments begin, or if the participant so elects. Otherwise, benefits are paid in the form of the actuarially equivalent 50% joint and survivor annuity option or, if the participant elects and the spouse consents, another actuarially equivalent optional form offered by the plan. Optional forms are a 100% joint and survivor annuity, a 5-, 10- or 15-year certain and life annuity, a 5-, 10- or 15-year certain annuity, or a lump sum.

Conversion factors for optional forms of payment For the cash balance portion, the applicable interest rate(s) and mortality table.

For the prior plan benefit, 7.50% and the 1971 TPF&C Mortality Table for males set back six years for beneficiaries.
