SCHENCK PROCESS 401(K) RETIREMENT SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

(1) Description of plan

The following description of the Schenck Process 401(k) Retirement Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan document or Summary Plan Description for a more complete description of the Plan's provisions, which are available from the plan administrator.

General - The Plan is a defined contribution plan sponsored by Schenck Process LLC (the "Company") covering all eligible employees who are age eighteen or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Plan is administered by the Company's Retirement Savings Plan Committee ("Committee"), which is a committee comprised of managers and employees of the Company. The Committee determines the appropriateness of the Plan's investment offerings, monitors investment performance and reports to the Company President/CEO.

Plan amendments - Effective January 1, 2014, the Plan was amended as follows:

- The Company matching contribution was changed to a safe harbor matching contribution. The Company began matching 100% of the first 3% of eligible compensation contributed to the Plan and 50% of the next 2%,
- The Company also began matching on catch up contributions, and
- The contribution period for purposes of calculating the amount of the Company matching contribution changed to a plan year basis.

Effective January 1, 2015, the Plan was amended as follows:

- The eligibility requirements were amended to add a three month service requirement to be eligible to participate in the Plan,
- The entry dates were removed and participants will be allowed immediate entry upon meeting the eligibility requirements, and
- The contribution period for purposes of calculating the amount of Company matching contribution was changed to a payroll period basis.

Contributions - Participants may contribute up to 60% of annual compensation as pre-tax contributions, as defined in the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Additionally, participants age 50 or older, who are making contributions to the Plan, are allowed to make catch-up contributions as defined in the Plan. For the years ended December 31, 2015 and 2014, the Company made a matching contribution of 100% of the first 3% of eligible compensation contributed to the Plan and 50% of the next 2% that a participant contributed. Additional Company profit sharing contributions are permitted by the Plan and are discretionary as determined by the Company's management. No profit sharing contributions were made for the years ended December 31, 2015 and 2014. Additional amounts may be contributed at the option of the Company. Contributions are subject to certain Internal Revenue Code ("IRC") limitations.

(1) Description of plan (continued)

Participant investment account options - Participants direct the investment of all contributions into various investment options offered by the Plan. The Plan currently offers a money market fund and 14 mutual funds as investment options for participants.

Participant accounts - Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution (if any), (b) plan earnings, and charged with an allocation of administrative expenses. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting - Participants are immediately 100% vested in all contributions.

Notes receivable from participants - Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at rates which are commensurate with local prevailing rates as determined by the plan administrator. Principal and interest are paid ratably through payroll deductions.

Payment of benefits - Participants who have an account balance over $5,000, upon termination of service, may maintain their account. If the participant's vested account balance is between $1,000 and $5,000, following termination in the absence of a distribution election, the participant's account balance is rolled to a Fidelity IRA. If the participant's vested account balance is less than $1,000, following termination in the absence of a distribution election, a lump sum payment will automatically be issued. Also, the Plan allows hardship withdrawals for participants who have an immediate and heavy financial need.

(2) Summary of significant accounting policies

Basis of accounting - The financial statements of the Plan are prepared on the accrual method of accounting.

Use of estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

New accounting pronouncement - In July 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2015-12, "*Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part Ill) Measurement Date Practical Expedient.*" Part I of the ASU eliminates the requirements to measure the fair value of fully benefit-responsive investment contracts and provide certain disclosures.

(2) Summary of significant accounting policies (continued)

New accounting pronouncement (continued) - Contract value is the only required measure for fully benefit-responsive investment contracts. Part II of this ASU eliminates the requirements to disclose individual investments that represent 5 percent or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. It also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics, and risk. Further the disclosure of information about fair value measurements shall be provided by general type of investment. Part III of this ASU allows a plan with a fiscal year end that does not coincide with the end of a calendar month to measure its investments and investment-related accounts using the month end closest to its fiscal year end. The guidance is effective for fiscal years beginning after December 15, 2015 and early adoption is permitted. The guidance on fully benefit-responsive investment contracts and plan investment disclosures must be applied retrospectively. The guidance on measurement date practical expedient must be applied prospectively. Management elected to early adopt Part II of this new standard. Parts I and III are not applicable to the Plan.

Investment valuation and income recognition - Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's management determines the Plan's valuation policies utilizing information provided by the investment trustee. See Note 4 for discussions of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan’s gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants - Notes receivable from participants are measured at their unpaid principal balance plus accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of benefits - Benefits are recorded when paid.

Administrative expenses - Certain expenses of the Plan are paid by the Company and are not included in the statements of changes in net assets available for benefits. Fees related to the administration of notes receivable from participants are charged directly to the participant’s account and are included in administrative expenses. Investment related expenses are included in net appreciation (depreciation) of fair value of investments.

(3) Information prepared and certified by the trustee

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Fidelity Management Trust Company ("Fidelity"), the trustee of the Plan, has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate with respect to investments:

- Investments at fair value
- Notes receivable from participants
- Net appreciation (depreciation) in fair value of investments
- Interest
- Dividends
- Interest income on notes receivable from participants
- Schedule of assets (held at end of year)

The Plan's independent public accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

(4) Fair value measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the input to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB Accounting Standards Codification 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets; quoted prices for identical or similar assets and liabilities in inactive markets; inputs other than quoted market prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

(4) Fair value measurements (continued)

Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Money market fund and mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The money market fund and mutual funds held by the Plan are deemed to be actively traded.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2015 and 2014:

	Investments at Fair Value as of December 31, 2015			
	Level 1	Level 2	Level 3	Total
Money market fund	$ 3,503,459	$ -	$ -	$ 3,503,459
Mutual funds	34,219,507	-	-	34,219,507
Total assets in the fair value hierarchy	$ 37,722,966	$ -	$ -	$ 37,722,966

	Investments at Fair Value as of December 31, 2014			
	Level 1	Level 2	Level 3	Total
Money market fund	$ 3,173,426	$ -	$ -	$ 3,173,426
Mutual funds	33,316,145	-	-	33,316,145
Total assets in the fair value hierarchy	$ 36,489,571	$ -	$ -	$ 36,489,571

(5) Related party transactions and party-in-interest transactions

Certain Plan investments are shares of mutual funds and a money market fund managed by Fidelity. Fidelity is the trustee as defined by the Plan and therefore, these transactions qualify as party-in-interest transactions. Fees incurred by the plan for the investment management services are included in net appreciation (depreciation) in fair value of the investments, as they are paid through revenue sharing, rather than a direct payment. As described in Note 2, the Plan made direct payments to Fidelity of $67,557 and $13,406 for the years ended December 31, 2015 and 2014, respectively, which was not covered by revenue sharing. The Plan paid expenses related to Plan operations and investment activity to various service providers. These transactions are party-in-interest transactions. The Plan Sponsor pays directly any other expenses related to the Plan's operations.

(6) Plan termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

(7) Reconciliation of financial statements to Schedule H of Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2015 and 2014 to Form 5500:

	December 31,	
	2015	2014
Net assets available for benefits per the financial statements	$ 38,165,355	$ 36,961,633
Employer contributions receivable	-	(11,018)
Net assets available for benefits per Schedule H of the Form 5500	$ 38,165,355	$ 36,950,615

(7) Reconciliation of financial statements to Schedule H of Form 5500 (continued)

The following is a reconciliation of net increase before plan transfers per the financial statements for the years ended December 31, 2015 and 2014 to Form 5500:

	Years Ended December 31,	
	2015	2014
Net increase before plan transfers per the financial statements	$ 1,203,722	$ 1,866,600
Employer contributions receivable	-	(11,018)
Excess contributions refundable-prior year	-	(14,425)
Net increase per Form 5500	$ 1,203,722	$ 1,841,157

(8) Tax status

The Internal Revenue Service ('IRS") has determined that the volume submitter defined contribution plan document is designed in accordance with applicable sections of the IRC and informed the trustee of such in a letter dated March 31, 2008. The plan administrator has adopted the volume submitter defined contribution plan document. Although the Plan has been amended since receiving the opinion letter, the plan administrator believes that the Plan is currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

(9) Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

(10) Subsequent events

The Plan has evaluated subsequent events through September 16, 2016, which is the date the financial statements were available to be issued and noted the following items for disclosure:

During 2016, the Plan was amended and restated as follows:

- The Plan was restated to comply with the requirements of the Pension Protection Act of 2006. Along with this restatement, the Plan received a new opinion letter dated March 31, 2014.
- The Plan was amended to clarify the definition of compensation.

Additionally, during 2016 several Target Date Funds were added as investment options for Participants.

We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained certifications from the trustee as of December 31, 2015 and 2014 and for the years then ended, that the information provided to the plan administrator by the trustee is complete and accurate.

SCHENCK PROCESS 401(K) RETIREMENT SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

(1) Description of plan

The following description of the Schenck Process 401(k) Retirement Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan document or Summary Plan Description for a more complete description of the Plan's provisions, which are available from the plan administrator.

General - The Plan is a defined contribution plan sponsored by Schenck Process LLC (the "Company") covering all eligible employees who are age eighteen or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Plan is administered by the Company's Retirement Savings Plan Committee ("Committee"), which is a committee comprised of managers and employees of the Company. The Committee determines the appropriateness of the Plan's investment offerings, monitors investment performance and reports to the Company President/CEO.

Plan amendments - Effective January 1, 2014, the Plan was amended as follows:

- The Company matching contribution was changed to a safe harbor matching contribution. The Company began matching 100% of the first 3% of eligible compensation contributed to the Plan and 50% of the next 2%,
- The Company also began matching on catch up contributions, and
- The contribution period for purposes of calculating the amount of the Company matching contribution changed to a plan year basis.

Effective January 1, 2015, the Plan was amended as follows:

- The eligibility requirements were amended to add a three month service requirement to be eligible to participate in the Plan,
- The entry dates were removed and participants will be allowed immediate entry upon meeting the eligibility requirements, and
- The contribution period for purposes of calculating the amount of Company matching contribution was changed to a payroll period basis.

Contributions - Participants may contribute up to 60% of annual compensation as pre-tax contributions, as defined in the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Additionally, participants age 50 or older, who are making contributions to the Plan, are allowed to make catch-up contributions as defined in the Plan. For the years ended December 31, 2015 and 2014, the Company made a matching contribution of 100% of the first 3% of eligible compensation contributed to the Plan and 50% of the next 2% that a participant contributed. Additional Company profit sharing contributions are permitted by the Plan and are discretionary as determined by the Company's management. No profit sharing contributions were made for the years ended December 31, 2015 and 2014. Additional amounts may be contributed at the option of the Company. Contributions are subject to certain Internal Revenue Code ("IRC") limitations.

(1) Description of plan (continued)

Participant investment account options - Participants direct the investment of all contributions into various investment options offered by the Plan. The Plan currently offers a money market fund and 14 mutual funds as investment options for participants.

Participant accounts - Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution (if any), (b) plan earnings, and charged with an allocation of administrative expenses. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting - Participants are immediately 100% vested in all contributions.

Notes receivable from participants - Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at rates which are commensurate with local prevailing rates as determined by the plan administrator. Principal and interest are paid ratably through payroll deductions.

Payment of benefits - Participants who have an account balance over $5,000, upon termination of service, may maintain their account. If the participant's vested account balance is between $1,000 and $5,000, following termination in the absence of a distribution election, the participant's account balance is rolled to a Fidelity IRA. If the participant's vested account balance is less than $1,000, following termination in the absence of a distribution election, a lump sum payment will automatically be issued. Also, the Plan allows hardship withdrawals for participants who have an immediate and heavy financial need.

(2) Summary of significant accounting policies

Basis of accounting - The financial statements of the Plan are prepared on the accrual method of accounting.

Use of estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

New accounting pronouncement - In July 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2015-12, "*Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part Ill) Measurement Date Practical Expedient.*" Part I of the ASU eliminates the requirements to measure the fair value of fully benefit-responsive investment contracts and provide certain disclosures.

(2) Summary of significant accounting policies (continued)

New accounting pronouncement (continued) - Contract value is the only required measure for fully benefit-responsive investment contracts. Part II of this ASU eliminates the requirements to disclose individual investments that represent 5 percent or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. It also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics, and risk. Further the disclosure of information about fair value measurements shall be provided by general type of investment. Part III of this ASU allows a plan with a fiscal year end that does not coincide with the end of a calendar month to measure its investments and investment-related accounts using the month end closest to its fiscal year end. The guidance is effective for fiscal years beginning after December 15, 2015 and early adoption is permitted. The guidance on fully benefit-responsive investment contracts and plan investment disclosures must be applied retrospectively. The guidance on measurement date practical expedient must be applied prospectively. Management elected to early adopt Part II of this new standard. Parts I and III are not applicable to the Plan.

Investment valuation and income recognition - Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's management determines the Plan's valuation policies utilizing information provided by the investment trustee. See Note 4 for discussions of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan’s gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants - Notes receivable from participants are measured at their unpaid principal balance plus accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of benefits - Benefits are recorded when paid.

Administrative expenses - Certain expenses of the Plan are paid by the Company and are not included in the statements of changes in net assets available for benefits. Fees related to the administration of notes receivable from participants are charged directly to the participant’s account and are included in administrative expenses. Investment related expenses are included in net appreciation (depreciation) of fair value of investments.

(3) Information prepared and certified by the trustee

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Fidelity Management Trust Company ("Fidelity"), the trustee of the Plan, has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate with respect to investments:

- Investments at fair value
- Notes receivable from participants
- Net appreciation (depreciation) in fair value of investments
- Interest
- Dividends
- Interest income on notes receivable from participants
- Schedule of assets (held at end of year)

The Plan's independent public accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

(4) Fair value measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the input to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB Accounting Standards Codification 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets; quoted prices for identical or similar assets and liabilities in inactive markets; inputs other than quoted market prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

(4) Fair value measurements (continued)

Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Money market fund and mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The money market fund and mutual funds held by the Plan are deemed to be actively traded.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2015 and 2014:

	Investments at Fair Value as of December 31, 2015			
	Level 1	Level 2	Level 3	Total
Money market fund	$ 3,503,459	$ -	$ -	$ 3,503,459
Mutual funds	34,219,507	-	-	34,219,507
Total assets in the fair value hierarchy	$ 37,722,966	$ -	$ -	$ 37,722,966

	Investments at Fair Value as of December 31, 2014			
	Level 1	Level 2	Level 3	Total
Money market fund	$ 3,173,426	$ -	$ -	$ 3,173,426
Mutual funds	33,316,145	-	-	33,316,145
Total assets in the fair value hierarchy	$ 36,489,571	$ -	$ -	$ 36,489,571

(5) Related party transactions and party-in-interest transactions

Certain Plan investments are shares of mutual funds and a money market fund managed by Fidelity. Fidelity is the trustee as defined by the Plan and therefore, these transactions qualify as party-in-interest transactions. Fees incurred by the plan for the investment management services are included in net appreciation (depreciation) in fair value of the investments, as they are paid through revenue sharing, rather than a direct payment. As described in Note 2, the Plan made direct payments to Fidelity of $67,557 and $13,406 for the years ended December 31, 2015 and 2014, respectively, which was not covered by revenue sharing. The Plan paid expenses related to Plan operations and investment activity to various service providers. These transactions are party-in-interest transactions. The Plan Sponsor pays directly any other expenses related to the Plan's operations.

(6) Plan termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

(7) Reconciliation of financial statements to Schedule H of Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2015 and 2014 to Form 5500:

	December 31,

(7) Reconciliation of financial statements to Schedule H of Form 5500 (continued)

The following is a reconciliation of net increase before plan transfers per the financial statements for the years ended December 31, 2015 and 2014 to Form 5500:

	Years Ended December 31,	
	2015	2014
Net increase before plan transfers per the financial statements	$ 1,203,722	$ 1,866,600
Employer contributions receivable	-	(11,018)
Excess contributions refundable-prior year	-	(14,425)
Net increase per Form 5500	$ 1,203,722	$ 1,841,157

(8) Tax status

The Internal Revenue Service ('IRS") has determined that the volume submitter defined contribution plan document is designed in accordance with applicable sections of the IRC and informed the trustee of such in a letter dated March 31, 2008. The plan administrator has adopted the volume submitter defined contribution plan document. Although the Plan has been amended since receiving the opinion letter, the plan administrator believes that the Plan is currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

(9) Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
