Notes to Financial Statements

1. Description of the Plan

The following description of the Ritrama, Inc. 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

The Plan was established on November 1, 1990. The Plan operates in accordance with Section 401(k) of the Internal Revenue Code.

General

The Plan is a defined contribution plan generally covering all eligible employees of Ritrama, Inc. (the Company) who have attained the age of 21 and have one month of service, as defined in the Plan. The Plan excludes certain non-resident aliens who have no earned income from sources within the United States, employees of any affiliated employer, as defined, other than those allowed by the Plan, and any member of a collective bargaining unit for who either (a) a separate retirement plan has been established or is contributed to pursuant to collective bargaining negotiations, or (b) no such separate plan has been established or is contributed to after collective bargaining which has included discussion of retirement benefits, unless such collective bargaining provided for coverage under this Plan. The Plan is subject to the provision of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

The Plan's administration costs, except the fees required for the Plan's annual audit, are absorbed by the Plan.

Contributions

Participants can elect to defer the lesser of 100% of compensation, as defined in the Plan, or the maximum permitted by the Internal Revenue Service.

The Plan is a "Safe Harbor Plan". The Company is required to make matching contributions equal to 100% of the participant's 401(k) deferrals up to 3% of compensation, and 50% of the participant's 401(k) deferrals from 3% to 5% of compensation. The matching contribution made on behalf of the participant cannot exceed 4% of compensation. The Plan allows for catch-up contributions for participants who are age 50 or older.

As of August 5, 2014, the Plan was amended for automatic enrollment. Any employee who is eligible to participate in the Plan will be automatically enrolled in the Plan at a 1% deferral rate. If the participant makes no further change to his/her deferral rate, then each year following the year in which the participant was automatically enrolled in the Plan, the participant's deferral rate will increase by 1% until a deferral rate of 10% has been attained. The participants have the option to "opt-out" of the Plan.

Ritrama, Inc. 401(k) Plan

Notes to Financial Statements

Participant Accounts

A separate account is maintained for each participant in the Plan reflecting participant and Company contributions and allocation of the Plan's earnings and losses. The net value of each participant's account is established at the close of each business day through the valuation of each fund's assets at market value. The Plan includes provisions whereby participants can direct investment of their account balances between many programs depending on their personal investment objectives. Participants can change their investment direction or transfer funds on a daily basis.

Vesting/Forfeitures

Participants are 100% vested as to their contributions and the Company's matching contributions. Prior to January 1, 2000, participants were vested after three years of service as to the employers matching contribution. During 2015 and 2014, there were \$-0- and \$11,663, respectively, in non-vested balances that were forfeited. As of December 31, 2015 and 2014, there was \$-0- and \$11,685 in forfeited balances, respectively, which is to be used to reduce future Employer contributions.

Payment of Benefits

Distributions from a participant's account are not permitted before age 59½ except in the event of death, disability, termination of employment, qualified domestic relations order, or financial hardship (including from rollover accounts), as defined in the Plan. Any distribution made without a qualifying event may be subject to a 10% federal tax penalty. Distributions may be made in the form of direct rollover or lump-sum cash distribution. Mandatory automatic cash out of vested balances of \$5,000 (\$1,000 prior to January 1, 2015) or less are permitted under the Plan.

Financial hardship withdrawals of the participant's voluntary 401(k) contributions are permitted in specialized circumstances of immediate and heavy financial need. A participant who receives a hardship distribution of voluntary contributions shall be prohibited from making elective deferrals for six months after receipt of distribution.

Notes Receivable from Participants

The Plan allows participants to borrow against their vested account balance in the Plan, at the discretion of the trustee. Participants may borrow up to the lesser of \$50,000 reduced by the highest outstanding loan balance during the prior one-year period, or one-half of their vested account balance. No loan of less than \$1,000 will be made. No more than one loan per participant may be outstanding at any time. The loans are payable over five years, unless used to acquire a principal residence. The loans are secured by the balance in the participants account and bear a fixed interest rate of prime plus 2% as of the loan date. The interest rate on all notes receivable from participants is 5.25%. Principal and interest is paid ratably through payroll deductions.

2. Summary of Significant Accounting Policies

Basis of Presentation

The accompanying financial statements have been prepared on an accrual basis and include recognition of net unrealized appreciation and depreciation of investments, which is included as a component of net appreciation in fair value of investments. The accounting records are maintained by a third party administrator engaged by the Plan sponsor, in conjunction with The Charles Schwab Trust Company (the trustee) who maintains the assets and distributes benefits.

Valuation of Investments

The Plan's investments are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchase and sales of securities are recorded on a trade-date basis. Interest income is recorded when received. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) in the fair value of investments includes the Plan's realized gains or losses and the unrealized appreciation or depreciation on those investments.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market volatility and credit. Due to the level of risk associated with certain investment securities, it is reasonably possible that change in the values of investment securities will occur in the near term and that such change could materially affect participants' account balances and the amounts reported in the Statement of Net Assets Available for Benefits.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Benefit Payments

Benefit payments to participants are recorded when paid.

Use of Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that effect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Recent Accounting Pronouncements

In May 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2015-07, Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities that Calculate Net Asset Value per Share (or its Equivalent). The amendments in this update remove the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value practical expedient. However sufficient information must be provided to permit reconciliation of the fair value of assets categorized within the fair value hierarchy to the amounts presented in the statement of financial position. The amendments also remove the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the net asset value per share practical expedient. The amendments in this update are effective for public business entities for fiscal years beginning after December 15, 2015. For all other entities, the amendments in this update are effective for fiscal years beginning after December 15, 2016. Early adoption is permitted. Upon adoption, the amendments shall be applied retrospectively to all periods presented. The Plan elected to early adopt ASU 2015-07 effective December 31, 2015. As a result of the adoption of ASU 2015-07, the Plan retrospectively modified its fair value disclosures.

In July 2015, the FASB issued ASU No. 2015-12 Part I Fully Benefit-Responsive Investment Contracts, Part II Plan Investment Disclosures and Part III Measurement Date Practical Expedient. The amendments in this update (1) requires a pension plan to use contract value as the only measure for fully benefit – responsive investment contracts, (2) simplifies and increases the effectiveness of the investment disclosure requirements for employee benefit plans, and (3) provides benefit plans with a measurement – date practical expedient similar to the practical expedient provided to employers in ASU 2015-04, Practical Expedient for the Measurement Date of an Employer’s Defined Benefit Obligation and Plan Assets. The amendments in this update are effective for fiscal years beginning after December 15, 2015. Early adoption is permitted. Upon adoption, the amendments in Part I and Part II shall be applied retrospectively to all periods presented, while amendments in Part III shall be applied prospectively. The Plan has chosen to adopt Parts I and II for the 2015 Plan year. Part III is not applicable to this Plan. The adoption of ASU 2015-12 did not have a material impact on our financial statements.

Upon adoption of ASU 2015-12, fully benefit-responsive investment contracts are measured, presented, and disclosed only at contract value.

Evaluation of Subsequent Events

The Plan has evaluated subsequent events through October 7, 2016, the date the financial statements were available to be issued, and has determined that there were no subsequent events that have occurred through that date to recognize or disclose in these financial statements.

3. Fair Value Measurements

The ASC *Fair Value Measurements and Disclosures* defines fair value and provides a framework for measuring fair value and expands disclosures about fair value measurements in accordance with accounting principles generally accepted in the United States of America.

Fair Value Measurement establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described below:

- Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2: Valuation is based upon quoted prices for similar instruments in active markets, quoted prices for identical or similar instruments in markets that are not active and model-based valuation techniques for which all significant assumptions are observable in the market.
- Level 3: Valuation is generated from model-based techniques that use significant assumptions not observable in the market. These unobservable assumptions reflect our own estimates of assumptions that market participants would use in pricing the asset or liability. Valuation techniques include the use of option pricing models, discounted cash flow models and similar techniques. The results cannot be determined with precision and may not be realized in an actual sale or immediate settlement of the asset or liability.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value.

Registered investment funds: Valued at the daily closing price as reported by the fund. Registered investment funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The registered investment funds held by the Plan are deemed to be actively traded.

Notes to Financial Statements

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date. There have been no changes in the methodologies used at December 31, 2015 and 2014.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value:

<i>As of December 31, 2015:</i>	Using Fair Value Measurements at Reporting Date			
	Level 1	Level 2	Level 3	Total

<i>As of December 31, 2014:</i>	Fair Value Measurements at Reporting Date Using

4. Investments (unaudited)

All investment information disclosed in the accompanying financial statements and supplemental schedule, including investments held at December 31, 2015 and 2014, net appreciation (depreciation) in fair value of investments, and interest and dividend income for the years ended December 31, 2015 and 2014, were obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by The Charles Schwab Trust Company, the trustee. As elected by the Plan administrator, no auditing procedures have been performed on this information except to compare such information included in the accompanying financial statements.

5. Tax Status

The Plan adopted a standardized prototype plan document sponsored by The Charles Schwab Trust Company. The Charles Schwab Trust Company obtained its latest determination letter from the Internal Revenue Service (IRS) dated June 19, 2014, which states that the prototype document satisfies the applicable requirements of the Internal Revenue Code (IRC). The Plan itself has not received a determination letter from the IRS. The Plan administrator believes that the Plan is currently designed and is being operated in compliance with the applicable requirements of the IRC. Therefore, the Plan administrator believes that the Plan is qualified and the related Trust established under the Plan is tax-exempt as of the financial statement date; and no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the tax authorities. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2015 and 2014 there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

6. Related Party Transactions

In 2015 and 2014, the Plan was under contract with an administrator (Schwab Retirement Services, Inc.) who is affiliated with the trustee of the Plan. Fees paid by the Plan for the administrative services provided were \$49,397 and \$15,162 in 2015 and 2014, respectively.

The Plan invests in the Schwab 1000 Index Fund, the Schwab International Index Fund, the Schwab Small Cap Index Fund and the Schwab Bank savings which are managed by The Charles Schwab Trust Company. The Charles Schwab Trust Company is the Trustee as defined in the Plan, and therefore this transaction qualifies as a party-in-interest transaction.

Notes receivable from participants also qualify as party-in-interest transactions.

7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA.
