D. Participant accounts

Each participant's account is credited with the participant's contributions and an allocation of the Company's contribution, Plan earnings and charged with an allocation of administrative expenses. Note 1 - Description of plan, continued

F. Participant-directed investments

Plan participants may select from various investment options offered by the Plan. Plan participants may also invest in mutual funds offered in the open market.

G. Payment of benefits

Upon a participant's retirement, death, total disability or termination, the account balance shall be distributed to the participant or beneficiary using one of several available benefit distribution methods.

H. Participant loans

The Plan allows eligible participants to borrow funds from the Plan. Under the terms of this provision, borrowings are subject to certain limitations, including a maximum aggregate borrowing. The period of repayment for any loan is generally determined by the amount of the loan. Interest rates are fixed at approximate market rates at the loan inception date.

I. Plan termination

Although they have not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA.

Note 2 - Summary of significant accounting policies

A. Basis of accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

B. Investment valuation and income recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Plan management determines the Plan's valuation policies utilizing information provided by the trustee and investment advisor. See Note 3 for a discussion of fair value measurements.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

C. Payment of benefits

Benefit payments to participants are recorded upon distribution.

D. Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

E. Participant loans receivable

Loans to participants are reported at their unpaid principal balances plus any accrued but unpaid interest. Delinquent participant loans are reclassified as benefits paid to participants based on the terms of the Plan document.

F. Subsequent events

Plan management has evaluated events and transactions for potential recognition or disclosure in the financial statements through September 14, 2016, the date on which the financial statements were available to be issued.

G. Change in accounting principles

In May 2015, the Financial Accounting Standards Board (FASB) issued ASU 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)*, which exempts investments measured using the net asset value (NAV) practical expedient in ASC 820, *Fair Value Measurement*, from categorization within the fair value hierarchy and certain related disclosures. This ASU requires presentation of the carrying amount of investments measured at the NAV practical expedient as a reconciling item between the total amount of investments categorized within the fair value hierarchy and total investments measured at fair value on the face of the financial statements. The guidance requires retrospective application and is effective for fiscal years beginning after December 15, 2016. Early adoption is permitted. Management elected to early adopt the provisions of this new standard and the amendment was retrospectively applied.

In July 2015, FASB issued ASU 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient*. Part I eliminates the requirements to measure the fair value of fully benefit-responsive investment contracts and provide certain disclosures. Contract value is the only required measure for fully benefit-responsive investment contracts. Part II eliminates the requirements to disclose individual investments that represent 5% or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. Part II also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics and risks. Further, the disclosure of information about fair value measurements shall be provided by general type of plan asset.

G. Change in accounting principle, continued

The ASU is effective for fiscal years beginning after December 15, 2015, with early adoption permitted. Parts I and II are to be applied retrospectively and Part III prospectively. Management elected to early adopt Part II of this new standard and the amendments were retrospectively applied. Parts I and III are not applicable to the Plan.

Note 3 - Fair value measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Mutual funds: Valued at the daily closing price as reported by the fund.

Money market fund: Valued at the quoted daily closing price as reported by the fund.

Common trust fund: Valued at the net asset value (NAV) of shares held by the Plan. The NAV is used as a practical expedient to estimate fair value.

Participant-directed brokerage accounts: Primarily composed of mutual funds. Valued at the daily closing price as reported by the fund.

NOTES TO FINANCIAL STATEMENTS, CONTINUED December 31, 2015 and 2014

Note 4 - Tax status

The Plan is a prototype plan adopted from the prototype plan sponsor. The prototype plan sponsor has received a notification letter from the Internal Revenue Service which indicates that the form of the prototype plan is acceptable under the Internal Revenue Code. The Plan has not obtained their own determination letter from the Internal Revenue Service on the current Plan document. However, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, the plan administrator believes that the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

Note 5 - Plan financial information certified by trustee

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the information certified by the trustee, except for comparing such information, as summarized below, to the information included in the financial statements and supplemental schedule. The information certified by Fidelity Management Trust Company, the trustee, as complete and accurate, is as follows:

1. Investments and participant loans receivable as reported in the statements of net assets available for benefits;
2. Investment income (loss) and participant loans interest income as reported in the statement of changes in net assets available for benefits; and
3. Assets held at end of year

Note 6 - Transactions with parties-in-interest

Substantially all administrative expenses relating to the Plan are paid by the Company.

Certain plan investments are shares of mutual funds, a money market fund and a common trust fund managed by Fidelity Management Trust Company. Fidelity Management Trust Company is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. These transactions are not, however, considered prohibited transactions under 29 CFR 408(b) of the ERISA regulations. Administrative expenses paid by the Plan to the trustee amounted to \$4,038 for the year ended December 31, 2015.

Note 7 - Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

The Company matches 25% of participant's contributions up to 4% to participants of the OPEIU and USW collective bargaining units. The Company matches 25% of participant's contributions up to 6% to the non-collectively bargained participants as well as the participants of the IAM, UAJ and IBEW collective bargaining units. Effective April 1, 2015, the Company matches 25% of participant's contributions up to 5% to participants of the USW collective bargaining unit and the Company matches 25% of participant's contributions up to 6% to participants of the OPEIU collective bargaining unit.

C. Transfers from qualified plans (rollovers)

At the discretion of the Plan Administrator, participants may be permitted to deposit distributions received from other plans into the Plan. Such a deposit is referred to as a "rollover." Participants are always 100% vested in their "rollover" account.

D. Participant accounts

Each participant's account is credited with the participant's contributions and an allocation of the Company's contribution, Plan earnings and charged with an allocation of administrative expenses. Allocations are based on participant compensation, hours or account balances. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

E. Vesting

Participants are 100% vested upon entering the Plan.

F. Participant-directed investments

Plan participants may select from various investment options offered by the Plan. Plan participants may also invest in mutual funds offered in the open market.

G. Payment of benefits

Upon a participant's retirement, death, total disability or termination, the account balance shall be distributed to the participant or beneficiary using one of several available benefit distribution methods.

H. Participant loans

The Plan allows eligible participants to borrow funds from the Plan. Under the terms of this provision, borrowings are subject to certain limitations, including a maximum aggregate borrowing. The period of repayment for any loan is generally determined by the amount of the loan. Interest rates are fixed at approximate market rates at the loan inception date.

I. Plan termination

Although they have not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA.

Note 2 - Summary of significant accounting policies

A. Basis of accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

B. Investment valuation and income recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Plan management determines the Plan's valuation policies utilizing information provided by the trustee and investment advisor. See Note 3 for a discussion of fair value measurements.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

C. Payment of benefits

Benefit payments to participants are recorded upon distribution.

D. Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

E. Participant loans receivable

Loans to participants are reported at their unpaid principal balances plus any accrued but unpaid interest. Delinquent participant loans are reclassified as benefits paid to participants based on the terms of the Plan document.

F. Subsequent events

Plan management has evaluated events and transactions for potential recognition or disclosure in the financial statements through September 14, 2016, the date on which the financial statements were available to be issued.

G. Change in accounting principles

In May 2015, the Financial Accounting Standards Board (FASB) issued ASU 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)*, which exempts investments measured using the net asset value (NAV) practical expedient in ASC 820, *Fair Value Measurement*, from categorization within the fair value hierarchy and certain related disclosures. This ASU requires presentation of the carrying amount of investments measured at the NAV practical expedient as a reconciling item between the total amount of investments categorized within the fair value hierarchy and total investments measured at fair value on the face of the financial statements. The guidance requires retrospective application and is effective for fiscal years beginning after December 15, 2016. Early adoption is permitted. Management elected to early adopt the provisions of this new standard and the amendment was retrospectively applied.

In July 2015, FASB issued ASU 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient*. Part I eliminates the requirements to measure the fair value of fully benefit-responsive investment contracts and provide certain disclosures. Contract value is the only required measure for fully benefit-responsive investment contracts. Part II eliminates the requirements to disclose individual investments that represent 5% or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. Part II also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics and risks. Further, the disclosure of information about fair value measurements shall be provided by general type of plan asset.

G. Change in accounting principle, continued

The ASU is effective for fiscal years beginning after December 15, 2015, with early adoption permitted. Parts I and II are to be applied retrospectively and Part III prospectively. Management elected to early adopt Part II of this new standard and the amendments were retrospectively applied. Parts I and III are not applicable to the Plan.

Note 3 - Fair value measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Mutual funds: Valued at the daily closing price as reported by the fund.

Money market fund: Valued at the quoted daily closing price as reported by the fund.

Common trust fund: Valued at the net asset value (NAV) of shares held by the Plan. The NAV is used as a practical expedient to estimate fair value.

Participant-directed brokerage accounts: Primarily composed of mutual funds. Valued at the daily closing price as reported by the fund.

NOTES TO FINANCIAL STATEMENTS, CONTINUED December 31, 2015 and 2014

Note 4 - Tax status

The Plan is a prototype plan adopted from the prototype plan sponsor. The prototype plan sponsor has received a notification letter from the Internal Revenue Service which indicates that the form of the prototype plan is acceptable under the Internal Revenue Code. The Plan has not obtained their own determination letter from the Internal Revenue Service on the current Plan document. However, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, the plan administrator believes that the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

Note 5 - Plan financial information certified by trustee

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the information certified by the trustee, except for comparing such information, as summarized below, to the information included in the financial statements and supplemental schedule. The information certified by Fidelity Management Trust Company, the trustee, as complete and accurate, is as follows:

1. Investments and participant loans receivable as reported in the statements of net assets available for benefits;
2. Investment income (loss) and participant loans interest income as reported in the statement of changes in net assets available for benefits; and
3. Assets held at end of year

Note 6 - Transactions with parties-in-interest

Substantially all administrative expenses relating to the Plan are paid by the Company.

Certain plan investments are shares of mutual funds, a money market fund and a common trust fund managed by Fidelity Management Trust Company. Fidelity Management Trust Company is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. These transactions are not, however, considered prohibited transactions under 29 CFR 408(b) of the ERISA regulations. Administrative expenses paid by the Plan to the trustee amounted to \$4,038 for the year ended December 31, 2015.

Note 7 - Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.
