The minimum safe harbor contribution for the years ended December 31, 2015 and 2014 was 3%. In addition during the years ended December 31, 2015 and 2014, the employer also made a 3% discretionary profit sharing contribution. Total employer contributions in 2015 and 2014 were approximately $302,000 and $316,000, of which $29,000 and $0 were funded by forfeitures, respectively. Of those amounts the safe harbor contributions amounted to approximately $151,000 and $159,000, respectively and the balance was the discretionary contribution. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). Participants direct the investment of their contributions into various investment options offered by the plan. Contributions are subject to certain IRS limitations.

3. *Participant Accounts.* Each participant's account is credited with the participant's contributions and Credit Union's safe harbor contributions and profit sharing contributions, as applicable, as well as allocations of plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

4. *Vesting.* Participants are vested immediately in their contributions and the safe harbor contributions plus actual earnings thereon. Vesting in the Credit Union's discretionary contribution portion of their accounts is based on years of continuous service. A participant is 100% vested after six years of credited service.

5. *Notes receivable from participants.* Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at a reasonable rate as determined by the plan administrator. The interest rate on loans outstanding in 2015 and 2014 ranged from 3.50% to 4.25%. Principal and interest is paid ratably through payroll deductions.

NOTE A – DESCRIPTION OF PLAN (continued)

6. *Payment of Benefits.* Upon attaining age 59 ½ or upon termination of service due to death, disability, or retirement, a participant may elect to receive the value of the participant's vested interest in his or her account in either a lump-sum amount or as an annuity for that portion of the account that represents assets transferred into the plan from the Crescent Credit Union Money Purchase Pension Plan. Hardship withdrawals are allowed under the provisions of the plan and cannot exceed the amount required to meet the immediate financial need created by the hardship.

7. *Forfeited Accounts.* At December 31, 2015 and 2014, forfeited non-vested accounts totaled approximately $29,000 and $24,000, respectively. These accounts will be used to pay plan expenses or reduce employer contributions. During 2015 approximately $6,700 was used to pay fees of the plan. Subsequent to December 31, 2015, approximately $29,000 was allocated to participant accounts as part of the 2015 employer contribution.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting
The financial statements of the plan are prepared under the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America.

Use of Estimates
The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Recent Accounting Pronouncements
In July 2015, the Financial Accounting Standards Board (FASB) released Accounting Standards Update (ASU) No. 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient* ("ASU 2015-12"). Part II eliminates the requirements to disclose individual investments that represent 5 percent or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. Part II also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics and risks. Further, the disclosure of information about fair value measurements shall be provided by general type of plan asset. Parts I and III are not applicable to the plan. The ASU is effective for fiscal years beginning after December 31, 2015, with early adoption permitted. Part II is to be applied retrospectively. The Plan elected to early adopt the applicable parts of ASU 2015-12.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Investment Valuation and Income Recognition
The Plan's investments are reported at fair value, including the common collective trust, which holds indirect investments in fully benefit responsive investment contracts. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The plan's Investment Committee determines the plan's valuation policies utilizing information provided by the investment advisors and custodian. See Note C for discussion of fair value measurements.

The Plan's shares of mutual funds are valued at quoted market prices which represent the net asset value (NAV) of shares held by the Plan at each year end. The investment in the common collective trust is valued at NAV per unit, as determined by the trustee at year end.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants
Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2015 or 2014. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payments of Benefits
Benefits are recorded when paid.

Expenses
Certain expenses of maintaining the plan are paid directly by the Credit Union and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation/(depreciation) of fair value of investments.

Reclassifications
Certain reclassifications were made to the 2014 financial statement presentation to conform to the 2015 financial statement presentation.

Subsequent Events
The Plan has evaluated subsequent events through the date of this report, the date the financial statements were available to be issued. There were no material subsequent events that required recognition or additional disclosure in these financial statements.

NOTE C – FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.
Level 2	Inputs to the valuation methodology include • quoted prices for similar assets or liabilities in active markets; • quoted prices for identical or similar assets or liabilities in inactive markets; • inputs other than quoted prices that are observable for the asset or liability; • inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

- *Mutual funds:* Valued at the daily closing price as reported by the fund. Mutual funds held by the plan are open-end mutual funds that are registered with the SEC. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the plan are deemed to be actively traded. (Level 1)

- *Common/ Collective Trust*: Value is determined by each fund's trustee based on the fair value of the underlying securities within the fund, which represent the net asset value of shares held by the plan at year end. The investment in the trust is a public investment security valued using the NAV provided by the fund's trustee. The NAV is quoted on a private market that is not active; however, the unit price is based on the underlying investments that are traded on an active market. The investment in the trust is carried at fair value based on the closing price in a publicly traded active market. Unit values are determined by dividing the fund's net assets at fair value by its units outstanding at the valuation dates (Level 2).

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE C – FAIR VALUE MEASUREMENTS (Continued)

The following table sets forth by level, within the fair value hierarchy, the plan's assets at fair value as of December 31, 2015 and 2014.

NOTE D – INVESTMENTS IN COMMON COLLECTIVE TRUST

The plan invests in investment contracts through a common collective trust, the Morley Stable Value 50 BP Fund, (the "Fund"). The objective of the Fund is to provide preservation of capital, relatively stable returns consistent with its comparatively low risk profile, and liquidity for benefit-responsive payments. The Fund seeks to achieve this objective by investing primarily in a variety of high quality stable value investment contracts as well as cash and cash equivalents.

The Fund includes guaranteed investment contracts (GICs) issued by insurance companies, wherein the contract holder does not participate in any gains and losses incurred due to the performance of the underlying portfolio relative to the book value at times of withdrawals. It also includes synthetic investment contracts, issued by insurance companies or banks, wherein the contract holder participates in gains and losses incurred due to the performance of the underlying portfolio relative to book value at times of withdrawals. Gains and losses are amortized through future crediting rate resets. The synthetic investment contracts are the most common structure utilized in the Fund. They are comprised of both investment and contractual components. The investment component consists of securities, or shares or units of a pooled portfolio of fixed income securities, referred to as the underlying investments. This investment component is "wrapped" by contracts issued by third party financial institutions. This wrap becomes the contractual component and provides for benefit withdrawals and investment exchanges at the full contract value notwithstanding the actual fair value of the underlying investments. In this manner, wrap contracts are designed to smooth out the impact of normal market fluctuations associated with the performance of the underlying investments.

NOTE D – INVESTMENTS IN COMMON COLLECTIVE TRUST (Continued)

Market value events may limit the ability of the Fund to transact at contract value with the issuer. Market value events are events or conditions, the occurrence of which, are outside of the normal operation of the Fund and lead to any Fund disbursements which have or will have a material adverse effect on the operations of the Fund and a financial effect on the investment contract or wrap issuer's interest hereunder. In the normal course of business, such events or conditions would not limit the ability of the Fund to transact at contract value with the participants in the Fund. The Fund is managed to maintain a certain amount of liquidity to provide for the day to day liquidity needs of participants as well as the occasional market value event.

An issuer can terminate an investment contract upon the event of default by the contract holder, advisor or Trustee if the issuer determines in its reasonable discretion, such event has had, or is likely to have a material adverse effect on the issuer's interest with respect to the contract.

Such events may include but are not limited to: management of the portfolio is not in accordance with investment guidelines, a breach of any material obligation under the wrap agreement, any representation or warranty made by the contract holder becomes untrue in any material way, a replacement of the advisor without prior consent of the issuer, the Fund is terminated or ceases to qualify as a group trust or plans cease to meet the appropriate tax qualifications, or the wrap becomes a prohibited transaction within the meaning of Section 406 of ERISA.

NOTE E – INFORMATION CERTIFIED BY TRUSTEE (UNAUDITED)

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Accordingly, Fidelity Management Trust Company, the trustee of the plan since August 1, 2014 and Reliance Trust Company, the trustee of the plan through July 31, 2014, have certified to the completeness and accuracy of all investments and activity reflected on the accompanying statements of net assets available for benefits as of December 31, 2015 and 2014 and the related investment activity reflected in the statements of changes in net assets available for benefits for the years ended December 31, 2015 and 2014, and supplemental Schedule H, line 4i – Schedule of Assets (Held at Year End) as of December 31, 2015.

NOTE F– TAX STATUS

The Plan has adopted a volume submitter profit-sharing plan with CODA sponsored by Fidelity Management Trust Company. That plan and related trust obtained its latest opinion letter dated March 31, 2014, in which the Internal Revenue Service stated that the plan and the related trust, as then designed, are in compliance with the applicable requirements of the Internal Revenue Code (IRC). Although, the plan has been amended since receiving that opinion letter, the plan administrator believes the plan is designed and is currently being operated in compliance with applicable requirements of the IRC and, therefore, believes that the plan is qualified, and the related trust is tax-exempt.

NOTE G – PARTY-IN-INTEREST TRANSACTIONS

Effective August 1, 2014, CBIZ Tofias became the third party administrator of the plan. Through July 31, 2014, United Retirement, Inc. provided certain record-keeping services to the plan. Fidelity Investments provides investment transaction services to the plan. Therefore, transactions between the plan, CBIZ Tofias, United Retirement, Inc. and Fidelity Investments qualify as party-in-interest transactions. Fees paid by the plan for record-keeping and investment transaction services amounted to approximately $6,200 and $8,400 for the years ended December 31, 2015 and 2014 plus additional amounts included as a reduction of the returns earned on the investments.

NOTE H - PLAN TERMINATION

Although it has not expressed any intent to do so, the Credit Union has the right under the plan to discontinue its contributions at any time and to terminate the plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100% vested in their employer contributions.

NOTE I - RISKS AND UNCERTAINTIES

The plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
