HEXION, INC. RETIREMENT SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2015 AND 2014

NOTE 1 – DESCRIPTION OF PLAN

The following description of the Hexion, Inc. Retirement Savings Plan, (the “Plan”) provides only general information. Participants should refer to the Plan document for more complete information.

General: The Plan is a defined contribution plan in which the majority of the U.S.-based associates of Hexion Inc. (“Hexion”, the “Plan Sponsor” or the “Company”), may participate. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”), as amended. The Plan was established in 1980 and is administered by the Global Benefits Committee appointed by the Board of Directors of the Company.

Eligibility: Newly hired associates become eligible to participate in the Plan upon completion of one hour of service.

Contributions: Newly hired associates completing one hour of service are passively enrolled in the Plan at a basic pre-tax savings contribution of 5%.

Highly Compensated Employees, as defined in the Plan, may make pre-tax and after-tax contributions of 1% to 15% of eligible compensation. All other participants may make pre-tax and after-tax contributions of 1% to 25% of eligible compensation, or as otherwise defined in the Plan document. Hexion provides associates with matching contributions on a per pay period basis. The match consists of 100% of the first 5% of eligible compensation deferred. In addition, Hexion associates who are eligible may also receive an Employer Achievement Match, a discretionary matching contribution equal to 25% of the participant's employer match, if the global performance targets set by the Board of Directors are met. The Plan also provides for true up matching contributions that take into account compensation on an annualized basis.

Unless otherwise provided for by a collective bargaining agreement, Hexion associates are eligible for an annual Employer Retirement Contribution (“ERC”), which is determined as a percentage of eligible compensation, based on years of service.

Participants can elect to have their contributions deducted on a tax deferred (pre-tax) or after-tax basis. The Plan allows for catch-up contributions in accordance with Internal Revenue Code Section 414(v).

Participant Accounts: Each participant's account is credited with the participant's own contributions and an allocation of the Employer's contributions and investment earnings, net of certain administrative expenses, and is charged with his or her withdrawals. Allocations are based on participant earnings, participant contributions or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the remainder of their accounts, including the earnings thereon, is based on years of continuous service.

Employer discretionary contributions and employer matching contributions made to non-bargained associates generally vest 100% upon the completion of three years of service. Vesting for certain associates' accounts may vary based the terms on collective bargaining agreements, as described in the Appendices to the Plan.

HEXION, INC. RETIREMENT SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2015 AND 2014

NOTE 1 – DESCRIPTION OF PLAN (Continued)

Forfeitures: Following termination of employment, any unvested portion of a participant's account is forfeited at the earlier of the time of distribution of the vested portion, or upon five consecutive one year breaks in service. Funds from forfeitures are first applied to reinstate the unvested account balance for rehired participants whose previous termination resulted in forfeiture and who are re-employed by the Employer prior to incurring five consecutive one year breaks in service. Any remaining forfeited funds may be used to fund future matching employer contributions. During 2015, forfeitures of \$611,422 were used to fund employer contributions.

Retirement, Death and Disability: Participants become 100% vested in their account balance upon the attainment of age 65 (normal retirement age), death or disability.

Investment Options: Upon enrollment in the Plan, participants can designate their contributions and Employer contributions to be invested in a combination of mutual funds, collective trust funds and a separately managed stable value fund. If the participant does not designate any funds, the account is invested in a Qualified Default Investment Account with a customized portfolio of investments based on the date the participant will attain age 65.

Investment Income: The investment income or loss for each fund is allocated proportionately to the participant accounts, on a daily basis, net of fees and expenses.

Administrative Expenses: Administrative fees paid by the Plan primarily represent trustee and recordkeeping expenses. The Company pays other costs of administering the Plan. Investment management fees and operating expenses charged to the Plan for plan investments are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses of the funds are reflected as a reduction of investment return for such investments.

The Plan's fee structure includes a per-participant administrative fee, which is charged by the Plan's trustee and recordkeeper on a quarterly basis. Under an agreement with the trustee and recordkeeper, the Plan receives revenue credits from certain mutual funds offered to participants which are used to pay administrative expenses. These credits will be used to pay record keeping expenses of the Plan. The Company expects to pay any record keeping fees in excess of revenue credits available. Revenue credits in excess of administrative expenses may be allocated to participant accounts at the election of the Plan Sponsor. For the year ended December 31, 2015, the Plan received \$190,178 in revenue credits, which have been recorded gross, as other income, in the statement of changes in net assets available for benefits.

Notes Receivable from Participants: Active Plan participants may elect to take loans from the Plan using their account as collateral and subject to the Loan Policy established by the Company and legal limitations. The loan repayment period is any multiple of months up to 60 months or up to 120 months for purchase of a primary residence. The fixed interest rate charged is the prime rate on the last day of the month prior to the inception of the loan.

Plan Termination: Although the Company has not expressed any intent to do so, it has the right under the Plan, to the extent permitted by law, to discontinue its contributions or to terminate the Plan in accordance with the provisions of ERISA at any time. The Company also has the right under the Plan, to the extent permitted by law, to amend or replace the Plan for any reason. In the event of termination of the Plan, which is at the sole discretion of the Board of Directors of the Company, all contributions credited to participants' accounts will be fully vested and will be distributed to the participants in the manner provided by the Plan.

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2015 AND 2014

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation: The financial statements of the Plan are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("GAAP"). Accordingly, revenues are recognized when earned and expenses are recognized when incurred.

Adoption of New Accounting Standards: In July 2015, the Financial Accounting Standards Board (FASB) amended existing guidance related to the measurement, reporting and disclosure of fully benefit-responsive investment contracts (FBRICs), and in May and July 2015 the FASB amended various other disclosure requirements applicable to investments held by defined contribution pension plans. The new guidance requires FBRICs to be measured, presented, and disclosed only at contract value. The new guidance also eliminates or simplifies various disclosure requirements applicable to plan investments. Adoption of the new guidance resulted in removal of FBRICs and investments for which fair value is measured at net asset value (or its equivalent) from the fair value hierarchy, the reporting of investments within the fair value hierarchy by general type rather than by classes of investments, and other changes in investment disclosure requirements. The Plan elected to early adopt these standards, each of which requires retrospective application to all periods presented. The adoption of these standards had no effect on the Plan's net assets available for benefits or changes therein. However, *Investments, at fair value* was reduced by \$48,488,121 from the amount previously reported as of December 31, 2014, the *Adjustment from fair value to contract value for fully benefit-responsive investment contracts* of \$385,242 as of December 31, 2014 was eliminated, and the net of these adjustments resulted in the recording of \$48,102,879 in *Investments, at contract value* as of December 31, 2014.

Notes Receivable from Participants: Notes receivable from participants are reported at their unpaid principal balance plus any accrued but unpaid interest, with no allowance for credit losses, as repayments of principal and interest are received through payroll deductions and the notes are collateralized by the participants' account balances.

Use of Estimates: The preparation of financial statements in conformity with GAAP requires Plan management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of Plan income and expenses during the reporting period. Actual results could differ from those estimates.

Risks and Uncertainties: The Plan invests in various investments. The Plan offers alternatives that mitigate participant risks, including the opportunity to diversify investments across numerous participant-directed fund elections; however the underlying investments are exposed to various risks, such as interest rate, market, liquidity, and credit risks. Due to the level of risks associated with certain investments and the sensitivity of certain fair value estimates to changes in valuation assumptions, it is at least reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits and participants' individual account balances.

Investment Valuation and Income Recognition: The Plan's investments other than fully benefit responsive investment contracts are reported at fair value. Fair value is the price that would be received by the Plan for an asset or paid by the Plan to transfer a liability (an exit price) in an orderly transaction between market participants on the measurement date in the Plan's principal or most advantageous market for the asset or liability. Contract value is the relevant measure for the Plan's fully benefit-responsive investment contracts, because contract value is the amount Plan participants generally receive when executing transactions under the terms of the contract and Plan provisions.

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2015 AND 2014

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Investment purchases and sales transactions are recognized on a trade-date basis. Dividends are recorded on the ex-dividend date and interest income is recognized on the accrual basis. The net appreciation (depreciation) in the fair value of investments consists of the realized gains or losses on the sales of investments and the unrealized appreciation (depreciation) of investments held during the year.

Fair value measurements are determined by maximizing the use of observable inputs and minimizing the use of unobservable inputs. The hierarchy places the highest priority on unadjusted quoted market prices in active markets for identical assets or liabilities (Level 1 measurements) and gives the lowest priority to unobservable inputs (Level 3 measurements). The three levels of inputs within the fair value hierarchy are defined as follows:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the Plan has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that are supported by little or no market activity that reflect the Plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

In some cases, a valuation technique used to measure fair value may include inputs from multiple levels of the fair value hierarchy. The lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy.

The following descriptions of the valuation methods and assumptions used by the Plan to estimate the fair values of investments apply to investments held directly by the Plan.

Mutual Funds: The fair values of mutual fund investments are determined by obtaining quoted prices on nationally recognized securities exchanges (level 1 inputs).

Collective Trusts The fair values of participation units held in collective trusts are based on the net asset values per unit as reported by the fund managers. Each collective trust held by the Plan provides for daily redemptions by the Plan at reported net asset values per share, with no advance notice requirement. No unfunded commitments exist for any of the collective trusts.

HEXION, INC. RETIREMENT SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2015 AND 2014

NOTE 3 – UNAUDITED INFORMATION – INVESTMENTS AND NOTES RECEIVABLE FROM PARTICIPANTS

The Plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to investment information certified by Fidelity Management Trust Company, except for comparing such information certified by the trustee to information included in the Plan's financial statements and supplemental schedules. Fidelity Management Trust Company has certified to the Plan administrator that the investments and investment income (loss) and notes receivable from participants and related interest income are complete and accurate as of December 31, 2015 and 2014 and for the year ended December 31, 2015. This information has been relied on by the Plan administrator in preparation of the Plan's financial statements in accordance with ERISA. This certified information has not been audited by independent accountants.

NOTE 4 – PARTY-IN-INTEREST TRANSACTIONS

Parties-in-interest are defined under Department of Labor regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer and certain others. At December 31, 2015 and 2014, the Plan invested in mutual funds managed by Fidelity Investments. Fidelity Management Trust Company is affiliated with Fidelity Investments. Fidelity Management Trust Company is the trustee, and therefore, these investments qualify as party-in-interest investments. The Plan also had notes receivable from participants at December 31, 2015 and 2014 which constitute party-in-interest transactions. The Plan incurred \$223,000 of expenses related to administrative and other services paid to parties-in-interest during the year ended December 31, 2015.

NOTE 5 – TAX STATUS

The Plan obtained its latest determination letter on September 4, 2013 in which the Internal Revenue Service stated that the Plan was in compliance with the applicable requirements of the Internal Revenue Code ("IRC"). The Plan has been amended since receiving the determination letter. The Plan Administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

GAAP requires plan management to evaluate tax positions taken by the Plan. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2015 and 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by the Department of Labor or Internal Revenue Service; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2012.

HEXION, INC. RETIREMENT SAVINGS PLAN

STATEMENT OF CHANGES IN NET ASSETS AVAILABLE FOR BENEFITS YEAR ENDED DECEMBER 31, 2015

NOTE 6 – FULLY BENEFIT-RESPONSIVE INVESTMENT CONTRACTS

The Plan holds fully benefit-responsive synthetic investment contracts that are reported at contract value, which is generally the amount a participant would receive if he or she would initiate a withdrawal or transfer from the contract under the provisions of the Plan. Contract value represents contributions made to the contract, plus earnings, less participant withdrawals and administrative expenses.

The synthetic investment contracts held by the Plan include wrap contracts that provide a guarantee that the credit rate will not fall below 0%. Cash flow volatility (for example, timing of benefit payments) as well as asset underperformance can be passed through to the Plan through adjustments to future crediting rates. Formulas are provided in each contract that adjusts renewal crediting rates to recognize the difference between the fair value and the book value of the underlying assets. The synthetic investment contracts specify certain conditions under which distributions from the contracts would be payable at amounts below contract value. The contracts limit the circumstances under which the Issuers may terminate the contracts. Examples of such circumstances include premature termination of the contracts by the trust, plant closings, layoffs, plan termination, bankruptcy, mergers and early retirement incentives. If one of these events were to occur, the Issuers could terminate the contracts at amounts less than contract value. Currently, management believes that the occurrence of an event that would cause the Plan to transact contract distributions at less than contract value is not probable.

NOTE 7 – SUBSEQUENT EVENTS

The Company has evaluated subsequent events for recognition and disclosure through September 1, 2016, which is the date the financial statements were available to be issued.
