PLASTIKON INDUSTRIES, INC.
401(k) RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS
AS OF DECEMBER 31, 2015 AND 2014

NOTE 1. DESCRIPTION OF PLAN

The following description of Plastikon Industries, Inc. (The Company) 401(k) Retirement Plan (The Plan) provides only general information. Participants should refer to The Plan agreement for a more complete description of The Plan's provisions.

General

The Plan is a defined contribution plan covering all full-time employees of the Company who have 3 months of service, are age eighteen and older and are not covered by a collective bargaining agreement. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA) as amended.

Contributions

Each year, The Company matches the employees' 401(k) contributions dollar for dollar on the first $200 and then 15% thereafter. The employees may contribute to The Plan up to $18,000 for the year ended December 31, 2015. An employee over the age of 50, on or before, December 31, 2015, may contribute up to $24,000.

Participant Accounts

Each participant's account is adjusted for an allocation of (a) The Company's contributions, (b) Plan earnings or losses, (c) forfeitures of terminated participants' non-vested accounts and (d) employee contributions.

Vesting

Participants vest in The Company contribution accounts based on years of continuous service. A participant is 100 percent vested in The Company's matching contribution after five or more years of credited service. A participant is immediately 100 percent vested in their contributions.

Payment of Benefits

On termination of service, a participant may receive a lump-sum amount equal to the value of his or her account, roll the balance into another qualified plan or leave funds in the Plan.

NOTE 2. SUMMARY OF ACCOUNTING POLICIES

Date of Management's Review

Subsequent events were evaluated through October 3, 2016, which is the date the financial statements were available to be issued.

Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America ("GAAP") requires The Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Basis of Accounting

The financial statements of The Plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of The Plan. The statements of Net Assets Available for Plan Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Plan Benefits is prepared using contract value for the fully benefit-responsive investment contract.

NOTE 2. SUMMARY OF ACCOUNTING POLICIES (CONTINUED)

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are charged directly to the borrowing participant's account and are included in administrative expenses when incurred. As of December 31, 2015 and 2014, no allowance for credit losses has been recorded. If a participant does not make loan payments and The Plan administrator considers the participant loan to be in default, the loan balance is reduced, and the delinquent participant note receivable is recorded as a benefit payment based on the terms of The Plan document.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes The Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Plan Expenses

All expenses of maintaining The Plan are paid by The Company.

NOTE 3. TAX STATUS

The Internal Revenue Service has determined and informed The Company that The Plan is designed in accordance with applicable sections of the Internal Revenue code (IRC).

NOTE 4. PLAN TERMINATION

Although it has not expressed any intent to do so, The Company has the right under The Plan to discontinue its contributions at any time and to terminate The Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

NOTE 5. FAIR VALUE MEASUREMENTS

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. The Investment Committee determines The Plan's valuation policies. Although The Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to measure the fair value of certain financial instruments could result in a different fair value at the reporting date.

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets of identical assets and have the highest priority, Level 2 inputs consist of observable inputs other than quoted prices for identical assets, and Level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, The Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value.

Level 1 Fair Value Measurements

The fair value of mutual funds, common stocks, certain corporate bonds and U.S. government securities are based on the closing price reported in the active market where the individual securities are traded, when available.

NOTE 5. FAIR VALUE MEASUREMENTS (CONTINUED)

Level 2 Fair Value Measurements

The fair value of mutual funds and assets held are valued using more than one source to generate the unit prices. The market price of the fund and a unitized pricing model are both used and the inputs are available to The Plan.

NOTE 6. INFORMATION PREPARED AND CERTIFIED BY TRUSTEE

The following information included in the accompanying financial statements and supplemental schedules was obtained from data that has been prepared and certified to as complete and accurate by the trustee. The Plan values are represented at Level 2 Fair Value Measurements.
