NOTES TO FINANCIAL STATEMENTS

As of December 31, 2015 and 2014 and for the Year Ended December 31, 2015

NOTE 1 - Description of the Plan

The following description of the Wausau Homes Incorporated 401(k) Savings Plan (the "plan") provides only general information. Participants should refer to the plan's summary plan description for a more complete description of the plan's provisions.

General

The plan is a defined contribution plan covering employees of Wausau Homes Incorporated (the "company"), and is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended. The assets of the plan are held for the exclusive benefit of the eligible employees and their beneficiaries. An eligible employee is defined as any non-union employee who has attained the age of eighteen and has completed 90 days of service. Unless modified by the participant, the company will automatically enroll participants in the plan on their eligibility date (the first day of the month upon satisfying plan eligibility requirements) at a 3% salary deferral rate and deposit the amounts into funds selected by the company.

Contributions

Participating employees may make voluntary pre-tax and after-tax ("Roth") contributions up to the maximum amount allowable under federal tax law (adjusted annually). A participant may revoke his or her voluntary contribution ("salary deferral") election at any time. Any other modification to a salary deferral election may be made monthly. Participants direct the investment of their contributions into various investment options offered by the plan.

The company makes a safe harbor matching contributions to eligible participant accounts, calculated as 100% of salary deferrals on the first 3% of each eligible participant's eligible compensation and 50% of salary deferrals on the next 2% of each participant's eligible compensation. The company may also make a discretionary matching contribution equal to a discretionary percentage of salary deferral contributions, as determined by the employer, on a uniform basis to all participants. There were no discretionary matching contributions for 2015. Participants may also contribute amounts representing distributions from other qualified plans (rollover contributions).

Contributions from employees and any company safe harbor contributions are recorded in the period the company makes payroll deductions from the plan participants. Any discretionary matching contributions are recorded in the period in which the employees contribute the underlying salary deferral contributions upon which the discretionary amount is calculated.

Participant Accounts

Each participant's account is credited with allocations of the participant's salary reduction contributions, rollover contributions, and an allocation of the company's contributions and plan earnings (net of administrative expenses). Allocations are based on the participant's eligible compensation or account balances, as defined in the plan. Plan earnings and plan expenses are determined and posted to each participant's account on a daily basis in accordance with the proportion of a participant's account to all participants' account balances. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

WAUSAU HOMES INCORPORATED 401(K) SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

As of December 31, 2015 and 2014 and for the Year Ended December 31, 2015

NOTE 1 - Description of the Plan (cont.)

Strategies for Investments Valued Using Net Asset Value (NAV)

The Principal Stable Value Preferred Fund seeks to provide preservation of capital, relatively stable returns consistent with its comparatively low risk profile, and liquidity for benefit-responsive payments. The fund seeks to achieve this objective by investment primarily in a variety of high quality stable value investment contracts (minimum weighted average credit quality rating of A or better), as well as cash and cash equivalents.

Vesting

Participants are immediately vested in safe harbor, rollover, and salary deferral contributions plus earnings thereon. Participants who leave the plan because of death, normal retirement, or disability retirement, as defined in the plan, are considered 100% vested in their entire account balances. Discretionary employer matching contributions and earnings thereon vest in accordance with provisions of the plan as follows:

<u>Vesting Years of Service</u>	<u>Percentage Vested</u>
1	20%
2	40%
3	60%
4	80%
5	100%

Forfeited Accounts

Plan forfeitures arise as a result of participants who terminate service with the company before becoming 100% vested in the company's discretionary employer matching contributions. These forfeitures can be used to reduce company contributions or to pay administrative expenses of the plan. As of December 31, 2015 and 2014, forfeited nonvested accounts totaled \$9,236 and \$8,966, respectively. During the 2015 plan year, there were no forfeitures applied against plan administrative expenses.

Payment of Benefits

Benefits may be paid to the participant or beneficiary upon death, disability, retirement or termination of employment, as defined in the plan agreement. The plan provides for normal retirement at age 55. The plan allows for the benefits to be paid to active participants who have attained age 59 1/2. The total vested portion of a participant's account balance is distributed in the form of a lump-sum payment or installments. Participants experiencing financial hardship may withdraw a portion of their account balance as defined in the plan.

Plan Termination

Although it has not expressed any intent to do so, the company has the right under the plan to terminate the plan at any time subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts.

NOTES TO FINANCIAL STATEMENTS

As of December 31, 2015 and 2014 and for the Year Ended December 31, 2015

NOTE 1 - Description of the Plan (cont.)

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Loan terms range from 1-5 years or up to 15 years for the purchase of a primary residence. These loans are secured by the balance in the participant's account. The loans bear interest at 4.25%, which is commensurate with local prevailing rates as determined quarterly by the plan administrator. Principal and interest are paid ratably through payroll deductions.

Administrative Expenses

The plan's administrative expenses are paid either by the plan or the plan sponsor, as provided by the plan document. Loan fees, distribution fees, and certain other fees are charged directly to the participant's account.

NOTE 2 - Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP") requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for details on inputs, valuation techniques and fair value measurement level within the fair value hierarchy.

Net appreciation or depreciation of investments included in the accompanying statement of changes in net assets available for benefits includes realized gains or losses from the sale of investments and unrealized appreciation or depreciation in the fair value of investments. Net unrealized appreciation or depreciation in the fair value of investments represents the net change in the fair value of the investments held during the period. The net realized gains or losses on the sale of investments represents the difference between the sale proceeds and the fair value of the investment as of the beginning of the period or the cost of the investment if purchased during the year.

The plan invests in mutual funds that are valued at fair value using quoted market prices. The plan invests in a collective investment fund that determines its fair value using the net asset value (NAV) of the funds. The NAV is determined by the fund's trustee using the fair value of the underlying securities within the fund at year end.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis and dividends are recorded on the ex-dividend date.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Payment of Benefits

Benefits paid to participants are recorded when paid.

Recent Accounting Standards

In May 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update ("ASU") No. 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)*. ASU 2015-07 removes the requirement to include investments in the fair value hierarchy for which fair value is measured using the net asset value practical expedient in Accounting Standards Codification 820. ASU 2015-07 requires retrospective application and is effective for fiscal years beginning after December 15, 2016 with early adoption permitted. Management has elected to early adopt the provisions of this new standard. Accordingly, the standard was retrospectively applied.

In July 2015, the FASB issued ASU No. 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), and Health and Welfare Benefit Plans (Topic 965) - I. Fully Benefit-Responsive Investment Contracts; II. Plan Investment Disclosures, and III. Measurement Date Practical Expedient*. Part I requires fully benefit-responsive investment contracts to be measured, presented, and disclosed only at contract value. Part II requires that investments that are measured using fair value (both participant-directed and nonparticipant-directed investments) be grouped only by general type, eliminating the need to disaggregate the investments by nature, characteristics, and risks. Part II also eliminates the disclosure of individual investments that represent 5 percent or more of net assets available for benefits and the disclosure of net appreciation or depreciation for investments by general type, requiring only presentation of net appreciation in investments in the aggregate. Additionally, if an investment is measured using the net asset value per share as a practical expedient and that investment is a fund that files a U.S. Department of Labor Form 5500, as a direct filing entity, disclosure of that investment's strategy is no longer required. Part III of the update permits plans to measure investments and investment-related accounts (e.g., a liability for a pending trade with a broker) as of a month-end date that is closest to the plan's fiscal year-end, when the fiscal period does not coincide with month-end. The amendments in ASU 2015-12 are effective for fiscal years beginning after December 15, 2015, with early application permitted. The amendments within Parts I and II require retrospective application amendments within Part III should be applied prospectively. Management has elected to early adopt the provisions of Parts I and II of this new standard. Accordingly these provisions were retrospectively applied.

As of December 31, 2015 and 2014 and for the Year Ended December 31, 2015

NOTE 3 - Information Certified by Trustee

The plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA for 2015 and 2014. Accordingly, Principal Life Insurance Company, the trustee of the plan, has certified to the completeness and accuracy of all investments reported in the accompanying Statement of Net Assets Available for Benefits as of December 31, 2015 and 2014, the supplemental Schedule H, Line 4(i) - Schedule of Assets (Held at End of Year) as of December 31, 2015, and the related investment activity reported in the Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2015.

NOTE 4 - Fair Value of Financial Instruments

The plan follows U.S. GAAP for measuring, reporting, and disclosing fair value. These standards apply to all assets and liabilities that are measured, reported, and/or disclosed on a fair value basis.

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under authoritative guidance are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted market prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 - Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:

- > quoted prices for similar assets or liabilities in active markets;
- > quoted prices for identical or similar assets or liabilities in inactive markets;
- > inputs other than quoted prices that are observable for the asset or liability;
- > inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of relevant observables and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Mutual funds: Valued at the closing price reported on the active market on which the individual securities are traded.

NOTE 4 - Fair Value of Financial Instruments (cont.)

Collective investment fund: Valued at the NAV of units of a bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the plan to initiate a full redemption of the collective trust, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The plan sponsor is responsible for the determination of fair value and has not historically adjusted the prices obtained from the pricing services.

The table below presents the balances of assets measured at fair value on a recurring basis by level within the hierarchy.

- (a) In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the Statement of Net Assets Available for Benefits.

The table below sets forth additional disclosures for the fair value measurements of investments in certain entities that calculate net asset value per share (or its equivalent) as of December 31, 2015 and 2014, respectively.

NOTE 6 - Related Party and Party In Interest Transactions

Certain of the plan's investments are managed by the trustee, and therefore, these transactions qualify as party-in-interest transactions. Additionally, the plan issues loans to participants, which are secured by the participant's account balances. These transactions qualify as party-in-interest transactions.

Certain administrative functions of the plan are performed by officers or employees of the company. No such officer or employee receives compensation from the plan.

NOTE 7 - Risks and Uncertainties

The plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

NOTE 8 - Concentrations

The plan holds certain investments that represent 10% or more of the plan's net assets available for benefits. As of December 31, 2015 and 2014, the plan held two such investments totaling \$4,024,552 and \$5,038,490, respectively.

NOTE 9 - Tax Status

The plan is operating under a non-standardized adoption agreement sponsored by Verisight, Inc., a third party contracted by Principal Life Insurance Company, for which the prototype plan has received an opinion letter dated July 17, 2012 from the Internal Revenue Service as to the plan's qualified status. The plan has been amended since receiving the determination letter. The plan administrator believes that the plan, as amended, is designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, the plan administrator believes that the plan was qualified and the related trust was tax-exempt at the financial statement date. Participants in the plan are not subject to income taxes on salary reduction contributions or earnings thereon until they receive distributions from the plan.

U.S. GAAP requires plan management to evaluate tax positions taken by the plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the plan, and has concluded that as of December 31, 2015 and 2014, there are no uncertain positions taken or expected to be taken. The plan has recognized no interest or penalties related to uncertain tax positions. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTES TO FINANCIAL STATEMENTS

As of December 31, 2015 and 2014 and for the Year Ended December 31, 2015

NOTE 10 - Subsequent Events

The plan has evaluated subsequent events through September 15, 2016, which is the date that the financial statements were available to be issued, for events requiring recording or disclosure in the plan's financial statements.

Effective January 1, 2016, the plan sponsor revised the plan in order to comply with ERISA guidelines. The plan remained substantially similar with a change to the normal retirement age prescribed by the plan from 55 to 65 years old.

Effective March 3, 2016, the plan replaced nine funds held as of December 31, 2015. Investment balances were mapped to new funds with similar risk and reward characteristics. Subsequently, on August 26, 2016, one of the new funds was terminated and mapped to a fund with similar risk and reward characteristics
