Note 1. Description of the Plan

The following description of the Progressive Machine & Design, LLC 401(k) Plan (the "Plan") provides only general information. The Plan was established to provide tax-deferred retirement savings to eligible employees. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan covering substantially all eligible employees of Progressive Machine & Design, LLC and its affiliated company Global Packaging Systems, LLC (collectively known as the "Company"). Employees must be age eighteen or older for participation in the employee elective deferral contributions of the Plan. Employees that have completed one month of service are eligible for the employer contributions. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions - The Plan agreement provides that participants shall be permitted to make contributions not to exceed the ceiling imposed by the Internal Revenue Service of $18,000 and $17,500 for the years ended December 31, 2015 and 2014, respectively. If a participant is age 50 or over, the ceiling is increased to $23,500 and $23,000 for the years ended December 31, 2015 and 2014, respectively. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. The Company may make an annual discretionary contribution out of current or accumulated profits. The amount of contributions made in a given year is left solely to the discretion of the Company.

Participant Accounts - Each participant's account is credited with the participant's contribution and allocations of the Company's contribution and plan earnings, and charged with an allocation of administrative expenses. Allocations of plan earnings and administrative expenses are based on participant account balances. Allocations of the Company's contributions are based on participants' compensation for the year. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting - Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. A participant is 100% vested after six years of credited service.

Notes Receivable from Participants - Participants may borrow from their fund accounts a minimum of $1,000, up to a maximum equal to the lesser of $50,000 or 50 percent of their account balance. The loans are secured by the balance in the participant's account. The loan interest rate, determined quarterly, is set at 2 percent above the prime rate, as defined. The stated rate was 4.25 percent at December 31, 2015 and 2014. Principal and interest is paid ratably through weekly payroll deductions.

Payment of Benefits - On termination of service, benefits may be paid in a lump-sum amount, a distribution in the form of an annuity, or a combination of both. Participants may withdraw any part of their vested account after reaching the age of 59 ½.

Forfeitures - Forfeitures arising under the Plan may be used to reduce the Company's matching contributions and administrative expenses. Unallocated forfeitures as of December 31, 2015 and 2014 amounted to $7,611 and $5,547, respectively. During 2015, no forfeitures were used. During 2014, $9,193 of forfeitures were used to reduce administrative expenses.

Note 2. Summary of Significant Accounting Policies

Method of Accounting - The accompanying financial statements have been prepared using the accrual basis of accounting.

Estimates - The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investments Valuation and Income Recognition - Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

During the year ended December 31, 2015 the Plan adopted ASU 2015-07, *Fair Value Measurement: Disclosures for Investments in Certain Entities that Calculate Net Asset Value per Share (NAV)*. This ASU removes the requirement to categorize within the fair value hierarchy investments for which fair values are estimated using the net asset value practical expedient. The adoption of ASU 2015-07 had no effect on the change in net assets as previously reported.

In July 2015, the FASB issued ASU 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contributions Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient* in July 2015. Part I is not applicable to the Plan. Part II eliminates the requirements to disclose individual investments that represent 5 percent or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. Part II also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics and risks. Further, the disclosure information about fair value measurements shall be provided by general type of plan asset. Part III is not applicable to the Plan. The ASU is effective for fiscal years beginning after December 15, 2015, with early adoption permitted. Parts I and II are to be applied retrospectively. Management has elected to early adopt Part II. The adoption had no effect on the change in net assets as previously reported.

Notes Receivable from Participants - Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expenses when they are incurred. No allowance for credit losses has been recorded as of December 31, 2015 and 2014. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of Benefits - Benefits are recorded when paid.

Administrative Expenses - Administrative expenses were paid by both the Company and the Plan in 2015 and 2014. Expenses paid by the Company are excluded from these financial statements.

Subsequent Events - The Plan has evaluated subsequent events through the date of the report which is the date the financial statements were available to be issued.

Note 3. Information Prepared and Certified by the Trustee

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the trustee have certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate as of December 31:

	2015	2014
Investments, at fair value	$ 11,319,198	$ 9,713,928
Notes receivable from participants	$ 255,410	$ 179,656
Investment income (loss)	$ (103,854)	$ 476,710
Interest income on notes receivable from participants	$ 8,602	$ 6,539

Note 4. Fair Value Measurements

ASC 820-10 establishes a fair value hierarchy which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The standard describes three levels of inputs that may be used to measure fair value:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the entity has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect a reporting entity's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

The following is a description of the valuation methodologies used for assets measured at fair value.

Money Market - Valued at the net asset value of shares held by the Plan at year-end (Level 1).

Mutual Funds - Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the SEC. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded (Level 1).

Common Collective Trust - Valued at the net asset value (NAV) of units of a collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchased and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment advisor reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Assets measured at fair value are summarized below:

	December 31, 2015	
	Level 1	Total
Money market funds	$ 74,178	$ 74,178
Mutual funds	10,708,956	10,708,956
Total assets in the fair value hierarchy	10,783,134	10,783,134
Investments measured at net asset value (a)	-	536,064
Investments at fair value	$ 10,783,134	$ 11,319,198

	December 31, 2014	
	Level 1	Total
Money market funds	$ 20,266	$ 20,266
Mutual funds	9,387,255	9,387,255
Total assets in the fair value hierarchy	9,407,521	9,407,521
Investments measured at net asset value (a)	-	306,407
Investments at fair value	$ 9,407,521	$ 9,713,928

(a) In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statement of net assets available for benefits.

Note 5. Net Asset Value (NAV) Per Share

The following table summarizes investments for which fair value is measured using the net asset value per share practical expedient as of December 31, 2015 and 2014. There are no participant redemption restrictions for these investments; the redemption notice period is applicable only to the Plan.

	Fair Value Using Net Asset Value per Share December 31, 2015	
	Fair Value	Unfunded Commitment
Common collective trust - stable value (a)	$ 536,064	$ -

	Fair Value Using Net Asset Value per Share December 31, 2014	
	Fair Value	Unfunded Commitment
Common collective trust - stable value (a)	$ 306,407	$ -

(a) Strategies seek to invest in a variety of investment contracts offered by major insurance companies and other approved financial institutions and in certain types of fixed income securities.

Note 6. Party-In-Interest Transactions

The Plan pays administrative fees to its trustee and these transactions are non-prohibited party-in-interest transactions. Fees paid by the Plan for the investment management services amounted to $28,862 and $10,511 for the years ended December 31, 2015 and 2014, respectively. Participant loans also qualify as party-in-interest transactions.

Note 7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to provisions of ERISA. In the event that the Plan terminates, participants would become 100 percent vested and the assets of the Plan will be distributed among the participants or their beneficiaries in proportion to their respective interest in the funds.

Note 8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 9. Tax Status

The IRS has determined and informed the Company by a letter dated March 31, 2014, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the plan administrator and the plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 10. Reclassification

Certain reclassifications have been made to the financial statements for the year ended December 31, 2014. These reclassifications are for comparative purposes only and have no effect on the change in net assets as originally reported.
