NOTE 1: DESCRIPTION OF THE PLAN

The Nypro Inc. (the "Company") Defined Contribution Plan (the "Plan") is an amendment and restatement of Nypro Inc. Employee Stock Ownership Plan (the "ESOP") that converted the ESOP from an employee stock ownership plan into a discretionary profit sharing plan effective July 1, 2013. The conversion occurred July 1, 2013 due to Jabil Circuit, Inc.'s ("Jabil") acquisition of the Company's common stock, Series A preferred stock and Series B preferred stock. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Eligibility: All employees who were participants in the ESOP on March 31, 2013 and who were not eligible to transfer funds into the Nypro 401(k) Plan during the ESOP liquidation are allowed to participate in the Plan.

The ESOP was frozen on March 31, 2013 preventing new employees from joining the ESOP.

Participant Contributions: Participants are not permitted to make contributions to the Plan.

Vesting: Participants in the Plan are 100% vested in their account balance.

Participant Accounts: Each participant's account is credited with the earnings (losses) thereon. Allocations of earnings (losses) are based on account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance.

Payment of Benefits: Upon termination of service due to death, disability, retirement, or other reasons, a participant may receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. The Plan allows for a distribution without the participant's consent if a participant's vested account balance is less than \$5,000.

Escrow: As part of the purchase of the Company by Jabil, amounts were held in escrow for post-closing transaction costs. After all costs were accounted for, the remaining amount was to be credited to participants of the ESOP. At the time of the transaction, approximately \$29,686,000 was held in escrow related to the ESOP shares (\$260.79 per share) and remained in escrow until September, 2015. In September 2015, a final disbursement of the post-closing transactions was completed. As a result, approximately \$7,937,000 and \$712,439 was disbursed to the ESOP participants in the Jabil Inc, 401(k) Plan and this Plan, respectively.

NOTE 2: SIGNIFICANT ACCOUNTING POLICIES

Notes Receivable from Participants: Participants may borrow from their fund accounts in the Plan a minimum of \$1,000 up to a maximum of \$50,000 or 50% of their account balances, whichever is less. Loans are secured by the balances in the participants' accounts and bear interest at rates based on the prevailing interest rates charged by persons in the business of lending money for loans that would be made under similar circumstances which currently was 4.25% at December 31, 2015 and 2014. Principal and interest are paid ratably usually through payroll deductions.

Basis of Accounting: The financial statements of the Plan are prepared under the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America (GAAP). The financial statements and supplementary schedule have been prepared to satisfy the reporting and disclosure requirements of ERISA.

Investment contracts held by a defined-contribution plan are required to be reported at fair value except for fully benefit-responsive investment contracts. Contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan.

New Accounting Pronouncements: In May 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2015-07, *Fair Value Measurement (Topic 820) - Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)* ("ASU 2015-07"). ASU 2015-07 removes the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value ("NAV") per share practical expedient. ASU 2015-07 also removes the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the NAV per share practical expedient. Investments that calculate NAV per share (or its equivalent), but for which the practical expedient is not applied will continue to be included in the fair value hierarchy along with the related required disclosures. ASU 2015-07 is effective for fiscal years beginning after December 15, 2015, and is to be applied retrospectively, with early adoption permitted. The Plan elected to early adopt ASU 2015-07.

NOTE 2: SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

In July 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient*. Part I eliminates the requirements to measure the fair value of the fully benefit-responsive investment contracts and provide certain disclosures. Contract value is the only required measure for fully benefit responsive investment contracts. Part II eliminates the requirements to disclose individual investments that represent five percent or more of net assets available for benefits and net appreciation or depreciation in fair value of investments by general type. Part II also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics and risks. Further, the disclosure of information about fair value measurements shall be provided by general type of plan asset. Part III provides a practical expedient to permit plans to measure investments and investment-related accounts as of a month-end date that is closest to the plan's fiscal year-end, when the fiscal period does not coincide with month-end. Part III is not applicable to the Plan. ASU 2015-12 is effective for fiscal years beginning after December 15, 2015, with early adoption permitted. Management has elected early adoption of ASU 2015-12 Parts I and II. The adoption has been reflected on a retrospective basis in the financial statement.

Investment Valuation and Income Recognition: The Plan's investments are reported at fair value (except for the common/collective trust which is a fully benefit-responsive investment contract, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Use of Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires Plan management to make estimates and assumptions that affect the reported amounts of Plan assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Payment of Benefits: Benefits are recorded when paid.

NOTE 2: SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Participant Notes Receivable: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2015 and 2014. If a participant ceased to make loan payments and the plan administrator deemed the participant loan to be in default, the participant loan balance (including unpaid interest) will be treated as a taxable deemed distribution to the participant and the loan will continue to accrue interest to be paid by the participant unless the participant is otherwise eligible to receive a distribution from the Plan. If the participant is otherwise eligible to receive a distribution from the Plan at the time of the loan default, the participant loan balance would be reduced and a benefit payment would be recorded.

Risks and Uncertainties: The Plan utilizes various investment instruments. Investment securities, in general, are exposed to various risks such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such change could materially affect the amounts reported in the statements of net assets available for benefits.

Expenses: Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net depreciation of fair value of investments.

Uncertain Tax Positions: Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more-likely-than-not would not be sustained upon examination. The Plan Administrator has analyzed the tax positions taken by the plan, and has concluded that as of December 31, 2015, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2012.

NOTE 3: INCOME TAX STATUS

The Plan received a determination letter from the Internal Revenue Service (IRS) dated May 2, 2014, in which the Internal Revenue Service (IRS) confirmed that the Plan, as written as of December 31, 2012, included all necessary wording to satisfy the requirements of the Internal Revenue Code (IRC) for the Plan to be qualified and the related trust to be exempt from taxation. Although the Plan has been restated since receiving the determination letter, the Plan administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt

NOTE 4: FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board ("FASB"), Accounting Standards Codification (ASC) 820, Fair Value Measurement and Disclosures, provides the framework for measuring fair value. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 - inputs to the valuation methodology include

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.
- If the assets or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability

Level 3 - inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

NOTE 4: FAIR VALUE MEASUREMENTS (CONTINUED)

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common collective trusts: Valued at the net asset value of units of a collective trust. The net asset value, as provided by the fund manager, is used as a practical expedient to estimate fair value. The net asset value is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported net asset value.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31:

NOTE 4: FAIR VALUE MEASUREMENTS (CONTINUED)

(a) In accordance with Subtopic 820-10, the common/collective trust investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statement of net assets available for benefits.

Fair Value of Investments in Entities that Use NAV: The Plan invests in the Fidelity Managed Income Portfolio II, which is a common/collective Trust. The primary investment objective of the Managed Income Portfolio II is to preserve principal while also earning a level of interest income that is consistent with the preservation of principal. The Portfolio seeks to sustain a stable net asset value of \$1 per share despite the lack of assurance that it will be able to do so.

The following table summarizes investments measured at fair value based on NAV per share as of December 31:

2015					
<u>Investment</u>	<u>Fair Value</u>	<u>Unfunded</u> <u>Commitments</u>	<u>Redemption</u> <u>Frequency</u>	<u>Other</u> <u>Redemption</u> <u>Restrictions</u>	<u>Redemption</u> <u>Notice Period</u>
Fidelity Managed Income Portfolio II	\$ 507,076	None	Daily	None	30 Days

NOTE 5: PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.
