403(b) MATCHED RETIREMENT SAVINGS PLAN**

Notes to Financial Statements

December 31, 2015 and 2014

(1) Description of Plan

The following brief description of the University Hospitals Health System 403(b) Matched Retirement Savings Plan (the Plan) is provided for general information purposes only. Participants should refer to the plan agreement for more complete information.

(a) General

The Plan became effective March 1, 1996 and is a matched defined contribution plan sponsored by University Hospitals Health System, Inc. (the System or Plan Sponsor). The Plan covers substantially all employees of the System. There are no service or age requirements of employees to participate in the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Effective January 1, 2015, eligible employees of Comprehensive Health Care of Ohio, Inc. and certain of its subsidiaries (Elyria) and of Parma Community General Hospital, Powers Professional Corporation and certain of its subsidiaries (Parma) began participation in the Plan.

Effective January 1, 2016, eligible employees from Portage Medical Center or one of its subsidiaries will begin participation in the Plan.

(b) Employee Contributions

Each year participants may defer and contribute up to 75% of pretax annual compensation as defined in the Plan, up to the maximum allowed under the Internal Revenue Code (IRC).

(c) Employer Contributions

The Plan Sponsor matches 50% of an eligible participant's contribution to the Plan, up to 6% of the participant's compensation. Matching employer contributions commence after the participant completes one year of service and has reached the age of 18.

(d) Participant Rollovers

The Plan permits rollover contributions. The Plan may accept rollover contributions at the direction of the Plan Sponsor. Rollover contributions can be contributed from i) a trust under a qualified plan described in IRC Sections 401(a) or 403(a), ii) an annuity contract described in Section 403(b) of the IRC, iii) an eligible deferred compensation plan described IRC Section 457(b) that is maintained by a state, political subdivision of a state, or any agency or instrumentality of a state or political subdivision of the state, or iv) an individual retirement account described in Section 408(d)(3)(A)(ii) of the IRC.

(e) Participant Accounts

Each participant's account is credited with the employee's and the System's contributions, and investment earnings, appreciation, or depreciation in the fair value of assets. The account balances are participant directed, including the self directed brokerage account, which allows participants to direct their contributions into investments of their choice. Participants may change their investment options

Notes to Financial Statements

at any time. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

(f) Vesting

Vesting in the System's contribution to the participant's account is based on a three-year cliff-vesting schedule (i.e., a participant vests in full after three years of service). Participants immediately vest in their own contributions.

(g) Payment of Benefits

Upon termination of service, a participant will be entitled to receive the vested portion of his or her account. Benefits are recorded when paid.

(h) Forfeitures

The forfeited balances of terminated participants' non-vested accounts are used to pay administrative expenses or used to reduce future employer matching contributions. Forfeitures were \$201,512 and \$178,752 during the years ended December 31, 2015 and 2014, respectively.

(i) Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum amount equal to the lesser of \$50,000 or 50% of their vested account balance. A participant may only have one loan outstanding at any one time. The loans are secured by the balance in the participant's account and bear interest at rates that range from 4.25% to 10.50%, which are commensurate with local prevailing rates as determined by the plan administrator. The loans have maturities of various dates through 2035. Principal and interest are repaid in equal installments over the term of the loan, with payments occurring at least quarterly. Participant loans are valued at amortized cost, which represents the unpaid principal.

(j) Expenses

Certain administrative expenses are paid by the Plan and other administrative expenses are paid by the Plan Sponsor.

(2) Summary of Significant Accounting Policies

(a) Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contracts through a guaranteed funds contract. Contract value for this guaranteed funds contract is based on the

UNIVERSITY HOSPITALS HEALTH SYSTEM
403(b) MATCHED RETIREMENT SAVINGS PLAN

Notes to Financial Statements

December 31, 2015 and 2014

discontinuance value of the fund as reported by the investment advisor. The statements of net assets available for benefits present the fair value of the investment in the guaranteed funds contract as well as the adjustment of the investment in the guaranteed funds contract from fair value to contract value relating to the investment contracts. The statements of changes in net assets available for benefits are prepared on a contract value basis.

(b) *Use of Estimates*

The preparation of financial statements, in conformity with the accounting principles generally accepted in the United States of America, requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

(c) *Investment Valuation and Income Recognition*

Investments of the Plan are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note 4 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date and interest income is recorded on the accrual basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

(3) *Investments*

Under the terms of a trust agreement between the Custodian and the Plan, the Custodian maintains a trust fund on behalf of the Plan. The participant accounts are credited with actual earnings on the underlying investments and charged for plan withdrawals. The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the plan administrator has obtained certifications from the Custodian of the Plan that all of the information provided by them is complete and accurate. Information included in the accompanying financial statements and supplemental schedule as to investments, investment income, interest, and dividends, investment information included in this note, and all information in the supplemental schedule, except for participant loan information, is presented in reliance solely upon those certifications.

(4) Fair Value Measurements

The Financial Accounting Standards Board established a framework for measuring fair value, and expands disclosures about fair value measurements. The fair value framework requires the categorization of assets and liabilities into three levels based upon the assumptions (inputs) used to price the assets or liabilities. Level 1 provides the most reliable measure of fair value, whereas Level 3 generally requires significant judgment. The three levels are defined as follows:

- Level 1 – Assets or liabilities that are valued based on quoted prices in active markets that are accessible at measurement date.
- Level 2 – Assets and liabilities that are valued based upon inputs, other than those included in Level 1; based on quoted prices for similar assets and liabilities in active markets, quoted prices for identical or similar assets and liabilities in inactive markets, or financial instruments for which all significant inputs are observable, either directly or indirectly.
- Level 3 – Assets or liabilities that are based on unobservable inputs, including the reporting entity's own analysis of the underlying economic data that market participants would factor into the pricing of the asset or liability.

Level 1 instruments consist of mutual funds and cash and cash equivalents. A money market fund and a mutual fund's fair value is normally calculated as of the close of business of the New York Stock Exchange. There are no Level 2 investments. Guaranteed funds contracts are valued based on unobservable inputs are a Level 3 investment.

The Plan's investments include the Principal Fixed Account, which is a guaranteed funds contract. Based on an analysis of the valuation technique and inputs into the technique, which the significant inputs are unobservable, management determined that the Principal Fixed Account is Level 3. The fair value of this investment is determined based on the discontinuance value. The discontinuance value takes into account the guaranteed interest rate, underlying crediting rate, duration of the contract to maturity, and treasury rates. The fair value is sensitive to the unobservable inputs, as there are a range of inputs used in the determination of fair value. The underlying crediting rates were 1.7% for the years ended December 31, 2015 and 2014. The duration of the contract range from zero to four years, and the treasury rates range from 1.18% to 1.81% for the year ended December 31, 2015 and range from 1.37% to 1.85% for the year ended December 31, 2014. This contract has a Standard & Poors rating of A+.

For the years ended December 31, 2015 and 2014, there were no transfers in or out of Level 1, 2 or 3.

(5) Plan Termination

Although it has not expressed any intention to do so, the System has the right under the Plan to terminate the Plan, subject to the provisions of ERISA. Upon termination, participants will become 100% vested in their accounts.

(6) Tax Status

The Plan is intended to comply with the applicable requirements of Section 403(b) of the IRC. A tax determination letter program is not yet available for IRC Section 403(b) plans through the Internal Revenue Service. The plan administrator believes that the Plan is currently designed and being operated in compliance with applicable requirements of the IRC and as such is exempt from federal income taxes. The plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of GUST and the Economic Growth Tax Relief Reconciliation Act of 2001. GUST comprises The General Agreement on Tariffs and Trade, as a part of the Uruguay Round Agreement Act, the Uniformed Services Employment and Re-employment Act of 1996, the Taxpayer Relief Act of 1997, and the IRS Restructuring and Reform Act of 1998. The System also believes that the Plan is designed and being operated in compliance with the applicable requirements of the IRC and that, therefore, the Plan qualifies under Section 401(a) of the IRC, and the related trust is tax exempt as of December 31, 2015.

Notes to Financial Statements

December 31, 2015 and 2014

The System is required to evaluate tax positions taken by the Plan and recognize a tax liability or asset if the Plan has taken an uncertain position that more likely than not would be sustained upon examination by the Internal Revenue Service. The System has concluded that as of December 31, 2015 and 2014, there are no uncertain tax positions taken or expected to be taken. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The System believes the Plan is no longer subject to income tax examinations for years prior to 2012.

(7) Related-Party Transactions

Certain plan investments and shares of mutual funds are managed by the Custodian of the Plan. Therefore, transactions in these mutual funds qualify as party-in-interest transactions.

(8) Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

(9) Investment Contract with Insurance Company

The Principal Fixed Account (PFA) is a general account backed stable value contract issued by the Principal Life Insurance Company. The purpose of the PFA is to provide a stable investment option with a declared interest rate, which is specific to the PFA, fully guaranteed and communicated in advance.

The PFA is comprised of guaranteed interest funds (GIF). A separate GIF is established for each defined period of time over which deposits will be accepted and each GIF has a guaranteed interest rate. Terms of the GIFs are typically established for each plan year. The composite interest rate is the blended rate of all GIF interest rates within the PFA. The composite interest rate is used for reporting purposes by the Custodian. Participant activity is accounted for at book value, thereby maintaining the liquidity desired by the participant.

The guaranteed interest rate for deposits made during the years ended December 31, 2015 and 2014 was 1.30% for both years. The composite interest rate for both of the years ended December 31, 2015 and 2014 was 1.7%.

(10) Subsequent Events

All activity of the Plan has been evaluated through September 30, 2016, the date the financial statements were available to be issued. Other than information disclosed in note 1(a), there were no reportable events.
