401(k) PLUS SAVINGS AND RETIREMENT PLAN**

Notes to Financial Statements

December 31, 2015 and 2014

(1) Plan Description

The following description of Comprehensive Health Care of Ohio, Inc. 401(k) Plus Savings and Retirement Plan (the Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

(a) General

The Plan is a defined contribution plan covering substantially all employees of Comprehensive Health Care of Ohio, Inc. (the Company) except for leased employees and employees participating in Comprehensive Health Care of Ohio, Inc. 401(k) Savings and Retirement Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Effective January 1, 2015, eligible employees of the Plan became participants of the University Hospitals Health Systems, Inc. 401(k) Retirement Plan.

The Board of Directors of University Hospitals, as permitted by the plan document, adopted and approved an amendment and instrument of merger to transfer the assets of Comprehensive Health Care of Ohio, Inc. 401(k) Plus Savings and Retirement Plan into the University Hospitals Health System 401(k) Retirement Savings Plan (University Hospitals 401(k) Plan) effective December 31, 2015.

(b) Contributions

Each year participants could defer and contribute up to the lesser of the maximum based on IRS annual limits or 75% of eligible pretax annual compensation, as defined in the Plan. The Company matching contribution was equal to 100% of the first 3% of eligible compensation and 50% of the next 2% of eligible compensation. Additionally, a non-elective contribution was made by the Company for all employees who were employed as of the last day of the plan year and who had met the 12-month service requirement. The non-elective contribution was calculated as 1%, 2%, or 3% of compensation based on years of vesting service of 1-9 years, 10-19 years, or 20 plus years, respectively.

(c) Participant Accounts

Individual participant accounts were maintained for participants and were adjusted for contributions and plan earnings. Participants could direct the investments of their account balances into various investment options offered by the Plan. Plan earnings and administrative expenses were allocated to participant accounts in proportion to the value of their individual investment balances.

(d) Participant Notes Receivable

Participants could borrow from their fund accounts a minimum of \$1,000 up to an amount equal to the lesser of \$50,000 or 50% of their vested account balance, reduced by outstanding notes receivable balances. Participants could have a maximum of two notes outstanding at any given time. Participant notes receivable terms ranged from one to five years or within a reasonable period of time for the purchase of a primary residence. Notes receivable were collateralized by the participant's account balance and had interest rates that ranged from 4.25% to 8.00% which were commensurate with local prevailing rates as determined by the plan administrator. Principal and interest were paid ratably through monthly payroll deductions.

(e) Vesting

Participants were immediately vested in their contributions, Company matching contributions made after January 1, 2010 and any earnings thereon. Company contributions made prior to January 1, 2010 and any earnings thereon became fully vested once the participant had completed three years of credited service. Nonelective Company contributions made after the effective date of January 1, 2010 became fully vested once the participant had completed three years of credited service. Forfeited balances of nonvested accounts were used to reduce future Company contributions.

(f) Payment of Benefits

Upon termination of service or upon death, disability, or retirement, a participant received a lump-sum amount equal to the balance of his or her account.

The benefit to which a participant was entitled was the benefit that could be provided from the participant's vested account.

(g) Administrative Expenses

Certain administrative expenses were paid by the Plan. Other administrative expenses, such as audit fees and legal fees, were paid by the Company.

(h) Forfeitures

If a participant was not fully vested on his or her termination date, the nonvested amount of the account was forfeited. Forfeitures were retained in the Plan and could first be used to pay administrative expenses. Any remaining amounts were used to reduce future employer contributions payable under the Plan. At December 31, 2015 and 2014, forfeited account balances totaled \$1,112 and \$298,583, respectively.

(2) Summary of Significant Accounting Policies

(a) Basis of Accounting

The financial statements of the Plan are prepared under the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

(b) Investment Valuation

The Plan's investments were stated at fair value, except for its common collective trust fund investment, which was valued at contract value. Contract value represents investments at cost plus accrued interest income less amounts withdrawn to pay benefits. The fair value of the common collective trust fund was based on discounting the related cash flows of the underlying investment contracts based on current yields of similar instruments with comparable durations. All other investments were valued based on quoted market prices. See note 8 for additional information.

401(k) PLUS SAVINGS AND RETIREMENT PLAN

Notes to Financial Statements

December 31, 2015 and 2014

Net depreciation in investments included the Plan's gains and losses in investments bought and sold as well as held during the year. Purchases and sales of securities were recorded on a trade-date basis. Dividends were recorded on the ex-dividend date and interest income was recorded on the accrual basis.

The common collective trust fund consisted of an investment in the Fidelity Managed Income Portfolio (MIP) fund of which the purpose was to preserve principal while earning interest income. The MIP was a commingled pool and its investments were comprised of conventional and synthetic investment contracts issued by insurance companies, banks and other financial institutions, short-term bonds and other fixed income securities, including U.S. Treasury bonds, mortgage-backed securities, commercial mortgage-backed securities, asset backed securities and derivative instruments such as futures, swaps and options. Third-party wrap contracts were purchased to permit the use of book value accounting to maintain a constant net asset value and to provide for payment of participant-directed withdrawals and exchanges at book value. Interest was credited under wrap contracts.

Because the MIP was fully benefit-responsive, contract value was the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Participants could direct the withdrawal or transfer all or a portion of the investment at contract value.

The MIP was valued daily and it was the policy of Fidelity Management Trust Company (the Trustee) to use its best efforts to maintain a stable net asset value of \$1.00 per unit. The MIP used independent pricing services to value its investments. The Plan was not invested in the MIP as of December 31, 2015. The market value spot yield for plan year ended December 31, 2014 was 1.67%.

The methods described above could have produced a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods were appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could have resulted in a different fair value measurement at the reporting date.

(c) *Participant Notes Receivable*

Notes receivable from participants were measured at their unpaid principal balance plus accrued but unpaid interest. Interest income was recorded on the accrual basis. Related fees were recorded as administrative expenses and were expensed when they were incurred. No allowance for credit losses has been recorded as of December 31, 2015 or 2014. If a participant ceased to make loan repayments and the plan administrator deemed the participant loan to be in default, the participant loan balance was reduced and a benefit payment was recorded based on the terms of the plan document.

(d) *Benefit Payments*

Benefits were recorded when paid.

Notes to Financial Statements

December 31, 2015 and 2014

(e) Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

(3) Investments

Fidelity Management Trust Company (the Trustee) held the Plan's investments and participant notes receivable and executed all related transactions. The investment and participant notes receivable balances and related income and losses included in the accompanying financial statements and supplemental schedule of assets held at end of year are based solely on information that had been certified by the Trustee.

The following table presents investments as certified to be complete and accurate by the Trustee of the Plan. Individual investments representing 5% or more of the Plan's total net assets for benefits are separately identified (*). Common/collective trusts are presented at contract value (**).

December 31, 2015 and 2014

During the year ended December 31, 2015, the investment gain and net depreciation in the Plan's investments (including investments bought, sold, and held during the year) as certified by the Trustee of the Plan were as follows:

	<u>2015</u>	<u>2014</u>
Interest and dividend income:		
Mutual funds	\$ 5,215,036	6,162,605

Total investment income	\$ <u>204,384</u>	<u>5,430,323</u>

(4) Related Party and Party-in-Interest Transactions

Certain plan assets were in investment funds managed by Fidelity Management Trust Company or its affiliates. Fidelity Management Trust Company was the Trustee of the Plan; therefore, these transactions qualify as party-in interest transactions as defined under ERISA guidelines. The fees paid by the Plan to these parties in interest were \$20,308 and \$26,803 during the years ended December 31, 2015 and 2014, respectively.

(5) Plan Termination

The Plan Sponsor has the right under the Plan to terminate the Plan, subject to the provisions of ERISA. Upon termination, participants would remain 100% vested in their accounts.

(6) Tax Status

The Plan Sponsor adopted a prototype defined contribution plan document that received a favorable opinion letter from the Internal Revenue Service (IRS) dated March 31, 2008, which stated that the form of the Plan is designed in accordance with applicable sections of the Internal Revenue Code (IRC). While the Plan has been amended within the parameters of the prototype document since receiving the opinion letter, the Plan Sponsor believes that the Plan was designed and operated in compliance with the applicable requirements of the IRC. The plan document's vesting provisions state that participants are fully vested after three years of service. Operationally, the Plan was considering participants vested after completing two years of service. The Plan Sponsor intends to take corrective action in accordance with the IRS voluntary correction program (EPCRS) (which may include an EPCRS submission to the IRS) to address the issue.

Notes to Financial Statements

December 31, 2015 and 2014

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2015, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Company believes the Plan is no longer subject to income tax examinations for years prior to 2012.

(7) Risks and Uncertainties

The Plan invested in various investment securities. Investment securities are exposed to risks including interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

(8) Fair Value Measurements

The Financial Accounting Standards Board established a framework for measuring fair value, and expands disclosures about fair value measurements. The fair value framework requires the categorization of assets and liabilities into three levels based upon the assumptions (inputs) used to price the assets or liabilities. Level 1 provides the most reliable measure of fair value, whereas Level 3 generally requires significant judgment. The three levels are defined as follows:

Level 1 – Assets or liabilities that are valued based on quoted prices in active markets that are accessible at measurement date.

Level 2 – Assets and liabilities that are valued based upon inputs, other than those included in Level 1; based on quoted prices for similar assets and liabilities in active markets, quoted prices for identical or similar assets and liabilities in inactive markets, or financial instruments for which all significant inputs are observable, either directly or indirectly.

Level 3 – Assets or liabilities that are based on unobservable inputs, including the reporting entity's own analysis of the underlying economic data that market participants would factor into the pricing of the asset or liability.
