Notes to Financial Statements

1. Description of Plan

The following description of the Sumner Manufacturing Co., Inc. 401(k) Plan (the “Plan”) provides only general information. Participants should refer to the Plan Agreement for a more comprehensive description of the Plan’s provisions.

General

The Plan was established on January 1, 1991 and is a defined contribution plan providing retirement benefits for employees of Sumner Manufacturing Co., Inc. (the “Company” or “Employer”). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”), and subsequent amendments.

Administration of the Plan

Effective January 1, 2013, Massachusetts Mutual Life Insurance Company (“Mass Mutual”) acquired The Hartford’s Retirement Plans Group (“RPG”) business. The RPG business no longer has any affiliation with The Hartford Financial Services Group, Inc. or any of its subsidiaries. Mass Mutual continues to be appointed by Hartford Life Insurance Company (“HLIC”) to provide all administrative services necessary to support the insurance contracts issued by HLIC in connection with the RPG business. Accordingly, Mass Mutual serves as the trustee of the Plan’s assets. Nova 401(k) Associates provides plan administrative services.

Eligibility

The Plan covers all employees of the Employer who are eligible to participate in the Plan with respect to making contributions (except leased employees covered by a collective bargaining agreement and nonresident aliens). Employees must be age 21 and have three consecutive months of employment to be eligible to enroll in the Plan. The Plan is open for enrollment on January 1 and July 1 to eligible employees.

Contributions

All eligible participants may elect to defer up to 90% of their compensation, on a pre-tax basis, which is subject to limits imposed by the Internal Revenue Code (“IRC”) (\$18,000 for 2015). Participants are also allowed to (1) make after-tax salary deferrals under the Plan as “Roth Deferrals” and (2) make additional after-tax contributions that are not treated as Roth Deferrals. Participants who have attained age 50 before the end of the plan year are eligible to make additional tax deferred catch-up contributions (up to \$6,000 for 2015). In addition, the Employer, on a discretionary basis, may make matching contributions, profit sharing contributions, and/or qualified non-elective contributions. For the year ended December 31, 2015, the Employer’s safe harbor matching contribution was 100% of the first 1% of the participants salary deferrals and 50% of the remaining participant salary deferrals up to a deferral of 6%. During 2015, the Employer made no discretionary profit sharing or qualified non-elective contributions. Participants direct the investment of their contributions into various investments options offered by the Plan.

SUMNER MANUFACTURING CO., INC. 401(k) PLAN

Notes to Financial Statements

The Plan has an automatic enrollment feature, which automatically results in 6% of a participant's eligible compensation being treated as a pre-tax salary deferral under the Plan, unless the participant expressly elects some other rate of deferral or elects not to participate.

Participant Accounts

Each participant's account is credited with the participant's contributions, the Employer's contributions and an allocation of plan earnings. Allocations are based upon either the participant's earnings or account balances, as defined by the Plan Agreement. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are always fully vested with respect to their salary deferral contributions and related earnings, as well as, the Employer safe harbor contribution. For all Employer discretionary matching and profit sharing contributions and related earnings, participants are vested twenty percent after two years of service and vest an additional twenty percent for each year thereafter until fully vested after six years of service.

Notes Receivable from Participants

Participants may borrow from their accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested balance, less the balance of any existing notes. Participants may have no more than two outstanding loans at any time. The notes are secured by the balance in the participant's account. Interest is charged at the prevailing rate at the time the note is made, with scheduled repayments to be made through salary deferrals. Note terms range from one to five years or up to ten years for the purchase of a primary residence.

Payment of Benefits

Upon termination of service due to death, disability or retirement, a participant becomes fully vested in their account balance and may elect to receive either a lump-sum amount equal to the value of the participant's account or maintain their account in the Plan until the participant attains age 70½, provided the employee's vested account balance exceeds \$5,000. For termination of service due to other reasons, a participant may receive the value of the vested interest in their account as a lump-sum distribution. Financial hardship withdrawals and in-service withdrawals upon attaining age 59½ are permitted, as defined in the Plan Agreement. A participant who receives a hardship withdrawal shall be prohibited from making employee contributions to the Plan for six months after receipt of such distributions.

SUMNER MANUFACTURING CO., INC. 401(k) PLAN

Notes to Financial Statements

Forfeitures

Forfeitures occur when a participant terminates employment before becoming 100% vested with respect to the Employer discretionary contributions. Forfeitures are required to first be used to pay the Plan's administrative expenses, with any remaining unapplied forfeitures to be used to reduce Employer contributions. At December 31, 2015 and 2014, the total unallocated forfeitures were \$51 and \$3,630, respectively. Forfeitures of \$5,267 were used to pay the Plan's administrative expenses during the year ended December 31, 2015.

Fees and Expenses

The Plan's expenses are paid either by the Plan or the Company, as provided by the Plan Agreement. Expenses that are paid directly by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants, and other participant directed expenses, are charged directly to the participant's account and are included in expenses of the Plan. Investment related expenses are included in net appreciation or depreciation of fair value of investments.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America, as codified by the Financial Accounting Standards Board ("FASB") in its Accounting Standards Codification ("ASC").

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

Benefits

Benefits are recorded as a reduction to net assets available for benefits when paid.

Notes Receivable from Participants

Participant loans are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. No allowance for credit losses has been recorded as of December 31, 2015 and 2014. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded. For the year ended December 31, 2015, \$5,769, were recorded as deemed distributions.

SUMNER MANUFACTURING CO., INC. 401(k) PLAN

Notes to Financial Statements

Investment Valuation and Income Recognition

The Plan's investment in pooled separate accounts and collective trust funds are stated at fair value and are based upon quoted or estimated market prices.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Net unrealized appreciation or depreciation is included in the carrying value of related investments in the Statements of Net Assets Available for Benefits and the changes in the net unrealized appreciation or depreciation are reflected in the Statement of Changes in Net Assets Available for Benefits. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Risks and Uncertainties

The Plan provides for various investment options in a variety of investment securities. Investment securities, in general, are exposed to various risks such as interest rate risk, financial market risk and credit risk. Due to the level of risk associated with certain investment securities, coupled with the recent economic events in the United States of America, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Plan's financial statements.

Subsequent Events

The plan administrator has evaluated all events and transactions through October 11, 2016 the date the financial statements were made available to be issued, and concluded that no other events required recognition in the financial statements or disclosure in the notes to the financial statements.

Recently Issued Accounting Pronouncements

In May 2015, the FASB issued Accounting Standards Update ("ASU") 2015-07, *Disclosures for Investments in Certain Entities that Calculate Net Asset Value Per Share (or its Equivalent)* ("ASU 2015-07"). ASU 2015-07 removes the requirement to categorize within the fair value hierarchy investments for which fair values are estimated using the net asset value practical expedient provided by ASC 820, *Fair Value Measurement*. Disclosures about investments in certain entities that calculate net asset value ("NAV") per share are limited under ASU 2015-07 to those investments for which the entity has elected to estimate the fair value using the net asset value practical expedient. ASU 2015-07 is effective for fiscal years beginning after December 15, 2015, with early adoption permitted. The Plan has elected to early adopt ASU 2015-07; accordingly, these provisions were retrospectively applied.

In July 2015, the FASB issued ASU 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient* ("ASU 2015-12"). The amendments in Part I of ASU 2015-12 eliminated the requirements that employee benefit plans measure the fair value of fully benefit-responsive investment contracts and provide the related fair value disclosures, rather these contracts will be measured and disclosed only at contract value. The

SUMNER MANUFACTURING CO., INC. 401(k) PLAN

Notes to Financial Statements

amendments in Part II of ASU 2015-12 will require plans to disaggregate their investments measured using fair value only by general type, either on the financial statements or in the notes. Part II also eliminated the requirement to disclose the net appreciation/depreciation in fair value of investments by general type and the requirement to disclose individual investments that represent 5% or more of net assets available for benefits. The amendments in Part III of ASU 2015-12 provide a practical expedient to permit plans to measure their investments and investment related accounts as of a month-end date closest to their fiscal year for plans with fiscal year ends that do not coincide with the end of a calendar month. The amendments in ASU 2015-12 are effective for reporting periods beginning after December 15, 2015, with early adoption permitted. The amendments within Part I and II require retrospective application. The Plan has elected to early adopt the provisions of Part I and II of this new standard; accordingly, these provisions were retrospectively applied.

3. Information Certified by the Trustee

As permitted by the rules and regulations of the Department of Labor with respect to reporting and disclosure under ERISA, the plan administrator has obtained a certification from the trustee that the investments held by the trustee (stated at cost and fair value) together with all other transactions related to those investments, are complete and accurate as of December 31, 2015 and 2014, and for the year ended December 31, 2015. The following represents the certified data as of December 31, 2015 and 2014, and for the year ended December 31, 2015.

<i>December 31,</i>	2015	2014
Pooled separate accounts	\$ 3,238,186	\$ 3,240,588

<i>Year Ended December 31,</i>		
Net depreciation in fair value of investments	(350,971)

The Plan's independent auditors did not perform auditing procedure with respect to this information, except for comparing such information certified by the Custodian to the related information included in the financial statements and supplemental schedule.

SUMNER MANUFACTURING CO., INC. 401(k) PLAN

Notes to Financial Statements

Fair Value Disclosures

The Plan measures fair value in accordance with ASC 820, *Fair Value Measurements and Disclosures*, which defines fair value as the price that would be received in the sale of an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. ASC 820 requires disclosure of the extent to which fair value is used to measure financial and non-financial assets and liabilities, the inputs utilized in calculating valuation measurements, and the effect of the measurement of significant unobservable inputs on earnings, or changes in net assets, as of the measurement date.

ASC 820 establishes a fair value hierarchy, which prioritizes the inputs used in measuring fair value into three levels based on the extent to which inputs used in measuring fair value are observable in the market.

These levels include:

- *Level 1* - defined as observable inputs such as quoted prices in active markets;
- *Level 2* - defined as observable inputs other than quoted prices in active markets that are either directly or indirectly observable; and
- *Level 3* - defined as unobservable inputs in which there is little or no market data available, therefore requiring an entity to develop its own assumptions.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

The following is a description of the valuation methodologies used for assets measured at fair value. There has been no change in methodology used at December 31, 2015 and 2014, except for the retrospective adoption of ASU 2015-07 and 2015-12.

- *Pooled Separate Accounts*: The pooled separate accounts are stated at net asset value ("NAV"), as provided by the trustee, which is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund (less its liabilities) in relation to the total number of units outstanding.
- *Collective Trust Funds*: The collective trust funds are stated at net asset value ("NAV"), as provided by the trustee, which is used as a practical expedient to estimate fair value. The funds are based on the fair value of the underlying investments held by the funds (less its liabilities) in relation to the total number of units outstanding.

The preceding method described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

SUMNER MANUFACTURING CO., INC. 401(k) PLAN

Notes to Financial Statements

As discussed in Note 2, the Plan adopted ASU 2015-07 which removed the requirement to categorize and disclose investments for which fair value is measured using the NAV per share as the practical expedient within the fair value hierarchy. The following tables summarize investments for which fair value is measured using the net asset value per share practical expedient as of December 31, 2015 and 2014. There are no participant redemption restrictions for these investments; the redemption notice period is applicable only to the Plan.

	Fair Value	Unfunded Commitments	Redemption Frequency (if currently eligible)	Redemption Notice Period
December 31, 2015				
Pooled separate accounts	\$ 3,288,186			
Common collective trust	492,234	N/A	Daily	12 months
December 31, 2014				
Pooled separate accounts	\$ 3,240,588			
Common collective trust	184,029	N/A	Daily	12 months

4. Plan Termination

Although it has not expressed any intent to do so, the Employer has the right under the Plan Agreement to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. Upon any full or partial termination, all amounts credited to the affected participants become fully vested and not subject to forfeiture. Any unallocated assets of the Plan shall be allocated to participants' accounts and distributed in a manner as the Employer may determine.

5. Income Tax Status

In October 2010, the Employer amended and restated the Plan effective January 1, 2011, by adopting a Prototype Plan sponsored by Nova. At the time, Nova had received a favorable opinion letter from the IRS, dated May 11, 2009, stating that the Prototype Plan is acceptable under Section 401 of the IRC for use by employers for the benefit of their employees. Since then the Plan has been amended. Nova has since received a new favorable opinion letter dated March 31, 2014 stating that the current version of the Prototype Plan is acceptable under Section 401 of the IRC for use state plan has not received its own letter by employers for the benefit of their employees. The Employer believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for taxes has been included in the Plan's financial statements.

SUMNER MANUFACTURING CO., INC. 401(k) PLAN

Notes to Financial Statements

Accounting principles generally accepted in the United States of America requires that the Employer evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Employer has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2015, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Employer believes it is no longer subject to income tax examination for years prior to 2012.

6. Parties-In-Interest

Massachusetts Mutual Life Insurance Company is trustee of the Plan's investments as well as recordkeeper and engages in certain transactions that qualify as party-in-interest transactions. The Plan's management has approved these activities and transactions. Notes receivable from participants also qualify as party-in-interest transactions.
