Retirement Savings Value Plan

Notes to Financial Statements

December 31, 2015 and 2014

Note 1 - Plan Description

The following description of Pilkington North America, Inc. Retirement Savings Value Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan that covers substantially all United Steelworkers of America, AFL-CIO, CLC Union employees of Pilkington North America, Inc. (the "Company"). Employees are eligible to participate in the Plan 90 days after they become employed. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions - For all employees covered by the Plan, participant contributions may be made via payroll withholdings from 1 percent to 40 percent of the employee's wages (in 1 percent increments only), subject to maximum limitations established by the Internal Revenue Code. Each pay period, for the Rossford and Lathrop plants, the Company contributes a guaranteed amount to the Plan equal to 4.5 percent of each eligible employee's salary.

The Company also makes an annual senior value contribution equal to 1.5 percent of wages with respect to participants who are age 56 or older and working at the Ottawa, Rossford, or Lathrop plants. The Company may also make a negotiated cents-per-hour-worked "special contribution" to the Plan for Ottawa participants. In addition, for the Ottawa, Rossford, and Lathrop participants, the Company will contribute a matching percentage of eligible wages at 50 percent of the first 5 percent deferred.

For the Laurinburg and Shelbyville plants, the Company will contribute a matching percentage of eligible wages at 100 percent for the first 1 percent deferred, 50 percent of the next 4 percent deferred, and 25 percent of the next 3 percent deferred.

The Plan may accept rollover contributions from other qualified plans.

Participant Accounts - Each participant's account is credited with the participant's contribution and allocations of the Company's contributions and plan earnings and charged with an allocation of administrative expenses. Allocations are based on account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants may direct the investments of their account balances into various investment options offered by the Plan.

Transfers - During the year, transfers occur between Company sponsored plans when employees change employment within pay groups covered by the plans.

Notes to Financial Statements

December 31, 2015 and 2014

Note 1 - Plan Description (Continued)

Vesting - Participant and matching contributions are fully vested when made, including rollover contributions. The Company's guaranteed and senior value contributions vest at the rate of 25 percent per year of service. The special contribution is fully vested when made.

Participant Notes Receivable - Participants may borrow from their accounts up to a maximum of 50 percent of their account balance, not to exceed \$50,000. Notes receivable are collateralized by the participant's account balance and bear interest at rates that range from 3.44 percent to 7.89 percent. The interest rate is determined by a committee consisting of plan administrators.

Payment of Benefits - Upon retirement, death, disability, or other termination of employment, a participant may elect to receive payment for the value of his or her vested account through a lump-sum installment or an annuity distribution.

Forfeitures - If a participant is not fully vested on his or her termination date, the nonvested amount of the account is forfeited. Forfeitures are used to reduce future company contributions.

Hardship Withdrawals - Participants may request that all of their vested contributions or a portion of their account be distributed in the case of severe financial hardship, as defined in the plan document. The Company must approve any such hardship withdrawals.

Termination - While it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. Upon termination of the Plan, participants become 100 percent vested in their account balances.

Party-in-interest Transactions - Payroll expenses related to the Company's employees who administer the Plan and other administrative expenses are paid by the Company. Certain investments in the Pilkington North America, Inc. Master Retirement Savings Trust are shares of the common collective fund managed by The Northern Trust Company, the Custodian as defined by the Plan; therefore, these transactions qualify as party-in-interest transactions.

Retirement Savings Value Plan

Notes to Financial Statements

December 31, 2015 and 2014

Note 2 - Summary of Significant Accounting Policies

Investment Valuation - The fair value of the Plan's interest in the Pilkington North America, Inc. Master Retirement Savings Trust (the "Master Trust") is based on the beginning of the year value of the Plan's interest in the Master Trust, plus actual contributions and allocated investment income, less actual distributions and allocated administrative expenses. The Master Trust's investments are stated at fair value except as noted below. At December 31, 2015, the Master Trust held two different common collective trust funds, one stable value fund, and one equity index fund.

The common collective trust funds are valued at net asset value per share (or its equivalent) of the funds, which are based on the fair value of the funds' underlying net assets. There are no redemption restrictions or unfunded commitments on these investments.

The money market funds, demand notes, certificates of deposit, and interest-bearing cash are valued at fair value based on their outstanding balances. All other investments are valued based on quoted market prices. See Note 4 for additional information.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Participant Notes Receivable - Participant notes receivable are recorded at their unpaid principal balances plus any accrued interest. Participant notes receivable are written off when deemed uncollectible.

Benefit Payments - Benefits are recorded when paid.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Risks and Uncertainties - The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Notes to Financial Statements

December 31, 2015 and 2014

Note 2 - Summary of Significant Accounting Policies (Continued)

Subsequent Events - The financial statements and related disclosures include evaluation of events up through and including October 3, 2016, which is the date the financial statements were available to be issued.

New Accounting Pronouncements - During 2015, the Plan adopted Accounting Standards Update (ASU) Nos. 2015-07, *Disclosures for Investments in Certain Entities that Calculate Net Asset Value per Share (or its Equivalent)*, and 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), and Health and Welfare Benefit Plans (Topic 965) - I. Fully Benefit-Responsive Investment Contracts, II. Plan Investment Disclosures, and III. Measurement Date Practical Expedient*. ASU No. 2015-07 amended ASC 820, *Fair Value Measurements*, and removed the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share as a practical expedient. Part II of ASU No. 2015-12 was applicable to the Plan and modified the investment disclosures under ASC 820 and 962. These standards were adopted retrospectively and had no impact on the Plan's net assets or changes in net assets.

Change in Presentation - The presentation of the Master Trust's investment in a stable value common collective trust for 2014 has been changed to be consistent with the 2015 presentation. The Master Trust's investment in the fund is presented using net asset value (NAV) per unit as a practical expedient for the fair value of the investment without presentation of contract value or the difference between fair value and contract value. This change in presentation resulted from a recent clarification from the Financial Accounting Standards Board, and had no effect on total net assets available for benefits or the change in net assets available for benefits.

Note 3 - Interest in Master Trust

The Plan's investments are in the Master Trust which was established for the investment of assets of the Plan and two other Pilkington, North American, Inc. sponsored benefit plans. Each participating plan's interest in the Master Trust is based on account balances of the participants and their elected the investment options. The assets of the Master Trust are held by the Northern Trust Company (the "Custodian"). At December 31, 2015 and 2014, the Plan's interest in the net assets of the Master Trust was approximately 22 percent.

Notes to Financial Statements December 31, 2015 and 2014

Note 3 - Interest in Master Trust (Continued)

The following table is a summary of the net assets of the Master Trust at December 31, 2015 and 2014:

	2015	2014
Assets at fair value:		
Common collective trust funds	\$ 161,053,263	\$ 169,235,810
Mutual funds	200,442,645	218,338,630
Total assets at fair value	<u>\$ 361,495,908</u>	<u>\$ 387,574,440</u>

The investment income for the Master Trust for the years ended December 31, 2015 and 2014 is as follows:

	2015	2014
Net (depreciation) appreciation of investments	\$ (7,163,426)	\$ 21,774,444
Interest	2,770,909	818,135
Dividends	-	11
Net investment (loss) income	<u>\$ (4,392,517)</u>	<u>\$ 22,592,590</u>

Note 4 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the inputs and valuation techniques used to measure fair value.

The following tables present information about the Plan's assets measured at fair value on a recurring basis at December 31, 2015 and 2014.

Level 1 - Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Level 2 - Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, and inputs other than quoted prices that are observable for the asset.

Level 3 - Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on management's own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset.

Pilkington North America, Inc.

Retirement Savings Value Plan

Notes to Financial Statements December 31, 2015 and 2014

Note 4 - Fair Value Measurements (Continued)

In instances whereby inputs used to measure fair value fall into different levels in the above fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

Assets Measured at Fair Value on a Recurring Basis at December 31, 2015

	Investments (at Fair Value)	Level I
Mutual funds	\$ 200,442,645	<u>\$ 200,442,645</u>
Investments measured at NAV - Common collective trust funds	<u>161,053,263</u>	
Total investments at fair value	<u>\$ 361,495,908</u>	

Assets Measured at Fair Value on a Recurring Basis at December 31, 2014

	Investments (at Fair Value)	Level I
Mutual funds	\$ 218,338,630	<u>\$ 218,338,630</u>
Investments measured at NAV - Common collective trust funds	<u>169,235,810</u>	
Total investments at fair value	<u>\$ 387,574,440</u>	

The Plan's policy is to recognize transfers between levels of the fair value hierarchy as of the actual date of the event of change in circumstances that caused the transfer.

Note 5 - Reconciliation to Form 5500

The net assets on the financial statements differ from the net assets on Form 5500 due to a difference in the valuation of the stable value common collective trust fund on the financial statements and on Form 5500. There was no difference in net assets on the financial statements and Form 5500 at December 31, 2015. The net assets on the financial statements were lower than Form 5500 at December 31, 2014 by \$490,876. Additionally, the investment loss on Form 5500 for the year ended December 31, 2015 is higher than the investment loss on the financial statements by \$490,876. The investment income on Form 5500 was lower than the investment income on the financial statements for the year ended December 31, 2014 by \$490,876.

Note 6 - Tax Status

The Plan has received a determination letter from the Internal Revenue Service indicating that the Plan, as designed, is qualified for tax-exempt treatment under the applicable section of the Internal Revenue Code. Accordingly, no provision for income taxes has been made in the accompanying financial statements. Although the Plan has been amended since receiving the determination letter, management believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.
