1. Description of Plan

The following description of JSC Systems, Inc. (Company) 401(k) Profit Sharing Plan & Trust (Plan) provides only general information. Participants should refer to the Plan for a more complete description of the Plan's provisions.

A. General

The Plan is a defined contribution 401(k) Plan covering substantially all employees of the Company who have six months of service and are age 21 or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

B. Contributions

Each participant enters into a salary reduction agreement with the employer. The employee may elect to save a portion of defined compensation by an amount up to 85%. Additionally, eligible participants may make catch-up contributions. The Company may make a discretionary contribution each year. Participants direct the investments of their contributions into various investment options offered by the Plan. Contributions may be subject to certain limitations.

C. Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of the Company's contribution and Plan earnings (losses) and charged with an allocation of applicable administrative expenses paid by the Plan. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can provided from the participant’s vested account

D. Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company’s contribution portion of their accounts is based on years of continuous service. The vesting schedule is 20% at 2 years, 40% at 3 years, 60% at 4 years, 80% at 5 years, and 100% at 6 or more years of service.

E. Forfeited Accounts

Forfeited non-vested accounts will be used to reduce future employer contributions and to pay Plan expenses. For the year ended December 31, 2015 and 2014, forfeited nonvested accounts totaled $3,465 and $3,460, respectively.

F. Payment of Benefits

On termination of service due to death, disability or retirement, a participant may elect to either receive a lump sum, annual payment or partial payments, if the vested account balance is greater than $1,000. For accounts less than $1,000, a lump sum payment shall be made.

G. Participant Loans

Participants may borrow from their account a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. The loans are secured by the balance in the participant's account and bear interest at rates that range from 4.25% to 9.5%, which are commensurate with local prevailing rates as determined quarterly by the Plan's management.

2. Summary of Accounting Policies

A. Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting. Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Guaranteed Interest Account is a benefit-responsive investment. However, its value is derived from the contract provisions as the contract is not a fund and therefore, has no assets on the market from which the value is determined. As a result, the fair value amount shown is equal to the contract value and no adjustment is required to be presented in the financial statements.

B. Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results may differ from those estimates.

C. Funding Policy

Participant and Company contributions are remitted by the Company weekly in conjunction with payroll.

D. Notes Receivable

Principal and interest on participant loans are paid ratably through weekly payroll deductions. Participant loans are reported at unpaid principal balance plus accrued interest. The interest rate charged on a participant loan must be commensurate with the interest rates charged by persons in the business of lending money for loans under similar circumstances. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

E. Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

F. Payment of Benefits

Benefits are recorded when paid.

G. Administrative Expenses

All reasonable expense related to Plan administration will be paid from Plan assets, except to the extent the expenses are paid (or reimbursed) by the employer.

H. Recently Issued Standards

In May 2015, Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)*, which removes the current requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient. ASU 2015-07 is effective for fiscal years beginning after December 15, 2016, with earlier application permitted.

3. Fair Value Measurements

FASB Accounting Standards Codification (ASC) Fair Value Measurements and Disclosures, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of fair value hierarchy under FASB ASC 820 are classified as follows:

Level 1	Quoted market prices in active markets for identical assets at the measurement date.
Level 2	Observable market based inputs other than quoted prices for the asset, directly or indirectly observable, reflect assumptions market participants would use to price the asset based on market data obtained from sources independent of the plan. This may include matrix pricing, yield curves and indices.
Level 3	Unobservable inputs reflect the Plan's own assumptions about the assumptions market participants would use to price an asset based on the best information available in the circumstances.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques are used to maximize the use of observable inputs and minimize the use of unobservable inputs.

Money Markets and Mutual Funds (Funds) - Net Asset Value (NAV) is normally calculated as of the close of business of the NYSE, normally 4:00pm ET. The Funds' assets are valued at this time to compute the Funds' NAV.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2015 and 2014.

During the years ending December 31, 2015 and 2014, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated/(depreciated) in value by ($162,959) and $12,356, respectively.

5. Guaranteed Interest Contract

The Plan entered into a fully benefit-responsive guaranteed interest contract (GIC) with Lincoln National Life Insurance Company (LNLIC). LNLIC maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The GIC issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the GIC is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of net assets available for benefits attributable to the GIC. If an event has occurred such that realization of full contract value is no longer probable, the GIC is no longer considered fully benefit responsive. The GIC is presented on the face of the statement of net assets available for benefits at fair value which approximates contract value. Contract value, as reported to the Plan by LNLIC, represents contributions made under the contract, plus earnings, less withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The Plan changed providers during the year and the fair value of the GIC at December 31, 2015 and 2014 was $0 and $319,307, respectively.

The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than 1.00%. Such interest rates are reviewed on a quarterly basis for resetting. The methodology used to calculate the interest crediting rate for the GIC is discretionary to LNLIC. The crediting rates are set to be at least as high as the guaranteed minimum interest rate for a given contract, are communicated to plan sponsors before they go into effect, and are guaranteed for at least one quarter. Any adjustments to the interest crediting rate will not result in a future interest crediting rate that is less than zero.

Certain events limit the ability to the Plan to transact at contract value with the issuer. Such events include in the following: (1) amendments to the Plan documents (including complete and partial termination or merger with another plan); (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions; (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan; or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan's management does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

LNLIC may terminate an annuity contract under the following circumstances:

- If the contract owner breaches the contract in some way, LNLIC reserves the right to terminate the contract. A breach might include:
    - Failure to pay any charges LNLIC has billed to the contract owner
    - Failure to furnish requested information or other documentation
    - Discovery by LNLIC that the contract owner has misrepresented any material information
- If the plan ceases to meet the requirements of the appropriate Code sections, LNLIC reserves the right to terminate the contract.
- If, after a reasonable amount of time, the account has not grown sufficiently, LNLIC reserves the right to terminate the contract. Guidelines for contract termination are as follows:
    - Following the end of the third contract year, the contract owner account value is less than $15,000
    - Following the end of the third contract year, there is no deposit activity for a 24-consecutive-month period and the contract owner account value is less than $50,000

	2015	2014
Average Yields:		
Based on actual earnings for all fully benefit responsive contracts	2.64%	2.59%
Based on interest rate credited to Plan participants	0.92% *	1.49%

*Contracts were liquated on April 30, 2015. Therefore, this rate represents a four month yield period.

6. Benefits Paid to Participants

Benefits paid to participants includes $213,511 of participant distributions and $5,696 of delinquent participant loans that were reclassified from Notes Receivable to distributions

7. Related Party Transactions

Certain Plan investments were managed by LNLIC. LNLIC was the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions.

During the Plan year, the Plan liquidated the funds in LNLIC and invested them with Fidelity Management Trust (Fidelity), as trustee. These transactions qualify as party-in-interest transactions.

Additionally, the Company, is a party-in-interest to the Plan; however, there were no transactions with the Plan sponsor other than the funding of contributions to the Plan.

8. Plan termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

9. Tax Status

The IRS has determined and informed the Company that the Plan and related trust are designed in accordance with applicable sections of Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan's management believes the Plan has been designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believes that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America required the Plan’s management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan had taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax in progress. The Plan's management believes it is no longer subject to tax examinations for years prior to 2011.

10. Certification

Fidelity's certification applies to the Plan assets and investment activities reported in the Statements of Changes in Net Assets Available for Benefits for the period of May 1, 2015 to December 31, 2015. For the year ended December 31, 2014 and the period of January 1, 2015 to April 30, 2015 the investments were certified by Lincoln Financial Group.

11. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

12. Subsequent Events

The Plan has evaluated subsequent events through October 6, 2016, the date the financial statements were available to be issued.

1. Description of Plan

The following description of JSC Systems, Inc. (Company) 401(k) Profit Sharing Plan & Trust (Plan) provides only general information. Participants should refer to the Plan for a more complete description of the Plan's provisions.

A. General

The Plan is a defined contribution 401(k) Plan covering substantially all employees of the Company who have six months of service and are age 21 or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

B. Contributions

Each participant enters into a salary reduction agreement with the employer. The employee may elect to save a portion of defined compensation by an amount up to 85%. Additionally, eligible participants may make catch-up contributions. The Company may make a discretionary contribution each year. Participants direct the investments of their contributions into various investment options offered by the Plan. Contributions may be subject to certain limitations.

C. Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of the Company's contribution and Plan earnings (losses) and charged with an allocation of applicable administrative expenses paid by the Plan. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can provided from the participant’s vested account

D. Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company’s contribution portion of their accounts is based on years of continuous service. The vesting schedule is 20% at 2 years, 40% at 3 years, 60% at 4 years, 80% at 5 years, and 100% at 6 or more years of service.

E. Forfeited Accounts

Forfeited non-vested accounts will be used to reduce future employer contributions and to pay Plan expenses. For the year ended December 31, 2015 and 2014, forfeited nonvested accounts totaled $3,465 and $3,460, respectively.

F. Payment of Benefits

On termination of service due to death, disability or retirement, a participant may elect to either receive a lump sum, annual payment or partial payments, if the vested account balance is greater than $1,000. For accounts less than $1,000, a lump sum payment shall be made.

G. Participant Loans

Participants may borrow from their account a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. The loans are secured by the balance in the participant's account and bear interest at rates that range from 4.25% to 9.5%, which are commensurate with local prevailing rates as determined quarterly by the Plan's management.

2. Summary of Accounting Policies

A. Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting. Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Guaranteed Interest Account is a benefit-responsive investment. However, its value is derived from the contract provisions as the contract is not a fund and therefore, has no assets on the market from which the value is determined. As a result, the fair value amount shown is equal to the contract value and no adjustment is required to be presented in the financial statements.

B. Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results may differ from those estimates.

C. Funding Policy

Participant and Company contributions are remitted by the Company weekly in conjunction with payroll.

D. Notes Receivable

Principal and interest on participant loans are paid ratably through weekly payroll deductions. Participant loans are reported at unpaid principal balance plus accrued interest. The interest rate charged on a participant loan must be commensurate with the interest rates charged by persons in the business of lending money for loans under similar circumstances. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

E. Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

F. Payment of Benefits

Benefits are recorded when paid.

G. Administrative Expenses

All reasonable expense related to Plan administration will be paid from Plan assets, except to the extent the expenses are paid (or reimbursed) by the employer.

H. Recently Issued Standards

In May 2015, Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)*, which removes the current requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient. ASU 2015-07 is effective for fiscal years beginning after December 15, 2016, with earlier application permitted.

3. Fair Value Measurements

FASB Accounting Standards Codification (ASC) Fair Value Measurements and Disclosures, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of fair value hierarchy under FASB ASC 820 are classified as follows:

Level 1	Quoted market prices in active markets for identical assets at the measurement date.
Level 2	Observable market based inputs other than quoted prices for the asset, directly or indirectly observable, reflect assumptions market participants would use to price the asset based on market data obtained from sources independent of the plan. This may include matrix pricing, yield curves and indices.
Level 3	Unobservable inputs reflect the Plan's own assumptions about the assumptions market participants would use to price an asset based on the best information available in the circumstances.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques are used to maximize the use of observable inputs and minimize the use of unobservable inputs.

Money Markets and Mutual Funds (Funds) - Net Asset Value (NAV) is normally calculated as of the close of business of the NYSE, normally 4:00pm ET. The Funds' assets are valued at this time to compute the Funds' NAV.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2015 and 2014.

5. Guaranteed Interest Contract

The Plan entered into a fully benefit-responsive guaranteed interest contract (GIC) with Lincoln National Life Insurance Company (LNLIC). LNLIC maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The GIC issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the GIC is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of net assets available for benefits attributable to the GIC. If an event has occurred such that realization of full contract value is no longer probable, the GIC is no longer considered fully benefit responsive. The GIC is presented on the face of the statement of net assets available for benefits at fair value which approximates contract value. Contract value, as reported to the Plan by LNLIC, represents contributions made under the contract, plus earnings, less withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The Plan changed providers during the year and the fair value of the GIC at December 31, 2015 and 2014 was $0 and $319,307, respectively.

The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than 1.00%. Such interest rates are reviewed on a quarterly basis for resetting. The methodology used to calculate the interest crediting rate for the GIC is discretionary to LNLIC. The crediting rates are set to be at least as high as the guaranteed minimum interest rate for a given contract, are communicated to plan sponsors before they go into effect, and are guaranteed for at least one quarter. Any adjustments to the interest crediting rate will not result in a future interest crediting rate that is less than zero.

Certain events limit the ability to the Plan to transact at contract value with the issuer. Such events include in the following: (1) amendments to the Plan documents (including complete and partial termination or merger with another plan); (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions; (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan; or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan's management does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

LNLIC may terminate an annuity contract under the following circumstances:

- If the contract owner breaches the contract in some way, LNLIC reserves the right to terminate the contract. A breach might include:
    - Failure to pay any charges LNLIC has billed to the contract owner
    - Failure to furnish requested information or other documentation
    - Discovery by LNLIC that the contract owner has misrepresented any material information
- If the plan ceases to meet the requirements of the appropriate Code sections, LNLIC reserves the right to terminate the contract.
- If, after a reasonable amount of time, the account has not grown sufficiently, LNLIC reserves the right to terminate the contract. Guidelines for contract termination are as follows:
    - Following the end of the third contract year, the contract owner account value is less than $15,000
    - Following the end of the third contract year, there is no deposit activity for a 24-consecutive-month period and the contract owner account value is less than $50,000

	2015	2014
Average Yields:		
Based on actual earnings for all fully benefit responsive contracts	2.64%	2.59%
Based on interest rate credited to Plan participants	0.92% *	1.49%

*Contracts were liquated on April 30, 2015. Therefore, this rate represents a four month yield period.

6. Benefits Paid to Participants

Benefits paid to participants includes $213,511 of participant distributions and $5,696 of delinquent participant loans that were reclassified from Notes Receivable to distributions

7. Related Party Transactions

Certain Plan investments were managed by LNLIC. LNLIC was the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions.

During the Plan year, the Plan liquidated the funds in LNLIC and invested them with Fidelity Management Trust (Fidelity), as trustee. These transactions qualify as party-in-interest transactions.

Additionally, the Company, is a party-in-interest to the Plan; however, there were no transactions with the Plan sponsor other than the funding of contributions to the Plan.

8. Plan termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

9. Tax Status

The IRS has determined and informed the Company that the Plan and related trust are designed in accordance with applicable sections of Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan's management believes the Plan has been designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believes that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America required the Plan’s management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan had taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax in progress. The Plan's management believes it is no longer subject to tax examinations for years prior to 2011.

10. Certification

Fidelity's certification applies to the Plan assets and investment activities reported in the Statements of Changes in Net Assets Available for Benefits for the period of May 1, 2015 to December 31, 2015. For the year ended December 31, 2014 and the period of January 1, 2015 to April 30, 2015 the investments were certified by Lincoln Financial Group.

11. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

12. Subsequent Events

The Plan has evaluated subsequent events through October 6, 2016, the date the financial statements were available to be issued.
