LABS, Inc. Employees' Retirement Plan

Notes to Financial Statements

Note 1. Description of Plan

The following description of the LABS, Inc. Employees' Retirement Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan document and summary Plan description for more complete information.

General and eligibility: The Plan is a defined contribution plan established by LABS, Inc. (the Organization) effective December 1, 2007. Full-time employees of the Organization are eligible to make employee contributions upon hiring and may receive employer contributions on the first day of the month following completion of one year of service (1,000 hours). Employees are automatically enrolled as participants in the Plan with no automatic deferral percentage. This allows the employer to make discretionary contributions to all employees as discussed below, provided they meet the years of service requirements. If not specified, contributions are deposited in the applicable target date fund based on the retirement age of 65. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA) and the applicable current Internal Revenue Code (IRC) provisions.

Contributions and investment options: Each year employees may contribute a percentage of their annual compensation but not more than the maximum allowable limits established by the IRC. For the year ended December 31, 2015, the Organization made safe harbor matching contributions equal to the sum of (1) 100 percent of participant's deferrals that do not exceed 3 percent of his or her compensation and (2) 50 percent of the participant's deferrals that exceed 3 percent of his or her compensation but do not exceed 5 percent of his or her compensation. In addition, the Organization contributes additional amounts as a percentage of eligible compensation as follows:

	<u>Contribution Percentage</u>
More than 1 year of service but less than 2	2%
More than 2 years of service but less than 3	3%
More than 3 years of service but less than 4	4%
More than 4 years of service but less than 5	5%
More than 5 years of service	6%

Participants in the Plan direct their contributions and Organization contributions into various investment options offered by the Plan. Participants may change their elections daily.

Participant accounts: Individual accounts are maintained for each Plan participant. Each participant's account is credited with the participant's contributions, the Organization's contributions, Plan earnings and is charged with an allocation of service charges. Allocations are based on participant earnings or account balances, as defined in the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Elective deferral pre-tax contributions and earnings thereon are fully vested and nonforfeitable. Any employer contributions are also fully vested upon the contribution date.

Payment of benefits: On termination of service due to retirement, death or disability, a participant may elect to receive a lump sum amount equal to the value of the participant's vested interest in his or her account, or an annuity which provides for annual installments over a specified period. For termination of services due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump sum distribution less applicable taxes, or the participant may elect to roll over his or her account balances into another qualified retirement savings account.

LABS, Inc. Employees' Retirement Plan

Notes to Financial Statements

Note 1. Description of Plan (Continued)

Notes receivable from participants: Participants may borrow from their fund accounts in amounts from \$1,000 to \$50,000 reduced by the excess, if any, of the highest outstanding balance during the prior 12 months over the outstanding balance on the date on which the new note is made and limited to a maximum of 50 percent of the present value of the participant's vested account balance. The notes bear interest at rates to be determined by the Plan Administrator based on a commercially reasonable rate and are collateralized by the participant's vested account balance. The repayment period is limited to five years, except that a note used for the purchase of a principal residence may exceed five years. The repayment period may not extend beyond the participant's normal retirement date. Principal and interest is paid ratably through payroll deductions. Notes receivable outstanding at December 31, 2015, bear interest rates ranging from 4.25 percent to 5.25 percent and are due through August 2020.

Administrative expenses: Certain administrative functions are performed by officers or employees of the Organization. No such officer or employee receives compensation from the Plan. All administrative fees, other than loan fees, are paid directly by the Organization.

Note 2. Summary of Significant Accounting Policies

Basis of accounting and presentation: The accompanying financial statements are prepared on the accrual basis of accounting. The Plan follows accounting standards established by the Financial Accounting Standards Board (FASB) to ensure consistent reporting of net assets and changes in net assets. References to Generally Accepted Accounting Principles (GAAP) in these footnotes are to the FASB Accounting Standards Codification (ASC or the Codification).

Accounting estimates and assumptions: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires Plan management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Risks and uncertainties: The Plan utilizes various funds as investment instruments. Mutual funds are exposed to various risks, such as interest rate and credit risk and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements.

Investment valuation and income recognition: The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation or depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Management fees and operating expenses charged to the Plan for investments in the mutual funds are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of investment return for such investments.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes are treated as distributions based upon the terms of the Plan document.

Note 2. Summary of Significant Accounting Policies (Continued)

Payment of benefits: Benefit payments to participants are recorded upon distribution.

Recent accounting pronouncements: In May 2015, the FASB issued Accounting Standards Update (ASU) No. 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)*. The amendments in this update remove the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient. However, sufficient information must be provided to permit reconciliation of the fair value of assets categorized within the fair value hierarchy to the amounts presented in the statement of financial position. The amendments also remove the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the net asset value per share practical expedient. The amendments in this update are effective for fiscal years beginning after December 15, 2016. Early adoption is permitted. The Plan adopted this Update during the 2015 plan year, and there was no impact on the financial statements or notes to the financial statements.

In July 2015, the FASB issued ASU No. 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965)—(I) Fully Benefit-Responsive Investment Contracts, (II) Plan Investment Disclosures, and (III) Measurement Date Practical Expedient (a consensus of the FASB Emerging Issues Task Force)*. The purpose of this Update is to simplify plan accounting.

- The amendments in Part I of this Update designate contract value as the only required measure for direct investments in fully benefit-responsive investment contracts. Fully benefit-responsive investment contracts will be presented at contract value; accordingly there will no longer be an adjustment from fair value to contract value on the face of the financial statements.
- The amendments in Part II of this Update will eliminate the requirements for plans to disclose (1) individual investments that represent 5 percent or more of net assets available for benefits and (2) the net appreciation or depreciation for investments by general type for both participant-directed investments and nonparticipant-directed investments. The net appreciation or depreciation in investments for the period will still be required to be presented in the aggregate. In addition, if an investment is measured using the net asset value per share (or its equivalent) practical expedient in Topic 820 and that investment is in a fund that files a U.S. Department of Labor Form 5500, *Annual Return/Report of Employee Benefit Plan*, as a direct filing entity, disclosure of that investment's strategy will no longer be required.
- The amendments in Part III of this Update reduce complexity in employee benefit plan accounting by providing a practical expedient that permits plans to measure investments and investment-related accounts as of a month-end date that is closest to the plan's fiscal year-end, when the fiscal period does not coincide with month-end.

ASU 2015-12 may be adopted in whole or by part (I, II, and III), as applicable. The amendments in this ASU are effective for fiscal years beginning after December 15, 2015. Early adoption is permitted. Upon adoption, the amendments in Parts I and II shall be applied retrospectively to all periods presented; the amendments in Part III shall be applied prospectively. The Plan adopted Part II of this ASU for the 2015 plan year, and the amendments in Part II were retrospectively applied to December 31, 2014. Prior year disclosures in Notes 3 and 4 have been revised to reflect the retrospective application. The impact of adopting these amendments is reflected in the financial statements.

Subsequent events: The Plan Administrator evaluated subsequent events through October 11, 2016, the date the financial statements were available to be issued. Through that date, there were no events requiring recognition or disclosure.

Note 3. Information Certified and Provided by State Street Bank and Trust Company

The following is a summary of the Plan's asset information as of December 31, 2015 and 2014, and for the year ended December 31, 2015, included throughout the Plan's financial statements and supplemental schedules, that was prepared by or derived from information provided by State Street Bank and Trust Company (the Custodian) and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the Custodian that information provided to the Plan Administrator by the Custodian related to the following assets is complete and accurate to the best of their knowledge and belief. Accordingly, as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule related to the following assets:

	December 31,	
	2015	2014
Investments, at fair value:		
Registered investment companies	\$ 5,380,959	\$ 5,186,583
Interest-bearing cash	46	-
	<u>\$ 5,381,005</u>	<u>\$ 5,186,583</u>
Notes receivable from participants	\$ 42,145	\$ 120,816

The Custodian also certified to the completeness and accuracy of the investment income (loss) information (including investments bought, sold and held during the year) and interest income on notes receivable from participants for the year ended December 31, 2015, included on the statement of changes in net assets available for benefits.

Note 4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Note 4. Fair Value Measurements (Continued)

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Registered investment companies (mutual funds): Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The following tables set forth by level within the fair value hierarchy the Plan's investments at fair value as of December 31, 2015 and 2014:

		2015			
		Level 1	Level 2	Level 3	Total
Registered investment companies	\$	5,380,959	\$ -	\$ -	\$ 5,380,959
Interest-bearing cash		46	-	-	46
	\$	5,381,005	\$ -	\$ -	\$ 5,381,005
		2014			
		Level 1	Level 2	Level 3	Total
Registered investment companies	\$	5,186,583	\$ -	\$ -	\$ 5,186,583
	\$	5,186,583	\$ -	\$ -	\$ 5,186,583

Changes in fair value levels: To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

We evaluate the significance of transfers between levels based upon the nature of the investment and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2015, there were no transfers in or out of Level 3.

Note 5. Plan Termination

Although it has not expressed any intent to do so, the Organization has the right to terminate the Plan at its discretion. In the event of termination, the net assets of the Plan, after payment of any expenses properly charged, will be distributed to each participant according to the amount then credited to his or her account.

Note 6. Tax Status

The Plan is a defined contribution prototype plan sponsored by Transamerica Retirement Solutions Corporation, the record-keeper for the Plan. The prototype plan has received an opinion letter from the Internal Revenue Service dated March 31, 2014, as to the Plan's qualified status.

The Plan Administrator evaluated the Plan's tax positions and concluded that the Plan had maintained its tax exempt status and had taken no uncertain tax positions that require adjustment to the financial statements; therefore, no provision of liability for income taxes has been included in the financial statements.

Note 7. Related Party Transactions

Certain Plan investments are shares of mutual funds managed by the Custodian and therefore qualify as party-in-interest transactions. Fees paid by the Plan for service charges amounted to \$23,734 for the year ended December 31, 2015.

Note 8. Prohibited Transactions

During 2014, the Organization failed to deposit \$347,879 of contributions and loan repayments within the timeframe as stated by the United States Department of Labor (DOL). The DOL considers late deposits to be prohibited transactions. The Plan has corrected these late deposits by remitting lost earnings and is in the process of filing Form 5530 to pay applicable excise taxes.
