Note A - Description of Plan

The following description of the Houston Shutters, LLC 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan document or Summary Plan Description for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan sponsored by Houston Shutters, LLC (the "Company" or "Employer") for the benefit of all eligible non-union employees. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Participation

Employees of the Company, Flomotion Components Technologies, LLC, Rockwood Shutters of California, Inc., Redbird Capital Company, and G&L Automation, LLC, may become participants in the Plan, for purposes of making contributions, after one year with at least 1,000 hours of service and provided they are 21 years of age.

Contributions

Plan participants may contribute a percentage of pretax annual compensation, not to exceed the dollar limitation contained in Section 402(g) of the Internal Revenue Code (the "IRC"), through a salary reduction election. Participants may elect to rollover contributions into the Plan from a previous employer. Each year the Company may make matching contributions of a percent to be determined annually based on a percentage of each eligible participant's elective deferral contribution to the Plan. For the years ended December 31, 2015 and 2014, the Plan provided a matching contribution of 50% for each eligible participant's elective deferral contribution to the Plan up to 4% of a participant's eligible compensation.

Participants age 50 or older are permitted to make additional catch-up contributions of up to $6,000 and $5,500 for the years ended December 31, 2015 and 2014, respectively.

Participant Accounts

Each participant's account is credited with the participant's contribution, the Company's contribution and an allocation of Plan earnings and charged with an allocation of Plan expenses. Allocations are based on the participant's earnings or account balances, as defined. The benefit to which a participant is entitled is equal to the value of the participant's vested account.

Note A - Description of Plan (Continued)

Forfeitures

At December 31, 2015 and 2014, forfeited non-vested accounts totaled $1,043 and $416, respectively. These accounts will be used to reduce future Company contributions or may be used to offset Plan expenses. During 2015, the Company did not reduce employer contributions or offset Plan expenses using forfeited non-vested accounts. In 2014, the Company used $1,072 of forfeited non-vested accounts to reduce Plan expenses.

Vesting

Participants shall at all times be one hundred percent (100%) vested in their salary deferral and rollover contributions. A participant is 100% vested in Company contributions upon the completion of three years of service. Additionally, participants are fully vested at their normal retirement date, death or disability, regardless of the number of years of participation.

Payment of Benefits

The Plan provides that a participant's vested interest in the Plan will be distributed to the participant upon retirement, total disability or death. Employees terminating employment with the Company for other reasons are entitled to their vested interest in the Plan. Participants with elective deferral contributions in excess of $5,000 may elect to defer distribution to a future date. Distributions are made in the form of lump-sum payments.

Participants may also withdraw certain basic contributions thereon only in the event of a financial hardship as defined by the Plan and the IRC. A participant who receives a distribution for hardship shall be prohibited from making elective deferrals and employee contributions for a six month period after receipt of the distribution.

Note B - Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting, in accordance with accounting principles generally accepted in the United States of America.

Note B - Summary of Significant Accounting Policies (Continued)

Change in Accounting Policy

In July 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2015-12 *"Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient."* This standard simplifies certain financial statement reporting and disclosure requirements for employee benefit plans. ASU 2015-12 is effective for the Plan for the 2016 plan year, with early adoption permitted. Parts I and II require retrospective application, and Part III requires prospective application. The Plan has chosen to adopt Part II early, effective for the 2015 plan year. Parts I and III are not applicable to this Plan. The adoption of ASU 2015-12 did not have a material impact on the financial statements.

The FASB also issued ASU 2015-07 *"Disclosures for Investments in Certain Entities that Calculate Net Asset Value per Share (or Its Equivalent)."* This standard removes the requirement to categorize within the fair value hierarchy investments for which fair values are estimated using the net asset value practical expedient provided by Accounting Standards Codification 820, Fair Value Measurement. The Plan has early adopted this standard for the year ended December 31, 2015 and retrospectively for the year ended December 31, 2014.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment advisers, custodians, and insurance company. See Note D for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Note B - Summary of Significant Accounting Policies (Continued)

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Benefit Payments

Benefits distributed to participants are recorded when paid.

Administrative Expenses

Certain administrative functions applicable to the Plan are performed by employees of the Company. No such employees receive compensation from the Plan. Administrative expenses may be paid by the Company or the Plan, at the Company's discretion. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net realized and unrealized appreciation (depreciation) in fair value of investments.

Reclassification

Certain items in the prior year financial statements have been reclassified to conform to the current year's presentation.

Subsequent Events

The Company has evaluated all subsequent events through September 21, 2016, the date the financial statements were available to be issued.

Note C - Investments

Certifications by John Hancock Life Insurance Company (U.S.A.)

The Plan's Administrative Committee has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's rules and regulations for reporting and disclosure under ERISA. Accordingly, as permitted under such election, the Plan Administrator has obtained certifications from John Hancock Life Insurance Company (U.S.A.) that all of the information provided by John Hancock Life Insurance Company (U.S.A.) and included in the accompanying financial statements and supplemental schedule of assets (held at end of year) is complete and accurate. Information as to the investments in the accounts of John Hancock Life Insurance Company (U.S.A.), investment income, and all information appearing in the accompanying statements and supplemental schedule of assets (held at end of year) are presented in reliance solely upon those certifications.

Note D - Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other mean.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Note D - Fair Value Measurements (Continued)

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the SEC. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Collective trust fund – Valued at the NAV of units of a bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2015:

		Fair Value Measurements		
	Total	**(Level 1)**	**(Level 2)**	**(Level 3)**
Mutual Funds	$ 1,305,222	$ 1,305,222	$ -	$ -
Collective Trust Fund (a)	43,303	-	-	-
Investments at fair value	$ 1,348,525	$ 1,305,222	$ -	$ -

Note D - Fair Value Measurements (Continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2014:

		Fair Value Measurements		
	Total	(Level 1)	(Level 2)	(Level 3)
Mutual Funds	$ 1,250,085	$ 1,250,085	$ -	$ -
Collective Trust Fund (a)	109,128	-	-	-
Investments at fair value	$ 1,359,213	$ 1,250,085	$ -	$ -

(a) In accordance with subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statement of net assets available for benefits.

Note E - Investments Measured Using the Net Asset Value per Share Practical Expedient

The following table summarized investments for which fair value is measured using the net asset value per share practical expedient as of December 31, 2015 and 2014, respectively. There are no participant redemption restrictions for these investments; the redemption notice period is applicable only to the Plan.

Investment Type	2015 Fair Value	2014 Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Collective Trust Fund	$ 43,303	$ 109,128	-	Immediate	None

Note F - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of termination, participants shall immediately become 100% vested, and therefore, be entitled to receive a distribution of the value of all cash and investment units credited to his or her account as of that date.

Note G - Tax Status

The Plan operates under a prototype plan agreement of Malcolm Thompson and Associates. This prototype plan agreement received a determination letter dated March 31, 2014 from the Internal Revenue Service stating the prototype plan and the related trust are designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). Although the prototype plan has been amended since receiving the determination letter, the Plan Administrator and the Plan's tax counsel believe that the Plan is currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRC. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note H - Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participant's account balances and the amounts reported in the statement of net assets available for benefits.

Note I - Related Party Transactions

Certain investments are managed by John Hancock Life Insurance Company (U.S.A.), who is the custodian defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions.

Note J - Delinquent Participant Contributions

The Company had late contributions totaling $17,261 and $7,385 for the Plan years ended December 31, 2015 and 2014, respectively. The Company utilized the Department of Labor Voluntary Fiduciary Corrections Program calculator to determine lost earnings in an effort to self-correct these delinquent contributions. On March 13, 2015, the Plan Sponsor had made a corrective contribution $203 relating to the lost earnings of the 2014 late contributions. No corrective contribution has been made as of December 31, 2015 relating to the 2015 late contribution.
