Independent Auditors' Report

Plan Administrator
GE Aviation Systems Pension Plan for UAW Local 330
Union Employees of the Grand Rapids, MI Division:

Report on the Financial Statements

We have audited the accompanying financial statements of the GE Aviation Systems Pension Plan for UAW Local 330 Union Employees of the Grand Rapids, MI Division (the Plan), which comprise the statements of net assets available for plan benefits and of accumulated plan benefits as of December 31, 2015 and 2014, and the related statements of changes in net assets available for plan benefits and of changes in accumulated plan benefits for the year ended December 31, 2015, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with U.S. generally accepted accounting principles; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial status of the Plan as of December 31, 2015 and 2014, and the changes in its financial status for the year ended December 31, 2015, in accordance with U.S. generally accepted accounting principles.

(1) Description of the Plan

The GE Aviation Systems Pension Plan for UAW Local 330 Union Employees of the Grand Rapids, MI Division (the "Plan") is a noncontributory defined benefit plan sponsored by GE Aviation Systems LLC. (the "Company"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA").

The Plan provides benefits to collectively bargained employees of UAW Local 330 Union Employees of the Grand Rapids, MI division hired before November 30, 2014. The Plan was closed to new participants effective November 30, 2014. Benefits are determined based on length of service and a multiplier that is subject to collective bargaining. Participants are vested upon the earlier of five years of service, or the participant's normal retirement date.

Participants are entitled to pension benefits (paid monthly) beginning at normal retirement age (65). The Plan permits early retirement beginning at age 60 if a participant has 10 years of vesting service, or as early as age 58 with 30 years of vesting service (if certain criteria are met). If a participant becomes disabled and meets the criteria, the Plan provides for a disability retirement benefit.

The Plan Administrator directs the investment of the Plan's assets. The Plan's investments are held in the Middle River Defined Benefit Master Trust (the "Middle River Trust"). Effective March 1, 2015, Middle River Trust's assets totaling \$118.8 million were transferred into the GE Pension Trust. Included in this transfer were the Plan's assets of \$32.1 million. The Trustees of the GE Pension Trust are officers of GE Asset Management Incorporated ("GEAM"), a wholly owned subsidiary of General Electric Company ("GE"). GEAM is the investment advisor to the GE Pension Trust and provides investment management and other services. State Street Corporation ("State Street") is the primary custodian for GE Pension Trust assets.

This description of the Plan is provided for general information purposes only. The complete terms of the Plan are provided in the GE Aviation Systems Pension Plan for UAW Local 330 Union Employees of the Grand Rapids, MI Division Plan document. Information concerning the Plan, including benefits and vesting provisions, is also included in the Summary Plan Description and other material distributed to participants.

(2) Summary of Significant Accounting Policies

(a) Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting.

(b) Investments

Plan investment assets are held in a trust. Plan investments are carried at fair value. See notes 3, 4 and 5 for additional information.

Investment transactions are recorded on a trade date basis. Interest income is earned from settlement date and is recognized on an accrual basis. Dividend income is recorded on the ex-dividend date.

Securities for which exchange quotations are readily available are valued at the last sale price, or if no sales occurred on that day, at the quoted bid price. Short-term investments generally maturing within 60 days or less at the time of purchase are valued on the basis of amortized cost, which approximates fair value. Non-publicly traded investments are principally investments in real estate, alternative investment funds and private equity securities. The fair value estimates for these non-publicly traded investments involve subjective judgments and the actual selling price of these investments can only be determined by negotiations between independent third parties in a sales transaction.

GE AVIATION SYSTEMS PENSION PLAN FOR UAW LOCAL 330
UNION EMPLOYEES OF THE GRAND RAPIDS, MI DIVISION

Notes to Financial Statements

December 31, 2015 and 2014

Off-balance-sheet financial instruments and commitments are valued at current market prices and rates, and are included in due from brokers and due to brokers, as applicable, on the statement of net assets of the trust. The net realized and unrealized gains or losses are included in net appreciation (depreciation) in value of investments in the statement of changes in net assets of the trust. Futures contracts are valued at the settlement price established each day by the board of trade or exchange on which they principally trade. Forward foreign currency contracts are valued at the closing market price.

Investment income and related expenses, including interest and dividend income, net realized gains (losses) on sale and unrealized appreciation (depreciation) in value of investments, is allocated by the GE Pension Trust to the Middle River Trust based upon the Middle River Trust's percentage of GE Pension Trust net assets at the beginning of each month. Prior to the transfer to the GE Pension Trust, the Middle River Trust allocated income to the Plan based upon the Plan's percentage of trust net assets at the beginning of each month.

(c) Fair Value Measurements

For financial assets and liabilities, fair value is the price the trust would receive to sell an asset or pay to transfer a liability in an orderly transaction with a market participant at the measurement date. In the absence of active markets for the identical assets or liabilities, such measurements involve developing assumptions based on market observable data and, in the absence of such data, internal information that is consistent with what market participants would use in a hypothetical transaction that occurs at the measurement date.

Observable inputs reflect market data obtained from independent sources, while unobservable inputs reflect our market assumptions. Preference is given to observable inputs. These two types of inputs create the following fair value hierarchy:

Level 1 - Quoted prices for identical investments in active markets.

Level 2 - Quoted prices for similar investments in active markets; quoted prices for identical or similar investments in markets that are not active; and model-derived valuations whose significant value drivers are observable.

Level 3 - Significant inputs to the valuation model are unobservable.

GE maintains policies and procedures to value investments using the best and most relevant data available. Independent pricing vendors are used to assist in valuing certain investments. In addition, GE performs reviews through assessment of the inputs in the determination of valuation for a representative sample of direct investments in private equity securities and real estate investments to assess reasonableness of the valuations.

The following section describes the valuation methodologies used to measure investments at fair value.

When available, quoted market prices are used to determine fair value of investment securities, and they are included in Level 1. Level 1 securities primarily include publicly traded equity securities.

When quoted market prices are unobservable, pricing information is obtained from independent pricing vendors. The pricing vendors use various pricing models for each asset class that are consistent with what other market participants would use. The inputs and assumptions to the model of the pricing vendors are derived from market observable sources including: benchmark yields, reported trades, broker/dealer quotes, issuer spreads, benchmark securities, bids, offers, and other market-related data. Since many fixed income securities do not trade on a daily basis, the methodology of the pricing vendors use available information as applicable such as benchmark curves, benchmarking of like securities, sector groupings, and matrix pricing.

GE AVIATION SYSTEMS PENSION PLAN FOR UAW LOCAL 330
UNION EMPLOYEES OF THE GRAND RAPIDS, MI DIVISION

Notes to Financial Statements

December 31, 2015 and 2014

The pricing vendors consider available market observable inputs in determining the evaluation for a security. Thus, certain securities may not be priced using quoted prices, but rather determined from market observable information. These investments are included in Level 2 and primarily comprise the portfolio of corporate fixed income, and government, mortgage and asset-backed securities. In infrequent circumstances, pricing vendors may provide valuations that are based on significant unobservable inputs, and in those circumstances the investment securities are classified in Level 3.

Private equity security valuations are reviewed at the end of each reporting period utilizing available market data to determine whether or not any fair value adjustments are necessary. The market data includes recent transactions in the same or similar instruments, completed or pending third-party transactions in the underlying investment or comparable issuers. Unobservable inputs include company specific fundamentals and other third party transactions in that security.

Real estate investments are valued using discounted cash flow techniques on estimated future cash flows generated by the property, market analysis and sales comparison information. Cash flow estimates are based on current market estimates that reflect current and projected lease profiles and available industry information about expected trends in rental, occupancy, and capitalization rates.

The trust's ownership in the collective funds is carried at fair value based on the investment's net asset value per unit and included in Level 2.

Private equity and real estate partnerships are valued using the net asset values provided by the general partners and updated, if necessary, using analytical procedures and/or inquiry of general partners. The net asset values are determined based upon the fair values of the underlying investments in the funds. Investments in private equity and real estate funds are generally included in Level 3 because they are not redeemable at the measurement date.

The valuation methodology for private equity securities and real estate investments is applied consistently, and is included in Level 3.

Closing prices for derivatives, which are traded either on exchanges or liquid over-the-counter markets are included in Level 1.

Investment securities that are valued using techniques other than market quotations, particularly securities that are "fair valued," are subject to valuation risk. The inputs or methodology used for valuing securities are not an indication of the risk associated with investing in those securities.

Annually, GE conducts a review of the primary pricing vendor to validate that the inputs used in that vendor's pricing process are deemed to be market observable as defined in the standard. While GE is not provided access to proprietary models of the vendor, GE's review has included on-site walkthroughs of pricing processes, methodologies and control procedures for each asset class for which prices were provided. GE's review also includes an examination of the underlying inputs and assumptions for a sample of individual securities across asset classes, credit rating levels and various durations. GE believes that the prices received from the pricing vendor are representative of prices that would be received to sell the assets at the measurement date (exit price).

GE may use non-binding broker quotes as its primary basis for valuation when there is limited, or no, relevant market activity for a specific instrument or for other instruments that share similar characteristics. GE has not adjusted the prices obtained from the brokers. Investment securities priced using non-binding broker quotes are included in Level 3. As is the case with the primary pricing vendor, third-party brokers do not provide access to their proprietary valuation models, inputs and assumptions.

(d) Management Estimates and Assumptions

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, the actuarial present value of accumulated plan benefits and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

(e) Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump sum distributions that are attributable under the Plan's provisions on the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries and (b) present employees or their beneficiaries.

Benefits payable as a result of retirement, death, disability and termination of employment are included, to the extent they are deemed attributable to employee service rendered to the valuation date. Benefits to be provided via annuity contracts excluded from Plan assets are excluded from accumulated Plan benefits.

The actuarial present value of accumulated plan benefits is determined by independent actuaries and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, termination of employment, and retirement) between the valuation date and the expected date of payment.

The more significant actuarial assumptions used in the valuations as of December 31, 2015 and 2014 were: (a) expected mortality rates of participants based on mortality tables adjusted for the demographic characteristics of the participants; (b) retirement age ranging from 58 to 65; and (c) interest discount assumption of 7.5%. The changes in actuarial assumptions for the year ended December 31, 2015 are primarily due to adjustments to the mortality table.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue indefinitely. If the Plan was expected to be completely terminated, different actuarial assumptions and other factors would be applicable in determining the actuarial present value of accumulated plan benefits. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that certain changes in these estimates and assumptions could be material to the financial statements.

(f) Benefit Payments

Benefit payments to participants are recorded when paid.

(3) Summary of 2015 Trust Financial Information

- (a) As of March 1, 2015, Middle River Trust's net assets are invested solely in the GE Pension Trust which has been established to receive employer and employee contributions, invest or reinvest such sums, and pay benefits in accordance with specific provisions for participating plans.
- (b) The Plan's net investment in the Middle River Trust is approximately 27.02% of the Middle River Trust net assets as of December 31, 2015. As of December 31, 2015, Middle River Trust's assets totaled \$117.3 million which rounded to less than 1% of the GE Pension Trust net assets. (c) Investments

The GE Pension Trust invests in U.S. equities, international equities, fixed income securities, private equity securities, real estate, partnerships, and certain other assets. Due to risks associated with certain investments, it is reasonable to expect that changes in the value of investments will occur (including in the near term) and that such changes could materially affect the GE Pension Trust's investments.

According to the statute, the aggregate holdings of all qualifying employer securities (e.g. General Electric Company common stock) and qualifying employer real property may not exceed 10% of the fair value of trust assets at the time of purchase. General Electric Company securities represented 3.7% of GE Pension Trust net assets at December 31, 2015.

(d) Financial Instruments with Off-Balance-Sheet Risk

In the normal course of business, the GE Pension Trust enters into transactions in various financial instruments with off-balance-sheet risk. These financial instruments involve varying degrees and types of risks, including credit and market risks, which may be in excess of the amounts recognized in the net assets of the GE Pension Trust.

Credit risk represents the potential loss to the GE Pension Trust due to possible nonperformance by obligors and counterparties of the terms of their contracts. Counterparty credit risk (the risk that counterparties will default and not make payments to the GE Pension Trust according to the terms of the applicable agreements) are managed on an individual counterparty basis. There are provisions in the GE Pension Trust's master agreements that require counterparties to post collateral (typically cash or U.S. Treasury Securities) from time to time depending on stated conditions, for example when the GE Pension Trust's receivable due from that counterparty, measured at current market value, exceeds a specified limit.

Where there are agreements to net derivative exposures with a counterparty, exposures with that counterparty are netted and applied to the value of collateral posted to the GE Pension Trust to determine the net exposure. These net exposures are actively monitored against defined limits and appropriate actions are taken in response, including requiring additional collateral. Market risk represents the potential loss to the GE Pension Trust due to the decrease in the value of an off-balance-sheet financial instrument caused primarily by changes in interest rates or foreign exchange rates, or a combination thereof.

Forward contracts and futures represent agreements to purchase or sell securities, money market instruments or foreign currencies at a future date and at a specified price. Short sells represent commitments to purchase securities at a future date. Options give the holder the right, but not the obligation, to purchase or sell securities at a future date and at a specified price. Both credit and market risks exist with respect to forward contracts. Market risk exists with respect to futures, short sells and options. These positions are carried at current market value, and the unrealized gain or loss is included in due to brokers and due from brokers in the GE Pension Trust's statement of net assets. Financial futures are marked to market and settled with the broker on a daily basis. With futures contracts, there is minimal counterparty credit risk to the GE Pension Trust since futures contracts are exchange traded and the exchange's clearinghouse, as counterparty to all traded futures, guarantees the futures against default. The GE Pension Trust does not anticipate that losses, if any, as a result of credit or market risk would materially affect the net asset position of the GE Pension Trust. The GE Pension Trust, to a limited extent, enters into transactions involving other financial instruments and commitments as an integral part of the overall management of the investment portfolio. The GE Pension Trust has elected to offset the fair value amounts recognized for receivables and payables for derivative positions executed with the same counterparty under the same master netting agreement.

The GE Pension Trust had unfunded commitments of \$2,988 million as of December 31, 2015 related to investments in private equity and real estate partnerships.

(4) Summary of Financial Information Prior to March 1, 2015

Prior to March 1, 2015, the Middle River Trust's investments were held under an agreement with State Street Bank and Trust. The Plan's interest in the Middle River Trust was calculated based on the fair value at the end of the previous period, plus any contributions and income received, less benefit payments and expenses paid for each plan during the period. At December 31, 2014, the Plan's interest in the net assets of the Middle River Trust was 27.29%.

The net assets held by the Middle River Trust at December 31, 2014 follows.

- (a) Fair value measurements classified as Other are assets from the above investment types that were individually insignificant and utilize a number of different unobservable inputs.
- (b) Discount rates are determined based on inputs that market participants would use when pricing investments, including credit and liquidity risk. An increase in the discount rate would result in a decrease in the fair value.
- (c) Capitalization rates represent the rate of return on net operating income which is considered acceptable for an investor and is used to determine a real estate investment capitalized value. An increase in the capitalization rate would result in a decrease in the fair value.

(6) Related Party Transactions (Parties-in-Interest)

Prior to March 1, 2015, certain investments of the Plan included shares of registered investment companies advised by GEAM. Fees are paid in accordance with the prospectuses.

As described in Note 8, the Plan paid certain expenses related to Plan operations and investment activity to various service providers who are parties in interest under ERISA, including KPMG LLP, the auditor of the Plan's financial statements.

(7) Tax Status

The Internal Revenue Service has notified the Company by a letter dated October 13, 2011, that the Plan is qualified under the appropriate sections of the Internal Revenue Code ("IRC") and that the related trust is tax-exempt. Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's counsel believe that the Plan's current design and operations comply in all material respects with the applicable requirements of the IRC, and that the letter remains valid.

The Plan satisfies the non-discrimination requirements of IRC sections 401(a)(4) and 410(b). To the extent the GE Pension Trust recognizes any "unrelated business taxable income" as defined in Sections 512 through 514 of the IRC, the GE Pension Trust is required to pay tax on any such income. For the year ended December 31, 2015, the GE Pension Trust recorded a current income tax provision of \$5.3 million. For the year ended December 31, 2015, the GE Pension Trust recorded no deferred tax liabilities.

U.S. generally accepted accounting principles require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. For the years ended December 31, 2015 and 2014, the Plan has not recognized a tax liability (or asset) related to uncertain tax positions.

The Plan is subject to routine audits by taxing jurisdictions and its administrator believes it is no longer subject to income tax examinations for years prior to 2012.

(8) Expenses

Pursuant to the Plan document, the Plan incurs certain administrative expenses and the Plan's proportionate share of other Middle River Trust expenses. Administrative expenses consist primarily of premiums paid to the Pension Benefit Guaranty Corporation ("PBGC"), direct recordkeeping and transaction processing costs. The Plan's proportionate share of the other Middle River Trust expenses is primarily associated with investment management fees. All reasonable expenses of the Plan are paid by the Plan, unless paid by the Company at its sole discretion.

Expenses for the Plan for the year ended December 31, 2015 follow.

	<u>2015</u> (in thousands)
Administrative expenses	\$ 337
Investment management fees and other expenses	<u>139</u>
Total expenses	<u>\$ 476</u>

(9) Funding

It is the Company's policy to contribute amounts sufficient to meet minimum funding requirements as set forth in employee benefit and tax laws plus such additional amounts as the Company may determine to be appropriate. The Company contributed \$0.7 million for 2015. In addition, the Company had no formal contribution commitment to fund in 2016 as of December 31, 2015.

(10) Plan Termination

Although the Company has not expressed any intent to do so, it has the right to terminate the Plan in accordance with the Plan provisions and the provisions set forth in ERISA.

In the event of complete Plan termination, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide benefits in a prescribed order starting with benefits attributable to employee contributions.

Additionally, certain benefits under the Plan are insured by the PBGC, a U.S. government agency, if the Plan so terminates. Generally, the PBGC guarantees most vested normal retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations.

Whether all participants will receive their benefits should the Plan so terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan sponsor and level of benefits guaranteed by the PBGC. There is a statutory ceiling on the amount of an individual's monthly benefit that the PBGC guarantees. For plan terminations occurring during 2016, that ceiling, which is adjusted periodically, is \$5,011 per month.

(11) Subsequent Events

Subsequent events after the statement of net assets available for plan benefits through September 26, 2016, the date the financial statements were issued, have been evaluated in the preparation of the financial statements.

On July 1, 2016, GE completed the sale of GEAM to State Street for proceeds of \$436 million. The net sale proceeds from the transaction will be deposited into the GE Pension Trust. In connection with the transaction, GE personnel were appointed as Trustees of the GE Pension Trust, and State Street Global Advisors, a division of State Street, and SSGA Funds Management, Inc. an affiliate of State Street, were appointed as investment advisors, providing investment advisory, investment management and related services that GEAM historically provided to the GE Pension Trust. The investment objectives and policies of the GE Pension Trust will not change as a result of this transaction.

Benefit Limits

Projected benefits are limited by the current IRC section 415 maximum benefit of \$210,000.

Valuation of Plan Assets

Smoothed fair market value of assets over the current and prior two years, adjusted for contributions, benefit payments, administrative expenses, and expected earnings. The average value of assets calculated in this manner is further limited to not less than 90% nor more than 110% of fair market value.

A characteristic of this method is that the expected distribution of the value of plan assets is skewed toward understatement relative to the corresponding market values for expected long-term rates of return in excess of the third segment rate under IRC section 430(h)(2)(C)(iii).

Schedule SB, Part V—Summary of Plan Provisions

Effective Date	Effective September 4, 1987, most recently restated August 1, 1998. The most recent amendment reflected in the following plan provisions was effective December 22, 2014.
Predecessor Plan	Instrument Division of Lear Siegler, Inc.—UAW Retirement Income Plan as in effect on September 3, 1987. On November 30, 1994, all benefits of the predecessor plan that relate to participants of this plan were transferred into this plan.
Eligibility	Immediate participation for each employee covered by the collectively bargaining agreement. No one may become a participant after November 30, 2014.
Definitions	
Benefit Service	For employment after September 4, 1987, 1/10 of a year of benefit service for each 170 hours of service during a plan year, not to exceed one year of benefit service for any plan year.
Combined Benefit Service	The sum of years of benefit service under this plan and years of benefit service under the predecessor plan.
Vesting Service	All years of vested service credited under the predecessor plan and one year of vested service for each plan year in which a participant has 1,000 or more hours of service. For less than 1,000 hours in a plan year, 1/10 of a year of vested service is credited for each 170 hours of service.
Actuarial Equivalence	1984 Unisex Pensioner's Mortality Table for participants and beneficiaries and an interest rate of 7%.

Special Early Retirement Benefit
Eligibility

Participants who were hired prior to April 1, 2000 who attain age 58 with 30 years of vesting service.

Benefit

Monthly benefit computed as in normal retirement benefit above, but based on years of combined benefit service and the benefit rate at actual retirement date. For retirement prior to age 62, a participant also receives a supplemental benefit such that his total monthly benefit is \$1,000. This supplemental benefit shall cease upon attainment of age 62.

Disability Benefits
Eligibility

Total and permanent disability after 10 years of combined benefit service.

Amount

Monthly benefit computes as in normal retirement benefits above, but based on combined benefit service and the benefit rate in effect at date of disability. Such benefit, payable as a life annuity, shall commence one year after disability. Upon attainment of age 65, such benefit shall cease, and a normal retirement benefit, computed as in normal retirement benefit above, based on years of combined benefit service and the benefit rate in effect at date of disability, shall be payable for life.

Medicare Reimbursement Benefits

The monthly pension benefit of a participant who was hired prior to April 1, 2000 and who retires under the normal, regular early, special early or disability retirement provisions of this plan shall be increased by the direct cost of Medicare Part B coverage.

Effective subsequent to the 1993 collective bargaining, the reimbursement for the cost of this coverage was frozen at the 1993 level for participants who had not yet retired.

Preretirement Death Benefits
Early Survivor Annuity

Unless waived, on death of a married participant after 10 years of vesting service, monthly benefits computed as if the participant terminated on the date of death or, if earlier, the date of actual termination, survived until the later of the date of death or earliest retirement age, then retired with a 55% joint and survivor annuity. If the participant had less than 30 years of vesting service and was younger than age 62 (age 65 for participants hired after April 1, 2000) at death, the benefit is actuarially reduced for each month, after the later of the date of death or age 60, by which benefit commencement precedes age 62 (age 65 for participants hired after April 1, 2000).

Benefits payable under this plan shall be reduced on account of this coverage by the amounts shown below:

Age	Reduction Factor
Over 59	0
55–59	1/24 of 1% per month
45–54	15/100 of 1% per year
35–44	5/100 of 1% per year
Under 35	0

Transition Survivor Income

Qualified beneficiaries of active and disabled employees who died with 10 years of vesting service receive a monthly benefit of \$150 commencing on the first of the month following the participant's death and ending on the earlier of the death of all eligible surviving beneficiaries or the receipt of 24 monthly payments.

of the Grand Rapids, MI Division
EIN: 38-2733944 PN: 003

Bridge Survivor Income

Spouse of deceased participants who are at least age 50 at the participant's death and have received 24 transition payments receive a monthly benefit of \$150 commencing on the first of the month following the final transition payment and ending on the earliest of the spouse's remarriage, attainment of age 62 or eligibility for Social Security disability benefits.

Lump Sum Benefit

Upon attainment of earliest retirement age or total and permanent disability after completion of 10 years of combined benefit service, a lump sum benefit of \$2,000.

The transition survivor income, bridge survivor income and lump sum benefits are not available to participants who were hired after April 1, 2000.

Maximum Benefit Limitation

All benefits and pay for any calendar year may not exceed the maximum limitations for that year as defined in the Internal Revenue Code. The plan provides for increasing the dollar limits automatically as such changes become effective.

Plan Changes Since the Prior Year

The funding valuation reflects the following plan changes:

- The plan has been closed to new hires or rehires as of November 30, 2014.
- A change in the benefit multiplier from \$36 to \$37.
