NOTES TO FINANCIAL STATEMENTS

NOTE A – DESCRIPTION OF PLAN

The following description of The Licking County Aging Program, Inc. (Organization) 403(b) Thrift Plan (Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees. All employees are immediately eligible to make elective deferral contributions. Employees who are age 21 or older and have completed twelve months of service are also eligible to receive employer discretionary contributions. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Each year participants may contribute a percentage of their annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. The Organization contributes 6 percent of base compensation. Contributions are subject to certain limitations.

Investment Options

Participants direct the investment of their contributions and employer discretionary contributions into any of the 38 investment options offered by the Plan. Participants may change their investment options upon notice to Mutual of America Life Insurance Company.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of the Organization's contribution and Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which the participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Organization's discretionary contribution portion of their account is based on years of continuous service. A participant is 100 percent vested after three years of credited service.

The Licking County Aging Program, Inc.**

NOTES TO FINANCIAL STATEMENTS - CONTINUED

NOTE A – DESCRIPTION OF PLAN - CONTINUED

Notes Receivable from Participants

Participant loans are not permitted under the Plan.

Payment of Benefits

On termination of service due to death, disability, retirement, or other reasons, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account; in regularly scheduled withdrawals, subject to certain limitations; or various forms of annuities. In addition, a participant may withdraw any part of his or her vested account in the event of undue financial hardship. A participant who has reached age 59 ½ may request an in-service distribution.

Forfeited Accounts

At December 31, 2015 and 2014 there were no forfeited nonvested accounts. Forfeited nonvested accounts are used to reduce future employer contributions. During 2015, employer contributions were reduced by \$2,924 from forfeited nonvested accounts.

NOTE B – SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statements of Net Assets Available for Benefits present the fair value of the investment contract as well as the adjustment of the fully benefit-responsive investment contract from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

**403(b) Thrift Plan of
The Licking County Aging Program, Inc.**

NOTES TO FINANCIAL STATEMENTS - CONTINUED

NOTE B – SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note E for discussion of fair value measurements.

Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year. Interest income is accrued as it is earned.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

The Plan's administrative expenses are paid either by the Plan or the Organization, as provided by the Plan's agreement.

NOTE C – INVESTMENTS

The following presents investments that represent five percent or more of the Plan's net assets at December 31:

	<u>2015</u>	<u>2014</u>

NOTE E – FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access;

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability, and;
- Inputs that are derived principally from, or corroborated by, observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the assets or liability.

**403(b) Thrift Plan of
The Licking County Aging Program, Inc.**

NOTES TO FINANCIAL STATEMENTS - CONTINUED

NOTE E – FAIR VALUE MEASUREMENTS - CONTINUED

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for investments measured at fair value. There have been no changes in methodologies used at December 31, 2015 and 2014.

Separate accounts

Separate accounts with the Plan include investments in mutual funds held which are registered with the Securities Exchange Commission and are carried at the net asset value at which the mutual funds are actively traded. The separate accounts are classified within level 1 of the valuation hierarchy.

Deposit administration contract

This investment is made by the Plan in an unallocated deposit administration contract which is invested in a general account with Mutual of America Life Insurance Company (Mutual of America). Mutual of America determines the interest rate periodically; however, interest rates cannot go below the minimum guaranteed rate, as set by Mutual of America. The contract is valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations, considering the credit-worthiness of the issuer. The investment contract is classified within level 3 of the valuation hierarchy.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE F – DEPOSIT ADMINISTRATION CONTRACT

The Plan has a benefit-responsive deposit administration contract with Mutual of America Life Insurance Company (Mutual of America). Mutual of America maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged with participant withdrawals and administrative expenses. The deposit administration contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed by the Plan.

Because the deposit administration contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the deposit administration contract. The deposit administration contract is presented on the face of the statement of net assets available for benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits. Contract value, as reported to the Plan by Mutual of America, represents contributions under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer. Such interest rates are determined annually by Mutual of America.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: 1) amendments to the plan documents (including complete or partial plan termination or merger with another plan); 2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions; 3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan; or 4) the failure of the Trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator does not believe that any events, which would limit the Plan's ability to transact at contract value with participants, are probable of occurring.

The deposit administration contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

Average yields:	<u>2015</u>	<u>2014</u>
Based on actual earnings	1.56%	1.52%
Based on interest rate credited to participants	1.56%	1.52%

NOTE G – PLAN TERMINATION

Although it has not expressed any intent to do so, the Organization has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become fully vested in their accounts.

**403(b) Thrift Plan of
The Licking County Aging Program, Inc.**

NOTES TO FINANCIAL STATEMENTS - CONTINUED

NOTE H – TAX STATUS

The Plan has been designed to qualify under Section 403(b) of the Internal Revenue Code (IRC). The terms of the Plan have been prepared to conform with the sample language provided by the Internal Revenue Service (IRS) in Revenue Procedure 2007-71. The Plan administrator intends to apply for a determination letter on the Plan once the IRS opens such a program. The Plan is required to operate in conformity with the IRC to maintain tax-exempt status for plan participants under Section 403(b). Therefore, no provision for income tax has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2015, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits of any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2012.

NOTE I – PLAN ADMINISTRATION

Employees of the Organization perform certain administrative functions. No such employee receives compensation from the Plan. In addition, certain administrative expenses for the Plan are paid directly by the Organization.

NOTE J – TRANSACTIONS WITH PARTIES IN INTEREST

Certain Plan investments include separate accounts and deposit administration contract with Mutual of America Life Insurance Company (Mutual of America). Mutual of America is the custodian, as defined by the Plan, and, therefore, these transactions qualify as party-in-interest transactions. Administrative fees in the amount of \$956 were paid by the Plan to Mutual of America for the year ended December 31, 2015.

NOTE K – RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
