401(k) Profit Sharing Plan**

December 31, 2015 and 2014

Note A--Description of Plan

The following description of the Laboratory Supply Company 401(k) Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General--The Plan is a defined contribution plan sponsored by Laboratory Supply Company (the "Employer"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Eligibility--The Plan has an automatic enrollment feature, which upon attaining twenty one years of age and 90 days of service with the Employer, the employees become Plan participants on the first day of the following month coinciding with or following completion of the eligibility requirements. The participants are automatically enrolled contributing 3% of their compensation, unless they expressly decline participation in the Plan. This automatic enrollment feature includes an automatic deferral increase of 1% of compensation each year up to 8% of compensation, unless the participant elects otherwise.

Contributions and Funding

Participant Contributions--A participant may contribute up to a maximum of 50% of pretax annual compensation, subject to Internal Revenue Code limitations. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified plans. The Plan allows for Roth 401k (or "post-tax") contributions to the Plan. There is no limit on the amount of Roth contributions other than statutory limits. Total annual deferrals of both pretax and Roth contributions combined may not exceed the maximum salary deferral set by law.

Employer Contributions--The Plan provides for a discretionary Employer matching contribution for active participants in the Plan. During 2015 and 2014, the Employer made monthly matching contributions equal to 3% of participant contributions up to a maximum of 1% of gross wages. The Employer may also make additional annual profit sharing contributions to the Plan at its discretion. There were no profit sharing contributions made during 2015 or 2014.

Participant Accounts--Each participant's account is credited with the participant's contribution and allocation of (a) the Employer's contribution and (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Note A--Description of Plan--Continued

Vesting--Participants are immediately vested in their voluntary contributions plus earnings thereon. Vesting in the Employer's contribution portion of their accounts plus earnings thereon is based on years of continuous service, with a participant becoming 33% vested after one year of service, 66% after two years of service, and 100% vested after three years of service.

Participant Distributions Payable--Amounts payable to participants for forfeitures improperly withheld from participants' accounts during the Plan year are recorded as participant distributions payable.

Investment Options--Participants direct his/her contributions, employer matching contributions, and employee rollover contributions in various increments to multiple investment options available as set forth in the Plan. The Plan currently offers various mutual funds and a stable value fund as investment options for participants.

Forfeitures--When certain terminations of participation in the Plan occur, the nonvested portion of the participant's account, as defined by the Plan, represents a forfeiture. Forfeitures are utilized to reduce the Employer's matching contributions for the Plan year or can be used to pay Plan expenses. However, if the participant is re-employed and fulfills certain requirements as defined by the Plan, the participant's account will be reinstated.

During the years ended December 31, 2015 and 2014, the Employer's contributions were reduced by \$6,294 and \$1,357, respectively, from forfeited nonvested accounts. As of December 31, 2015 and 2014, the Plan had no forfeitures available to be used.

Benefits--Upon termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the value of his or her account, or monthly installment payments, in a form authorized by the Internal Revenue Service and approved by the Plan Administrator. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution. Participants may also be permitted to receive a distribution from their account prior to termination of employment if they experience a financial hardship.

At December 31, 2015 and 2014, \$1,193,473 and \$1,089,620, respectively, have been allocated to participants who have elected to withdraw from the Plan but have not yet been paid.

Note B--Summary of Significant Accounting Policies

Basis of Accounting--The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment Valuation and Income Recognition--The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

The Plan presents in the accompanying statements of changes in net assets available for benefits the net appreciation (depreciation) in the fair value of its investments, which consists of the realized gains or losses and unrealized gains or losses on those investments. See Note D for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Benefit Payments--Benefits are recorded when paid.

Administrative Expenses--Certain administrative expenses of the Plan are generally paid directly by the Employer.

Certain administrative functions are performed by employees of the Employer; however, no employee receives compensation from the Plan.

Use of Estimates--The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires the Plan Administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Note D--Fair Value Measurements

The Plan's investments are reported at fair value in the accompanying statements of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Generally accepted accounting principles establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, and level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 3 inputs were only used when Level 1 or Level 2 inputs were not available.

Level 1 Fair Value Measurements

The fair values of mutual funds are valued at the quoted active market prices.

Level 3 Fair Value Measurements

The fair value of the Stable Value Fund, a guaranteed investment contract with an insurance company, is not actively traded and significant other inputs are not available. Thus, the fair value of the Stable Value Fund is measured by the insurance company discounting the related cash flows using current yields of similar instruments with comparable durations considering the issuer's creditworthiness (1.25% at December 31, 2015 and 2014).

For those assets with fair value measured using Level 3 inputs, the Plan and Plan management determines the fair value measurement policies and procedures in consultation with the Employer's chief financial officer and the Plan Custodian. Those policies and procedures are reassessed at least annually to determine if the current valuation techniques are still appropriate. At that time, the unobservable inputs used in the fair value measurements are evaluated and adjusted, as necessary, based on current market conditions and other third-party information.

Note D--Fair Value Measurements--Continued

The following table provides further details of the Level 3 fair value measurements for the Stable Value Fund:

	Fair Value Measurements Using Significant Unobservable Inputs (Level 3)	
	December 31	
	2015	2014
Beginning Balance	\$ 148,508	\$ 344,877

Purchases and transfers	93,379	39,249
Ending Balance	\$ 195,927	\$ 148,508

The Plan's policy is to recognize transfers into and out of Level 3 as of the date of the event or change in circumstances that caused the transfer. For the years ended December 31, 2015 and 2014, there were transfers into Level 3 of \$82,764 and \$24,488, respectively.

Note E--Stable Value Fund

The Plan has assets invested in a Stable Value Fund, which is offered through the AUL Stable Value Account. As of December 31, 2015 and 2014, the Stable Value Fund has invested all of its assets in various bonds, mortgages and other mortgage-backed securities. The average duration of the underlying investments is six years. The daily value of the Stable Value Fund's investments is based on the underlying daily value reported by the various bonds, mortgages and other mortgage-backed securities held.

Because the Stable Value Fund is not a fully benefit-responsive, fair value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the Stable Value Fund. The Stable Value Fund is presented on the face of the statement of net assets available for benefits. The crediting interest rate is based on a formula agreed upon with the issuer, but may not be less than 0%. Such interest rates are reviewed on an annual basis for resetting. For both of the years ended December 31, 2015 and 2014, the crediting interest rate was 1.25%.

**Laboratory Supply Company
401(k) Profit Sharing Plan**

December 31, 2015 and 2014

Note F--Termination of the Plan

Although it has not expressed any intent to do so, the Employer has the right to terminate the Plan at any time subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their accounts. Upon termination of the Plan, the Plan Administrator may:

- a) Continue to administer the Plan and pay account balances in accordance with the provisions of the Plan to a participant upon his/her termination of employment, or to his/her beneficiaries upon a participant's death, until the Plan has been liquidated; or
- b) Distribute the assets remaining in the Plan, after payment of any expenses, to participants and beneficiaries in proportion to their respective account balances.

Note G--Tax Status and Uncertain Tax Positions

The Employer adopted a Prototype Non-standardized Profit-Sharing Plan (cash or deferral arrangement) which received a favorable opinion letter from the Internal Revenue Service ("IRS") on March 31, 2008, which stated that the Plan is designed in accordance with the applicable sections of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the Plan Administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require the Plan Administrator to evaluate tax positions taken by the Plan and recognize a tax liability for any uncertain position that more likely than not would not be sustained upon examination by the IRS. In evaluating the Plan's tax status and potential liabilities, interpretations and tax strategies are considered. For the years ended December 31, 2015 and 2014, the Plan Administrator determined it did not have any uncertain tax positions and the Plan did not accrue any associated interest or penalties. The Plan is subject to routine audits by taxing authorities for the years subsequent to 2012; however, there are currently no audits for any tax periods in progress.

Note H--Risks and Uncertainties

The Plan provides for any combination of various investment options. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in value of investment securities, it is at least reasonably possible that changes in risks in the near term could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statements of changes in net assets available for benefits.
