Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

CHEMTURA CORPORATION RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS

A. PLAN DESCRIPTION:

On July 1, 2005, Crompton Corporation and Great Lakes Chemical Corporation combined their businesses by merging a wholly-owned subsidiary of Crompton with and into Great Lakes. The Company changed its name to Chemtura Corporation (the "Company").

The investments of the Witco Corporation Retirement Plan were combined with and managed in conjunction with the assets of various other retirement plans of Chemtura Corporation and participating subsidiaries in the Witco Corporation Retirement Plan Trust (the "Witco Master Trust").

On November 1, 2005, the assets of the Witco Master Trust were combined with the assets of the Chemtura Corporation Defined Benefit Master Trust (the "Master Trust"). Investment income/(loss) and certain expenses are allocated to the Plan based upon the percentage of the Plan's assets to the total assets of the Master Trust. Benefit payments and other non-allocated expenses are specifically identified and charged to each plan participating in the Master Trust. On December 31, 2005, various plans of Chemtura Corporation were consolidated into the Witco Corporation Retirement Plan.

On January 1, 2007 the Witco Corporation Retirement Plan changed its name to the Chemtura Corporation Retirement Plan (the "Plan").

In February of 2012 the Plan's interest in the Master Trust was transferred out of the Master Trust and into a separate trust with SEI Private Trust Company ("SEI").

In April 2013 the Company established a new qualified plan named the Addivant Retirement Plan ("Addivant Plan"). At that time \$231,547,525 of Plan assets were spun off to the Addivant Plan. Subsequently, pursuant to the Company's sale of its antioxidant business, sponsorship of the Addivant Plan transferred to Addivant USA Holdings Corp.

Certain assets of the Company were sold in 2013 to KIK International LLC ("KIK"). Effective December 31, 2013 the Plan was amended to provide for the spin-off of the related pension and asset liabilities to a separate plan established and maintained by KIK called the KIK Custom Products Pension Plan ("KIK Plan"). Plan assets and participants were not spun off until January of 2014.

Effective December 31, 2014, the Plan was amended to merge the Retirement Plan for Hourly Paid Bargaining Unit Employees of Witco Corporation (Perth Amboy, NJ Plant) and the Retirement Plan for Hourly Paid Bargaining Unit Employees of Chemtura Corporation (Marshall, TX Plant) with and into the Plan.

The following description of the Plan provides only general information. Further information about the Plan is included in the Plan document, which is available from the Chemtura Corporation Human Resources Department.

General

The Plan is a non-contributory defined benefit pension plan. It is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA"). The Plan sponsor is Chemtura Corporation.

CHEMTURA CORPORATION RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS

The Plan covers certain domestic employees of the Company who have reached the age of 21 and who have at least one year of service. Employees are credited for all years of service. A minimum of five years of vesting service or attainment of age 55 is required to receive benefits. Effective January 1, 2000, all newly hired corporate employees of the Company were no longer eligible to participate in the Plan. Effective January 1, 2001, all newly hired non-bargaining employees of the Company are no longer eligible to participate in the Plan and at December 31, 2005, the Plan was frozen to all non-bargained participants, and no additional incremental benefits will accrue to the participants.

Pension Benefits

The accrued benefit for most participants is calculated as a percentage of "Final Average Earnings," as defined, multiplied by credited years of service less a percentage of Social Security Retirement benefits multiplied by credited service.

Normal retirement is at age 65. Early retirement is available to employees who are at least age 55 with benefits reduced for each month prior to age 65.

If an employee terminates with five years of vesting service or attains age 55, a vested pension based upon the above formula is payable at age 65, or age 55, reduced as in early retirement.

Pension Benefits – Perth

The pension formula for all participants is either the sum of the past service benefit and the future service benefit or the minimum retirement income, as defined in the Plan. The pension formula is equal to the sum of the past service benefit and 1.1% of the participant's yearly earnings between \$600 and \$3,000 plus 1.65% of participant's earnings in excess of \$3,000. The minimum annual amount of pension benefit is \$192 times the years of credited service while an employee is a Plan participant.

Effective October 31, 2006 plan benefit accruals were frozen for active participants who were under age 50 and had under 20 years of service or who elected to have their benefit frozen to join a defined contribution plan.

Death and Disability Benefits

A participant may elect to receive a reduced amount of retirement income which would continue after the participant's lifetime in accordance with various options provided in the Plan.

In the case of death of an active participant with at least five years of vesting service prior to retirement or attainment of age 55, there is a benefit payable to the surviving spouse equal to 50% of the benefit the participant had accrued prior to the date of death, payable at early retirement under the Qualified Joint and Survivor Annuity Option.

Disability retirement income benefits equal to the participant's accrued benefit are payable at age 50 to participants disabled with at least fifteen years of vesting service.

CHEMTURA CORPORATION RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS

Plan Administration

The Plan is administered by the Chemtura Corporation Employee Benefits Committee.

Funding Policy

The contribution to provide benefits under the Plan is made by the Company based upon an amount determined by Willis Towers Watson, the consulting actuary. It is the Company's policy to comply with the minimum funding requirements of ERISA, and such policy has been complied with for the years ended December 31, 2015 and 2014.

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

B. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

Adoption of New Accounting Pronouncements

In May 2015, the FASB issued ASU 2015-07, Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (Or Its Equivalent) ("the Update"). The Update removes the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset per share practical expedient. This Update is required for fiscal years beginning after December 15, 2015 (December 15, 2016 for non-public entities) and is to be applied retrospectively. Early adoption is permitted. Management has elected to adopt the Update early.

In July 2015, the FASB issued ASU 2015-12, Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient. Part I eliminates the requirements to measure fair value of fully benefit-responsive investment contracts and provide certain disclosures. Contract value is the only required measure for fully benefit-responsive investment contracts. Part II eliminates the requirements to disclose individual investments that represent 5 percent or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. Part II also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics and risks. Further, the disclosure of information about fair value measurements shall be provided for fiscal years beginning after December 15, 2015, with early adoption permitted. Parts I and II are to be applied retrospectively. Management has elected to adopt Part II early. Parts I and III are not applicable to this plan.

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting.

CHEMTURA CORPORATION RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS

Benefits

Benefit payments are recorded when paid.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants on the measurement date. See Note C for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein; disclosure of contingent assets and liabilities; and the actuarial present value of accumulated plan benefits at the date of the financial statements, and changes therein. Actual results could differ from those estimates.

Plan Expenses

All administrative expenses of the Plan are paid by the Plan to the extent they are not paid by the Company.

Risks and Uncertainties

Contributions to the Plan and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee compensation and demographics. Due to the changing nature of these assumptions, it is at least reasonably possible that changes in these assumptions will occur in the near term and, due to the uncertainties inherent in setting assumptions, that the effect of such changes could be material to the financial statements.

The Plan invests in a combination of investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such change could materially affect the amounts reported in the statements of net assets available for plan benefits.

CHEMTURA CORPORATION RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of deceased employees, and (c) present employees or their beneficiaries.

Accumulated plan benefits for active employees are based on their final average compensation, when applicable, preceding the valuation date. Benefits payable under all circumstances – retirement, death, disability, and termination of employment - are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by an actuary from Willis Towers Watson and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The actuarial present value of accumulated plan benefits consists of the following as of January 1:

	<u>2015</u>	<u>2014</u>
Actuarial present value of accumulated plan benefits:		
Vested benefits:		
Participants currently receiving payments	\$ 522,449,961	\$ 448,191,803
Other participants	<u>128,142,060</u>	<u>162,430,501</u>
Total	650,592,021	610,622,304
Nonvested benefits	<u>147,077</u>	<u>943,717</u>
Total actuarial present value of accumulated plan benefits	<u>\$ 650,739,098</u>	<u>\$ 611,566,021</u>

CHEMTURA CORPORATION RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS

The net increase in actuarial present value of accumulated plan benefits can be attributed to the following for the year ended January 1, 2015:

Actuarial present value of accumulated plan benefits at beginning of year	\$ 611,566,021
Increase (decrease) during the year attributable to:	
Benefits accumulated	231,226
Decrease in discount period	27,004,633
Benefits paid	(96,077,356)
Actuarial (gains)/losses	(2,232,619)
Plan Amendments	14,675,489
Assumption changes	95,571,704
Net increase	39,173,077
Actuarial present value of accumulated plan benefits at end of year	<u>\$ 650,739,098</u>

The significant actuarial assumptions underlying the January 1, 2015 and 2014 valuations are:

Discount rate	3.8% and 4.6%, respectively
Mortality	RP-2014 mortality, and RP 2000, respectively

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. If the Plan terminates, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

C. FAIR VALUE MEASUREMENTS:

Accounting standards establish a framework for measuring fair value. That framework sets forth a fair value hierarchy which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described below.

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology that are observable, either directly or indirectly, such as quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; or other inputs that are observable or can be corroborated by observable market data for substantially the full terms of the assets or liabilities.

Level 3 - Inputs to the valuation methodology that are unobservable.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

CHEMTURA CORPORATION RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS

Following is a description of the valuation methodologies used by the Plan. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Mutual funds - Valued at quoted market prices, which represent the net asset value of shares held by the Plan at year-end.

Government securities - Valued as determined by pricing vendors using observable inputs.

Common collective trusts – Valued at the net asset value of units of a collective trust. The net asset value, as provided by the fund manager, is used as a practical expedient to estimate fair value. The net asset value is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported net asset value.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set for by level, within the fair value hierarchy, the assets held by the Plan at fair value as of December 31:

	2015			
	<u>Total</u>	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>

CHEMTURA CORPORATION RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS

- (1) In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the financial statements of net assets available for plan benefits.

Redemption of the common collective trusts held by the Plan are allowed quarterly; however the Plan is subject to a 65 day notice period for withdrawals. There is also a 10% holdback on redemptions which will be held in escrow until completion of the fund's annual audit. There are no unfunded commitments.

D. TAX STATUS:

The Company obtained its latest determination letter for the Plan on April 23, 2014 in which the Internal Revenue Service ("IRS") stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, Chemtura Corporation and its tax counsel believe that the Plan is currently designed and is being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

E. COMPLIANCE AND ERISA:

The Plan Administrator has elected the method of compliance permitted under 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Accordingly, no auditing procedures with respect to information certified by SEI Private Trust Company, the trustee of the Plan, were performed by the independent auditors except for comparing the information to the financial statements and supplemental schedules. The trustee has certified as to the completeness and accuracy of the investments held at December 31, 2015 and 2014, investment earnings and other investment-related transactions of the Plan for the years then ended, and the information contained in the Schedule of Assets (Held at End of Year) and Schedule of Reportable Transactions.

F. PLAN TERMINATION:

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- a. Benefits attributable to employee contributions, if any, taking into account those paid out before termination.
- b. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding Plan termination.

CHEMTURA CORPORATION RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS

- c. Other vested benefits insured by the Pension Benefit Guaranty Corporation ("PBGC") (a U.S. government agency) up to the applicable limitations (discussed below).
- d. All other vested benefits (that is, vested benefits not insured by the PBGC).
- e. All non-vested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling, which is adjusted periodically, on the amount of an individual's monthly benefit that the PBGC guarantees. That ceiling applies to those pensioners who elect to receive their benefits in the form of a single-life annuity and are at least 65 years old at the time of retirement or plan termination (whichever comes later). For younger annuitants or for those who elect to receive their benefits in some form more valuable than a single-life annuity, the corresponding ceilings are actuarially adjusted downward.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan sponsor and the level of benefits guaranteed by the PBGC.

G. PARTIES-IN-INTEREST:

Section 3(14) of ERISA defines a party-in-interest to include, among others, fiduciaries or employees of the Plan, any person who provides services to the Plan or an employer whose employees are covered by the Plan. Accordingly, the management of investments held by the trustee are considered party-in-interest transactions.

H. SUBSEQUENT EVENTS:

In February 2016, the Plan entered into a purchase agreement for a group annuity contract transferring payment responsibility for retirement pension benefits of approximately 5,000 retirees in the U.S. or their designated beneficiaries. The annuity purchase price was \$354 million and was funded by the assets of the Plan. Additionally, the Company contributed \$35 million of cash to the Plan during the first quarter of 2016 to maintain the Plan's funded status at the approximate level that existed prior to the pension annuity transaction.

The Company has evaluated subsequent events through October 11, 2016, the date these financial statements were available for issuance.

Methods

Valuation date	First day of plan year
Funding target	Present value of accrued benefits as required by regulations under IRC §430.
Target normal cost	Present value of benefits expected to accrue during the plan year plus plan-related expenses expected to be paid from plan assets during the plan year as required by regulations under IRC §430.
Actuarial value of assets for determining minimum required contributions	<p>Average of the fair market value of assets on the valuation date and 12 and 24 months preceding the valuation date, adjusted for contributions, benefits, administrative expenses and expected earnings (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the 2014 plan year.)</p> <p>The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.</p>
