Ecova 401(k) Savings Plan

Notes to Financial Statements

Years Ended December 31, 2015 and 2014

1. Description of the Plan

The following description of the Ecova 401(k) Savings Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established for the benefit of eligible employees of Ecova, Inc. (the Employer). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). Fidelity Management Trust Company ("the Trustee" or "Fidelity") is the appointed trustee of the Plan's assets. All investments are participant-directed.

Eligibility

Employees – other than those who are union employees, temporary workers, or non-resident aliens – are eligible to participate in the Plan upon attaining the age of eighteen. Qualifying employees may participate in the Plan on the first day of the month following the date they meet the eligibility requirements.

Contributions

The Plan includes a salary deferral provision which provides for both pre-tax contributions and after-tax Roth 401(k) contributions. Participants may elect to defer up to 75% of their eligible compensation, subject to current Internal Revenue Code (IRC) limitations. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. The Plan includes an auto-enrollment provision, whereby newly eligible employees are automatically enrolled in the Plan within 30 days of entering the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set at 3% of their eligible compensation, and such contributions are invested in a designated balanced fund until changed by the participant. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (i.e., rollover contributions).

The Employer has elected to make safe harbor matching contributions that match 100% of the first 3% of eligible employee compensation and 50% of the next 2% of eligible employee compensation. The Employer may make additional discretionary matching contributions, discretionary nonelective contributions, or qualified matching or nonelective contributions. Additional discretionary matching contributions would be allocated based on a percentage of eligible employee compensation for the Plan year, not to exceed 4%. Discretionary nonelective contributions would be calculated using an integrated allocation formula taking into account Social Security wages, and qualified matching or nonelective contributions would be allocated to non-highly compensated employees for nondiscrimination compliance purposes. The Employer did not make additional discretionary matching contributions, discretionary nonelective contributions, or qualified matching or nonelective contributions during the years ended December 31, 2015 and 2014.

Effective January 1, 2015, the Plan was amended to change the calculation period for matching contributions from each plan year to each payroll period.

Participant accounts

Each participant's account is credited (charged) with the participant's contributions and allocations of (a) the Employer's contributions, (b) Plan earnings (losses), and (c) administrative expenses. Earnings (losses) for each investment fund are allocated to participants' accounts based on the individual participant's account balance as compared to the total balance of the related investment fund. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Ecova 401(k) Savings Plan

Notes to Financial Statements

Years Ended December 31, 2015 and 2014

Vesting

Participants are immediately 100% vested in their voluntary salary contributions, rollover contributions, and any Employer safe harbor matching, additional matching, and discretionary contributions and the actual earnings (losses) thereon.

Forfeitures

As of December 31, 2015, total forfeited nonvested accounts were approximately \$6,900. As of December 31, 2014, there were no forfeited nonvested accounts. Amounts from accounts forfeited in prior years will first be used to pay Plan expenses and secondarily used as a reduction of future Employer contributions. During the years ended December 31, 2015 and 2014, forfeitures were used to pay Plan expenses of approximately \$300 and \$19,000, respectively.

Notes receivable from participants

Participants may elect to borrow a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance, reduced by the highest outstanding participant note receivable balance in the preceding one-year period. Notes receivable from participants are secured by the balances in the respective participants' accounts. Terms of notes receivable from participants range from one to five years, unless used to acquire the participant's principal residence, in which case the term may be extended up to 10 years. The notes receivable from participants bear interest at rates commensurate with local prevailing rates as determined by the plan administrator. Interest rates on notes receivable from participants outstanding as of December 31, 2015 ranged from 4.25% to 5.75%.

Benefits

On termination of service due to death, disability, or retirement, a participant (or their beneficiary) may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. For termination of service for other reasons, distributions of vested balances less than or equal to \$1,000 are made in a lump-sum. If the terminated participant's vested balance exceeds \$1,000 but is less than \$5,000, and the participant does not elect to receive a distribution, the Plan permits the plan administrator to make a distribution directly to an individual retirement account set up on the participant's behalf. For vested balances greater than or equal to \$5,000, the Plan permits a participant to elect distribution by lump-sum. Upon reaching age 59½, participants may make in-service withdrawals of part or all of their elective contributions, including the related earnings (losses).

Administrative expenses

At the Employer's discretion, administrative expenses of the Plan may be paid directly by the Employer; certain other administrative expenses may be paid by the Plan. Expenses that are paid by the Employer are excluded from the accompanying financial statements. Fees related to the administration of notes receivable from participants are charged directly to the related participants' accounts and are included in administrative expenses in the accompanying statements of changes in net assets available for benefits. In addition, certain investment related expenses are included in net depreciation in fair value of investments in the accompanying statements of changes in net assets available for benefits.

2. Summary of Significant Accounting Policies

Basis of accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Ecova 401(k) Savings Plan

Notes to Financial Statements

Years Ended December 31, 2015 and 2014

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP) requires management of the Plan (Management) to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's 401(k) Investment Committee determines the Plan's valuation policies utilizing information provided by the Plan's investment advisers. See Note 4 for discussion of fair value measurements.

Investment income recognition

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2015 or 2014. If a participant ceases to make loan repayments and the plan administrator deems the note receivable to be in default, the note receivable balance is reduced and a benefit payment is recorded.

Payment of benefits

Benefits are recorded when paid.

Change in accounting principle

In July 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standard Update (ASU) No. 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient* (ASU 2015-12). This three-part standard simplifies employee benefit plan reporting with respect to fully benefit-responsive investment contracts and plan investment disclosures, and provides for a measurement-date practical expedient. Part I eliminates the requirements to measure the fair value of fully benefit-responsive investment contracts and provide certain disclosures. Contract value is the only required measure for fully benefit-responsive investment contracts. Part II eliminates the requirements to disclose individual investments that represent 5 percent or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. Part II also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics, and risks. Furthermore, the disclosure of information about fair value measurements shall be provided by general type of plan asset. Parts I and III are not applicable to the Plan. Part II is effective for years beginning after December 15, 2015 and should be applied retrospectively, with early application permitted. The Plan has elected to early adopt Part II of ASU 2015-12 as of and for the year ended December 31, 2015, using a full retrospective approach.

Subsequent events

Management has evaluated, for potential recognition or disclosure in the financial statements, subsequent events that have occurred through July 19, 2016, which is the date that the financial statements were available to be issued.

3. Information Prepared and Certified by the Trustee

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the following information included in the accompanying financial statements, notes, and supplemental schedule was obtained from data that was prepared and certified to as complete and accurate by the Trustee and has not been audited by the Plan's independent auditors:

- Mutual funds
- Notes receivable from participants
- Net depreciation in fair value of investments
- Dividends
- Interest income on notes receivable from participants
- Schedule H, line 4i - Schedule of Assets (Held at End of Year)

4. Fair Value Measurements

GAAP defines fair value, establishes a framework for measuring fair value, and requires certain disclosures about fair value measurements. The hierarchy of fair value valuation techniques under GAAP provides for three levels: Level 1 provides the most reliable measure of fair value, whereas Level 3, if applicable, generally would require significant management judgment. The three levels for categorizing assets and liabilities under GAAP's fair value measurement requirements are as follows:

- Level 1: Fair value of the asset or liability is determined using unadjusted quoted prices in active markets for identical assets or liabilities;
- Level 2: Fair value of the asset or liability is determined using inputs other than quoted prices that are observable for the applicable asset or liability, either directly or indirectly, such as quoted prices for similar (as opposed to identical) assets or liabilities in active markets and quoted prices for identical or similar assets or liabilities in markets that are not active; and
- Level 3: Fair value of the asset or liability is determined using unobservable inputs that are significant to the fair value measurement and reflect the Plan's own assumptions regarding the applicable asset or liability.

An asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for the Plan's assets measured at fair value. There have been no changes in the methodologies used as of December 31, 2015 and 2014.

Mutual funds - The fair value of mutual funds is based on the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Ecova 401(k) Savings Plan

Notes to Financial Statements

Years Ended December 31, 2015 and 2014

The following tables set forth, by level within the fair value hierarchy, the Plan's investments measured at fair value as of December 31, 2015 and 2014:

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
2015				
Mutual funds	\$ 39,540,499	\$ -	\$ -	\$ 39,540,499
	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
2014				
Mutual funds	\$ 36,840,585	\$ -	\$ -	\$ 36,840,585

All of the Plan's investments provide for daily redemption at the prior day's NAV, with no advance notification requirements or significant redemption restrictions.

5. Related Party Transactions

Certain of the Plan's investments are invested in funds offered by the Trustee. Therefore, transactions involving these investments qualify as party-in-interest.

The Employer is the sponsor of the Plan and paid certain of the administrative expenses of the Plan during the years ended December 31, 2015 and 2014. In addition, the Plan administrator is a participant in the Plan.

6. Plan Termination

Although it has not expressed any intent to do so, the Employer has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

7. Tax Status

The Plan adopted a volume submitter profit sharing plan (the Volume Submitter Plan) developed by Fidelity. The Internal Revenue Service (IRS) has determined and informed Fidelity by a letter dated March 31, 2014 that the Volume Submitter Plan is designed in accordance with the applicable sections of the IRC. Although the Plan has been amended since receiving the determination letter, the plan administrator and the Plan's legal counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified and the related trust is tax-exempt.

GAAP requires Management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. Management has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2015, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the accompanying financial statements.

The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. A DOL audit was completed on September 3, 2014 for the Plan years ended December 31, 2013, 2012, and 2011, which resulted in an insignificant corrective contribution. Management believes that the Plan is no longer subject to income tax examinations for years prior to 2012 based on the results of the most recent IRS audit.

8. Risks and Uncertainties

The Plan invests in various investment instruments which are exposed to certain risks such as interest rate, market, and credit risks. Due to the level of risk associated with investments, it is at least reasonably possible that changes in the values of the Plan's investments will occur in the near-term and that such changes could materially affect participants' account balances and the amounts reported in the accompanying financial statements and supplemental schedule.

Ecova 401(k) Savings Plan

Notes to Financial Statements

Years Ended December 31, 2015 and 2014

1. Description of the Plan

The following description of the Ecova 401(k) Savings Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established for the benefit of eligible employees of Ecova, Inc. (the Employer). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). Fidelity Management Trust Company ("the Trustee" or "Fidelity") is the appointed trustee of the Plan's assets. All investments are participant-directed.

Eligibility

Employees – other than those who are union employees, temporary workers, or non-resident aliens – are eligible to participate in the Plan upon attaining the age of eighteen. Qualifying employees may participate in the Plan on the first day of the month following the date they meet the eligibility requirements.

Contributions

The Plan includes a salary deferral provision which provides for both pre-tax contributions and after-tax Roth 401(k) contributions. Participants may elect to defer up to 75% of their eligible compensation, subject to current Internal Revenue Code (IRC) limitations. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. The Plan includes an auto-enrollment provision, whereby newly eligible employees are automatically enrolled in the Plan within 30 days of entering the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set at 3% of their eligible compensation, and such contributions are invested in a designated balanced fund until changed by the participant. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (i.e., rollover contributions).

The Employer has elected to make safe harbor matching contributions that match 100% of the first 3% of eligible employee compensation and 50% of the next 2% of eligible employee compensation. The Employer may make additional discretionary matching contributions, discretionary nonelective contributions, or qualified matching or nonelective contributions. Additional discretionary matching contributions would be allocated based on a percentage of eligible employee compensation for the Plan year, not to exceed 4%. Discretionary nonelective contributions would be calculated using an integrated allocation formula taking into account Social Security wages, and qualified matching or nonelective contributions would be allocated to non-highly compensated employees for nondiscrimination compliance purposes. The Employer did not make additional discretionary matching contributions, discretionary nonelective contributions, or qualified matching or nonelective contributions during the years ended December 31, 2015 and 2014.

Effective January 1, 2015, the Plan was amended to change the calculation period for matching contributions from each plan year to each payroll period.

Participant accounts

Each participant's account is credited (charged) with the participant's contributions and allocations of (a) the Employer's contributions, (b) Plan earnings (losses), and (c) administrative expenses. Earnings (losses) for each investment fund are allocated to participants' accounts based on the individual participant's account balance as compared to the total balance of the related investment fund. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Ecova 401(k) Savings Plan

Notes to Financial Statements

Years Ended December 31, 2015 and 2014

Vesting

Participants are immediately 100% vested in their voluntary salary contributions, rollover contributions, and any Employer safe harbor matching, additional matching, and discretionary contributions and the actual earnings (losses) thereon.

Forfeitures

As of December 31, 2015, total forfeited nonvested accounts were approximately \$6,900. As of December 31, 2014, there were no forfeited nonvested accounts. Amounts from accounts forfeited in prior years will first be used to pay Plan expenses and secondarily used as a reduction of future Employer contributions. During the years ended December 31, 2015 and 2014, forfeitures were used to pay Plan expenses of approximately \$300 and \$19,000, respectively.

Notes receivable from participants

Participants may elect to borrow a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance, reduced by the highest outstanding participant note receivable balance in the preceding one-year period. Notes receivable from participants are secured by the balances in the respective participants' accounts. Terms of notes receivable from participants range from one to five years, unless used to acquire the participant's principal residence, in which case the term may be extended up to 10 years. The notes receivable from participants bear interest at rates commensurate with local prevailing rates as determined by the plan administrator. Interest rates on notes receivable from participants outstanding as of December 31, 2015 ranged from 4.25% to 5.75%.

Benefits

On termination of service due to death, disability, or retirement, a participant (or their beneficiary) may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. For termination of service for other reasons, distributions of vested balances less than or equal to \$1,000 are made in a lump-sum. If the terminated participant's vested balance exceeds \$1,000 but is less than \$5,000, and the participant does not elect to receive a distribution, the Plan permits the plan administrator to make a distribution directly to an individual retirement account set up on the participant's behalf. For vested balances greater than or equal to \$5,000, the Plan permits a participant to elect distribution by lump-sum. Upon reaching age 59½, participants may make in-service withdrawals of part or all of their elective contributions, including the related earnings (losses).

Administrative expenses

At the Employer's discretion, administrative expenses of the Plan may be paid directly by the Employer; certain other administrative expenses may be paid by the Plan. Expenses that are paid by the Employer are excluded from the accompanying financial statements. Fees related to the administration of notes receivable from participants are charged directly to the related participants' accounts and are included in administrative expenses in the accompanying statements of changes in net assets available for benefits. In addition, certain investment related expenses are included in net depreciation in fair value of investments in the accompanying statements of changes in net assets available for benefits.

2. Summary of Significant Accounting Policies

Basis of accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Ecova 401(k) Savings Plan

Notes to Financial Statements

Years Ended December 31, 2015 and 2014

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP) requires management of the Plan (Management) to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's 401(k) Investment Committee determines the Plan's valuation policies utilizing information provided by the Plan's investment advisers. See Note 4 for discussion of fair value measurements.

Investment income recognition

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2015 or 2014. If a participant ceases to make loan repayments and the plan administrator deems the note receivable to be in default, the note receivable balance is reduced and a benefit payment is recorded.

Payment of benefits

Benefits are recorded when paid.

Change in accounting principle

In July 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standard Update (ASU) No. 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient* (ASU 2015-12). This three-part standard simplifies employee benefit plan reporting with respect to fully benefit-responsive investment contracts and plan investment disclosures, and provides for a measurement-date practical expedient. Part I eliminates the requirements to measure the fair value of fully benefit-responsive investment contracts and provide certain disclosures. Contract value is the only required measure for fully benefit-responsive investment contracts. Part II eliminates the requirements to disclose individual investments that represent 5 percent or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. Part II also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics, and risks. Furthermore, the disclosure of information about fair value measurements shall be provided by general type of plan asset. Parts I and III are not applicable to the Plan. Part II is effective for years beginning after December 15, 2015 and should be applied retrospectively, with early application permitted. The Plan has elected to early adopt Part II of ASU 2015-12 as of and for the year ended December 31, 2015, using a full retrospective approach.

Subsequent events

Management has evaluated, for potential recognition or disclosure in the financial statements, subsequent events that have occurred through July 19, 2016, which is the date that the financial statements were available to be issued.

3. Information Prepared and Certified by the Trustee

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the following information included in the accompanying financial statements, notes, and supplemental schedule was obtained from data that was prepared and certified to as complete and accurate by the Trustee and has not been audited by the Plan's independent auditors:

- Mutual funds
- Notes receivable from participants
- Net depreciation in fair value of investments
- Dividends
- Interest income on notes receivable from participants
- Schedule H, line 4i - Schedule of Assets (Held at End of Year)

4. Fair Value Measurements

GAAP defines fair value, establishes a framework for measuring fair value, and requires certain disclosures about fair value measurements. The hierarchy of fair value valuation techniques under GAAP provides for three levels: Level 1 provides the most reliable measure of fair value, whereas Level 3, if applicable, generally would require significant management judgment. The three levels for categorizing assets and liabilities under GAAP's fair value measurement requirements are as follows:

- Level 1: Fair value of the asset or liability is determined using unadjusted quoted prices in active markets for identical assets or liabilities;
- Level 2: Fair value of the asset or liability is determined using inputs other than quoted prices that are observable for the applicable asset or liability, either directly or indirectly, such as quoted prices for similar (as opposed to identical) assets or liabilities in active markets and quoted prices for identical or similar assets or liabilities in markets that are not active; and
- Level 3: Fair value of the asset or liability is determined using unobservable inputs that are significant to the fair value measurement and reflect the Plan's own assumptions regarding the applicable asset or liability.

An asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for the Plan's assets measured at fair value. There have been no changes in the methodologies used as of December 31, 2015 and 2014.

Mutual funds - The fair value of mutual funds is based on the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Notes to Financial Statements

Years Ended December 31, 2015 and 2014

The following tables set forth, by level within the fair value hierarchy, the Plan's investments measured at fair value as of December 31, 2015 and 2014:

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
2015				
Mutual funds	\$ 39,540,499	\$ -	\$ -	\$ 39,540,499
	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
2014				
Mutual funds	\$ 36,840,585	\$ -	\$ -	\$ 36,840,585

All of the Plan's investments provide for daily redemption at the prior day's NAV, with no advance notification requirements or significant redemption restrictions.

5. Related Party Transactions

Certain of the Plan's investments are invested in funds offered by the Trustee. Therefore, transactions involving these investments qualify as party-in-interest.

The Employer is the sponsor of the Plan and paid certain of the administrative expenses of the Plan during the years ended December 31, 2015 and 2014. In addition, the Plan administrator is a participant in the Plan.

6. Plan Termination

Although it has not expressed any intent to do so, the Employer has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

7. Tax Status

The Plan adopted a volume submitter profit sharing plan (the Volume Submitter Plan) developed by Fidelity. The Internal Revenue Service (IRS) has determined and informed Fidelity by a letter dated March 31, 2014 that the Volume Submitter Plan is designed in accordance with the applicable sections of the IRC. Although the Plan has been amended since receiving the determination letter, the plan administrator and the Plan's legal counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified and the related trust is tax-exempt.

GAAP requires Management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. Management has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2015, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the accompanying financial statements.

The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. A DOL audit was completed on September 3, 2014 for the Plan years ended December 31, 2013, 2012, and 2011, which resulted in an insignificant corrective contribution. Management believes that the Plan is no longer subject to income tax examinations for years prior to 2012 based on the results of the most recent IRS audit.

8. Risks and Uncertainties

The Plan invests in various investment instruments which are exposed to certain risks such as interest rate, market, and credit risks. Due to the level of risk associated with investments, it is at least reasonably possible that changes in the values of the Plan's investments will occur in the near-term and that such changes could materially affect participants' account balances and the amounts reported in the accompanying financial statements and supplemental schedule.
