Note 1 - Description of Plan

The following description of the TPG Planning & Design, LLC Profit Sharing and 401(k) Retirement Plan ("Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description (Note 6).

a) General

The Plan, a defined contribution plan, covers substantially all full-time employees of TPG Planning & Design, LLC (Plan Administrator) (Employer) and affiliates who have completed at least six months of service and are twenty-one or older as of the entry dates (January 1, April 1, July 1, and October 1). To be eligible for an allocation of an Employer discretionary profit sharing contribution, employees must have a minimum of one year of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Plan Administrator determines the appropriateness of the Plan's investment offerings, monitors investment performance, and is responsible for oversight of the Plan.

b) Contributions

Plan participants may contribute to the Plan up to 100% of their annual pre-tax earnings. During 2015, the maximum pre-tax contribution allowed by the Internal Revenue Code was $18,000. In addition, participants who have attained age 50 before the end of the plan year are eligible to contribute an additional $6,000 as a "catch-up contribution" in 2015. The Plan will accept rollover contributions from other qualified plans.

The Employer may elect to make discretionary contributions to the Plan on behalf of those participants who have made salary deferral contributions (other than catch-up contributions). The Employer may also provide additional matching contributions.

During 2015 and 2014, the Employer elected to make a $250,000 and $500,000 profit sharing contribution to the Plan, respectively. The contributions vest over six years of service (Note 1(d)) and are allocated to eligible participants (Note 1(a)).

Participants direct the investment of their contributions into the investment options offered by the Plan. Various investment fund options are being offered to the participants, who may change their investment direction at any time throughout the year.

Contributions are subject to certain limitations, and are funded each bi-weekly pay-period.

Note 1 - Description of Plan (Continued)

c) Participant Accounts

Each participant's account is credited/charged with a) the participant's contribution, b) the Employer's matching contribution, c) Plan earnings (losses), d) benefits paid, and e) an allocation of administrative expenses. Allocations are based on relative participant balances. A participant is entitled to the benefit available from his or her vested account value.

d) Vesting

Participants are immediately vested in their own contributions (including earnings thereon). Vesting in the Employer's matching contribution is 50% after 1 year and 100% after 2 years of service. Vesting in the Employer's profit sharing contribution is as follows:

Years of Service	Vesting Percentage
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Participants are 100% vested in the event of death or disability.

e) Investment Options

Participants direct the investment of contributions to the following investment options:

Investment Contract with Insurance Company

i. Guaranteed Interest Account (Mass Mutual) - is intended to be a long-term investment for participants seeking stability of principal. The assets supporting it are invested by Massachusetts Mutual Life Insurance Company, the custodian, and seeks to provide a fixed rate of return (Note 7).

International Growth and Equity Funds

ii. Premier Global (OFI) - seeks long-term capital appreciation by primarily investing in common stocks of domestic and foreign companies.

Note 1 - Description of Plan (Continued)

e) Investment Options (Continued)

Equity Growth Funds

iii. EuroPacific Growth Fund (American) - seeks long-term capital appreciation by primarily investing in common stocks of companies based chiefly in Europe and the Pacific Basin, ranging from small firms to large corporations.

iv. Select Blue Chip Growth II (T. Rowe Price) - seeks growth of capital over the long-term by investing primarily in stock of established companies believed to offer better than average prospects for high earnings growth.

v. Spectrum Growth Fund (T. Rowe Price) - seeks long-term capital appreciation and growth of income; with current income a secondary objective.

Income Funds

vi. Equity Dividend Income (Fidelity) - seeks to provide reasonable income by investing primarily in income producing equity securities. Capital appreciation is a secondary objective.

vii. Global Strategic Income (OFI) - seeks to provide high current income by investing principally in debt securities of foreign governments and companies, U.S. government securities and lower-rated high yield bonds issued by domestic and foreign companies.

Lifestyle Funds

viii. RetireSMART Moderate Growth Fund - offers high growth potential over time by primarily investing in equities but diversifies with fixed income and cash investments.

ix. RetireSMART Moderate Fund - seeks to provide both capital appreciation and income by investing in a diversified mix tilted toward equities but including fixed income and cash investments.

x. RetireSMART Growth Fund - seeks maximum total return by investing in a diverse mix of equities.

xi. RetireSMART Conservative Fund - seeks to provide both capital appreciation and income while limiting exposure to risk by investing in a diversified mix of mutual funds including equities, fixed income and cash investments. The underlying mutual funds tend to hold smaller positions in equities than moderate-allocation funds.

Note 1 - Description of Plan (Continued)

e) Investment Options (Continued)

Bond Fund

.

xii. Premium Core Bond Fund (Babson) - seeks a high total rate of return consistent with prudent investment risk and preservation of capital. The fund invests at least 80% of assets in investment grade fixed income securities which include U.S. dollar-denominated corporate obligations, securities issued or guaranteed by the U.S. government or its agencies, U.S. dollar-denominated bonds of foreign issuers, and mortgage-backed and other asset-backed securities. It may also invest up to 10% of assets in below investment-grade debt securities.

Small Capitalization Growth

xiii. Select Small Cap Growth Equity Fund (W&R/Wellington) - seeks long-term capital appreciation by investing in companies with a market capitalization between $100 million and $1.5 billion which offer potential long-term growth.

Small Capitalization Value

xiv. Small Capitalization Value (Invesco) - seeks capital appreciation by investing in small capitalization companies which are undervalued. A company is considered a small-capitalization issuer if it has a market capitalization, at the time of purchase, no larger than the largest capitalized issuer included in the Russell 2000® Index.

Large Capitalization Value

xv. Select Fundamental Value (Wellington) - seeks long-term total return. The fund invests normally at least 80% of assets in equity securities. Although it may invest in companies with a broad range of market capitalizations, the fund will tend to focus on companies with large capitalizations. It may typically invest up to 20% of assets in the securities of foreign issuers and American Depositary Receipts, including emerging market securities.

Indexed Equity

xvi. MM S&P 500 Index (Northern Trust) - seeks return which closely approximates the S&P 500 Index by primarily investing in a representative sample of the stocks included in the index.

Note 1 - Description of Plan (Continued)

f) Notes Receivable from Participants

Participants may borrow from their accounts a minimum of $1,000, up to a maximum of the lesser of $50,000 or 50% of their vested account balance. The number of outstanding loans is limited to two. The loans are secured by their account balance and accrue interest at 5.25%, which equates Prime plus 2% as of loan inception, and mature through June 2044. Principal and interest is paid ratably through payroll deductions.

g) Payment of Benefits

On termination of service due to death, disability or retirement, a participant may elect to receive his or her account value in either a lump-sum or installments. For termination of service due to other reasons, a participant is limited to receiving the value of the vested amount in his or her account as a lump-sum distribution. Benefits are recognized when paid.

h) Forfeitures

Forfeited balances of terminated participants' nonvested accounts approximated $35,000 and $21,000 as of December 31, 2015 and 2014, respectively and are included in the Guaranteed Interest Account (Note 1(e)i) and have not been reallocated to the remaining participants' accounts as of December 31, 2015 and 2014. Forfeitures are reallocated among participants based on their compensation during the year of the forfeiture.

Note 2 - Summary of Significant Accounting Policies

a) Basis of Accounting

The financial statements of the Plan are prepared under the accrual basis of accounting.

b) Investment Valuation and Income Recognition

Investments are reported at fair value, except for fully benefit-responsive investment contracts, which are recorded at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (Note 4). The Plan Administrator and Plan Sponsor determine the Plan's valuation policies.

Net depreciation includes the Plan's net gains and losses in pooled separate accounts bought and sold as well as held during the year. Interest income is recorded on the accrual basis.

Note 2 - Summary of Significant Accounting Policies (Continued)

c) Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. As of December 31, 2015 and 2014, no allowance for credit losses has been recorded. Delinquent participant loans are reclassified as distributions based on the terms of the Plan document.

d) Administrative Expenses

The Employer pays certain administrative expenses and reserves the right to charge future expenses to the Plan.

During 2015, the Plan incurred approximately $3,500 in administrative expenses.

e) Plan Termination

Although it has not expressed an intention to do so, the Employer has the right, subject to the provisions of ERISA, to discontinue its contributions at any time and terminate the Plan. In such an event, participants would become 100% vested in their Employer contributions.

f) Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan Administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

g) Adoption of Accounting Standards Codification ASU 2015-12, Plan Accounting

During 2015 the Plan adopted the provisions *ASU 2015-12, Plan Accounting (Parts I and II).*

Part I eliminates the requirement to measure the fair value of fully benefit responsive investment contracts and provide certain disclosures. Contract value is the only required measure for fully benefit-responsive investment contracts. Part II eliminates the requirements to disclose individual investments that represent 5 percent or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type.

Note 2 - Summary of Significant Accounting Policies (Continued)

g) Adoption of Accounting Standards Codification ASU 2015-12, Plan Accounting (Continued)

Parts I and II are to be applied retrospectively. Parts I and II are reflected in the statements of assets available for benefits and in the notes to the financial statements. The adoption resulted in the removal of the reclassification adjustment from fair value to contract value for the fully benefit-responsive investment contract of $329,988 and $611,101 in the statements of net assets available for benefits, as of December 31, 2015 and 2014, respectively. Certain historical disclosures that are no longer required were also removed.

h) Subsequent Events

Subsequent events were evaluated through October 10, 2016, which is the date the financial statements were available to be issued.

Note 3 - Unaudited Information Prepared and Certified by the Plan Custodian

Massachusetts Mutual Life Insurance Company, the custodian, holds the Plan's investments and executes the related transactions therein. Financial information relating to these assets and changes therein included in the financial statements (including the notes to the financial statements) and supplemental schedules are based entirely on information provided and certified as complete and accurate by the custodian in accordance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, as amended. Such information has not been audited by the independent auditors.

Note 4 - Fair Value Measurements

The Plan's investments are reported at fair value in the accompanying statements of net assets available for benefits. The methods used to measure fair value may produce an amount which may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to measure the fair value of certain financial instruments could result in a different fair value at the reporting date.

The fair value measurement accounting literature establishes a fair value hierarchy which prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices for identical assets in active markets that the Plan has the ability to access and have the highest priority, Level 2 inputs consist of observable inputs other than quoted prices for identical assets and Level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on available inputs to measure the fair value of its investments.

Note 4 - Fair Value Measurements (Continued)

When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. No Level 1 inputs were available to the plan and Level 2 inputs were used for the Plan's assets reported at fair value. There are no plan assets requiring the use of Level 3 inputs for the periods presented.

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs. There have been no changes in the methodologies used as of December 31, 2015 and 2014.

Level 2 Fair Value Measurements

The fair value of each unit of the Plan's investments in pooled separate accounts are calculated based on the observable quoted net asset value of the underlying investments (market approach).

The following table sets forth, by level within the fair value hierarchy, the Plan's investments at fair value in the accompanying statements of net assets available for benefits:

	Fair Value Measurements as of December 31 Using Significant Other Observable Inputs (Level 2)	
	2015	2014
Pooled separate accounts	**$ 13,760,074**	$ 13,093,539

Note 5 - Related Party Transactions

Investments, including notes receivable, are managed by affiliates of the custodian and, therefore, these transactions qualify as party-in-interest transactions under ERISA. Certain administrative expenses were paid to the custodian or their affiliates.

These transactions are exempt from the prohibited transaction rules of ERISA.

Note 6 - Income Tax Status

The Plan is based on a prototype plan document offered by the custodian and/or an affiliate, which received an opinion letter from the Internal Revenue Service (IRS) which stated the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (IRC). While Management did not elect to obtain an individual determination letter from IRS, and has amended the plan since receipt of the opinion letter, it believes the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified, and the related trust is tax exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

The Plan has determined all benefits associated with positions taken for tax purposes would more likely than not, be sustained upon review by the taxing authorities and therefore has not recognized a liability for unrecognized tax benefits. Tax returns (Form 5500) are filed in the U.S. Federal jurisdiction. The Plan Administrator believes the Plan is no longer subject to income tax examinations for years prior to 2012. There are currently no tax examinations in progress.

Note 7 - Investment Contract with Insurance Company

The Plan entered into a group annuity investment contract (Guaranteed Interest Account) with the custodian (or an affiliate thereof) (Notes 1(e), 2(b), and 2(g)). Contributions are maintained in the custodian's (the issuer's) general investment account. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate guaranteed to the Plan.

The Plan earned yields, which also reflect the actual rates credited to plan participants, of 3% (2015) and 3% (2014) on the underlying investments. The interest rate is reset semiannually. The crediting interest rate, established without the use of a specific formula, was agreed upon with the issuer and the minimum rate under the contract is 3%. The average yield earned by the Plan and the average yield credited to participants was 2.61% (2015) and 2.55% (2014). The average yield earned by the Plan is equal to the average yield earned by the participants. When establishing crediting interest rates for the investment, the custodian considers many factors, including actual earnings experience of the contract, projected levels of cash flows, projected maturities of the underlying investments and the current interest rate environment.

The contract is included in the financial statements at contract value. Contract value reflects contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. There are no reserves against contract value for credit risk of the contract issuer or otherwise.

Note 7 - Investment Contract with Insurance Company (Continued)

Certain events limit the ability of the Plan to transact with the issuer at contract value. Such events include but may not be limited to the following: (a) amendments to the Plan documents causing complete or partial plan termination or merger with another plan; b) plan disqualification; or (c) certain events (including reorganization, merger, layoffs or the sale or discontinuance of all or any part of the business). The Plan Administrator does not believe that any events are probable of occurring that would limit the Plan's ability to transact or allow the custodian to terminate the contract requiring the Plan to settle at an amount other than the contract value. The contract issuer and the Plan consider the contract to be fully benefit - responsive.

Note 8 - Risks and Uncertainties

The Plan invests in various investment securities which are exposed to risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investments, it is as least reasonably possible that the value of investments will fluctuate in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 9 - Excess Contributions Payable

To comply with the relevant nondiscrimination provisions of the IRC, contributions received from participants for 2015 are net of repayments of $47,386 returned to participants in 2016. That amount is reflected on the Plan's statements of net assets available for benefits as excess contributions payable (Note 11).

Note 10 - Delinquent Contributions

Department of Labor regulations require participant contributions be remitted to the custodian on a timely basis. Contributions that were not timely remitted under the regulations result in a prohibited transaction. For the pay period ending April 15, 2015, participant contributions of $46,264 were not remitted until April 22, 2015, which was determined to be not timely remitted. The Employer determined such contributions to be delinquent, and lost earnings thereon were $28. The lost earnings of $28 were included in the accompanying financial statements. The lost earnings were remitted to the custodian and credited to the participant accounts in October 2016. See supplemental Schedule H, Line 4a.
