NOTE 1. DESCRIPTION OF PLAN

The following brief description of the Kodak Alaris Retirement Savings Plan (the Plan), formerly the Alaris Retirement Savings Plan is provided for general informational purposes only. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: The Plan was established by Opco Delaware Inc. effective September 1, 2013. Effective January 1, 2014, Opco Delaware Inc. changed the company name to Kodak Alaris, Inc. (the Company). The Plan is a defined contribution plan available to substantially all employees of the Company. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan Administrator determines the appropriateness of the Plan's investment offerings and monitors investment performance.

Plan Merger: Effective July 31, 2014, the 111616 EIS (Delaware) Inc. 401(K) Plan (EIS) was merged into the Plan. As a result, net assets of $2,322,147 were transferred into the Plan. As of this effective date, all account balances under the EIS Plan became account balances under the Plan and all assets and liabilities of the Trust forming part of the EIS Plan became assets and liabilities of the Trust forming part of the Plan, in compliance with ERISA.

Eligibility: All employees are eligible employees except for the following ineligible classes of employees: (a) employees whose employment is governed by a collective bargaining agreement in which retirement benefits were the subject of good faith bargaining; (b) employees who are non-resident aliens who do not receive earned income from the Company which constitutes income from sources within the United States; (c) anyone who is a leased employee; (d) employees who are employed by an affiliated employer which does not adopt this Plan; and (e) Special Program (Co-ops, General Internships, and Summer Workers). Eligible participants enter the Plan on the same day they are hired.

Contributions: Participants may authorize an elective deferred contribution rate up to the maximum annual limitations as provided by the Internal Revenue Code. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan at 5% of the participant's compensation unless they affirmatively elect not to participate. Auto-enrollment deferrals begin with the first pay date that coincides with or follows 30 days after initial entry into the Plan. All other participants are entered into the Plan the same day requirements are satisfied.

The Plan makes a non-safe harbor matching contribution, which is equal to 100% of a participant's salary deferral up to 1% of compensation, and 50% of the participant's salary deferral that exceed 1% of the participant's compensation but not to exceed 5% of the participant's compensation. For the year ended December 31, 2014, the Plan made a safe harbor, non-elective discretionary contribution equal to 4% of the participant's compensation on a monthly basis.

Effective September 1, 2015, the Plan was amended, whereas the Plan no longer makes a non-elective discretionary contribution of 4% of the participant's compensation on a monthly basis.

Participant Accounts: Each participant's account is credited with the participant's contribution and allocations of (a) the Employer's contribution and, (b) plan earnings, and charged with an allocation of investment fees and administrative expenses. Allocations are based on participant's earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are immediately vested in their contributions plus actual earnings thereon. Employer contributions vest to 100% full and immediately. As the participants are 100% vested in the employer contributions immediately, the Plan does not utilize any forfeitures.

NOTE 1. DESCRIPTION OF PLAN (CONTINUED)

Notes Receivable from Participants: Participants may borrow from their fund accounts with a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The notes receivable are secured by the vested balance in the participant's account and bear interest at prevailing commercial interest rates as determined by the Plan Administrator. Principal and interest is paid ratably through payroll deductions.

Plan Expenses: Costs incurred in the administration of the Plan are paid by the Plan and Plan sponsor.

Withdrawals and Distributions: On termination of service for any reason, participants with vested interests of $1,000 or less will receive a lump-sum distribution as soon as administratively feasible after termination. If a participant's vested interest is more than $1,000, on termination of service for any reason other than death, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or annual installments over other allowed periods. On termination of service for death, the participant's vested interest will be distributed as a lump-sum distribution to the beneficiary as soon as administratively feasible. If the participant elects to keep their vested interest in the Plan, the participant's account will continue to receive its earnings and losses. The Plan also allows hardship distributions under certain circumstances.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting: The Plan prepares its financial statements on the accrual basis of accounting.

Plan Termination: Although the Company has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

Use of Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan Administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. No allowance for credit losses have been recorded as of December 31, 2015. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Risks and Uncertainties: The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially offset participant's account balances and the amounts reported in the statements of net assets available for benefits.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Income Taxes: Effective September 1, 2013, the Plan adopted a standardized form of a prototype profit sharing plan sponsored by Accudraft.com Inc. The prototype plan has received an opinion letter dated March 31, 2008 from the Internal Revenue Service (IRS) as to the prototype plan's qualified status. The prototype plan opinion letter has been relied upon by this Plan. The Plan Administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the DOL. The Plan Administrator has analyzed the tax positions taken by the plan, and has concluded that as of December 31, 2015, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Payment of Benefits: Benefit payments to participants are recorded upon distribution.

Recent Accounting Pronouncements: In May 2015, the FASB issued ASU No. 2015-07, "Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities that Calculate Net Asset Value per Share (or its Equivalent)." This ASU removes the requirement to make certain disclosures as well as categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per practical expedient. The amendment is required to be applied retrospectively, and early adoption is permitted. This amendment is applicable for the Plan for the year ended December 31, 2017. Other than requiring a change to our disclosures, the adoption of this standard is not expected to have a material impact on our financial statements. Management has elected to early adopt this ASU.

In July 2015, the FASB issued ASU 2015-12, Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient. Part I eliminates the requirements to measure the fair value of fully benefit-responsive investment contracts and provide certain disclosures. Under the amendments, fully benefit-responsive investment contracts are measured, presented, and disclosed at contract value. It also clarifies the definition of what is considered a fully benefit-responsive investment contract. Part II eliminates the requirements to disclose individual investments that represent 5 percent of more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. Part II also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics and risks. Further, the disclosure of information about fair value measurement shall be provided by general type of plan asset. Parts I and III are not applicable to the Plan. The ASU is effective for fiscal years beginning after December 15, 2015, with early adoption permitted. Parts I and II are to be applied retrospectively. Management has elected to early adopt Part II.

Subsequent Event: These financial statements have not been updated for subsequent events occurring after October 11, 2016, which is the date these financial statements were available to be issued.

NOTE 3. FAIR VALUE MEASUREMENTS

Financial Accounting Standard Board (FASB) *Accounting Standards Codification* (ASC) 820: *Fair Value Measurements*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.
- If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Mutual Funds: Valued at the net asset value (NAV) of shares held by the plan at year end. The NAV is the closing price reported on the active market on which the securities are traded.

Self-Directed Brokerage Accounts: Accounts consist of mutual funds that are valued at the net asset value (NAV) of shares held by the plan at year end. The NAV is the closing price reported on the active market on which the securities are traded.

Common Collective Trust Fund: Valued at the net asset value (NAV) of units of a collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as December 31, 2015, and 2014. Classification within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.
