NOTE A - DESCRIPTION OF PLAN

The following description of the Technical Chemical Company 401(k) Retirement Plan ("the Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General. The Plan is a defined contribution plan covering all full-time employees of Technical Chemical Company (the "Company") who have completed one year of service and are age twenty-one or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions. Each year, participants may contribute between 1% and 50% of pretax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants direct the investment of their contributions into various investment options offered by the Plan. Matching contributions made by the Company are 100% of the participant's salary reduction up to a limit of 2% of compensation. Additional non-matching contributions may be contributed at the option of the Company on a discretionary basis on behalf of all eligible employees whether or not they made elective contributions for the Plan year. The Plan currently offers several mutual funds and a stable value investment contract as investment options for participants.

Participant Accounts. Each participant's account is credited with the participant's contribution and allocations of Plan earnings. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting. Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. A participant is 100% vested after six years of credited service.

Payment of Benefits. On termination of service due to death, disability, termination of employment or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or as various types of annuities as specified in the Plan.

Forfeited Accounts. Forfeitures are retained in the Plan and used to reduce future Company contributions under the Plan. At December 31, 2015 and 2014 forfeited nonvested accounts totaled $4,047 and $6. In 2014, employer contributions were reduced by $22,036 from forfeited nonvested accounts. In 2015, no forfeitures were used to reduce employer contributions.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Income Recognition

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Payment of Benefits

Benefits are recorded when paid.

Change in Accounting Principle

In July 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient.* Part III is not applicable to the Plan. Part I eliminates the adjustment from fair value to contract value on the face of the financial statements for fully benefit-responsive investment contracts. Part II eliminates the requirements to disclose individual investments that represent 5 percent or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type.

Part II also simplifies the level of disaggregation of investments that are measured at fair value. Plans will continue to disaggregate investments that are measured at fair value by general type; however, Plans are no longer required to also disaggregate investments by nature, characteristics, and risks. Further, the disclosure of information about fair value measurements should be provided by general type of plan asset. The ASU is effective for fiscal years beginning after December 15, 2015, with early adoption permitted. Parts I and II are to be applied retrospectively. The Plan has elected to early adopt Parts I and II.

NOTE C - FAIR VALUE MEASUREMENTS

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

FASB Accounting Standards Codification 820, *Fair Value Measurements and Disclosures*, establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority; Level 2 inputs consist of observable inputs other than quoted market prices included in Level 1, for example quoted market-based prices for similar assets or liabilities; and Level 3 consists of unobservable inputs and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 3 inputs were only used when Level 1 or Level 2 inputs were not available. The following is a description of the valuation methodologies used for assets measured at fair value.

Pooled Separate Accounts

Pooled separate accounts are proprietary to Transamerica and many invest exclusively in one underlying mutual fund traded on an established market. As such, the separate accounts begin with a price determined by Transamerica (i.e., $10 per unit), and the number of units issued are calculated to match the current market value of the underlying mutual fund holdings (shares x price). This is known as unitizing the underlying assets. All of Transamerica's separate account investment choices are valued daily:

Level 1 Fair Value Measurements
Those pooled separate accounts investing in mutual funds or domestic equity securities are measured using quoted prices in active markets for identical assets.

Level 2 Fair Value Measurements
Those pooled separate accounts directly investing in fixed maturity securities are measured based on the pricing data provided by outside valuation service providers who in turn generally use the mean of bid and ask prices but may also use alternative observable pricing inputs for certain securities.

NOTE C - FAIR VALUE MEASUREMENTS (continued)

Investment Contract

Level 2 Fair Value Measurements
The investment contract with an insurance company is not actively traded. Transamerica considers this to be a deposit amount, similar to a bank certificate of deposit, with no formal underlying maturities, and it is considered fairly valued at contract value because of this specific distinction. The investment contract has no stated maturity and interest rates are reset monthly as of the beginning of each month, during which a new interest rate is applied daily to the total outstanding balance of the investment. The following tables set forth, by level within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2015 and 2014.

	Fair Value	Level 1	Level 2
December 31, 2015			
Pooled separate accounts	$2,447,974	$ 342,868	$2,105,106
Investment contract	748,750	-	748,750
Total	$3,196,724	$ 342,868	$2,853,856
December 31, 2014			
Pooled separate accounts	$2,267,706	$ 325,853	$1,941,853
Investment contract	701,318	-	701,318
Total	$2,969,024	$ 325,853	$2,643,171

The following tables provide additional disclosures of the Plan's pooled separate account investments, whose fair value is estimated using net asset value per share as of December 31, 2015 and 2014:

	Fair Value	Redemption Frequency	Redemption Notice Period
December 31, 2015			
Pooled separate accounts	$ 2,447,974	Daily	None
December 31, 2014			
Pooled separate accounts	$ 2,267,706	Daily	None

No investments listed above had unfunded commitments as of December 31, 2015 and 2014. Certain investments in the above categories restrict transfers in to once in any 30-day rolling period. New contributions are allowed during this period.

The investment strategies of the pooled separate accounts vary based on the fund types they invest in: bonds, growth, balanced, foreign/global, value, targeted maturity, etc.

NOTE D - INFORMATION CERTIFIED BY THE TRUSTEE

At December 31, 2015 and 2014 the Plan's investments were held by the Trustee. The following is a summary of the Plan's financial information that is included in the financial statements based on information certified by the Trustee as complete and accurate in accordance with Section 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

	2015	2014
Contract assets, at fair value:		
Pooled Separate Accounts	$ 2,447,974	$2,267,706
Investment Contract	748,750	701,318
Total	$ 3,196,724	$2,969,024

NOTE E - INVESTMENT CONTRACT WITH INSURANCE COMPANY

In 1997, the Plan entered into a benefit-responsive investment contract with Transamerica Life Insurance Company. The Stable Value Option investment choice is a nontradable obligation of Transamerica. Thus, the investment's contract or proceeds cannot nor will not be assigned or sold to another party without the consent of Transamerica. The repayment of principal and interest credited to participants holding the investment is a financial obligation of Transamerica. However, if an event should ever occur such that realization of full contract value for a particular investment contract is no longer probable, for example, a significant decline in creditworthiness of Transamerica, the Stable Value Option investment choice may no longer be considered fully benefit-responsive. The terms of the contract require all permitted participant-initiated transactions involving the investment to occur at contract value with no conditions, limits or restrictions. Permitted participant-initiated transactions are those allowed by the underlying defined contribution plan such as withdrawals for benefits or transfers to other investment choices within the plan. Since the investment contract is an obligation of Transamerica, the occurrence of an event that limits the ability of the investment to transact at contract value with Transamerica and participants holding the investment is not probable. The investment choice allows participants reasonable access to their assets in it.

The investment contract has no stated maturity. Interest rates are reset monthly as to the beginning of each month, during which a new interest rate is applied daily to the total outstanding balance of the investment. There is no stated minimum or maximum interest rate for the Stable Value Option investment choice and, therefore, it is not a guaranteed investment contract.

NOTE E - INVESTMENT CONTRACT WITH INSURANCE COMPANY (continued)

The fair value, which is also the contract value, of the investment contract at December 31, 2015 and 2014 was $748,751 and $701,318, respectively. The crediting interest rate is based on a formula agreed upon with the issuer and such interest rates are reviewed on a monthly basis for resetting.

NOTE G - TAX STATUS

The Technical Chemical Company 401(k) Retirement Plan is a prototype plan of Transamerica Life Insurance Company. The Internal Revenue Service has determined and informed the custodian by a letter dated March 31, 2014, that the Plan is designed in accordance with applicable sections of the Internal Revenue Code (IRC). Therefore, no provision for income taxes has been included in the Plan's financial statements.

The Plan is subject to routine audits by tax authorities; however, there are currently no audits for any tax periods in progress. The Plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2011.

NOTE H - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE I - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA.

NOTE J - SUBSEQUENT EVENTS

Subsequent events have been evaluated through August 30, 2016, the date the financial statements were available to be issued.
