Mid America Clinical Laboratories Retirement Savings Plan

Notes to Financial Statements

1. Description of Plan

The following description of the Mid America Clinical Laboratories Retirement Savings Plan (Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees of Mid America Clinical Laboratories, LLC (Company). Employees who have worked 1,000 hours or more in one year are eligible to receive employer matching contributions. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan administrator oversees governance of the Plan. Plan management, with guidance from the Plan trustee, determines the appropriateness of the Plan's investments and monitors investment performance.

Contributions

All employees may contribute to the Plan, on a pre-tax basis. Participant contributions are limited to the maximum amount allowed by the Internal Revenue Code. Participants age 50 or over by the end of the Plan year are allowed to make additional catch up deferrals up to the maximum amount allowed by the Internal Revenue Code. Participants direct the investments of their contributions into various investment options offered by the Plan. The Company matches 100% of the first 5% of each participant's contribution. Contributions are subject to certain statutory limitations.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and, (b) Plan earnings. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately 100% vested in their voluntary contributions, Company's matching, rollover accounts, and earnings thereon.

1. Description of Plan (Continued)

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their account balance. The notes are secured by the balance in the participant's account and bear interest at rates ranging from 4.25% to 6.5%, which are commensurate with local prevailing rates as determined periodically by the Plan administrator. Principal and interest are paid ratably through bi-weekly payroll deductions.

Payment of Benefits

On termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or annual, or more frequent, installments over a period of time. For termination of services due to other reasons, a participant will receive the value of the vested interest in his or her account as a lump sum distribution.

2. Summary of Significant Accounting Policies

Date of Management's Review

Subsequent events were evaluated through October 10, 2016, which is the date the financial statements were available to be issued.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America (GAAP) requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

2. Summary of Significant Accounting Policies (Continued)

Investment Valuation and Income Recognition (Continued)

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation in fair value includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are charged directly to the borrowing participant's account and are included in administrative expenses when incurred. As of December 31, 2015 and 2014, an allowance for uncollectible notes of \$2,477 and \$3,202 has been recorded, respectively. If a participant does not make loan repayments and the Plan administrator considers the participant loan to be in default, the loan balance is reduced, and the delinquent participant note receivable is recorded as a benefit payment based on the terms of the Plan document.

Payment of Benefits

Benefits are recorded when paid. At the statements of net assets available for benefits date, no participants have elected to withdraw from the Plan whose benefits were not paid prior to December 31, 2015 and 2014.

Administrative Expenses

The expenses of maintaining the Plan are paid by the Company and are therefore excluded from these financial statements. However, expenses for additional services including new loan set up fees, annual loan maintenance fees, short term sale fees, and express mail service delivery fees are paid by participants using Plan assets.

3. Fair Value Measurements

The Plan's investments are reported at fair value in the accompanying statements of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Plan management determines the Plan's valuation policies. Although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to measure the fair value of certain financial instruments could result in a different fair value at the reporting date.

3. Fair Value Measurements (Continued)

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, Level 2 inputs consist of observable inputs other than quoted prices for identical assets, and Level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. No Level 2 or 3 inputs were used as Level 1 inputs were available for all assets.

Level 1 Fair Value Measurements

The fair values of the money market fund and the mutual funds are based on quoted net asset values of the shares held by the Plan at year-end.

The following table sets forth, by level within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2015 and 2014:

	Fair Value Measurements at Reporting Date Using:

5. Investments (Continued)

During the years ended December 31, 2015 and 2014, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by:

	2015	2014
Money market fund	\$ -	\$ -
Mutual funds	<u>(1,175,266)</u>	<u>110,951</u>
Net appreciation in fair value	<u><u>\$(1,175,266)</u></u>	<u><u>\$110,951</u></u>

6. Party-In-Interest Transactions

Certain Plan investments are shares of a money market fund and mutual funds managed by Fidelity Management Trust Company. Fidelity Management Trust Company is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by participants for additional services, including new loan set up fees, annual loan maintenance fees, short term sale fees, and express mail delivery service fees amounted to \$7,282 and \$6,523 for the years ended December 31, 2015 and 2014, respectively.

All of these party-in-interest transactions are exempt from the prohibited transaction rules of ERISA.

7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

8. Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated September 30, 1998, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believe that the Plan is qualified and the related trust is tax-exempt.

8. Tax Status (Continued)

Accounting principles generally accepted in the United States of America require the Plan administrator to evaluate tax positions taken by the Plan and recognize a tax liability for any uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by tax authorities; however, there are currently no audits for any tax periods in progress.

9. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
