Report on the Financial Statements

We were engaged to audit the accompanying financial statements of The 401(k) Plan for the Employees of Precious Plate, which comprise the statements of net assets available for plan benefits – modified cash basis as of December 31, 2015 and December 31, 2014, and the related statement of changes in net assets available for plan benefits – modified cash basis for the year ended December 31, 2015, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with the modified cash basis of accounting described in Note 2; this includes determining that the modified cash basis of accounting is an acceptable basis for the preparation of the financial statements in the circumstances. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 5, which was certified by Massachusetts Mutual Life Insurance Company, the custodian of the Plan, except for comparing the information with the related information included in the financial statements. We have been informed by the plan administrator that the custodian holds the Plan's investment assets and executes investment transactions. The plan

administrator has obtained a certification from the custodian as of December 31, 2015 and December 31, 2014, and for the year ended December 31, 2015, that the information provided to the plan administrator by the custodian is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Basis of Accounting

We draw attention to Note 2 of the financial statements, which describes the basis of accounting. The financial statements are prepared on the modified cash basis of accounting, which is a basis of accounting other than accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to that matter.

Change in Accounting Principle

As discussed in Note 2 to the financial statements, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2015-07, *Disclosures for Investments in Certain Entities that Calculate Net Asset Value per Share.* In July 2015, the FASB issued ASU 2015-12, *Plan Accounting: Defined Benefit Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient.* The Plan has elected to early adopt these ASUs, which requires retrospective application to all periods presented. Our opinion is not modified with respect to these matters.

Other Matter

The supplemental schedule of assets (held at end of year) – modified cash basis as of December 31, 2015, is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and are presented for the purpose of additional analysis and are not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedule referred to above.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

1. Description of the Plan

The following brief description of The 401(k) Plan for the Employees of Precious Plate (the Plan) is provided for general information purposes only. Participants should refer to the Plan document for more complete information.

General

The Plan is a defined contribution plan which became effective January 1, 1986 and allows 401(k) salary reduction. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan Administrator is Precious Plate, Inc. The Pension Committee is responsible for oversight of the Plan. Participants are employees of Precious Plate, Inc., who have completed 6 months of service and have attained age 19, except for union and leased employees.

Contributions

Each year, participants may contribute up to 100 percent of eligible compensation, up to IRS limitations. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. The Plan Administrator matches 50 percent of the employee contribution to a maximum of 4 percent of compensation. The Plan Administrator may also make a discretionary contribution to participants who have completed a year of service and are actively employed at the end of the Plan year. Participants direct the investment of contributions into various investment options offered by the Plan.

On the participant's eligibility date, a participant is automatically enrolled at 4 percent of pretax annual compensation, as defined by the Plan, into the default investment option if the participant does not indicate to the Plan Administrator that the participant does not wish to participate in the Plan.

Participant Accounts

Each participant's account is credited with the participant's contribution, Plan Administrator contributions, and earnings as allocated. The account is reduced by the payment of benefits and an allocation of administrative expenses. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Plan Administrator's contributions portion of their accounts plus earnings thereon is based on years of continuous service. A participant is 100 percent vested after four years of service.

Notes Receivable from Participants

The Plan allows the custodian to make loans to participants and beneficiaries upon the written direction of the Plan Administrator. The amount a participant may borrow is limited to 50 percent of the participant's vested account balance, provided such loan does not exceed $50,000. The Plan also includes a minimum loan amount of $1,000. No participant may have more than one loan outstanding at any time. Principal and interest are collected ratably through payroll deductions. The loans are secured by the balance in the participant's account and bear interest at rates that range from 4.25 percent to 5.25 percent, which are commensurate with the local prevailing rates as determined by the Plan Administrator.

1. Description of the Plan (Continued)

Forfeitures

Forfeited non-vested accounts are used to reduce future Plan Administrator contributions or administrative expenses. At December 31, 2015 and December 31, 2014, forfeited nonvested accounts totaled $11,666 and $6,348 respectively. For the year ended December 31, 2015, administrative expenses paid by forfeitures totaled $7 and Plan Administrator contributions were reduced by $235 from forfeited accounts.

Benefit Payments

The benefit to which a participant is entitled is the benefit that can be provided from the participant's account and normally takes the form of a lump sum. A participant may elect other installment options as provided for in the Plan with the approval of the Plan Administrator. Benefits are provided for normal retirement at attained age 65, or may be deferred if the participant continues in active service with the Plan Administrator. Participants may make in-service withdrawals at age 59½ if still in active service with the Plan Administrator. Benefits are also provided upon permanent disability, separation from service, specific hardship or death.

2. Summary of Significant Accounting Policies

Basis of Accounting

The Plan's policy is to prepare its financial statements on the modified cash basis of accounting; consequently, certain revenue is recognized when received rather than when earned and certain expenses are recognized when cash is disbursed rather than when the obligation is incurred. Contributions are shown on the accrual basis of accounting. Benefits are recorded when paid.

Investments held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for the portion of the net assets available for plan benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

Use of Estimates

The preparation of financial statements in conformity with the modified cash basis of accounting requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Actual results could differ from those estimates.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2015 and December 31, 2014.

Investment Valuation and Income Recognition

Investments are stated at fair value (except for fully benefit-responsive investment contracts, which are reported at contract value) as certified by the custodian, Massachusetts Mutual Life Insurance Company. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income and dividends are recorded on the modified cash basis. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

2. Summary of Significant Accounting Policies (Continued)

Administrative Expenses

Certain expenses of maintaining the Plan are paid directly by the Plan Administrator and are excluded from these financial statements. Fees related to the administration of notes receivable from participants and requests for distributions are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net depreciation in fair value of investments.

Change in Accounting Standards

The Company has elected to early adopt the Financial Accounting Standards Board (FASB) Accounting Standards Update (ASU) 2015-07, *Disclosures for Investments in Certain Entities that Calculate Net Asset Value per Share* issued in May 2015. This ASU removes the requirement to categorize all investments that have their fair value measured using the net asset value per share practical expedient from the fair value hierarchy. In addition, this ASU also removes the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the net asset value per share practical expedient. Rather, those disclosures are limited to only those investments for which the entity has elected to measure the fair value using the practical expedient. This ASU is effective for fiscal years beginning after December 15, 2016, with early adoption permitted. Management has elected to early adopt this ASU, which requires retrospective application to all periods presented. None of the financial statement line items were affected by this change.

In July 2015, the FASB issued ASU 2015-12, *Plan Accounting: Defined Benefit Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient.* Part I eliminates the requirement to measure the fair value of fully benefit-responsive investment contracts and provide certain disclosures. Contract value is the only required measure for fully benefit-responsive investment contracts. Part II eliminates the requirements to disclose individual investments that represent 5 percent or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. Part II also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics and risks. Further, the disclosure of information about fair value measurements shall be provided by general type of plan asset. Part III permits plans to measure investments and investment related accounts as of a month-end date that is closest to the plan's fiscal year-end, when the fiscal period does not coincide with a month-end. Part III is not applicable at this time. The ASU is effective for fiscal years beginning after December 15, 2015, with early adoption permitted. Management has elected to early adopt Part I and II, which requires retrospective application to all periods presented. The insurance company general accounts line on the Statements of Net Assets Available for Plan Benefits is now stated at contract value rather than fair value as was previously reported. The result is a $50,204 decrease in the insurance company general accounts line on the Statements of Net Assets Available for Plan Benefits from what was previously reported.

Subsequent Events

The Plan has evaluated for subsequent events through October 6, 2016, which is the date the financial statements were made available to be issued.

3. Fair Value Measurement

Fair value is the price at which an asset could be exchanged in a current transaction between knowledgeable, willing parties. Fair value measurements are categorized into one of three levels based on the lowest level of significant input used: Level 1 (unadjusted quoted prices in active markets); Level 2 (observable market inputs available at the measurement date, other than quoted prices included in Level 1); and Level 3 (unobservable inputs that cannot be corroborated by observable market data).

The following is a description of the valuation methodologies used for assets measured at fair value:

Pooled Separate Accounts
Valued at the net asset value (NAV) of units held by the account. The NAV is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the account less its liabilities.

Guaranteed Investment Contract
Valued at a fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit worthiness of the issuer. In determining the reasonableness of the methodology, the Pension Committee evaluates a variety of factors including review of existing contracts, economic conditions, industry and market developments, and overall credit ratings. Certain unobservable inputs are assessed through review of contract terms (for example, duration or payout date) while others are substantiated utilizing available market data (for example, swap curve rate).

There have been no changes in the methodologies used at December 31, 2015 and December 31, 2014.

The preceding methods described may produce fair value calculations that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

3. Fair Value Measurement (Continued)

The following table presents information about our investments measured at fair value on a recurring basis as of December 31, 2015 and December 31, 2014, and indicates the fair value hierarchy of the valuation techniques utilized to determine such fair value:

(x) The investment seeks long-term total return and invests primarily in equity securities with companies with large market capitalizations.
(y) The investment seeks growth of capital over the long-term.
(z) The fund seeks long-term growth of capital by investing primarily in common stocks of small-cap companies that management believes can generate sustainable growth in revenue, earnings, and cash flow.
(aa) Fund managers seek to invest in companies that can be purchased at a discount to their intrinsic value and demonstrate the potential to grow that value over time.
(bb) The investment seeks capital appreciation and invests primarily in the equity securities of smaller companies.
(cc) This fund typically invests primarily in small and mid-cap U.S. value stocks.
(dd) The investment seeks long-term capital appreciation and growth of income with current income as a secondary objective.
(ee) The investment seeks high current income with a secondary objective of capital growth.
(ff) The investment seeks maximum total return, consistent with preservation of capital and prudent investment management.

4. General Asset Fund

The Plan holds a benefit-responsive group annuity investment contract with MassMutual Retirement Services (MassMutual). MassMutual maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

As described in Note 2, because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by MassMutual, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2015 and 2014, was $644,745 and $484,233, respectively. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than a gross 3 percent, which excludes such items as contributions, distributions, and transfers. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) temporary absence, (2) change in position or other occurrence qualifying as a temporary break in service under the Plan, (3) transfer or other change of position resulting in employment by an entity controlling, controlled by, or under other common control with the Plan Administrator (4) cessation of employment relationship resulting from a reorganization, merger, layoff or the sale or discontinuance of all or any part of the Plan administrator's business, (5) removal from the Plan of one or more groups or classifications or participants, (6) partial or complete plan termination, or (7) Plan disqualification. The Plan Administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

The average net yields for the years ended December 31, are as follows:

	2015	2014
Based on actual earnings	2.76%	2.73%
Based on interest rate credited to participants	2.76%	2.73%

5. Financial Certification (Unaudited)

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan has elected to utilize the certification of certain financial information by Massachusetts Mutual Life Insurance Company in compliance with the audit requirements of the Act.

The following is a summary of the unaudited information included in the accompanying financial statements and supplemental schedule that was prepared and furnished to the Plan by Massachusetts Mutual Life Insurance Company. The Plan has obtained a certification from Massachusetts Mutual Life Insurance Company that such information is complete and accurate as of December 31, 2015 and December 31, 2014 and for the year ended December 31, 2015.

	2015	2014
Assets as of		
Pooled separate accounts (at fair value)	$ 6,082,937	$ 6,297,969
Insurance company general accounts (at contract value)	617,755	434,029
Transactions for the year ended		
Net loss on investments	$ (78,354)	

6. Party-in-Interest Transactions

Certain Plan investments are units of pooled separate accounts and a general asset fund managed by Massachusetts Mutual Life Insurance Company. Massachusetts Mutual Life Insurance Company is the record-keeper as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid to Massachusetts Mutual Life Insurance Company by the Plan for administrative services amounted to $6,653 for the year ended December 31, 2015. Fees paid by the Plan for investment management services are included in net appreciation/depreciation in fair value of investments as they are paid through revenue share, rather than a direct payment. The Plan Administrator pays directly any other expenses related to the Plan's operations.

7. Plan Termination

Although it has not expressed any intent to do so, the Plan Administrator has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination or partial termination, participants would become 100 percent vested in the Plan Administrator contribution portion of the participant's account.

8. Tax Status

The Plan uses a prototype plan document sponsored by Massachusetts Mutual Life Insurance Company. Massachusetts Mutual Life Insurance Company received an opinion letter from the IRS dated March 31, 2014, which states that the prototype document satisfies the applicable provisions of the Internal Revenue Code (IRC). The Plan itself has not received a determination letter from the IRS. Although the Plan has been amended since receiving the determination letter, the Plan Administrator believes that the Plan is designed and currently being operated in compliance with the applicable provisions of the IRC and therefore believes that the Plan is qualified and the related trust is tax-exempt.

9. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for plan benefits.

10. Reconciliation of Form 5500 to the Financial Statements

The following is a reconciliation of net assets available for plan benefits per Form 5500 to the financial statements:

	December 31, 2015	December 31, 2014
Net assets available for benefits per Form 5500	$ 6,863,478	$ 6,967,267
Other	2	-
Net assets available for benefits per the financial statements	$ 6,863,480	$ 6,967,267

The following is a reconciliation of the net decrease per Form 5500 to the financial statements:

	For the Year Ended December 31, 2015
Net decrease per Form 5500	$ (103,789)
Other	2
Net decrease per the financial statements	$ (103,787)

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of The 401(k) Plan for the Employees of Precious Plate, which comprise the statements of net assets available for plan benefits – modified cash basis as of December 31, 2015 and December 31, 2014, and the related statement of changes in net assets available for plan benefits – modified cash basis for the year ended December 31, 2015, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with the modified cash basis of accounting described in Note 2; this includes determining that the modified cash basis of accounting is an acceptable basis for the preparation of the financial statements in the circumstances. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 5, which was certified by Massachusetts Mutual Life Insurance Company, the custodian of the Plan, except for comparing the information with the related information included in the financial statements. We have been informed by the plan administrator that the custodian holds the Plan's investment assets and executes investment transactions. The plan

administrator has obtained a certification from the custodian as of December 31, 2015 and December 31, 2014, and for the year ended December 31, 2015, that the information provided to the plan administrator by the custodian is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Basis of Accounting

We draw attention to Note 2 of the financial statements, which describes the basis of accounting. The financial statements are prepared on the modified cash basis of accounting, which is a basis of accounting other than accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to that matter.

Change in Accounting Principle

As discussed in Note 2 to the financial statements, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2015-07, *Disclosures for Investments in Certain Entities that Calculate Net Asset Value per Share.* In July 2015, the FASB issued ASU 2015-12, *Plan Accounting: Defined Benefit Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient.* The Plan has elected to early adopt these ASUs, which requires retrospective application to all periods presented. Our opinion is not modified with respect to these matters.

Other Matter

The supplemental schedule of assets (held at end of year) – modified cash basis as of December 31, 2015, is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and are presented for the purpose of additional analysis and are not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedule referred to above.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

1. Description of the Plan

The following brief description of The 401(k) Plan for the Employees of Precious Plate (the Plan) is provided for general information purposes only. Participants should refer to the Plan document for more complete information.

General

The Plan is a defined contribution plan which became effective January 1, 1986 and allows 401(k) salary reduction. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan Administrator is Precious Plate, Inc. The Pension Committee is responsible for oversight of the Plan. Participants are employees of Precious Plate, Inc., who have completed 6 months of service and have attained age 19, except for union and leased employees.

Contributions

Each year, participants may contribute up to 100 percent of eligible compensation, up to IRS limitations. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. The Plan Administrator matches 50 percent of the employee contribution to a maximum of 4 percent of compensation. The Plan Administrator may also make a discretionary contribution to participants who have completed a year of service and are actively employed at the end of the Plan year. Participants direct the investment of contributions into various investment options offered by the Plan.

On the participant's eligibility date, a participant is automatically enrolled at 4 percent of pretax annual compensation, as defined by the Plan, into the default investment option if the participant does not indicate to the Plan Administrator that the participant does not wish to participate in the Plan.

Participant Accounts

Each participant's account is credited with the participant's contribution, Plan Administrator contributions, and earnings as allocated. The account is reduced by the payment of benefits and an allocation of administrative expenses. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Plan Administrator's contributions portion of their accounts plus earnings thereon is based on years of continuous service. A participant is 100 percent vested after four years of service.

Notes Receivable from Participants

The Plan allows the custodian to make loans to participants and beneficiaries upon the written direction of the Plan Administrator. The amount a participant may borrow is limited to 50 percent of the participant's vested account balance, provided such loan does not exceed $50,000. The Plan also includes a minimum loan amount of $1,000. No participant may have more than one loan outstanding at any time. Principal and interest are collected ratably through payroll deductions. The loans are secured by the balance in the participant's account and bear interest at rates that range from 4.25 percent to 5.25 percent, which are commensurate with the local prevailing rates as determined by the Plan Administrator.

1. Description of the Plan (Continued)

Forfeitures

Forfeited non-vested accounts are used to reduce future Plan Administrator contributions or administrative expenses. At December 31, 2015 and December 31, 2014, forfeited nonvested accounts totaled $11,666 and $6,348 respectively. For the year ended December 31, 2015, administrative expenses paid by forfeitures totaled $7 and Plan Administrator contributions were reduced by $235 from forfeited accounts.

Benefit Payments

The benefit to which a participant is entitled is the benefit that can be provided from the participant's account and normally takes the form of a lump sum. A participant may elect other installment options as provided for in the Plan with the approval of the Plan Administrator. Benefits are provided for normal retirement at attained age 65, or may be deferred if the participant continues in active service with the Plan Administrator. Participants may make in-service withdrawals at age 59½ if still in active service with the Plan Administrator. Benefits are also provided upon permanent disability, separation from service, specific hardship or death.

2. Summary of Significant Accounting Policies

Basis of Accounting

The Plan's policy is to prepare its financial statements on the modified cash basis of accounting; consequently, certain revenue is recognized when received rather than when earned and certain expenses are recognized when cash is disbursed rather than when the obligation is incurred. Contributions are shown on the accrual basis of accounting. Benefits are recorded when paid.

Investments held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for the portion of the net assets available for plan benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

Use of Estimates

The preparation of financial statements in conformity with the modified cash basis of accounting requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Actual results could differ from those estimates.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2015 and December 31, 2014.

Investment Valuation and Income Recognition

Investments are stated at fair value (except for fully benefit-responsive investment contracts, which are reported at contract value) as certified by the custodian, Massachusetts Mutual Life Insurance Company. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income and dividends are recorded on the modified cash basis. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

2. Summary of Significant Accounting Policies (Continued)

Administrative Expenses

Certain expenses of maintaining the Plan are paid directly by the Plan Administrator and are excluded from these financial statements. Fees related to the administration of notes receivable from participants and requests for distributions are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net depreciation in fair value of investments.

Change in Accounting Standards

The Company has elected to early adopt the Financial Accounting Standards Board (FASB) Accounting Standards Update (ASU) 2015-07, *Disclosures for Investments in Certain Entities that Calculate Net Asset Value per Share* issued in May 2015. This ASU removes the requirement to categorize all investments that have their fair value measured using the net asset value per share practical expedient from the fair value hierarchy. In addition, this ASU also removes the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the net asset value per share practical expedient. Rather, those disclosures are limited to only those investments for which the entity has elected to measure the fair value using the practical expedient. This ASU is effective for fiscal years beginning after December 15, 2016, with early adoption permitted. Management has elected to early adopt this ASU, which requires retrospective application to all periods presented. None of the financial statement line items were affected by this change.

In July 2015, the FASB issued ASU 2015-12, *Plan Accounting: Defined Benefit Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient.* Part I eliminates the requirement to measure the fair value of fully benefit-responsive investment contracts and provide certain disclosures. Contract value is the only required measure for fully benefit-responsive investment contracts. Part II eliminates the requirements to disclose individual investments that represent 5 percent or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. Part II also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics and risks. Further, the disclosure of information about fair value measurements shall be provided by general type of plan asset. Part III permits plans to measure investments and investment related accounts as of a month-end date that is closest to the plan's fiscal year-end, when the fiscal period does not coincide with a month-end. Part III is not applicable at this time. The ASU is effective for fiscal years beginning after December 15, 2015, with early adoption permitted. Management has elected to early adopt Part I and II, which requires retrospective application to all periods presented. The insurance company general accounts line on the Statements of Net Assets Available for Plan Benefits is now stated at contract value rather than fair value as was previously reported. The result is a $50,204 decrease in the insurance company general accounts line on the Statements of Net Assets Available for Plan Benefits from what was previously reported.

Subsequent Events

The Plan has evaluated for subsequent events through October 6, 2016, which is the date the financial statements were made available to be issued.

3. Fair Value Measurement

Fair value is the price at which an asset could be exchanged in a current transaction between knowledgeable, willing parties. Fair value measurements are categorized into one of three levels based on the lowest level of significant input used: Level 1 (unadjusted quoted prices in active markets); Level 2 (observable market inputs available at the measurement date, other than quoted prices included in Level 1); and Level 3 (unobservable inputs that cannot be corroborated by observable market data).

The following is a description of the valuation methodologies used for assets measured at fair value:

Pooled Separate Accounts
Valued at the net asset value (NAV) of units held by the account. The NAV is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the account less its liabilities.

Guaranteed Investment Contract
Valued at a fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit worthiness of the issuer. In determining the reasonableness of the methodology, the Pension Committee evaluates a variety of factors including review of existing contracts, economic conditions, industry and market developments, and overall credit ratings. Certain unobservable inputs are assessed through review of contract terms (for example, duration or payout date) while others are substantiated utilizing available market data (for example, swap curve rate).

There have been no changes in the methodologies used at December 31, 2015 and December 31, 2014.

The preceding methods described may produce fair value calculations that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

3. Fair Value Measurement (Continued)

The following table presents information about our investments measured at fair value on a recurring basis as of December 31, 2015 and December 31, 2014, and indicates the fair value hierarchy of the valuation techniques utilized to determine such fair value:

(r) The fund is invested in a growth-oriented mix of stocks, bonds, and cash that seeks to earn a good portion of the long-term growth of the stock market with moderate stability.
(s) The fund is invested in an aggressive, growth-oriented mix of stocks, bonds, and cash that seeks to earn the long-term growth typically associated with the stock market.
(t) The fund is invested in a moderately conservative mix of stocks, bonds, and cash that seeks to balance growth and capital preservation for a more stable rate of long-term growth than that of the broad stock market.
(u) The investment seeks high total investment return through a combination of capital appreciation and current income.
(v) The fund seeks to achieve long-term growth of capital and income by investing primarily in a diversified portfolio of equity securities of larger, well-established companies.

3. Fair Value Measurement (Continued)

(w) The investment seeks long-term growth of capital and invests primarily in domestic equity securities.
(x) The investment seeks long-term total return and invests primarily in equity securities with companies with large market capitalizations.
(y) The investment seeks growth of capital over the long-term.
(z) The fund seeks long-term growth of capital by investing primarily in common stocks of small-cap companies that management believes can generate sustainable growth in revenue, earnings, and cash flow.
(aa) Fund managers seek to invest in companies that can be purchased at a discount to their intrinsic value and demonstrate the potential to grow that value over time.
(bb) The investment seeks capital appreciation and invests primarily in the equity securities of smaller companies.
(cc) This fund typically invests primarily in small and mid-cap U.S. value stocks.
(dd) The investment seeks long-term capital appreciation and growth of income with current income as a secondary objective.
(ee) The investment seeks high current income with a secondary objective of capital growth.
(ff) The investment seeks maximum total return, consistent with preservation of capital and prudent investment management.

4. General Asset Fund

The Plan holds a benefit-responsive group annuity investment contract with MassMutual Retirement Services (MassMutual). MassMutual maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

As described in Note 2, because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by MassMutual, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2015 and 2014, was $644,745 and $484,233, respectively. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than a gross 3 percent, which excludes such items as contributions, distributions, and transfers. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) temporary absence, (2) change in position or other occurrence qualifying as a temporary break in service under the Plan, (3) transfer or other change of position resulting in employment by an entity controlling, controlled by, or under other common control with the Plan Administrator (4) cessation of employment relationship resulting from a reorganization, merger, layoff or the sale or discontinuance of all or any part of the Plan administrator's business, (5) removal from the Plan of one or more groups or classifications or participants, (6) partial or complete plan termination, or (7) Plan disqualification. The Plan Administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

The average net yields for the years ended December 31, are as follows:

	2015	2014
Based on actual earnings	2.76%	2.73%
Based on interest rate credited to participants	2.76%	2.73%

5. Financial Certification (Unaudited)

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan has elected to utilize the certification of certain financial information by Massachusetts Mutual Life Insurance Company in compliance with the audit requirements of the Act.

The following is a summary of the unaudited information included in the accompanying financial statements and supplemental schedule that was prepared and furnished to the Plan by Massachusetts Mutual Life Insurance Company. The Plan has obtained a certification from Massachusetts Mutual Life Insurance Company that such information is complete and accurate as of December 31, 2015 and December 31, 2014 and for the year ended December 31, 2015.

	2015	2014
Assets as of		
Pooled separate accounts (at fair value)	$ 6,082,937	$ 6,297,969
Insurance company general accounts (at contract value)	617,755	434,029
Transactions for the year ended		
Net loss on investments	$ (78,354)	

6. Party-in-Interest Transactions

Certain Plan investments are units of pooled separate accounts and a general asset fund managed by Massachusetts Mutual Life Insurance Company. Massachusetts Mutual Life Insurance Company is the record-keeper as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid to Massachusetts Mutual Life Insurance Company by the Plan for administrative services amounted to $6,653 for the year ended December 31, 2015. Fees paid by the Plan for investment management services are included in net appreciation/depreciation in fair value of investments as they are paid through revenue share, rather than a direct payment. The Plan Administrator pays directly any other expenses related to the Plan's operations.

7. Plan Termination

Although it has not expressed any intent to do so, the Plan Administrator has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination or partial termination, participants would become 100 percent vested in the Plan Administrator contribution portion of the participant's account.

8. Tax Status

The Plan uses a prototype plan document sponsored by Massachusetts Mutual Life Insurance Company. Massachusetts Mutual Life Insurance Company received an opinion letter from the IRS dated March 31, 2014, which states that the prototype document satisfies the applicable provisions of the Internal Revenue Code (IRC). The Plan itself has not received a determination letter from the IRS. Although the Plan has been amended since receiving the determination letter, the Plan Administrator believes that the Plan is designed and currently being operated in compliance with the applicable provisions of the IRC and therefore believes that the Plan is qualified and the related trust is tax-exempt.

9. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for plan benefits.

10. Reconciliation of Form 5500 to the Financial Statements

The following is a reconciliation of net assets available for plan benefits per Form 5500 to the financial statements:

	December 31, 2015	December 31, 2014
Net assets available for benefits per Form 5500	$ 6,863,478	$ 6,967,267
Other	2	-
Net assets available for benefits per the financial statements	$ 6,863,480	$ 6,967,267

The following is a reconciliation of the net decrease per Form 5500 to the financial statements:

	For the Year Ended December 31, 2015
Net decrease per Form 5500	$ (103,789)
Other	2
Net decrease per the financial statements	$ (103,787)
