NORTON ENERGY DRILLING, LLC 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS

1. DESCRIPTION OF PLAN

The following description of Norton Energy Drilling, LLC 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a complete description of the Plan's provisions.

General – The Plan, effective January 1, 2006, is a defined contribution plan covering substantially all of the employees of Norton Energy Drilling, LLC (the Employer) and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Eligibility – Employees are eligible for participation in the Plan after completing 90 days of service and attainment of age 18 years. The Plan entry date is on the first day of the month coinciding with or following the attainment of eligibility requirements.

Contributions – Under the Plan, the participant and the Employer are both allowed to make contributions. The participants are allowed to contribute a portion of their salary to the Plan subject to those limitations provided for in Section 401(k) of the Internal Revenue Code.

The Employer makes safe harbor matching contributions equal to 100% of salary deferrals that do not exceed 3% of compensation plus 50% of deferrals between 3% and 5%.

Each year, at the discretion of the Employer, a discretionary profit sharing contribution may be made. In order to receive the profit sharing contribution, the participant must be employed on the last day of the Plan year and have completed at least 720 hours of service during the year. Participants will share in the profit sharing contribution for the year regardless of service completed during the year of death, disability, or retirement. For the years ended December 31, 2015 and 2014, the Employer made no discretionary profit sharing contribution.

Participant Accounts – Separate accounts are set up for each different type of contribution. One account is designated for participant contributions, one account is designated for the Employer's safe harbor matching contributions, and one account is designated for the Employer's discretionary contributions.

Participant contribution accounts are credited with the participant's contributions and the earnings of the Plan's investments. The Employer safe harbor matching contribution and discretionary profit sharing contribution accounts are credited with the Employer's contributions and the earnings of the Plan's investments. Participants may self-direct their accounts and the Employer's accounts to several investment vehicles, including money market accounts and mutual funds.

Forfeitures – There are no forfeitures. All contributions are fully vested.

Vesting – Participants are 100% vested in all accounts upon entering the Plan.

Payment of Benefits – Upon normal retirement age or death, a participant may elect to receive a lump-sum amount equal to the vested balance of the participant's account, or substantially equal installments over a period not to exceed the participant's lifetime or the assumed lifetime of the participant and beneficiary. If the vested balance does not exceed $5,000, then the vested account balance may only be distributed in a single lump-sum payment. A participant may receive distributions prior to separation of service after normal retirement age is reached. Distributions to terminated participants will be made as soon as administratively feasible and an automatic distribution will be made to those participants with a vested balance below $5,000. If the participant dies prior to receiving all benefits under the Plan, the balance of the participant's account is paid to the beneficiary. Hardship distributions are also allowed under the Plan.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accompanying financial statements of the Plan have been prepared on the accrual basis of accounting.

Benefits are recorded when paid.

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the period. Actual results could differ from those estimates.

Certain amounts in the prior year financial statements have been reclassified for comparative purposes to conform with the presentation in the current year financial statements.

Concentrations of credit risk exist if a number of investments are engaged in similar activities and have similar economic characteristics that could cause their ability to meet contractual obligations to be similarly affected by changes in economic or other conditions. The Plan has invested in a variety of financial instruments and investments involving diverse industries and geographic areas to mitigate exposure to credit risk.

3. ADMINISTRATION OF PLAN ASSETS

The Plan assets are held by the Trustee of the Plan. The Employer and participant contributions are invested by the Trustee as directed by the participants. The administrative expenses associated with the third-party administrator for the Plan are paid directly by the participants. Other expenses associated with the Trustee of the Plan are paid by the Employer.

4. INFORMATION PREPARED AND CERTIFIED BY TRUSTEE

The following information included in the accompanying financial statements and supplemental information was obtained from data that has been prepared and certified to as complete and accurate by the Trustee.

5. FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 820, *Fair Value Measurements and Disclosures,* provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.

Level 2 – Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in inactive markets, inputs other than quoted prices that are observable for the asset or liability, or inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Mutual Funds: Valued at the Net Asset Value (NAV) of shares held by the Plan at year end.

Guaranteed Interest Account: Valued at contract value. This approximates fair value because the discount rate equals the current credited rate at year end.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTES TO FINANCIAL STATEMENTS

6. GUARANTEED INTEREST ACCOUNT

The Plan has a Guaranteed Interest Account with Mass Mutual Life Insurance Company which is a traditional Guaranteed Interest Contract that meets the criteria for fully benefit-responsive investment contracts. The contract is a fixed, deferred group annuity available to qualified retirement plans. It provides guaranteed protection of principal with a set rate of return.

Mass Mutual Life Insurance Company maintains contributions in a general account, which is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract is included in the financial statements at cost or contract value which approximates fair value as discussed in Note 5. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

Mass Mutual Life Insurance Company is contractually obligated to pay the specified interest rate that is guaranteed to the Plan. The credited rates determined by Mass Mutual Life Insurance Company are guaranteed for an agreed period that is set in advance for a six-month period. At the end of the period, Mass Mutual Life Insurance Company determines a new rate which is credited directly to participants' accounts. Any administrative or investment management fees are deducted from credited interest rates.

The annualized crediting rate for 2015 was 1.40% and was based on the daily compounding of the declared annual interest rate's daily accrual value and assumes the contract is held for the stated period.

7. RECONCILIATION OF FINANCIAL STATEMENTS TO SCHEDULE H OF FORM 5500

The accompanying financial statements show different amounts for contributions than what is represented in Schedule H of the Form 5500 because those amounts that are receivable at year end are not reflected on the Form 5500.

The following is a reconciliation of employer contributions per the accompanying 2015 financial statements to the Schedule H of Form 5500:

Employer Contributions per Financial Statements	$	250,433
2015 Employer Contributions Receivable		(2,661)
Employer Contributions per Schedule H of Form 5500	$	247,772

8. TAX STATUS

The Plan is operating under a prototype plan filed by Dyatech, LLC. The Plan administrator and Plan's tax counsel still believe that the Plan is currently designed and being operated in compliance with the applicable requirements for the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

The Plan adopted the "uncertain tax positions" provisions of accounting principles generally accepted in the United States of America. The primary tax position of the Plan is its filing status as a tax exempt entity. The Plan determined that it is more likely than not that its tax positions would be sustained upon examination by the Internal Revenue Service (IRS), or other State taxing authority. There were no penalties or interest recognized during the years ended December 31, 2015 and 2014. The Plan is no longer subject to U.S. federal income tax examinations by federal taxing authorities for years before 2012.

NOTES TO FINANCIAL STATEMENTS

9. PLAN TERMINATION

Although it has not expressed any intent to do so, the Employer has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

10. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

11. SUBSEQUENT EVENTS

The Plan's management has evaluated subsequent events through October 11, 2016, the date which the financial statements were available for issue.
