Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the Aleris Cash Balance Plan (the Plan), which comprise the statements of net assets available for benefits as of December 31, 2015 and 2014, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 5, which was certified by Wells Fargo Bank, N.A., the trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of and for the years ended December 31, 2015 and 2014, that the information provided to the plan administrator by the trustee is complete and accurate.

BDO USA, LLP, a Delaware limited liability partnership, is the U.S. member of BDO International Limited, a UK company limited by guarantee, and forms part of the international BDO network of independent member firms.

BDO is the brand name for the BDO network and for each of the BDO Member Firms.

Disclaimer of Opinion

Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter – Supplemental Schedules

The supplemental schedules of Assets (Held at End of Year) and Reportable Transactions as of and for the Year Ended December 31, 2015 are required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and are presented for the purpose of additional analysis and are not a required part of the financial statements. Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we do not express an opinion on the supplemental schedules referred to above.

Report on Form and Content in Compliance With DOL Rules and Regulations

The form and content of the information included in the 2015 financial statements and supplemental schedules, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Aleris Cash Balance Plan

Notes to Financial Statements

December 31, 2015 and 2014

1. Description of the Plan

The following description of the Aleris Cash Balance Plan (the "Plan") is provided for general information only. Complete information regarding the Plan's provisions may be found in the Plan document, which is available to all participants upon request.

General

The Plan is a noncontributory cash balance defined benefit plan covering all eligible employees of Aleris Rolled Products, Inc. (the "Plan Sponsor") and other subsidiaries of Aleris International, Inc. (the "Company"), and provides for retirement income, disability, and preretirement death benefits. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA").

Information about the Plan, the vesting and benefit provisions and the Pension Benefit Guaranty Corporation's ("PBGC") benefit guarantee is contained in the Plan's *Summary Plan Description*. Copies of the *Summary Plan Description* are available from the Company's employee benefits department.

The Plan is a cash balance account plan whereby a participant's accrued benefit is maintained in a notional cash balance account. A participant's notional cash balance account consists of the sum of the benefit credits and the interest credits entitled under the Plan. Effective January 1, 2007, the Plan was amended such that participants no longer earn additional benefit credits, any increase in their accrued benefits (excluding interest credits), or additional credited service, as defined in the Plan. The interest rate to be used for interest credits is the lesser of (i) the average auction yields on a three-year Treasury bill for each of the months during the 12-month period ending on November 1 of each preceding plan year, or (ii) the 30-year treasury rate on November 1 preceding the beginning of the plan year. The interest crediting rate cannot be less than the interest rate determined by compounding the annual interest crediting rates provided under the Plan for the six-year period beginning five years before the current plan year and the minimum interest crediting rate for such six-year compounding period shall be 22.45%.

Plan Administration

Overall responsibility for administering the Plan rests with the Company's Benefits Committee, which is appointed by the Board of Directors of the Company. The Plan Sponsor's Benefits Committee has appointed Wells Fargo Bank, N.A. as the trustee of the Plan (the "Trustee"). Wells Fargo Bank, N.A. is responsible for management and control of the Plan's assets.

Eligibility

The Plan provides benefits to eligible employees of the Company. Employees that are covered under a collective bargaining agreement are not eligible. Effective December 9, 2004, the Plan was amended to preclude any employee hired by the Company on or after that date from participating in the Plan.

Funding Policy

The Company has agreed to voluntarily contribute such amounts as are necessary to provide assets sufficient to meet the benefits to be paid to plan participants. The Company's intention is to make contributions in amounts sufficient to fund the Plan's normal costs on a current basis and any increases in the past service liability due to subsequent amendments to the Plan. The Plan has met the minimum funding requirements of ERISA for 2015 and 2014.

Benefit and Vesting Provisions

The Plan generally provides for normal retirement at age 65. The Plan provides for payments of retirement, disability and death benefits to participants or their beneficiaries under various payment options, including a monthly retirement benefit, straight-life annuity and single-sum payment. Participants are 100% vested after three years of service.

Plan Termination

The Company reserves the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. Upon termination, the net assets of the Plan will be allocated for payment to the participants in an order of priority as prescribed by ERISA and its related regulations and the Plan document.

Whether all participants receive their benefits should the Plan terminate at some future time will be dependent on the sufficiency, at that time, of the Plan's net assets to provide for accumulated plan benefits and may also depend on the financial condition of the Company and the level of benefits guaranteed by the PBGC as well as the priority of those benefits. Some benefits may be fully or partially provided for by the then-existing net assets of the Plan and the PBGC guarantee, while other benefits may not be provided for at all.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements of the Plan have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes and supplemental schedules. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market volatility and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near-term and that such changes could materially affect the amounts reported in the Statements of Net Assets Available for Benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term could be material to the financial statements.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for further discussion and disclosures related to fair value measurements.

In conformity with Accounting Standards Codification ("ASC") 820, *Fair Value Measurement*, assets and liabilities measured at fair value are categorized into the following fair value hierarchy:

Level 1 – Fair value is based on unadjusted quoted prices for identical assets or liabilities in an active market that the Plan has the ability to access at the measurement date.

Level 2 – Fair value is based on quoted prices in markets that are not active, quoted prices for similar assets and liabilities in active markets, and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the asset or liability.

Level 3 – Fair value is based on prices or valuation techniques that require inputs that are both significant to the fair value measurements and unobservable. These inputs reflect management's judgment about the assumptions that a market participant would use in pricing the investment and are based on the best available information, some of which may be internally developed.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Benefit Payments

Benefits are recorded when paid.

Administrative Expenses

Administrative expenses are paid by the Plan.

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits (see Note 3) represent the actuarial present value of estimated future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to services rendered by employees through the valuation date. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries (b) beneficiaries of deceased employees and (c) present employees or their beneficiaries. Normal retirement benefits for participants who retire or otherwise terminate employment in plan years commencing after January 1, 1998, are based on the participants' notional account balances on the normal retirement date converted to a benefit using the RP-2014 Mortality Table and an applicable interest rate. The Plan also includes provisions for the payment of later retirement benefits, early retirement benefits, disability benefits, and deferred vested benefits to participants. The accumulated plan benefits for active employees are based on their compensation for services rendered and interest credits accumulated prior to the valuation date. Benefits payable under all circumstances (retirement, death, disability, and termination of employment) are included only to the extent they are deemed attributable to employee services rendered through the valuation date.

Recent Accounting Pronouncements

In May 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net*

Asset Value per Share (or Its Equivalent). The amendments in this update remove the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient. However, sufficient information must be provided to permit reconciliation of the fair value of assets categorized within the fair value hierarchy to the amounts presented in the financial statements. The amendments also remove the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the net asset value per share practical expedient. ASU 2015-07 was adopted for the year ended December 31, 2015 and applied retrospectively to all periods presented. As a result of the adoption of ASU 2015-07, the fair value disclosures were retrospectively modified.

In July 2015, the FASB issued ASU No. 2015-12, *(Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient – consensuses of the FASB Emerging Issues Task Force*. The amendments in this update (1) require a pension plan to use contract value as the only measure for fully benefit-responsive investment contracts, (2) simplify and increase the effectiveness of the investment disclosure requirements for employee benefit plans, and (3) provide benefit plans with a measurement-date practical expedient similar to the practical expedient provided to employers in ASU 2015-04, Practical Expedient for the Measurement Date of an Employer's Defined Benefit Obligation and Plan Assets. ASU 2015-12 was adopted for the year ended December 31, 2015 and applied retrospectively to all periods presented. The adoption did not have a material impact on our financial statements.

Evaluation of Subsequent Events

Plan management has evaluated subsequent events through October 6, 2016, which is the date the financial statements were available to be issued. On August 29, 2016, the Company's parent announced that a definitive agreement has been finalized for the Company's parent to be acquired by Zhongwang USA LLC. Management believes that this transaction should have no impact on the Plan.

3. Actuarial Present Value of Accumulated Plan Benefits

Mercer (U.S.) Inc., the Plan's actuary, estimated the actuarial present value of accumulated plan benefits, which is the amount that resulted from applying actuarial assumptions to adjust the accumulated plan benefits earned by the participants to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

The actuarial present value of accumulated plan benefits is as follows:

	December 31,	
	2014	**2013**
Actuarial present value of accumulated plan benefits:		
Vested benefits:		
Participants currently receiving benefits	$ 21,566,170	$ 20,427,839
Other participants	10,301,226	10,788,138
Total vested benefits	31,867,396	31,215,977
Total actuarial present value of accumulated plan benefits	$ 31,867,396	$ 31,215,977

The changes in accumulated plan benefits for the year ended December 31, 2014, are as follows:

Actuarial present value of accumulated plan benefits at beginning of year	$	31,215,977
Increase (decrease) during the year attributed to:		
Benefits accumulated and gains/losses		201,038
Increase for interest due to the decrease in the discount period		2,344,430
Benefits paid		(3,758,036)
Change in actuarial assumptions		1,863,987
Net increase		651,419
Actuarial present value of accumulated plan benefits at end of year	$	31,867,396

Significant assumptions underlying the actuarial valuation include:

Interest crediting rate	1.55% (3.50% for the year ended December 31, 2013)
Assumed rate of return on investments	8.00%
Mortality basis	The RP-2014 tables using MP-2014 projection scale. (The RP-2000 projected to 2023, white collar, combined, sex distinct tables for the year ended December 31, 2013)
Normal retirement	Age 65

The actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits. The actuary estimated the accumulated plan benefits as of January 1, 2015.

4. Fair Value Measurements

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value hierarchy distinguishes between (1) market participant assumptions developed based on market data obtained from independent sources (observable inputs) and (2) an entity's own assumptions about market participant assumptions developed based on the best information available in the circumstances (unobservable inputs). The fair value hierarchy consists of three broad levels, which gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy in ASC 820 are described in Note 2.

The level in the fair value hierarchy within which the fair value measurement is classified is determined based on the lowest level input that is significant to the fair value measure in its entirety. Following is a description of the techniques and inputs used for each major class of assets measured at fair value.

Interest-bearing cash: Valued at carrying value (which approximates fair value due to the short-term nature of the asset).

Mutual funds: Valued at quoted prices from an active market which represents the net asset value of shares held by the Plan at year-end.

Commingled funds: Valued at the net asset value ("NAV") of units held by the Plan, which was determined by dividing the fair value of the fund's net assets by its units outstanding at the valuation date.

Limited partnership interests: Valued at estimated NAV at the valuation date.

While the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets carried at fair value as of December 31, 2015 and 2014:

	Assets at Fair Value as of December 31, 2015			
	Total	**Level 1**	**Level 2**	**Level 3**
Interest-bearing cash	$ 352,408	$ 352,408	$ -	$ -
Mutual funds:				-
Small/Mid U.S. equity	1,345,100	1,345,100	-	-
Large U.S. equity	3,326,717	3,326,717	-	-
International equity	2,047,871	2,047,871	-	-
Total assets in the fair value hierarchy	7,072,096	7,072,096	-	-
Investments measured at NAV (a)	22,669,999	-	-	-
Total assets	$ 29,742,095	$ 7,072,096	$ -	$ -

-

	Assets at Fair Value as of December 31, 2014			
	Total	**Level 1**	**Level 2**	**Level 3**
Small/Mid U.S. equity	$ 2,686,727.00	$ 2,686,727.00	$ -	$ -
Large U.S. equity	3,833,621	3,833,621	-	-
International equity	2,162,516	2,162,516	-	-
Total assets in the fair value hierarchy	8,901,682	8,901,682	-	
Investments measured at NAV (a)	22,663,935	22,663,935	-	
Total assets	$ 31,565,617	$ 31,565,617	$ -	$ -

(a) In accordance with ASC 820-10, certain investments that were measured at NAV (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in the table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

The following table summarizes investments measured at fair value based on net asset value (NAV) per share as of December 31, 2015 and 2014:

	As of December 31,	
	2015	2014
Commingled funds:		
Hedged equity (a)	$ 4,812,207	$ 5,297,352
Core real eastate (b)	4,608,499	4,037,616
International large cap equity (c)	3,729,493	4,211,019
Limited partnership interests:		
Core fixed income (d)	6,664,666	6,953,513
Small cap value equity (e)	2,855,134	2,164,435
Total assets measured at fair value based on NAV	$ 22,669,999	$ 22,663,935

The Plan has utilized the practical expedient to measure the fair value of the commingled funds and limited partnership interests at December 31, 2015 and 2014 within the scope of Accounting Standards Update 2009-12, *Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)* based on the investment's NAV. A description of the significant investment strategies is as follows:

a) **Hedged equity:** Hedged equity fund is comprised primarily of shares or units in other investment companies or trusts. The fund invests the assets of its portfolios in other private investment funds. The investment objective of the fund is to generate absolute returns while maintaining a moderate level of risk. Its portfolio assets are allocated to the other private investment funds targeting absolute returns throughout the global financial markets with an emphasis on developed markets. In addition to its investments in other private investment funds, the fund may also make short-term investments for liquidity or defensive purposes, including but not limited to, interest-earning money market accounts, government obligations, commercial paper and short-term certificates of deposit. The fund may also maintain positions in a variety of derivative and non-derivative financial instruments in order to manage the various types of risks that are associated with the financial instruments and markets in which it invests. The fund's investments can only be redeemed on the first business day of each calendar quarter or each calendar month, but only after such redemption request has been made at least 45 days prior to the last business day of each quarter. The Plan has the ability to redeem the investment at the NAV (or its equivalent) in the near term.

b) **Core real estate:** Core real estate fund is composed primarily of real estate investments owned directly or through partnership interests and mortgage loans on income-producing real estate assets. The investment objective of the fund is to provide a high, stable income stream with the potential for moderate capital appreciation over the long term. The core real estate fund invests in high-quality stabilized office, retail, residential and industrial assets in primary markets throughout the United States. Management of the core real estate fund has the ability to rebalance and refine the composition of the overall portfolio and remove assets of lesser quality and/or growth prospects, and where appropriate, trade up for asset quality and geographic location. As a result of how the fund is managed and priced, an extended notice period of six months is required for redemption requests. The Plan has the ability to redeem the investment at the NAV (or its equivalent) in the near term.

c) **International large cap equity:** International large cap equity fund invested in equity securities. The investment objective of the fund is to achieve long-term growth principally by investing in a diversified portfolio of equity securities of companies ordinarily located in any country other than the United States and Canada. Redemption requests must be made at least six business days before the end of the month. The Plan has the ability to redeem the investment at the NAV (or its equivalent) on the measurement date.

d) **Core fixed income:** Core fixed income fund invests primarily in fixed income securities. The investment objective is to seek total return consistent with the preservation of capital by investing in U.S. dollar-

denominated fixed income securities, particularly U.S. government, agency, corporate and mortgage-backed issues. Investments may also include highly liquid AAA-rated mortgage paper, investment grade corporate and Yankee securities. The Plan has the ability to redeem the investment at the NAV (or its equivalent) on the measurement date.

e) **Small cap value equity:** Limited partnership invested primarily in equity securities of domestic and international small capitalization companies. Redemptions may be made on the last day of any month, subject to approval and certain other limitations. The Plan has the ability to redeem the investment at the NAV (or its equivalent) at the reporting date.

There were no unfunded commitments at December 31, 2015 and 2014 for any of the commingled funds or limited partnership interests.

All Level 3 assets were sold during the year ended December 31, 2014.

The Plan Sponsor's Benefits Committee is responsible for determining the Plan's valuation policies and analyzing information provided by the investment Trustee and funds' general managers or partners that is used to determine the fair value of the Plan's investments. The Plan Sponsor's Benefits Committee is comprised of various members of the Plan Sponsor's management (including the Plan Sponsor's Chief Financial Officer, General Counsel and Vice President, Chief Human Resources Officer) and reports to the Plan Sponsor's Board of Directors. The Plan Sponsor also has established policies and procedures that relate to the approval of all new Level 3 assets that the Plan is permitted to invest.

5. Investments

Other than the fair values of the investments in the Northern Trust interest-bearing cash, the commingled funds and limited partnership interests and the related interest and net appreciation or depreciation, all investment information for the Plan disclosed in the accompanying financial statements and supplemental schedules, including investments held at December 31, 2015 and 2014, and net appreciation in fair value of investments and interest and dividends for the years ended December 31, 2015 and 2014, was obtained or derived from information provided to the plan administrator and certified as complete and accurate by the Trustee.

The following investment information was not certified by the Trustee:

	2015	2014
IR&M Long Government Credit Fund LLC	$ 6,664,666	$ 6,953,513
ABS Alpha Ltd. Global Equity Portfolio	4,812,207	5,297,352

Sanderson Intl. Value Group Trust Fund	(183,803)	(63,546)
Frontier Small Cap Value Fund, LP	559,970	109,341

6. Transactions with Parties-in-Interest

Fees paid during the year for services rendered by parties-in-interest were based on customary and reasonable rates for such services. At December 31, 2015 and 2014, certain investments were managed by Wells Fargo Bank, N.A., which qualified as party-in-interest transactions. These party-in-interest transactions are exempt from the prohibited rules under ERISA.

7. Tax Status

The Plan has received a determination letter from the Internal Revenue Service (the "IRS") dated December 28, 2012, stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code (the "Code") and, therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The Plan administrator and the Plan's tax counsel believe the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2015 and 2014, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods

Actuarial Assumptions

Discount rate sponsor elections

- Segment rates or full yield curve: Segment
- Look-back months: 0

	Stabilized	Nonstabilized
• First 5 years	4.72%	1.22%
• Next 15 years	6.11%	4.11%
• Over 20 years	6.81%	5.20%

Rationale: Interest rate prescribed by IRS.

Mortality sponsor elections

- Healthy participants: Section 430(h)(3) prescribed separate annuitant and non-annuitant mortality tables. These tables are based on the RP-2000 mortality tables projected with mortality improvement to the valuation year plus 7 and 15 years based on Scale AA.

Rationale: Prescribed by the IRS.

Cash balance plans

- Interest accumulation rate: 3.50%

Rationale: The cash balance plan interest crediting rate assumption is based on the historical spread between high quality corporate bonds and the plan defined interest crediting rate. The interest crediting rate assumption is determined by applying the historical spread to the discount rate used for disclosure as this rate is based on high quality corporate bond yields. The resulting Aleris Cash Balance Plan assumed interest crediting rate will not be lower than 3.50%, the approximate minimum interest crediting rate defined in the plan.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods

Other economic assumptions

- Expected investment return

8.25% per year for year 2013
8.00% per year for year 2014 and 2015
(limited to the 3rd segment rate)

Rationale: The expected investment return on plan assets is based on a blend of the hypothetical past performance of the plan's target asset mix, adjusted for current market conditions, and the median simulated investment return using capital market assumptions published in Mercer Investment Consulting's Capital Markets Outlook for the plan's target asset mix. The expected return on assets assumption is net of an adjustment of 20 bps for investment expenses assumed to be paid from plan assets, and rounded down to the nearest 25 bps.

- Expenses

$332,320 added to current year normal cost

Rationale: Expenses are based on year-by-year experience for actual administrative expenses paid from plan assets. Adjustments are made for any known significant changes.

Demographic assumptions

- Withdrawal

	Percentage
Attained age	**All**
20	6.39%
25	4.76%
30	3.31%
35	2.80%
40	2.57%
45	2.33%
50	2.10%
55	1.87%

Rationale: Termination rates were developed based on an experience study undertaken in 2010. Plan sponsor believes it continues to be representative.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods

- Retirement age

Attained age	Percentage All
Under 55	0%
55	10%
56	5%
57	5%
58	5%
59	5%
60	15%
61	10%
62	25%
63	10%
64	10%
65 and above	100%

Rationale: Retirement rates were developed based on an experience study undertaken in 2010. Plan sponsor believes it continues to be representative.

- Benefit commencement age for
  - Future vested deferred: Immediately
  - Current vested deferred: 65

- Spouse assumptions

	Male participants	Female participants
Percentage married	85%	85%
Spouse age difference	3 years younger	3 years older

Rationale: Because the employer does not have enough credible experience to analyze spousal demographics, the assumptions regarding percent married/spouse age difference at benefit commencement are based on the actuary's experience with many plans and discussions with employer representatives.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods

Form of payment	**Lump sum**	**Single life**
• Active retirements	100%	0%
• Future vested deferred	100%	0%
• Future deaths	100%	0%
• Current vested deferred (account balance)	100%	0%
• Current Vested Deferred(annuity)	0%	100%

Rationale: 100% of participants are assumed to elect a lump sum of their cash balance account, based on experience that shows very few participants elect the actuarially equivalent annuity options.

Unpredictable contingent event assumptions	Not applicable
At-risk assumptions	Not Applicable for this valuation
• Special retirement rates	Active and deferred inactive participants who are eligible for immediate retirement and withdrawal benefits in the first 11 plan years are assumed to 100% retire in the first year of eligibility following the valuation year.
• Most valuable form of payment	

	Males	Females
Actives and deferred vested with cash balance account	Cash Balance account	Under 64: Cash Balance account Over 64: Life Annuity
Deferred vested without cash balance account	Under 65: Life Annuity Over 65: Lump Sum	Life Annuity

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods

Actuarial Methods

Asset Methods

The asset valuation method is an average of the adjusted market value for each year during the last two years preceding the valuation date. The adjusted market value is the market value at each determination date adjusted to the valuation date based on actual cash flows and expected interest at the lesser of the expected rate of return and the third segment rate. This amount is adjusted to be no greater than 110% and no less than 90% of the fair market value, as defined in IRC Section 430.

A characteristic of this asset method is that, over time, it is slightly more likely to produce an actuarial value of assets that is less than the market value of assets than an actuarial value that is greater than the market value.

Participant Methods

Participants or former participants are included or excluded from the valuation as described below:

- **Participants included:** The plan sponsor provides us with data on all employees as of the valuation date, but only those employees who have completed the plan's eligibility requirements are included in the valuation of liabilities.
- **Participants excluded:** No actuarial liability is included for nonvested participants who terminated prior to the valuation date. For this purpose, participants with a break in service on the valuation date are treated as terminated participants.
- **Insurance contracts:** The plan does not have any insurance contracts.

Minimum Funding Methods

The funding target for minimum funding calculations is computed using the traditional unit credit method of funding. The objective under this method is to fund each participant's benefits under the plan as they accrue. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- The plan's valuation date is the beginning of the plan year.
- An individual's **funding target** is the present value of future benefits based on credited service and average pay as of the beginning of the plan year, and an individual's **target normal cost** is the present value of the benefit expected to accrue in the plan year. If multiple decrements are used, the funding target and the target normal cost for an individual are the sum of the component funding targets and target normal costs associated with the various anticipated separation dates.
- The plan's **target normal cost** is the sum of the individual target normal costs, and the plan's **funding target** is the sum of the individual funding targets for all participants under the plan.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods

Actuarial Assumptions

Discount rate sponsor elections

• Segment rates or full yield curve	Segment	
• Look-back months	0	
	Stabilized	**Nonstabilized**
• First 5 years	4.72%	1.22%
• Next 15 years	6.11%	4.11%
• Over 20 years	6.81%	5.20%

Rationale: Interest rate prescribed by IRS.

Mortality sponsor elections

• Healthy participants	Section 430(h)(3) prescribed separate annuitant and non-annuitant mortality tables. These tables are based on the RP-2000 mortality tables projected with mortality improvement to the valuation year plus 7 and 15 years based on Scale AA.

Rationale: Prescribed by the IRS.

Cash balance plans

• Interest accumulation rate	3.50%

Rationale: The cash balance plan interest crediting rate assumption is based on the historical spread between high quality corporate bonds and the plan defined interest crediting rate. The interest crediting rate assumption is determined by applying the historical spread to the discount rate used for disclosure as this rate is based on high quality corporate bond yields. The resulting Aleris Cash Balance Plan assumed interest crediting rate will not be lower than 3.50%, the approximate minimum interest crediting rate defined in the plan.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods

Other economic assumptions

- Expected investment return

8.25% per year for year 2013
8.00% per year for year 2014 and 2015
(limited to the 3rd segment rate)

Rationale: The expected investment return on plan assets is based on a blend of the hypothetical past performance of the plan's target asset mix, adjusted for current market conditions, and the median simulated investment return using capital market assumptions published in Mercer Investment Consulting's Capital Markets Outlook for the plan's target asset mix. The expected return on assets assumption is net of an adjustment of 20 bps for investment expenses assumed to be paid from plan assets, and rounded down to the nearest 25 bps.

- Expenses

$332,320 added to current year normal cost

Rationale: Expenses are based on year-by-year experience for actual administrative expenses paid from plan assets. Adjustments are made for any known significant changes.

Demographic assumptions

- Withdrawal

	Percentage
Attained age	**All**
20	6.39%
25	4.76%
30	3.31%
35	2.80%
40	2.57%
45	2.33%
50	2.10%
55	1.87%

Rationale: Termination rates were developed based on an experience study undertaken in 2010. Plan sponsor believes it continues to be representative.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods

- Retirement age

Attained age	Percentage All

59	5%
60	15%
61	10%
62	25%
63	10%
64	10%
65 and above	100%

Rationale: Retirement rates were developed based on an experience study undertaken in 2010. Plan sponsor believes it continues to be representative.

- Benefit commencement age for
  - Future vested deferred: Immediately
  - Current vested deferred: 65

- Spouse assumptions

	Male participants	Female participants
Percentage married	85%	85%
Spouse age difference	3 years younger	3 years older

Rationale: Because the employer does not have enough credible experience to analyze spousal demographics, the assumptions regarding percent married/spouse age difference at benefit commencement are based on the actuary's experience with many plans and discussions with employer representatives.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods

Form of payment	Lump sum	Single life
• Active retirements	100%	0%
• Future vested deferred	100%	0%
• Future deaths	100%	0%
• Current vested deferred (account balance)	100%	0%
• Current Vested Deferred(annuity)	0%	100%

Rationale: 100% of participants are assumed to elect a lump sum of their cash balance account, based on experience that shows very few participants elect the actuarially equivalent annuity options.

Unpredictable contingent event assumptions	Not applicable
At-risk assumptions	Not Applicable for this valuation
• Special retirement rates	Active and deferred inactive participants who are eligible for immediate retirement and withdrawal benefits in the first 11 plan years are assumed to 100% retire in the first year of eligibility following the valuation year.

• Most valuable form of payment

	Males	Females
Actives and deferred vested with cash balance account	Cash Balance account	Under 64: Cash Balance account Over 64: Life Annuity
Deferred vested without cash balance account	Under 65: Life Annuity Over 65: Lump Sum	Life Annuity

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods

Actuarial Methods

Asset Methods

The asset valuation method is an average of the adjusted market value for each year during the last two years preceding the valuation date. The adjusted market value is the market value at each determination date adjusted to the valuation date based on actual cash flows and expected interest at the lesser of the expected rate of return and the third segment rate. This amount is adjusted to be no greater than 110% and no less than 90% of the fair market value, as defined in IRC Section 430.

A characteristic of this asset method is that, over time, it is slightly more likely to produce an actuarial value of assets that is less than the market value of assets than an actuarial value that is greater than the market value.

Participant Methods

Participants or former participants are included or excluded from the valuation as described below:

- **Participants included:** The plan sponsor provides us with data on all employees as of the valuation date, but only those employees who have completed the plan's eligibility requirements are included in the valuation of liabilities.
- **Participants excluded:** No actuarial liability is included for nonvested participants who terminated prior to the valuation date. For this purpose, participants with a break in service on the valuation date are treated as terminated participants.
- **Insurance contracts:** The plan does not have any insurance contracts.

Minimum Funding Methods

The funding target for minimum funding calculations is computed using the traditional unit credit method of funding. The objective under this method is to fund each participant's benefits under the plan as they accrue. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- The plan's valuation date is the beginning of the plan year.
- An individual's **funding target** is the present value of future benefits based on credited service and average pay as of the beginning of the plan year, and an individual's **target normal cost** is the present value of the benefit expected to accrue in the plan year. If multiple decrements are used, the funding target and the target normal cost for an individual are the sum of the component funding targets and target normal costs associated with the various anticipated separation dates.
- The plan's **target normal cost** is the sum of the individual target normal costs, and the plan's **funding target** is the sum of the individual funding targets for all participants under the plan.

Schedule SB, Part V — Summary of Plan Provisions

Summary of Major Plan Provisions

Effective date and plan year	Original plan: January 1, 1962 Restated plan: June 1, 2010 Plan year: January 1 – December 31
Status of the plan	The plan was frozen effective January 1, 2007
Significant events that occurred during the year	None
Definitions	
• Eligibility	All salaried employees are eligible to participate at hire date. Barmet, Alflex, and Concast employees are not eligible to participate until the later of their hire date or January 1, 1998. Employees who are hired on or after December 9, 2004 are not eligible to participate in the plan.
• Employee contributions	Not applicable
• Vesting service	For periods prior to January 1, 1994, one year of Vesting Service is granted for each vesting computation period (any 12-month period beginning on a participant's date of hire or anniversary thereof) during which the participant has at least 1,000 Hours of Service. A partial year of Vesting Service is granted between 173.33 and 999 hours worked. For periods after December 31, 1993, Vesting Service will be granted in full years only, contingent upon at least 1,000 Hours of Service in any such year. For periods after January 1, 2007, all participants who have an Hour of Service will be fully vested after completing 3 years of vesting service.
• Credited service	For periods prior to January 1, 1994, one year of Credited Service is granted for each 12-month period beginning on a Participant's date of hire or any anniversary thereof during which the Participant works 2,080 hours. A partial Year of Credited Service is granted if the Participant has less than 2,080 Hours of Service rounded up to the nearest 1/12 of 2,080. For periods after December 31, 1993, Credited Service will be granted in full years only, contingent upon at least 1,000 Hours of Service in any such years. For periods after December 31, 1993, Credited Service will be granted in full years only, contingent upon at least 1,000 Hours of Service in any such years. Effective January 1, 2007, no further Credited Service shall be earned.

Schedule SB, Part V — Summary of Plan Provisions

• Compensation considered	Annual earnings paid to an employee including overtime, shift differential, commissions, qualified plan salary deferrals, severance pay and all bonuses. However, Pensionable Earnings shall exclude items of imputed income, expense allowance and reimbursement for compensation in lieu of vacation time, taxable fringe benefits distributions from deferred compensation plans, deferrals to nonqualified deferred compensation plans, short-term and long-term disability pay and other welfare benefit plans. All compensation is limited to the amount specified in code section 401(a)(17).
• Final Earnings	The average of Pensionable Earnings over the 5 complete consecutive calendar years preceding termination of employment that produce the highest average. If the Participant did not work 5 complete calendar years, all complete calendar years shall be averaged. Final earnings are frozen at January 1, 2007.
• Social Security Covered Compensation	Covered Compensation developed without rounding as published each year by the IRS. This table is subject to annual changes.

Schedule SB, Part V — Summary of Plan Provisions

- Accrued benefit

For periods prior to January 1, 1998 and after December 31, 1992:
1.15% of a participant's Final Average Pensionable Earnings multiplied by Credited Service.
Plus 0.45% of his Final Average Pensionable Earnings in excess of his Covered Compensation, multiplied by Credited Service not exceeding 35 years.
For periods after December 31, 1997:
The accrued benefit as of January 1, 1998 converted to a cash account balance using an interest rate of 5.81%. Future interest that is accrued uses a guaranteed rate of return which is the lesser of: (a) average of prior year's 3-Year Treasuries; (b) 30-Year Treasury rate of prior November 1. This rate applies for the following calendar year.
Benefit credits accrued are based on age:

Age	Percent of salary
0 – 39	3.50%
40 – 49	4.50%
40 – 54	6.00%
55+	8.00%

Interest is earned on the balance at the beginning of the year. No interest is earned on the benefit credit of the current year. The Normal Retirement Benefit is the cash account balance converted to life annuity using the blended (50% Male / 50% Female) 1983 GAM table and the lesser of 6% and the applicable interest rate.

Grandfathered Participants:
Participants who have attained age 55 and have 15 years of Vesting Service as of December 31, 1997 will receive the better of the old plan with continued service credits and the cash balance plan.

In no event will the benefit be less than the accrued benefit as of December 31, 1993 as calculated under the plan formula and salary limits in effect on that date.

For actives going out under retirement decrement over 63 years, there is an increase in the lumpsum that is offered to participants by converting the cash balance to an age 65 accrued benefit and using the 417e rates to determine the lump sum.

Schedule SB, Part V — Summary of Plan Provisions

Normal Retirement	
• Eligibility	The first day of the month coincident with or next following attainment of age 65. At the option of the Participant, the January 1 following attainment of age 65.
• Benefit	Equal to the participant's Accrued Benefit
Early retirement	
• Eligibility	The first day of any month following attainment of age 55 and completion of 5 years of Credited Service.
• Benefit	Accrued Benefit at Early Retirement Date reduced by 5% for each year that commencement precedes attainment of age 62. A terminated vested participant may elect to receive a reduced benefit payable at any time following attainment of age 55. The benefit is reduced by 5% for each year that commencement precedes Normal Retirement Date. For vested Participants who terminated prior to 1994, the 5% figure above is reduced by 1/10% for each year of Credited Service in excess of 5, but such figure will not be reduced below 2 1/2%.
Late retirement	
• Eligibility	The first day of the month coincident with or immediately following the participant's attainment of Normal Retirement Eligibility.
• Benefit	The greater of the participant's Accrued Benefit or the actuarial equivalent of the participant's Normal Retirement benefit.
Deferred vested	
• Eligibility	Prior to January 1, 2007 100% vested at the earlier of five years of vesting service or age 65. After January 1, 2007 100% vested at the earlier of three years of vesting service or age 65.
• Benefit	Accrued Benefit based upon Credited Service, Final Average Pensionable Earnings and Covered Compensation as of date of termination.
Pre-retirement death	
• Eligibility	Eligible for Early Retirement
• Benefit	Greater of: 1. 75% of the Accrued Benefit the participant would have received had he terminated employment on his date of death, survived to his earliest commencement date, and elected a 75% Joint and Survivor annuity. 2. The account balance.
Form of benefits	
• Automatic form for unmarried participants	Life Annuity

Schedule SB, Part V — Summary of Plan Provisions

• Automatic form for married participants	50% Joint and Survivor Annuity
• Optional forms	• Life Annuity • 50%, 66 2/3%, 75% or 100% Joint and Survivor Annuity • Life Annuity with 5 or 10 years certain • Social Security Level Income Annuity • Lump Sum
• Optional form conversion factors	For purposes of converting a Cash Balance Account to the Normal form: • GAM83 (50/50) and the lesser of 6% and phased-in 417(e) Rates as of the November preceding the beginning of the plan year. For optional form conversion factors: • GAM71 (male) and 5.5%
Miscellaneous	
• Maximum benefits	Annual benefits may not exceed the limits in IRC Section 415. This limit is indexed annually. For 2015 the limit is $210,000.
• Administration	Administered by the Benefit Committee
• Funding medium	Trust
• Benefits not included in valuation	None

Benefits Included or Excluded

Unless noted below, all benefits provided by the plan, as restated, are included in this valuation.

- **Plan amendments excluded:** Amendments adopted after the valuation date or effective after the current plan year are excluded from the valuation.
- **Late retirement increases:**
  - *Active participants:* The plan provides benefit suspension notices to participants who work beyond normal retirement; therefore, late retirement actuarial increases only apply to participants who defer retirement beyond age 70½.
  - *Deferred vested participants:* Current deferred vested participants over normal retirement age are not valued including the late retirement actuarial increase because it is deemed immaterial.
- **Internal Revenue Code limitations:** The limitations of Internal Revenue Code Section 415(b) and 401(a)(17) have been incorporated into our calculations.
- **IRC Section 416 rules for top-heavy plans:** We did not test whether this plan is top-heavy (when the present value of benefits for key employees equals or exceeds 60 percent of the present value for all participants). However, we expect that the plan is not top-heavy due to the large number of rank-and-file participants; therefore, the funding target and target normal cost do not reflect any liability for top-heavy benefit accruals.

- **IRC Section 436 benefit restrictions:**
  - *Unpredictable contingent event benefits:* This plan does not have any unpredictable contingent event benefits.

Schedule SB, Part V — Summary of Plan Provisions

- *Prohibited payments:* Limitations on prohibited benefits (if any) are reflected for annuity starting dates before the valuation date but are ignored for annuity starting dates on or after the valuation date.
- *Benefit accruals:* The plan's funding target does not reflect any limitation on benefit accruals. The target normal cost does not reflect any limitation on benefit accruals.

Plan Provisions Changes Since Prior Valuation

Maximum compensation amounts and maximum benefit amounts under IRS rules were updated from 2014 to 2015.

Schedule SB, line 24 — Change in Actuarial Assumptions

The expense component of normal cost increased from $276,751 to $332,320 to reflect our expectations for the current plan year.

All compensation is limited to the amount specified in code section 401(a)(17).
• Final Earnings	The average of Pensionable Earnings over the 5 complete consecutive calendar years preceding termination of employment that produce the highest average. If the Participant did not work 5 complete calendar years, all complete calendar years shall be averaged. Final earnings are frozen at January 1, 2007.
• Social Security Covered Compensation	Covered Compensation developed without rounding as published each year by the IRS. This table is subject to annual changes.

Schedule SB, Part V — Summary of Plan Provisions

- Accrued benefit

For periods prior to January 1, 1998 and after December 31, 1992:
1.15% of a participant's Final Average Pensionable Earnings multiplied by Credited Service.
Plus 0.45% of his Final Average Pensionable Earnings in excess of his Covered Compensation, multiplied by Credited Service not exceeding 35 years.
For periods after December 31, 1997:
The accrued benefit as of January 1, 1998 converted to a cash account balance using an interest rate of 5.81%. Future interest that is accrued uses a guaranteed rate of return which is the lesser of: (a) average of prior year's 3-Year Treasuries; (b) 30-Year Treasury rate of prior November 1. This rate applies for the following calendar year.
Benefit credits accrued are based on age:

Age	Percent of salary
0 – 39	3.50%
40 – 49	4.50%
40 – 54	6.00%
55+	8.00%

Interest is earned on the balance at the beginning of the year. No interest is earned on the benefit credit of the current year. The Normal Retirement Benefit is the cash account balance converted to life annuity using the blended (50% Male / 50% Female) 1983 GAM table and the lesser of 6% and the applicable interest rate.

Grandfathered Participants:
Participants who have attained age 55 and have 15 years of Vesting Service as of December 31, 1997 will receive the better of the old plan with continued service credits and the cash balance plan.

In no event will the benefit be less than the accrued benefit as of December 31, 1993 as calculated under the plan formula and salary limits in effect on that date.

For actives going out under retirement decrement over 63 years, there is an increase in the lumpsum that is offered to participants by converting the cash balance to an age 65 accrued benefit and using the 417e rates to determine the lump sum.

Schedule SB, Part V — Summary of Plan Provisions

Normal Retirement	
• Eligibility	The first day of the month coincident with or next following attainment of age 65. At the option of the Participant, the January 1 following attainment of age 65.

Benefits Included or Excluded

Unless noted below, all benefits provided by the plan, as restated, are included in this valuation.

- **Plan amendments excluded:** Amendments adopted after the valuation date or effective after the current plan year are excluded from the valuation.
- **Late retirement increases:**
  - *Active participants:* The plan provides benefit suspension notices to participants who work beyond normal retirement; therefore, late retirement actuarial increases only apply to participants who defer retirement beyond age 70½.
  - *Deferred vested participants:* Current deferred vested participants over normal retirement age are not valued including the late retirement actuarial increase because it is deemed immaterial.
- **Internal Revenue Code limitations:** The limitations of Internal Revenue Code Section 415(b) and 401(a)(17) have been incorporated into our calculations.
- **IRC Section 416 rules for top-heavy plans:** We did not test whether this plan is top-heavy (when the present value of benefits for key employees equals or exceeds 60 percent of the present value for all participants). However, we expect that the plan is not top-heavy due to the large number of rank-and-file participants; therefore, the funding target and target normal cost do not reflect any liability for top-heavy benefit accruals.

- **IRC Section 436 benefit restrictions:**
  - *Unpredictable contingent event benefits:* This plan does not have any unpredictable contingent event benefits.

Schedule SB, Part V — Summary of Plan Provisions

- *Prohibited payments:* Limitations on prohibited benefits (if any) are reflected for annuity starting dates before the valuation date but are ignored for annuity starting dates on or after the valuation date.
- *Benefit accruals:* The plan's funding target does not reflect any limitation on benefit accruals. The target normal cost does not reflect any limitation on benefit accruals.

Plan Provisions Changes Since Prior Valuation

Maximum compensation amounts and maximum benefit amounts under IRS rules were updated from 2014 to 2015.
