Independent Auditor's Report

To the Benefits Committee
Aleris Cash Balance Plan (ALSCO)
Beachwood, Ohio

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the Aleris Cash Balance Plan (ALSCO) (the Plan), which comprise the statements of net assets available for benefits as of December 31, 2015 and 2014, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 5, which was certified by Wells Fargo Bank, N.A., the trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of and for the years ended December 31, 2015 and 2014, that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter – Supplemental Schedules

The supplemental schedules of Assets (Held at End of Year) and Reportable Transactions as of and for the Year Ended December 31, 2015 are required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and are presented for the purpose of additional analysis and are not a required part of the financial statements. Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we do not express an opinion on the supplemental schedules referred to above.

Report on Form and Content in Compliance With DOL Rules and Regulations

The form and content of the information included in the 2015 financial statements and supplemental schedules, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Aleris Cash Balance Plan (ALSCO)

Notes to Financial Statements

December 31, 2015 and 2014

1. Description of the Plan

The following description of the Aleris Cash Balance Plan (ALSCO) (the “Plan”) is provided for general information only. Complete information regarding the Plan’s provisions may be found in the Plan document, which is available to all participants upon request.

General

The Plan is a noncontributory cash balance defined benefit plan that provides pension and death benefits to certain employees of Aleris Rolled Products, Inc. (the “Plan Sponsor”), a subsidiary of Aleris International, Inc. (the “Company”). The Plan is designed to conform to the provisions of the Employee Retirement Income Security Act of 1974, as amended (“ERISA”).

The Plan is a cash balance account plan whereby a participant’s accrued benefit is maintained in a notional cash balance account. A participant’s notional cash balance account consists of the sum of the benefit credits and the interest credits entitled under the Plan. Effective January 1, 2008, the Plan was amended such that participants employed at Richmond, Virginia, and all hourly nonunion or salaried participants, as applicable, will no longer earn additional benefit credits, any increase in their accrued benefits (excluding interest credits), or additional credited service, as defined in the Plan. Effective February 1, 2008, the Plan was amended such that union participants employed at Ashville, Ohio, will no longer earn additional benefit credits, any increase in their accrued benefits (excluding interest credits), or additional credited service, as defined in the Plan. The interest rate to be used for interest credits is equal to the average annual yields on five-year United States Treasury securities for the 12-month period ending with the October preceding the first day of the plan year. Hours of service shall continue to accrue for the purpose of determining years of vesting under the Plan.

Information about the Plan, the vesting and benefit provisions and the Pension Benefit Guaranty Corporation’s (“PBGC”) benefit guarantee is contained in the Plan’s *Summary Plan Description*. Copies of the *Summary Plan Description* are available from the Company’s employee benefits department.

Plan Administration

Overall responsibility for administering the Plan rests with the Company’s Benefits Committee, which is appointed by the Board of Directors of the Company. The Plan Sponsor’s Benefits Committee has appointed Wells Fargo Bank, N.A. as the trustee of the Plan (the “Trustee”). Wells Fargo Bank, N.A. is responsible for management and control of the Plan’s assets.

Eligibility

The Plan provides benefits to certain employees of Aleris Rolled Products, Inc., including nonbargaining hourly class employees at the Company’s former Beloit, Wisconsin plant, bargaining class employees employed on and after September 1, 2001, at the Richmond, Virginia plant and bargaining class employees employed on and after February 1, 2001, at the Ashville, Ohio plant, and employees who are paid on a salary basis at any location acquired by virtue of the Company’s acquisition of ALSCO Metals Corporation in October 2005.

Effective January 1, 2008 (February 1, 2008 for Ashville, Ohio), the Plan was amended to preclude newly hired employees from participating in the Plan.

Funding Policy

The Company has agreed to voluntarily contribute such amounts as are necessary to provide assets sufficient to meet the benefits to be paid to plan participants. The Company’s intention is to make contributions in amounts sufficient

Aleris Cash Balance Plan (ALSCO)
Notes to Financial Statements (continued)

to fund the Plan's normal costs on a current basis and any increases in the past service liability due to subsequent amendments to the Plan. The Plan has met the minimum funding requirements of ERISA for 2015 and 2014.

Benefit and Vesting Provisions

The Plan generally provides for normal retirement at the older of age 65 or at the participant's age after five years of plan participation. The Plan provides for payments of retirement and death benefits to participants or their beneficiaries under various payment options, including a monthly retirement benefit, straight-life annuity and single sum payment. The determination of benefit payments depends primarily on the years of service as outlined in the Plan. Participants are 100% vested after three years of service.

Plan Termination

The Company reserves the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. Upon termination, the net assets of the Plan will be allocated for payment to the participants in an order of priority as prescribed by ERISA and its related regulations and the Plan document.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated plan benefits and may also depend on the financial condition of the Company and the level of benefits guaranteed by the PBGC as well as the priority of those benefits. Some benefits may be fully or partially provided for by the then-existing net assets of the Plan and the PBGC guarantee, while other benefits may not be provided for at all.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements of the Plan have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and the accompanying notes and supplemental schedules. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market volatility and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near-term and that such changes could materially affect the amounts reported in the Statements of Net Assets Available for Benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term could be material to the financial statements.

Aleris Cash Balance Plan (ALSCO)
Notes to Financial Statements (continued)

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for further discussion and disclosures related to fair value measurements.

In conformity with Accounting Standards Codification ("ASC") 820, *Fair Value Measurement*, assets and liabilities measured at fair value are categorized into the following fair value hierarchy:

Level 1 – Fair value is based on unadjusted quoted prices for identical assets or liabilities in an active market that the Plan has the ability to access at the measurement date.

Level 2 – Fair value is based on quoted prices in markets that are not active, quoted prices for similar assets and liabilities in active markets, and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the asset or liability.

Level 3 – Fair value is based on prices or valuation techniques that require inputs that are both significant to the fair value measurements and unobservable. These inputs reflect management's judgment about the assumptions that a market participant would use in pricing the investment and are based on the best available information, some of which may be internally developed.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Benefit Payments

Benefits are recorded when paid.

Administrative Expenses

Administrative expenses are paid by the Plan.

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits (see Note 3) represent the actuarial present value of estimated future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to services rendered by employees through the valuation date. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of deceased employees and (c) present employees or their beneficiaries. Benefits for participants who retire or otherwise terminate employment are based on the participants' account balances on the normal retirement date or termination date. The accumulated plan benefits for active employees are based on their compensation for services rendered and interest credits accumulated prior to the valuation date. Benefits payable under all circumstances (retirement, death and termination of employment) are included only to the extent they are deemed attributable to employee services rendered through the valuation date.

Recent Accounting Pronouncements

In May 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)*. The amendments in this update remove the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient. However, sufficient information must be provided to permit reconciliation of the fair value of assets categorized within the fair value hierarchy to the amounts presented in the financial statements. The amendments also remove the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the net asset value per share practical expedient. ASU 2015-07 was adopted for the year ended December 31, 2015 and applied retrospectively to all periods presented. As a result of the adoption of ASU 2015-07, the fair value disclosures were retrospectively modified.

In July 2015, the FASB issued ASU No. 2015-12, *(Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient – consensus of the FASB Emerging Issues Task Force*. The amendments in this update (1) require a pension plan to use contract value as the only measure for fully benefit-responsive investment contracts, (2) simplify and increase the effectiveness of the investment disclosure requirements for employee benefit plans, and (3) provide benefit plans with a measurement-date practical expedient similar to the practical expedient provided to employers in ASU 2015-04, *Practical Expedient for the Measurement Date of an Employer's Defined Benefit Obligation and Plan Assets*. ASU 2015-12 was adopted for the year ended December 31, 2015 and applied retrospectively to all periods presented. The adoption did not have a material impact on our financial statements.

Evaluation of Subsequent Events

Plan management has evaluated subsequent events through October 6, 2016 which is the date the financial statements were available to be issued. On August 29, 2016, the Company's parent announced that a definitive agreement has been finalized for the Company's parent to be acquired by Zhongwang USA LLC. Management believes that this transaction should have no impact on the Plan.

3. Actuarial Present Value of Accumulated Plan Benefits

An actuary from Mercer (U.S.) Inc. estimated the actuarial present value of accumulated plan benefits, which is the amount that resulted from applying actuarial assumptions to adjust the accumulated plan benefits earned by the participants to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements for death, withdrawal or retirement) between the valuation date and the expected date of payment.

Aleris Cash Balance Plan (ALSCO)
Notes to Financial Statements (continued)

The actuarial present value of accumulated plan benefits is as follows:

	December 31,	
	2014	2013
Actuarial present value of accumulated plan benefits:		
Vested benefits:		
Participants currently receiving benefits	\$ 37,622	\$ 36,303
Other participants	538,514	564,426
Total vested benefits	<u>576,136</u>	<u>600,729</u>
Total actuarial present value of accumulated plan benefits	<u>\$ 576,136</u>	<u>\$ 600,729</u>

The changes in accumulated plan benefits for the year ended December 31, 2014, are as follows:

Actuarial present value of accumulated plan benefits at beginning of year	\$ 600,729
(Decrease) increase during the year attributed to:	
Benefits accumulated and gains/losses	(827)
Increase for interest due to the decrease in the discount period	45,886
Benefits paid	(50,121)
Change in actuarial assumptions	<u>(19,531)</u>
Net decrease	<u>(24,593)</u>
Actuarial present value of accumulated plan benefits at end of year	<u>\$ 576,136</u>

Significant assumptions underlying the actuarial computations include:

Interest crediting rate	1.55% at December 31, 2015 (2.25% at December 31, 2014)
Assumed rate of return on investments	8.00%
Mortality basis	RP-2014 tables using MP-2014 projection scale (The RP-2000 projected to 2023, white collar, combined, sex distinct tables at December 31, 2013)
Normal retirement	Age 65 or five years of service

The actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits. The actuary estimated the accumulated plan benefits as of January 1, 2015.

4. Fair Value Measurements

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value hierarchy distinguishes between (1) market participant assumptions developed based on market data obtained from independent sources (observable inputs) and (2) an entity's own assumptions about market participant assumptions developed based on the best information available in the circumstances (unobservable inputs). The fair value hierarchy consists of three broad

Aleris Cash Balance Plan (ALSCO)
Notes to Financial Statements (continued)

levels, which gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy in ASC 820 are described in Note 2.

The level in the fair value hierarchy within which the fair value measurement is classified is determined based on the lowest level input that is significant to the fair value measure in its entirety. Following is a description of the valuation techniques and inputs used for each major class of assets measured at fair value.

Interest-bearing cash: Valued at carrying value (which approximates fair value due to the short-term nature of the asset).

Mutual funds: Valued at quoted prices from an active market which represents the net asset value of shares held by the Plan at year-end.

Commingled funds: Valued at the net asset value (“NAV”) of units held by the Plan, which was determined by dividing the fair value of the fund’s net assets by its units outstanding at the valuation date.

Limited partnership interests: Valued at estimated NAV at the valuation date.

While the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan’s assets carried at fair value as of December 31, 2015 and 2014:

Assets at Fair Value as of December 31, 2015				
	Total	Level 1	Level 2	Level 3
Interest-bearing cash	\$ 48,725	\$ 48,725	-	-
Mutual funds				
Small/Mid U.S. equity	18,518	18,518	-	-
Large U.S. equity	76,011	76,011	-	-
International equity	68,376	68,376	-	-

Assets at Fair Value as of December 31, 2014				
	Total	Level 1	Level 2	Level 3
Interest-bearing cash	\$ 12,530	\$ 12,530	\$ -	\$ -
Mutual funds:				
Small/Mid U.S. equity	43,765	43,765	-	-
Large U.S. equity	60,061	60,061	-	-
International equity	84,322	84,322	-	-
Total assets in the fair value hierarchy	200,678	200,678	-	-
Investments measured at NAV (a)	408,514	-	-	-
Total assets	<u>\$ 609,192</u>	<u>\$ 200,678</u>	<u>\$ -</u>	<u>\$ -</u>

- (a) In accordance with ASC 820-10, certain investments that were measured at NAV (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in the table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

The following table summarizes investments measured at fair value based on net asset value (NAV) per share as of December 31, 2015 and 2014:

	2015	2014
Commingled Funds		
Hedged equity (a)	\$ 95,997	\$ 130,584
Core real estate (b)	83,145	100,940
Core fixed income (c)	132,313	138,047
Limited partnership interest		
Small cap value equity (d)	46,753	38,943
Total assets measured at fair value based on NAV	<u>\$ 358,208</u>	<u>\$ 408,514</u>

The Plan has utilized the practical expedient to measure the fair value of the commingled funds and limited partnership interests at December 31, 2015 and 2014 within the scope of Accounting Standards Update 2009-12, *Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)* based on the investment's NAV. A description of the significant investment strategies is as follows:

- a) **Hedged equity:** Hedged equity fund is comprised primarily of shares or units in other investment companies or trusts. The fund invests the assets of its portfolios in other private investment funds. The investment objective of the fund is to generate absolute returns while maintaining a moderate level of risk. Its portfolio assets are allocated to the other private investment funds targeting absolute returns throughout the global financial markets with an emphasis on developed markets. In addition to its investments in other private investment funds, the fund may also make short-term investments for liquidity or defensive purposes, including but not limited to, interest-earning money market accounts, government obligations, commercial paper and short-term certificates of deposit. The fund may also maintain positions in a variety of derivative and non-derivative financial instruments in order to manage the various types of risks that are associated with the financial instruments and markets in which it invests. The fund's investments can only be redeemed on the first business day of each calendar quarter or each calendar month, but only after such redemption request has been made at least 45 days prior to the last business day of each quarter. The Plan has the ability to redeem the investment at the NAV (or its equivalent) in the near term.

Aleris Cash Balance Plan (ALSCO)
Notes to Financial Statements (continued)

- b) **Core real estate:** Core real estate fund is composed primarily of real estate investments owned directly or through partnership interests and mortgage loans on income-producing real estate assets. The investment objective of the fund is to provide a high, stable income stream with the potential for moderate capital appreciation over the long term. The core real estate fund invests in high-quality stabilized office, retail, residential and industrial assets in primary markets throughout the United States. Management of the core real estate fund has the ability to rebalance and refine the composition of the overall portfolio and remove assets of lesser quality and/or growth prospects, and where appropriate, trade up for asset quality and geographic location. As a result of how the fund is managed and priced, an extended notice period of six months is required for redemption requests. The Plan has the ability to redeem the investment at the NAV (or its equivalent) in the near term.
- c) **Core fixed income:** Core fixed income fund invests primarily in fixed income securities. The investment objective is to seek total return consistent with the preservation of capital by investing in U.S. dollar-denominated fixed income securities, particularly U.S. government, agency, corporate and mortgage-backed issues. Investments may also include highly liquid AAA-rated mortgage paper, investment grade corporate and Yankee securities. The Plan has the ability to redeem the investment at the NAV (or its equivalent) on the measurement date.
- d) **Small cap value equity:** Limited partnership invested primarily in equity securities of domestic and international small capitalization companies. Redemptions may be made on the last day of any month, subject to approval and certain other limitations. The Plan has the ability to redeem the investment at the NAV (or its equivalent) at the reporting date.

There were no unfunded commitments at December 31, 2015 and 2014 for any of the commingled funds or limited partnership interest.

The Plan Sponsor's Benefits Committee is responsible for determining the Plan's valuation policies and analyzing information provided by the investment Trustee and funds' general managers or partners that are used to determine the fair value of the Plan's investments. The Plan Sponsor's Benefits Committee is comprised of various members of the Plan Sponsor's management (including the Plan Sponsor's Chief Financial Officer, General Counsel and Executive Vice President, Chief Human Resources Officer) and reports to the Plan Sponsor's Board of Directors. The Plan Sponsor also has established policies and procedures that relate to the approval of all new Level 3 assets that the Plan is permitted to invest.

5. Investments

Other than the fair values of the investments in the commingled funds and limited partnership interest and the related interest and net appreciation or depreciation, all investment information for the Plan disclosed in the accompanying financial statements and supplemental schedules, including investments held at December 31, 2015 and 2014, and net appreciation in fair value of investments and interest and dividends for the years ended December 31, 2015 and 2014, was obtained or derived from information provided to the plan administrator and certified as complete and accurate by the Trustee.

6. Transactions with Parties-in-Interest

Fees paid during the year for services rendered by parties-in-interest were based on customary and reasonable rates for such services. Certain of the Plan's investments are managed by Wells Fargo Bank, N.A. These transactions qualify as party-in-interest transactions; however, they are exempt from the prohibited transactions rules under ERISA.

7. Tax Status

The Plan has received a determination letter from the Internal Revenue Service (the "IRS") dated September 27, 2005, stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code (the "Code") and, therefore, the related trust is exempt from taxation. Subsequent to this determination by the IRS, the Plan was amended and restated. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The Plan administrator and the Plan's tax counsel believe the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan, as amended and restated, is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2015 and 2014, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Mortality sponsor elections

• Healthy participants	Section 430(h)(3) prescribed separate static annuitant and nonannuitant mortality tables. These tables are based on the RP-2000 mortality tables projected with mortality improvement to the valuation year plus 7 and 15 years based on Scale AA.
• Pre-1995 disabilities	
• Post-1994 disabilities	

Rationale: Mortality table prescribed by the IRS

Cash balance plans

• Interest accumulation rate	1.55%
------------------------------	-------

Rationale: The cash balance plan interest crediting rate assumption is based on the historical spread between high quality corporate bonds and the plan defined interest crediting rate. The interest crediting rate assumption is determined by applying the historical spread to the discount rate used for disclosure as this rate is based on high quality corporate bond yields. The resulting Aleris Cash Balance Plan (ALSCO) assumed interest crediting rate is 210 basis points lower than the discount rate.

— Interest rate basis	Not applicable

Other economic assumptions

• Expected investment return	8.00% per year

Rationale: Based on a blend of the hypothetical past performance of the plan's target asset mix and the median simulated investment return using capital market assumptions published in Mercer Investment Consulting's *Capital Market Outlook* for the plan's target asset mix.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods

- Expenses \$94,115 added to current year normal cost.

Rationale: Expenses are based on year-by-year experience for actual administrative expenses paid from plan assets. Adjustments are made for any known significant changes.

Demographic assumptions

Withdrawal

See table of sample rates.

Rationale: the termination table is based on the Society of Actuaries 2003 ultimate turnover table with adjustments, as the plan is too small to use its own experience as a guideline. Annual review of the experience has shown that this table produced a reasonable approximation of the rates of termination experienced by the plan.

Disability incidence

55 - 59	5%
60-61	10%
62	25%
63-64	10%
65 and above	100%

Rationale: retirement rates have been developed based on the retirement subsidies the plan offers at various ages. Annual review of the plan experience has shown that these rates provides similar results to the actual rates of retirement experienced under the plan.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods

- Current vested deferred 100%

Rationale: 100% of participants are assumed to elect a lump sum of their cash balance account, based on Experience that shows very few participants elect the Actuarially equivalent annuity options.

Unpredictable contingent event assumptions

Not applicable

At-risk assumptions

- Special retirement rates Active and deferred inactive participants who are eligible for immediate retirement and withdrawal benefits in the first 11 plan years are assumed to 100% retire in the first year of eligibility following the valuation year.
- Most valuable form of payment Participants who have not yet commenced benefits are assumed to take a lump sum form of payment.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods

Actuarial Methods

Asset Methods

The asset valuation method is an average of the adjusted market value for each year during the last two years preceding the valuation date. The adjusted market value is the market value at each determination date adjusted to the valuation date based on actual cash flows and expected interest at the lesser of the expected rate of return and the third segment rate. This amount is adjusted to be no greater than 110 percent and no less than 90 percent of the fair market value, as defined in IRC Section 430.

A characteristic of this asset method is that, over time, it is slightly more likely to produce an actuarial value of assets that is less than the market value of assets than an actuarial value that is greater than the market value.

Participant Methods

Participants or former participants are included or excluded from the valuation as described below:

- **Participants included:** The plan sponsor provides us with data on all employees as of the valuation date, but only those employees who have completed the plan's eligibility requirements are included in the valuation of liabilities.
- **Participants excluded:** No actuarial liability is included for nonvested participants who terminated prior to the valuation date. For this purpose, participants with a break in service on the valuation date are treated as terminated participants.
- **Insurance contracts:** The plan does not have any insurance contracts.

Minimum Funding Methods

The funding target for minimum funding calculations is computed using the traditional unit credit method of funding. The objective under this method is to fund each participant's benefits under the plan as they accrue. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- The plan's valuation date is the beginning of the plan year.
- An individual's **funding target** is the present value of future benefits based on credited service and average pay as of the beginning of the plan year, and an individual's **target normal cost** is the present value of the benefit expected to accrue in the plan year. If multiple decrements are used, the funding target and the target normal cost for an individual is the sum of the component funding targets and target normal costs associated with the various anticipated separation dates.
- The plan's **target normal cost** is the sum of the individual target normal costs, and the plan's **funding target** is the sum of the individual funding targets for all participants under the plan.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods

- Current vested deferred 100%

Rationale: 100% of participants are assumed to elect a lump sum of their cash balance account, based on Experience that shows very few participants elect the Actuarially equivalent annuity options.

Unpredictable contingent event assumptions

Not applicable

At-risk assumptions

- Special retirement rates
Active and deferred inactive participants who are eligible for immediate retirement and withdrawal benefits in the first 11 plan years are assumed to 100% retire in the first year of eligibility following the valuation year.
- Most valuable form of payment
Participants who have not yet commenced benefits are assumed to take a lump sum form of payment.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods**Actuarial Methods*****Asset Methods***

The asset valuation method is an average of the adjusted market value for each year during the last two years preceding the valuation date. The adjusted market value is the market value at each determination date adjusted to the valuation date based on actual cash flows and expected interest at the lesser of the expected rate of return and the third segment rate. This amount is adjusted to be no greater than 110 percent and no less than 90 percent of the fair market value, as defined in IRC Section 430.

A characteristic of this asset method is that, over time, it is slightly more likely to produce an actuarial value of assets that is less than the market value of assets than an actuarial value that is greater than the market value.

Participant Methods

Participants or former participants are included or excluded from the valuation as described below:

- **Participants included:** The plan sponsor provides us with data on all employees as of the valuation date, but only those employees who have completed the plan's eligibility requirements are included in the valuation of liabilities.
- **Participants excluded:** No actuarial liability is included for nonvested participants who terminated prior to the valuation date. For this purpose, participants with a break in service on the valuation date are treated as terminated participants.
- **Insurance contracts:** The plan does not have any insurance contracts.

Minimum Funding Methods

The funding target for minimum funding calculations is computed using the traditional unit credit method of funding. The objective under this method is to fund each participant's benefits under the plan as they accrue. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- The plan's valuation date is the beginning of the plan year.
- An individual's **funding target** is the present value of future benefits based on credited service and average pay as of the beginning of the plan year, and an individual's **target normal cost** is the present value of the benefit expected to accrue in the plan year. If multiple decrements are used, the funding target and the target normal cost for an individual is the sum of the component funding targets and target normal costs associated with the various anticipated separation dates.
- The plan's **target normal cost** is the sum of the individual target normal costs, and the plan's **funding target** is the sum of the individual funding targets for all participants under the plan.

Schedule SB, Part V — Summary of Plan Provisions**Summary of Major Plan Provisions**

Effective date and plan year	Original plan: May 23, 2003 Restated plan: June 1, 2010 Plan year: Calendar year
Status of the plan	The plan is frozen for both participation and benefit accruals other than interest credits on cash balances.
Significant events that occurred during the year	None
Definitions	
• Participation	Salaried class (paid on a salaried basis). Nonbargaining hourly class employed at Beloit, WI. Bargaining class employed on and after 9-1-01 at the Bellwood Plant 44 location and who is not an active member under the bargaining plan. Bargaining class employed on and after 2-1-01 at the Ashville, OH plant location and who is not an active member under the bargaining plan. Bargaining class employed on and after 8-1-04 at the Richmond, VA plant location, who has completed 90 days of employment and who is not a member under the bargaining plan.
• Vesting service	All service is measured in full and fractional years on the basis that 365 days equals one year from the employee's hire date (reduced by any period of Severance). Beginning on or after January 1, 2008, all participants who have an Hour of Service will be fully vested after completing 3 years of vesting service.
• Credited service	All service measured in full years and fractional parts of a year on the basis that 365 days equals one year. Service before 05/23/2003 is excluded for employees whose vesting percentage under the prior plans was greater than zero. Credited Service was frozen effective January 1, 2008 for all participants with the exception of Ashville union participants who were frozen effective February 1, 2008.
• Compensation	Annual earnings are detailed as all wages including elective contributions and reduced for certain reimbursements and fringe benefits. All compensation is limited to the amount specified in code section 401(a)(17). Compensation was frozen effective January 1, 2008 for all participants with the exception of Ashville union participants who were frozen effective February 1, 2008.
• High three-year average compensation	The average Compensation for the three consecutive Limitation Years while the Participant was an Employee. Final earnings are frozen effective January 1, 2008 for all participants with the exception of Ashville union participants who were frozen effective February 1, 2008.

Schedule SB, Part V — Summary of Plan Provisions***Benefits Included or Excluded***

Unless noted below, all benefits provided by the plan, as restated, are included in this valuation.

- **Plan amendments excluded:** Amendments adopted after the valuation date or effective after the current plan year are excluded from the valuation.
- **Late retirement increases:**
 - *Active participants:* The plan provides benefit suspension notices to participants who work beyond normal retirement; therefore, late retirement actuarial increases only apply to participants who defer retirement beyond age 70½.
 - *Deferred vested participants:* Current deferred vested participants over normal retirement age are not valued including the late retirement actuarial increase.
- **Internal Revenue Code limitations:** The limitations of Internal Revenue Code Sections 415(b) and 401(a)(17) have been incorporated into our calculations.
- **IRC Section 416 rules for top-heavy plans:** We did not test whether this plan is top-heavy (when the present value of benefits for key employees equals or exceeds 60 percent of the present value for all participants). However, we expect that the plan is not top-heavy due to the large number of rank-and-file participants; therefore, the funding target and target normal cost do not reflect any liability for top-heavy benefit accruals.
- **IRC Section 436 benefit restrictions:**
 - *Unpredictable contingent event benefits:* This plan does not have any unpredictable contingent event benefits.
 - *Plan amendments:* See above.
 - *Prohibited payments:* Limitations on prohibited benefits (if any) are reflected for annuity starting dates before the valuation date but are ignored for annuity starting dates on or after the valuation date.
 - *Benefit accruals:* The plan's funding target does not reflect any limitation on benefit accruals. The target normal cost does not reflect any limitation on benefit accruals.

Plan Provision Changes Since Prior Valuation

Maximum benefit amounts under IRS rules were updated from 2014 to 2015.

Schedule SB, line 24 — Change in Actuarial Assumptions

- The interest crediting rate changed from 2.25% to 1.55% to reflect the historical spreads between high quality corporate bonds and the plan defined interest crediting.
- The expense component of service cost decreased from \$95,803 to \$94,115 to reflect our expectations for the current plan year.
