1. DESCRIPTION OF THE PLAN:

The following brief description of Dayton Children's Hospital 401(k) Plan (the "Plan"), which was formerly The Children's Medical Center of Dayton 401(k) Plan, is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan provisions.

General

The Plan is a defined contribution plan covering substantially all employees of Dayton Children's Hospital (the "Sponsor"). Employees are eligible to participate in elective deferral of his or her compensation beginning on the first day of the month coinciding with or following the date of hire. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Each year, participants may contribute up to the maximum percentage and dollar limits permissible under Internal Revenue Code (IRC). Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Sponsor makes a safe harbor matching contribution of 100% up to the first 3% of the participant's eligible compensation deferred plus 50% between 3% and 5% of the participant's eligible compensation deferred. In addition, the Sponsor may make a discretionary profit sharing contribution to the Plan each Plan year. For the year ended December 31, 2014, the Sponsor contributed an additional 2.5% of the participant's eligible compensation for those participants who have been employed for 20 years or more as of June 30, 2011. There were no contributions made for those participants for the year ended December 31, 2015. For the years ended December 31, 2015 and 2014, the Sponsor contributed an additional 2% of the participant's eligible compensation for those eligible participants hired on or after July 1, 2011.

Participant accounts

Each participant's account is credited with the participant's contributions and Sponsor matching contributions, as well as allocations of the Sponsor's profit sharing contribution and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants that participated in the Plan or the Children's Care Group, Inc. 401(k) Plan prior to January 1, 2012 are 100% vested in their account balances and any future contributions. Participants are immediately vested in their contributions and Sponsor safe harbor matching contributions plus actual earnings thereon. Vesting in the additional 2% profit sharing contribution is based on years of continuous service. A participant is 100% vested after five years.

Notes receivable from participants

As permitted by provisions of the Plan document, participants may borrow from their accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at a rate of 4.25%, which is commensurate with local prevailing rates as determined by the plan administrator. Principal and interest is paid directly by each participant based on the terms of the loan agreements.

Payment of benefits

On termination of service due to death, disability or retirement, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Forfeited accounts

At December 31, 2015 and 2014, forfeited nonvested accounts totaled \$50,829 and \$41,755, respectively. These account balances will be used to reduce future employer contributions. Employer

contributions were reduced from forfeited nonvested accounts by \$46,000 and \$2,560 during 2015 and 2014, respectively.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

The following are the significant accounting policies of the Plan:

Basis of accounting

The financial statements of the Plan are prepared using the accrual basis of accounting.

The Plan's investment in the Diversified Stable Pooled Fund-Investment Class, which is a common/collective trust, is considered fully benefit-responsive. In accordance with generally accepted accounting principles, investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted withdrawal transactions under the terms of the Plan. Therefore, the Statements of Net Assets Available for Benefits presents the fair value of the investments in the common/collective trust, as well as the adjustment of the investment in the common/collective trust from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Use of estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) in fair value of investments represents realized gains and losses on investments sold during the year and unrealized gains and losses on investments held at the end of the year.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2015 and 2014. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Administrative expenses

Certain expenses of maintaining the Plan are paid directly by the Sponsor and are excluded from these financial statements. Fees related to the administration of notes receivable from participants and account maintenance are charged directly to the participants' accounts and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

Payment of benefits

Benefits are recorded when paid.

Change in accounting policy

The Financial Accounting Standards Board (FASB) recently issued Accounting Standards Update (ASU)

2015-12, "Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (topic965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, and (Part III) Measurement Date – Practical Expedient (Consensus of the FASB Emerging Issues Task Force)." ASU 2015-12 simplifies disclosures and reporting by employee benefit plans. ASU 2015-12 is effective for fiscal years beginning December 15, 2015, with earlier adoption permitted. The Plan has elected to early adopt part II ASU 2015-12, applied retrospectively to all periods presented. This change has no impact on net assets available for benefits.

Subsequent events

The Sponsor evaluates events and transactions occurring subsequent to the date of the financial statements for matters requiring recognition or disclosure in the financial statements. The accompanying financial statements consider events through October 4, 2016, the date on which the financial statements were available to be issued.

3. INFORMATION PREPARED AND CERTIFIED BY TRUSTEE:

Plan management has elected the method of compliance permitted by 29 CFR2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, State Street Bank and Trust Company, the Plan's trustee, has certified to the completeness and accuracy of all investments reflected on the accompanying statements of net assets available for benefits as of December 31, 2015 and 2014, and the supplemental schedule of assets (held at end of year) as of December 31, 2015; the related investment activity reflected in the statements of changes in net assets available for benefits for the years ended December 31, 2015 and 2014.

4. FAIR VALUE MEASUREMENTS:

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include: quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Registered investment companies: Valued at the daily closing price as reported by the fund. Registered investment companies held by the Plan are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and

to transact at that price. The registered investment companies held by the Plan are deemed to be actively traded.

Common/Collective Trust: Valued at the NAV of units of a bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchased and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

Self-directed brokerage accounts: Valued at the daily closing price of the underlying securities as reported by the broker. These securities consist primarily of registered investment companies and money market funds. The underlying securities held by the self-directed brokerage funds are deemed to be actively traded.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2015:

5. RELATED PARTY TRANSACTIONS AND PARTY-IN-INTEREST:

Certain Plan investments are managed by State Street Bank and Trust Company, trustee of the Plan. These transactions qualify as party-in-interest transactions. Fees incurred by the Plan for the administrative services amounted to \$185,180 and \$183,121 for the years ended December 31, 2015 and 2014, respectively. The Sponsor pays directly any other fees related to the Plan's operations.

6. TAX STATUS:

The plan sponsor adopted a Prototype Non-standardized Profit Sharing Plan, for which a letter from the Internal Revenue Service has been received indicating that an employer who adopts this prototype plan will be considered to have a plan qualified under applicable sections of the IRC. The plan sponsor has elected not to request a separate determination letter for the Plan. The plan sponsor and the plan administrator believe that the Plan is currently designed and being operated in compliance with applicable requirements of the IRC. Therefore, they believe the Plan was qualified as of the financial statement date.

7. PLAN TERMINATION:

Although it has not expressed any intent to do so, the Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, all benefits will be distributed to participants and beneficiaries in proportion to their respective account balances.

8. RISK AND UNCERTAINTIES:

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

9. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500:
