Employees are treated as participants upon entry into the plan quarterly on January 1, April 1, July 1 or October 1 immediately following satisfaction of eligibility requirements. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions - Each year the Plan provides that active participants may make voluntary contributions to the Plan between 1% and 60% of their eligible pretax annual compensation, up to the maximum allowed by the Internal Revenue Code ($18,000 or $24,000 including "catch-up contributions" for 2015, as defined by the Code). Participants may also contribute amounts representing rollover distributions from other qualified defined benefit or defined contribution plans. The Company matching and other company contributions are as follows:

- Match 40% of the first 5% of participant contributions made during the Plan year.
- Fixed Percentage between 1% and 9% or a fixed flat dollar amount based on salary, hourly, or union and length of service.
- Enhanced 401k percentage between 2% and 7% or a fixed flat amount based on salary, hourly, or union and age of participant for those hired or rehired prior to January 1, 2008. First effective rate for enhanced contribution was for the year ended December 31, 2013.

The Company may contribute additional amounts if it so decides. Participants direct the investment of their contributions, as well as their portion of the Company's contributions, into various investment options offered by the Plan. Participants may change the level of their contributions each quarter.

Participant Accounts - Each participant's account is credited with the participant's contribution and an allocation of: (a) the Company's contribution and (b) Plan earnings. Allocations are based on weighted average of account balances. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting - Participants are immediately vested in their voluntary contributions plus the earnings thereon. Participants shall be fully vested with respect to Company contributions upon early or normal retirement age, death or disability. Otherwise, vesting is based on the elapsed time method, which uses whole years of service to compute vesting. A participant is 100% vested after five whole years of service.

1. DESCRIPTION OF PLAN (CONTINUED)

Notes Receivable from Participants - Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance (reduced by the highest outstanding loan balance during the 12 month period), whichever is less. The loans are secured by the balance in the participant's account and bear interest at rates that range from 4.25% to 6.00%, which are commensurate with local prevailing rates as determined by the Plan Administrator. Principal and interest is paid ratably through payroll deductions over five years, unless the loan was to acquire a principal residence, in which case the repayment period may not exceed 10 years.

Retirement Age - Early retirement age is the first day of the month after the participant attains 55 years of age and completes 10 years of vesting service. Normal retirement age is 65 years of age.

Payment of Benefits - On termination of service due to death, disability, retirement, or other reasons, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or periodic installments if the balance is greater than $5,000.

Forfeited Accounts - At December 31, 2015 and 2014, forfeited nonvested accounts totaled $1,839 and $0, respectively. These accounts are used to reduce future employer contributions. In 2015, employer contributions were reduced by $10,319 from forfeited nonvested accounts.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting and Use of Estimates - The accompanying financial statements are prepared on the accrual basis of accounting. The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect: (1) the reported amounts of assets and liabilities, (2) disclosures such as contingencies, and (3) the reported amounts of revenues and expenses included in such financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition - Investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Payment of Benefits - Benefits are recorded when paid.

Administrative Expenses - Certain expenses of the Plan may be paid directly by the Company and are therefore excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Some investment related expenses may be included in net appreciation or depreciation of fair value on investments.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Notes Receivable from Participants - Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2015 and 2014. Delinquent loans are treated as distributions based upon the terms of the plan document.

Recent Accounting Pronouncements - In May 2015, the Financial Accounting Standards Board issued Accounting Standards Update No. 2015-07, Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities that Calculate Net Asset Value per Share (or Its Equivalent). The amendments in this Update remove the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient. However, sufficient information must be provided to permit reconciliation of the fair value of assets categorized within the fair value hierarchy to the amounts presented in the statement of financial position. The Plan adopted this Update for the 2015 plan year, and it was retrospectively applied to 2014 upon adoption.

In July 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update No. 2015-12, Plan Accounting: Defined Contribution Pension Plans (Topic 962) - (I) Fully Benefit-Responsive Investment Contracts, (II) Plan Investment Disclosures, and (III) Measurement Data Practical Expedient (a consensus of the FASB Emerging Issues Task Force). The purpose of this Update is to simplify plan accounting.

Parts I and III are not applicable to the Plan since it does not have any direct investment contracts or pensions.

The amendments in Part II of this Update eliminate the requirements for plans to disclose (1) individual investments that represent five percent or more of net assets available for benefits and (2) the net appreciation or depreciation for investments by general type for both participant-directed investments and nonparticipant-directed investments. The net appreciation or depreciation in investments for the period will still be required to be presented in the aggregate. In addition, if an investment is measured using the net asset value per share (or its equivalent) practical expedient in Topic 820 and that investment is in a fund that files a U.S. Department of Labor Form 5500, Annual Return/Report of Employee Benefit Plan, as a direct filing entity, disclosure of that investment's strategy will no longer be required.

The Plan adopted amendment Part II of this Update for the 2015 plan year, and the amendment was retrospectively applied to 2014 upon adoption.

The Updates had no effect on the amounts of the reported net assets.

Subsequent Events - These financial statements considered subsequent events through October 12, 2016, the date the financial statements were available to be issued.

3. INFORMATION CERTIFIED BY FIDELITY MANAGEMENT TRUST COMPANY (UNAUDITED)

The following is a summary of the investment information as of December 31, 2015 and 2014, and for the year ended December 31, 2015, included throughout the Plan's financial statements and supplemental schedule of assets held, that was prepared by or derived from information provided by Fidelity Management Trust Company (Fidelity) and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from Fidelity that information provided to the Plan Administrator by Fidelity related to the following investments is complete and accurate.

Accordingly, as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to fair value information below, in Note 4, and the value in the supplemental schedule of assets held related to the following investments.

	2015	2014
Investments at fair value:		
Mutual funds	$ 19,853,702	$ 18,165,169
Money market fund	806,920	805,759
	$ 20,660,622	$ 18,970,928
Notes receivable from participants	$ 447,948	$ 471,019

Fidelity also certified to the completeness and accuracy of ($914,608) of net change in fair value of investments (including gains and losses on investments bought and sold, as well as held during the year) and dividends, interest and other income of $1,071,001 related to the aforementioned plan assets for the year ended December 31, 2015.

4. FAIR VALUE MEASUREMENTS

Fair value is defined as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction value hierarchy which requires an entity to maximize the use of observable inputs when measuring fair value.

The following are three levels of inputs that may be used to measure fair value:

Level 1 - Inputs to the valuation methodology are quoted prices available in active markets for identical investments as of the reporting date;

Level 2 - Inputs to the valuation methodology are other than quoted prices in active markets, which are either directly or indirectly observable as of the reporting date, and fair value can be determined through the use of models or other valuation methodologies; and

4. FAIR VALUE MEASUREMENTS (CONTINUED)

Level 3 - Inputs to the valuation methodology are unobservable inputs in situations where there is little or no market activity for the asset or liability and the reporting entity makes estimates and assumptions related to the pricing of the asset or liability including assumptions regarding risk.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. The following is a description of the valuation methodologies used for instruments measured at fair value, including the general classification of such instruments pursuant to the valuation hierarchy.

Money Market Fund

The fund's objective is to provide current income while maintain liquidity and a stable share price of $1. The fund invests primarily in high-quality, short-term money market instruments, U.S. Government Securities and fully collateralized repurchase agreements. The money market fund is classified within level 2 of the valuation hierarchy.

Mutual Funds

These investments are valued using a quoted price in an active market and classified within level 1 of the valuation hierarchy.

The fair value at December 31, 2015 and 2014, of the Plan's financial instruments that are valued on a recurring basis in accordance with the above fair value hierarchy, as provided by Fidelity, is as follows:

	Fair Value as of December 31, 2015			
	Level 1	Level 2	Level 3	Fair Value (Unaudited)
Investments:				
Mutual funds	$ 19,853,702	$ --	$ --	$ 19,853,702
Money market fund	--	806,920	--	806,920
	$ 19,853,702	$ 806,920	$ --	$ 20,660,622

	Fair Value as of December 31, 2014			
	Level 1	Level 2	Level 3	Fair Value (Unaudited)
Investments:				
Mutual funds	$ 18,165,169	$ --	$ --	$ 18,165,169
Money market fund	--	805,759	--	805,759
	$ 18,165,169	$ 805,759	$ --	$ 18,970,928

5. PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are shares of mutual funds managed by Fidelity, therefore, these transactions along with notes receivables from participants qualify as party-in-interest transactions. Fees incurred and paid directly by the Plan for the investment management services were $5,731.

6. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue contributions and terminate the Plan at any time subject to the provisions of ERISA. In the event of Plan termination, participants will become fully vested in the Company's contributions to their accounts.

7. INCOME TAX STATUS

Effective February 1, 2003, the Plan adopted Fidelity Management Trust Company’s prototype plan document and amendments. The Plan has not received a determination letter specific to the Plan itself; however, the prototype plan has received an opinion letter dated December 20, 2011, that this Plan is relying on. The Plan has been amended since receiving the determination letter; however, the Plan Administrator believes that the Plan is designed and is being operated in compliance with the applicable requirement of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan. Management evaluated the Plan’s tax positions and concluded that the Plan had maintained its tax exempt status and had taken no uncertain tax positions that require recognition or disclosure in the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements.

8. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants’ account balances and the amounts reported in the statement of net assets available for benefits.
