DecisionHR Retirement Savings Plan

Notes to Financial Statements December 31, 2015 and 2014

Note A – Description of Plan

The following description of the DecisionHR Retirement Savings Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a multiple-employer defined contribution plan covering all full-time employees of the employers represented by DecisionHR Holdings, Inc. (the Company) who have reached eligibility requirements as defined by individual employer adoption agreements. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Effective January 1, 2013, the Plan was amended and restated to reflect changes required by the IRS 2011 Cumulative list of changes in Plan Qualification Requirements contained in IRS Notice 2011-97. A favorable determination letter dated September 8, 2013 was obtained for the restated Plan.

Administration

Recordkeeping services are provided by BlueStar Retirement Services, Inc. is the custodian of the Plan and is responsible for maintaining investments of the Plan and reporting on the earnings and investments of the Plan. The Plan's assets are held and managed by TD Ameritrade Trust Company (the "Trustee"). Contributions are held by the Trustee, who invests cash received, interest and dividend income, as directed by the participant, and makes distributions to participants.

Contributions

Participants may contribute a percentage of their pre-tax annual compensation, as defined, subject to limitations imposed by the Internal Revenue Code (IRC). The maximum employee deferral for December 31, 2015 and 2014 was \$18,000 and \$17,500, respectively. Participants may also make post-tax Roth deferral contributions to the Plan. A participant who has attained age 50 was eligible to participate in catch-up contributions, subject to IRS limitations of \$6,000 and \$5,500 for December 31, 2015 and 2014. Participants may also contribute amounts representing distributions from other qualified plans.

Employers represented by the Company may elect to make a matching contribution equal to a specified percentage of the elective contribution made by the participant. The percentage of the matching contribution shall be determined by the employers represented by the Company.

Employers choosing to make safe harbor matching contributions may select a match equal to 100% of the participant's elective deferral up to 6% of the participant's eligible compensation or 100% of the participants elective deferral up to a maximum of 3% of eligible compensation plus 50% of elective deferrals for eligible compensation over 3% not to exceed 5% for each payroll period. In addition to the safe harbor contributions, Employers can elect to make additional discretionary matching and non-elective contributions.

Employers represented by the Company may elect to make Roth elective contributions available to its employees who are participants. In addition, an employer may elect to automatically enroll participants in the event a participant does not affirmatively elect to have a specified amount contributed to the Plan as an elective contribution or does not affirmatively elect to receive compensation in lieu of an elective contribution.

Notes to Financial Statements December 31, 2015 and 2014

Note A – Description of Plan (continued)

Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of the employer's contribution and Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the matching and discretionary contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. Participants are 100% vested in any safe harbor contributions made by an employer.

Investment Options

Upon enrollment in the Plan, a participant may elect to have their employee and employer contributions, and related earnings thereon, allocated to one or more mutual funds or money market investment options. The Plan's investments in mutual funds and money market funds are stated at fair value, which is based on quoted market prices at year-end as reported by the Trustee. The Plan allows for self-directed brokerage accounts. The self-directed brokerage accounts are invested in preferred stocks, common stocks and shares of registered investment companies. Participant loans are valued at their outstanding balance, which approximates fair value.

Notes Receivable from Participants

Participants may borrow from their accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Loans generally have initial terms of less than five years unless they are for the purchase of a participant's primary residence. Principal and interest are paid ratably through payroll deductions. Loans are secured by the balances in the participant accounts. Principal and interest are paid ratably through weekly payroll deductions.

The Plan Administrator shall consider a loan in default if any scheduled repayment remains unpaid as of the last business day of the calendar quarter following the calendar quarter in which a loan is initially considered past due. In the event of a default, death, disability, or termination of employment, the entire outstanding principal and accrued interest shall be immediately due and payable. If the entire outstanding loan is not repaid, the vested account balance will be reduced by the remaining outstanding balance of the loan.

Distribution of Benefits

On termination of service due to death, disability or retirement, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account, as defined in the Plan agreement. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution less withheld taxes. Employees may request a hardship withdrawal from their accounts using only employee deferral balances for distribution.

DecisionHR Retirement Savings Plan

Notes to Financial Statements December 31, 2015 and 2014

Note A – Description of Plan (continued)

If a participant's vested account balance is \$5,000 or less, the Plan Administrator will direct the Trustee that any amount exceeding \$1,000 be distributed to an Individual Retirement Account or Annuity ("IRA") for the participant's benefit. If the vested account balance is \$1,000 or less, the Plan Administrator may direct the Trustee to distribute this amount as a lump sum distribution without the participant's consent.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and terminate the Plan subject to the provisions of ERISA. In the event of termination of the Plan, each participant's account will become fully vested and non-forfeitable. All appropriate accounting provisions of the Plan will continue to apply until the accounts of all participants have been distributed.

Note B – Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are presented on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (US GAAP).

In May 2015, the FASB issued ASU 2015-07, Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent), which exempts investments measured using the net asset value (NAV) practical expedient in ASC 820, Fair Value Measurement, from categorization within the fair value hierarchy. The guidance requires retrospective application and is effective for public business entities for fiscal years, and interim periods within those years, beginning after December 15, 2015. For all other entities, the guidance is effective for fiscal years, and interim periods within those years, beginning after December 15, 2016. Early adoption is permitted. Management elected to early adopt the provisions of this new standard. Accordingly, the amendment was retrospectively applied resulting in changes to the footnote disclosures related to fair value measurements in Note B.

In July 2015, the FASB issued ASU 2015-12, Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), and Health and Welfare Benefit Plans (Topic 965): Part (I) Fully Benefit-Responsive Investment Contracts, Part (II) Plan Investment Disclosures, Part (III) Measurement Date Practical Expedient. This three-part standard simplifies employee benefit plan reporting with respect to fully benefit-responsive investment contracts and plan investment disclosures, and provides for a measurement-date practical expedient. Parts I and II are effective for fiscal years beginning after December 15, 2015 and should be applied retrospectively, with early application permitted. Part III is effective for fiscal years beginning after December 15, 2015 and should be applied prospectively, with early application permitted. Management has elected to adopt Parts I and II early. Part III is not applicable to this Plan.

As described in the Code Reporting of Fully Benefit-Responsive Investment Contracts Held by Certain Investment Companies Subject to the AICPA Investment Company Guide and Defined-Contribution Health and Welfare and Pension Plans (the Code), investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. As required by the Code, the Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Plan had no fully benefit-responsive investments as of December 31, 2015 and 2014.

Notes to Financial Statements December 31, 2015 and 2014

Note B – Summary of Significant Accounting Policies (continued)

On August 27, 2014, the FASB issued Accounting Standards Update No. 2014-15, *Disclosure of Uncertainties about an Entity's Ability to Continue as a Going Concern*, which requires management to assess a company's ability to continue as a going concern and to provide related footnote disclosures in certain circumstances. Before this new standard, there was minimal guidance in U.S. GAAP specific to going concern. Under the new standard, disclosures are required when conditions give rise to substantial doubt about a company's ability to continue as a going concern within one year from the financial statement issuance date. The new standard applies to all companies and is effective for the annual period ending after December 15, 2016, and all annual and interim periods thereafter.

Use of Estimates

The preparation of financial statements in conformity with US GAAP requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and the changes in net assets available for benefits and disclosure of contingent assets and liabilities during the reporting period. Actual results could differ from these estimates.

Valuation of Investments

The Plan's investments in money market accounts and mutual funds are stated at fair value, which is based on quoted market prices at year-end as reported by the Trustee. Notes receivable from participants are valued at their outstanding balance, which approximates fair value.

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

The Plan pays some administrative expenses, with the exception of investment management and transaction fees, some of which are paid by the participants who incur such fees. For the year ended December 31, 2015, the Plan paid administrative expenses totaling approximately \$46,000.

Fair Value Measurements

The Code has established a framework for measuring fair value under the statement, *Fair Value Measurements*. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described below:

- | | |
|---------|---|
| Level 1 | Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access. |
|---------|---|

DecisionHR Retirement Savings Plan

Notes to Financial Statements December 31, 2015 and 2014

Note B – Summary of Significant Accounting Policies (continued)

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Money market accounts: The assets held in money market funds are valued at NAV of the underlying funds. The inputs used to determine fair value of these funds are not always quoted prices in an active market.

Common and Preferred stocks - Valued at the last quoted sales price as of the close of trading at year end.

Mutual funds: Mutual funds are valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note C – Investments

The Plan Administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan Administrator instructed the auditors not to perform any auditing procedures with respect to the information certified by the Trustee, except for comparing such information to the related information included in the financial statements and supplemental schedule. The Plan Administrator has obtained a certification from the Trustee that the information provided to the Plan Administrator by the Trustee as of December 31, 2015 and 2014, and for the year ended December 31, 2015, is complete and accurate. Such information includes all investments, notes receivable from participants, investment income, and the information in the supplemental schedule of assets (held at end of year).

Note D – Financial Instruments

Certain financial instruments potentially subject the Plan to concentrations of credit risk. These financial instruments consist of mutual funds and money market accounts. The Plan limits its credit risk by monitoring its accounts with what management believes to be high quality financial institutions.

Notes to Financial Statements December 31, 2015 and 2014

Note E – Income Tax Status

The Plan has received a determination letter from the Internal Revenue Service dated September 8, 2013, stating that the Plan is qualified under Section 401(a) of the IRC and, therefore, the related trust is exempt from taxation. Subsequent to the issuance of the determination letter, the Plan was amended. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. The Plan Administrator believes the Plan is being operated in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan, as amended, is qualified and the related trust is tax-exempt.

The Plan Administrator evaluated the Plan's tax positions and concluded that the Plan had maintained its tax-exempt status and had taken no uncertain tax positions that require adjustment to the financial statements. Therefore, no provision or liability for income taxes has been included in the accompanying financial statements. The Plan is no longer subject to examination by taxing authorities for years prior to 2013.

Note F – Party-In-Interest

Section 3(14) of ERISA defines a party-in-interest to include, among others, fiduciaries or employees of the Plan, any person who provides services to the Plan, or an employer whose employees are covered by the Plan. Certain Plan investments are mutual funds, money market fund, cash account and self-directed investments, managed by the Trustee. Transactions related to these investments qualify as party-in-interest transactions. Fees paid to parties-in-interest amounted to approximately \$46,000 in total during the year ended December 31, 2015.

Note G – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note H – Subsequent Events

Management has evaluated subsequent events for potential disclosure in or adjustment to the financial statements through October 4, 2016, the date that the accompanying financial statements were available to be issued.
