Leonard Holding Company 401(k) Plan
Notes to Financial Statements
December 31, 2015 and 2014

Note 1: Description of the Plan

The following description of Leonard Holding Company 401(k) Plan (Plan) provides only general information. Participants should refer to the Plan Document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan sponsored by Leonard Holding Company (Plan sponsor, Company and Employer) for the benefit of its employees who have at least six months of service and are 21 or older. The Plan is subject to the provisions of the *Employee Retirement Income Security Act of 1974* (ERISA). Newport Trust Group is the trustee of the Plan. Effective December 22, 2015, the Plan's trustee changed from Wilmington Trust to Newport Trust Group, formerly known as Verisight Trust Company.

Contributions

The Plan permits eligible employees through a salary deferral election to have the Company make annual contributions of up to the maximum allowed under Internal Revenue Service (IRS) rules and regulations. Employee rollover contributions are also permitted. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. The Company makes matching contributions equal to a discretionary percentage to be determined annually, which was 50 and 25 percent of employees' salary deferral amounts during years ended December 31, 2015 and 2014, respectively. Company profit-sharing contributions are discretionary as determined by the Company's board of directors. Contributions are subject to certain limitations. Forfeitures are used to reduce Company contributions.

Participant Investment Account Options

Investment account options available include various funds. Each participant has the option of directing his contributions into any of the separate investment accounts and may change the allocation daily.

The Plan Document also includes an automatic deferral feature whereby a participant is treated as electing to defer a certain percentage of eligible compensation unless the participant made an affirmative election otherwise.

Employer profit-sharing contributions to the Plan are invested at the discretion of the Company.

Participant Accounts

Each participant's account is credited with allocations of the participant's contribution, Plan sponsor's contributions, forfeitures and Plan earnings (losses) and charged with an allocation of certain administrative expenses. Allocations are based on participant earnings. The benefit to

which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Vesting in the Plan sponsor's contribution portion of their account plus earnings thereon is based on years of continuous service. A participant is 100 percent vested after six years of credited service (or upon the death or disability of the participant). Participants are immediately vested in their voluntary contributions plus earnings thereon.

A partial Plan termination occurred October 6, 2014, which resulted in all affected participants becoming 100 percent vested in the Plan upon termination.

Payment of Benefits

On termination of service, a participant may elect to receive either a lump-sum amount or annual installments equal to the value of the participant's vested interest in his or her account. Effective January 1, 2014, annual installments are no longer allowed by the Plan.

Forfeited Accounts

At December 31, 2015 and 2014, unallocated forfeited non-vested accounts totaled $40,182 and $27,168, respectively. These accounts will be used to reduce future employer contributions/reallocated to participants in the same manner as employer contributions. Also, in 2015, employer contributions were reduced by $87,284 from forfeited non-vested accounts.

Note 2: Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets and changes in net assets and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments in mutual funds are stated at fair value based on quoted market prices. Investment in the money market fund is stated at cost which approximates fair value.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Administrative Expenses

Administrative expenses may be paid by the Plan.

Transfers Between Fair Value Hierarchy Levels

Transfers in and out of Level 1 (quoted market prices), Level 2 (other significant observable inputs) and Level 3 (significant unobservable inputs) are recognized on the period beginning date.

Note 3: Certification by Plan Trustee

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the trustee of the Plan has certified the following information included in the accompanying financial statements and supplemental schedule is complete and accurate to the best of their knowledge and belief.

- Investments as shown in the statements of net assets available for benefits and related disclosures as of December 31, 2015 and 2014
- Investment income as shown in the statement of changes in net assets available for benefits for the year ended December 31, 2015
- Investment information included in the accompanying supplemental schedule of assets (held at year end) as of December 31, 2015

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

Note 4: Change in Accounting Principle

In 2015, the Plan changed its accounting policy on plan accounting disclosures by adopting the provisions of ASU 2015-12, *Plan Accounting (Topics 960, 962 and 965): Part II: Plan Investment Disclosures.* The accounting policy change provided for in ASU 2015-12 changes the Plan's disclosure requirements to eliminate and/or modify certain investment-related disclosures. This change was applied retrospectively for all periods presented.

Note 5: Related Party and Party-in-interest Transactions

Party-in-interest transactions include those with fiduciaries or employees of the Plan, any person who provides services to the Plan, an employer whose employees are covered by the Plan, an employee organization whose members are covered by the Plan, a person who owns 50 percent or more of such an employer or employee association, or relatives of such persons.

Certain Plan investments are shares of mutual funds managed by the Plan trustee. Newport is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. The Plan sponsor pays directly any other fees related to the Plan's operations.

The Plan paid $18,258 and $19,365 of recordkeeping fees to Newport during 2015 and 2014, respectively. The Company provides certain administrative services at no cost to the Plan.

Note 6: Disclosures About Fair Value of Plan Assets and Liabilities

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value measurements must maximize the use of observable inputs and minimize the use of unobservable inputs. There is a hierarchy of three levels of inputs that may be used to measure fair value:

Level 1 Quoted prices in active markets for identical assets or liabilities

Level 2 Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities

Level 3 Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities

Recurring Measurements

The following tables present the fair value measurements of assets and liabilities recognized in the accompanying statements of net assets available for benefits measured at fair value on a recurring basis and the level within the fair value hierarchy in which the fair value measurements fall at December 31:

		2015 Fair Value Measurements Using

Following is a description of the valuation methodologies and inputs used for assets measured at fair value on a recurring basis and recognized in the accompanying statements of net assets available for benefits, as well as the general classification of such assets pursuant to the valuation hierarchy. There have been no changes in the methodologies used at December 31, 2015 and 2014. The Plan had no liabilities measured at fair value on a recurring basis. In addition, the Plan had no assets or liabilities measured at fair value on a nonrecurring basis.

Investments

Where quoted market prices are available in an active market, securities are classified within Level 1 of the valuation hierarchy. Level 1 securities include corporate common stocks, exchange-traded funds and mutual funds. Quoted market prices are used to value corporate common stocks and mutual and exchange-traded funds are based on the last reported sales price as of December 31. If quoted market prices are not available, then fair values are estimated by using pricing models, quoted prices of securities with similar characteristics or discounted cash flows. Level 2 securities include short-term investments and fixed income securities, including corporate bonds, municipal bonds and governmental agency securities, which are valued based on quoted prices for identical assets in markets that are inactive as of December 31.

In certain cases where Level 1 or Level 2 inputs are not available, securities are classified within Level 3 of the hierarchy. There are no securities classified within Level 3 of the hierarchy for the Plan.

Note 7: Partial Plan Termination

On October 6, 2014, Leonard Holding Company closed the L&H Packing Plant which resulted in a partial Plan termination. All effected participants in the Leonard Holding Company 401(k) Plan became 100 percent vested in that Plan upon termination.

Note 8: Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in their employer contributions.

Note 9: Tax Status

The Plan operates under a non-standardized adoption agreement in connection with a prototype retirement plan and trust/custodial document sponsored by Leonard Holding Company. This prototype plan document has been filed with the appropriate agency. The Plan has not obtained or requested a determination letter. However, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code (IRC) and that the Plan was qualified and the related trust was tax exempt as of the financial statement date.
