Aleris 401(k) Plan
Notes to Financial Statements
December 31, 2015

1. Description of the Plan

The following description of the Aleris 401(k) Plan (the “Plan”) is provided for general information only. Participants should refer to the plan document for a complete description of the Plan’s provisions.

General

The Plan is a defined contribution plan covering all eligible employees of Aleris Ohio Management, Inc. (the “Plan Sponsor”) and other adopting subsidiaries of Aleris International, Inc. (collectively as the “Company”), except for those employees classified as ineligible (as defined). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (“ERISA”).

During the year, the Company divested certain subsidiaries that included participants in the Plan. The nonvested balances of the participants in these subsidiaries became vested upon the divestiture. The account balances of these participants were removed from the Plan upon divestiture and are included in “Transfer of assets from the Plan” in the Statement of Changes in Net Assets Available for Benefits.

The Plan allows for participation immediately following an employee’s hire date.

Plan Administration

Overall responsibility for administering the Plan rests with the Company’s Benefits Committee, which is appointed by the Board of Directors of the Company. Delaware Charter Guarantee and Trust Company d/b/a Principal Trust Company (the “Trustee”) is the trustee of the Plan and is responsible for the management and control of the Plan’s assets.

Contributions

An employee’s pretax contributions to the Plan may not exceed certain Internal Revenue Service (“IRS”) maximum amounts. The maximum amount was \$18,000 and \$17,500 in 2015 and 2014, respectively. Employees who were 50 years of age or older by the end of the plan year, and were making the maximum elective contribution for the year, were eligible to make additional pretax contributions of up to \$6,000 and \$5,500 in 2015 and 2014, respectively. The Plan also provides that participants may roll over all or part of a qualified total distribution from another tax-qualified plan.

Matching contributions for participants are remitted to the Plan in an amount equal to 100% of the first 3% of an employee’s salary deferral contributions, plus 50% of the next 2% of an employee’s salary deferral contributions. This matching contribution is determined each payroll period.

The Company may make a discretionary contribution each plan year, the amount of which is determined and authorized by resolution of the Board of Directors. The contribution is allocated to each participant based on the compensation of the participant. There was no discretionary contribution for 2015 and 2014.

The Plan also provides for an additional annual employer contribution (“Retirement Contribution”) based on a participant’s age as of the last day of the plan year, as follows:

- Participant’s age less than 35 – 0.5% of annual compensation as defined by the Plan
- Participant’s age 35-49 – 1.0% of annual compensation as defined by the Plan
- Participant’s age 50 and older – 1.5% of annual compensation as defined by the Plan

Aleris 401(k) Plan

Notes to Financial Statements (continued)

The Retirement Contribution paid in 2016 and 2015 for the years ended December 31, 2015 and 2014 totaled \$837,255 and \$1,225,703, respectively.

Participant Accounts

Participants are immediately vested in that portion of their account equal to the value of the elective deferral contributions, Company matching contributions, and rollover amounts in such participant's account. Upon death, disability, or attainment of normal retirement age, as defined in the Plan, a participant shall have a vested interest of 100% in the Retirement Contributions and discretionary contributions in their account. Each participant's account is credited with their contribution, Company contributions, and actual earnings thereon. Participants direct their accounts into various investment options offered by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Notes Receivable From Participants

The Plan permits participants to borrow from their account a minimum of \$1,000 and up to the lesser of \$50,000 or 50% of their vested account balance. Loans must be paid through payroll deductions over a period of time not to exceed five years, unless used for the purchase of a primary residence (in which case the loan repayment period will be the lesser of 10 years or a payment period consistent with commercial home loan practices). The loans are secured by the balance in the participant's account and the interest rate for all loans is equal to the prime interest rate published in the Wall Street Journal, plus 1%. A loan is deemed to be in default if principal and interest are not paid 90 days after the loan payment is due.

Vesting Provision

Retirement Contributions and discretionary contributions vest in accordance with the following:

<u>Completed Years of Service</u>	<u>Less than 1</u>	<u>1</u>	<u>2</u>	<u>3</u>	<u>4</u>	<u>5 or more</u>
Percentage of Vested Interest	None	20%	40%	60%	80%	100%

Forfeited Accounts

Upon termination of employment, participants forfeit their nonvested balances. If a participant is rehired and becomes an eligible employee under the Plan, they may have their forfeited account balance reinstated subject to repayment of their distributed vested balance in accordance with plan provisions. Forfeited balances are used: first, to restore participant's forfeitures; second, to reduce future Company contributions; and third, to reduce expenses of the Company incurred in the operation of the Plan. There was \$36,356 and \$30,040 remaining in the forfeiture account as of December 31, 2015 and 2014, respectively. For the year ended December 31, 2015, \$102,397 was used to reduce Company contributions or pay administrative expenses.

Withdrawals During Employment

A participant may withdraw any part of their vested account resulting from voluntary contributions or rollover contributions during the year. A participant who has attained age 59 ½ may withdraw any part of their vested account that results from elective deferral contributions or matching contributions at any time. A participant may withdraw any part of their vested account that results from elective deferral contributions in the event of financial hardship due to an immediate and heavy financial need (as defined). Participants who applied for withdrawal of contributions are suspended from making further contributions for the next six months.

Aleris 401(k) Plan
Notes to Financial Statements (continued)

Benefits Provision

Upon termination of service, death, or retirement, a participant (or beneficiary) could elect to receive their vested balance in a rollover, lump-sum distribution, or installments (as provided by the Plan).

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of a termination, all participant accounts shall be fully vested and nonforfeitable.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements of the Plan have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Notes Receivable From Participants

Notes receivable from participants are recorded at their unpaid principal balance plus any accrued but unpaid interest. Interest income on notes receivable from participants is recorded when it is earned. Related fees are recorded as administrative expenses and are recorded when they are incurred. Delinquent notes receivable from participants are reclassified as distributions based on the terms of the Plan document.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and the accompanying notes and supplemental schedule. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market volatility and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

Investment Valuation and Income Recognition

Investments held by the Plan are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

In conformity with Accounting Standards Codification ("ASC") 820, *Fair Value Measurement*, assets and liabilities measured at fair value are categorized into the following fair value hierarchy:

Level 1 – Fair value is based on unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities.

Aleris 401(k) Plan
Notes to Financial Statements (continued)

Level 2 – Fair value is based on quoted prices in markets that are not active, quoted prices for similar assets and liabilities in active markets, and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the asset or liability.

Level 3 – Fair value is based on prices or valuation techniques that require inputs that are both significant to the fair value measurement and unobservable. These inputs reflect management's judgment about the assumptions that a market participant would use in pricing the investment and are based on the best available information, some of which may be internally developed.

The Plan invests in a fully benefit-responsive guaranteed investment contract ("GIC") with Principal Life Insurance Company ("Principal") (the "Principal Contract"). Principal maintains a general account, which is credited with contributions and earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The Principal Contract is fully benefit-responsive. Principal Contract investments are recorded at contract value. The contract value represents contributions plus earnings, less participant withdrawals and administrative expenses. A 90-day notice is required in order for the Plan to liquidate (surrender) this investment.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Benefit Payments

Benefits are recorded when paid.

Recent Accounting Pronouncements

In May 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2015-07, Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent). The amendments in this update remove the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient. However, sufficient information must be provided to permit reconciliation of the fair value of assets categorized within the fair value hierarchy to the amounts presented in the financial statements. The amendments also remove the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the net asset value per share practical expedient. ASU 2015-07 was adopted for the year ended December 31, 2015 and applied retrospectively to all periods presented. As a result of the adoption of ASU 2015-07, the fair value disclosures were retrospectively modified.

In July 2015, the FASB issued ASU No. 2015-12, (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient – consensus of the FASB Emerging Issues Task Force. The amendments in this update (1) require a pension plan to use contract value as the only measure for fully benefit-responsive investment contracts, (2) simplify and increase the effectiveness of the investment disclosure requirements for employee benefit plans, and (3) provide benefit plans with a measurement-date practical expedient similar to the practical expedient provided to employers in ASU 2015-04, Practical Expedient for the Measurement Date of an Employer's Defined Benefit Obligation and Plan Assets. ASU 2015-12 was adopted for the year ended December 31, 2015 and applied retrospectively to all periods presented. The adoption did not have a material impact on our financial statements. Upon adoption of ASU 2015-12, fully benefit-responsive investment contracts are measured, presented and disclosed only at contract value.

Evaluation of Subsequent Events

Plan management has evaluated subsequent events through October 6, 2016, which is the date the financial statements were available to be issued. On August 29, 2016, the Company's parent announced that a definitive agreement has been finalized for the Company's parent to be acquired by Zhongwang USA LLC. Management believes that this transaction should have no impact on the Plan.

3. Investments and Notes Receivable from Participants (unaudited)

All investment information disclosed in the accompanying financial statements and supplemental schedule, including investments held, and notes receivable from participants at December 31, 2015 and 2014, and net appreciation in fair value of investments, interest and dividends and interest income on notes receivable from participants for the year ended December 31, 2015, was obtained or derived from information provided to the plan administrator and certified as complete and accurate by the Trustee.

4. Fair Value Measurements

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value hierarchy distinguishes between (1) market participant assumptions developed based on market data obtained from independent sources (observable inputs) and (2) an entity's own assumptions about market participant assumptions developed based on the best information available in the circumstances (unobservable inputs). The fair value hierarchy consists of three broad levels, which gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy in ASC 820 are described in Note 2.

The level in the fair value hierarchy within which the fair value measurement is classified is determined based on the lowest level input that is significant to the fair value measure in its entirety. Following is a description of the valuation techniques and inputs used for each major class of assets measured at fair value.

Mutual funds: Valued at quoted prices from an active market which represents the net asset value of shares held by the Plan at year-end and are classified within Level 1 of the fair value hierarchy.

Pooled separate accounts: Valued at fair value estimated by the issuer, which has been determined based on the unit values of the fund which are determined by dividing the fund's net assets at fair value by its units outstanding at the valuation date.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Notes to Financial Statements (continued)

- (a) **Large U.S. equity:** This asset class is generally comprised of investment options that invest in stocks, or shares of ownership in large, well-established, U.S. companies. These investment options typically carry more risk than fixed income investment options but have the potential for higher returns over longer time periods. They may be an appropriate choice for long-term investors who are seeking the potential for growth. There are no redemption restrictions or unfunded commitments on this investment. The Plan has the ability to redeem the investment at the NAV (or its equivalent) in the near term.
- (b) **International equity:** This asset class is comprised of investment options that invest in stocks, or shares of ownership in companies with their principal place of business or office outside the United States. These investment options often carry more risk than U.S. equity investment options but may have the potential for higher returns. They may be an appropriate choice for long-term investors who are seeking the potential for growth. There are no redemption restrictions or unfunded commitments on this investment. The Plan has the ability to redeem the investment at the NAV (or its equivalent) in the near term.
- (c) **Fixed income:** This asset class is generally comprised of investment options that invest in bonds, or debt of a company or government entity (including U.S. and Non-U.S.). It may also include real estate investment options that directly own property. These investment options typically carry more risk than short-term fixed income investment options (including, for real estate investment options, liquidity risk), but less overall risk than equities. There are no redemption restrictions or unfunded commitments on this investment. The Plan has the ability to redeem the investment at the NAV (or its equivalent) in the near term.
- (d) **Balanced funds:** This asset class is generally comprised of a combination of fixed income and equity investment options. These investment options may include balanced, asset allocation, target-date, and target-risk investment options. There are no redemption restrictions or unfunded commitments on this investment. The Plan has the ability to redeem the investment at the NAV (or its equivalent) in the near term.

The Plan Sponsor's Benefits Committee is responsible for determining the Plan's valuation policies and analyzing information provided by the investment Trustee and issuers that is used to determine the fair value of the Plan's investments. The Plan Sponsor's Benefits Committee is comprised of various members of the Plan Sponsor's management (including the Plan Sponsor's Chief Financial Officer, General Counsel and Executive Vice President, and Chief Human Resources Officer) and reports to the Plan Sponsor's Board of Directors. The Plan Sponsor also has established policies and procedures that relate to the approval of all new Level 3 assets.

5. Investment Contract With Insurance Company

The Principal Contract is included in the financial statements at contract value as reported to the Plan by the Trustee. Contract value represents contributions made to the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The guaranteed investment contract issuer is contractually obligated to repay the principal and interest based on a specified interest rate that is guaranteed to the Plan. As described in Note 2, because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for the guaranteed investment contract. The Principal Contract's total gains, including interest credited, are reported within the "interest and dividends" line item in the Statement of Changes in Net Assets Available for Benefits.

Aleris 401(k) Plan
Notes to Financial Statements (continued)

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than 0.0 percent. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan Sponsor or other Plan Sponsor events (for example, divestitures or spin-offs of a subsidiary), either of which cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

The Principal Contract does not permit Principal to terminate the agreement prior to the scheduled maturity date.

The table below sets forth the average yield earned by the Plan for the Principal Contract:

<u>Average yields:</u>	<u>December 31,</u>	
	<u>2015</u>	<u>2014</u>
Based on the interest rate credited to participants	0.48%	0.50%

6. Administrative Expenses

All administrative expenses are paid by the Plan, except for audit fees that are paid by the Plan Sponsor.

7. Tax Status

The IRS determined and informed the Company by a letter dated June 12, 2013, that the Plan and related trust were designed in accordance with applicable sections of the Internal Revenue Code (the "Code"). Once qualified, the Plan is required to operate in conformity with the Code to maintain qualification. The Plan administrator and the Plan's tax counsel believe the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes the Plan, as amended and restated, is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States require plan management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2015 and 2014, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

8. Transactions With Parties-in-Interest

Several investments of the Plan are investment funds managed by the Trustee. Purchases and sales of investment units of such funds qualify as party-in-interest transactions, as defined by ERISA. Loans to participants are also considered party-in-interest transactions as such participants are employed by the Plan Sponsor. These party-in-interest transactions are exempt from the prohibited rules under ERISA.
