(1) Description of Plan

The following description of the Vi Retirement Plan (the Plan) (formerly known as the Classic Residence by Hyatt Retirement Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions. The Plan was adopted on January 1, 1990.

(a) General

The Plan is a defined contribution plan sponsored by Classic Residence Management Limited Partnership and affiliated participating corporations (the Plan Sponsor) and covers substantially all employees who have attained age 21 and completed two months of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Board of Directors is responsible for oversight of the Plan. The Retirement Committee determines the appropriateness of the Plan's investment offerings, monitors investment performance and reports to the Plan's Board of Directors.

During 2011, certain affiliated operating communities of Classic Residence Management Limited Partnership entered into a purchase agreement to sell certain assets and liabilities to an unrelated party. Of the nine affiliated communities, eight closed on the sale during 2011 and one closed on the sale during 2012. As a result of this sale, the participants from the nine affiliates that were sold became fully vested in employer-matching contributions.

(b) Payment of Benefits

In the event of a participant's termination of employment by reason of voluntary or involuntary severance of employment, death, disability, or retirement, the participant shall be immediately entitled to their benefits under the Plan. Benefits are recorded when paid.

(c) Vesting of Benefits

Participants are immediately vested in their contributions, qualified nonelective contributions, and rollover account balances plus actual earnings thereon. Effective January 1, 2007, employer-matching contributions become 100% vested after three years of service. Prior to completion of three years of service, employer-matching contributions are 0% vested.

Effective January 1, 2013, the three year vesting period no longer applies to the employer-matching contributions that are made for 2013 employee contributions, and the new employer-matching contributions become 100% vested immediately. The three year vesting period will still apply to the employer-match for plan years prior to 2013.

Forfeitures are applied to reduce company contributions to the Plan. At December 31, 2015 and 2014, forfeited nonvested accounts totaled $4,256 and $4,111, respectively. Forfeitures used to reduce employer contributions were $182,200 in 2015.

(d) Contributions and Funding Policy

Eligible participants can enroll in the Plan once age and service requirements are met. Plan participants may contribute up to 25% of pretax annual compensation, as defined in the Plan, or the Internal Revenue Service (IRS) limits of their compensation for each regular pay period. The limit for total participant contributions under IRS limits is $18,000 for 2015. The percentage election is made at the time of enrollment into the Plan, but may be changed or discontinued at any time. Prior to January 1, 2005, employer-matching contributions were equal to 50% of the first 3% of an employee's elective contribution and employer discretionary contributions were 3% of eligible participant compensation. Effective January 1, 2005, employer-matching contributions are equal to 100% of the first 4% of an employee's elective contribution. For every dollar in excess of 4% of a participant's salary and limited to 6% of a participant's salary, the employer matches each participant's contribution in an amount equal to 50% of the participant's deferral. Effective January 1, 2005, discretionary contributions are no longer allowed under the provisions of the Plan.

In 2012 and prior years, employer-matching contributions were funded subsequent to year-end in accordance with IRS regulations. Effective January 1, 2013, the Plan increased the frequency of the employer-matching contribution from an annual match to a per-pay period match with the employer-matching contributions being funded concurrently with remittance of employee deferrals to the Plan.

(e) Participant Accounts

Each participant's account is credited with the participant's contribution and an allocation of (a) the employers' contributions and (b) plan earnings. Allocations are based on participant account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers multiple investment options for participants, including mutual funds, money market funds, and fixed income funds.

(f) Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. Loan terms range from one to five years, with the exception of real estate loans, which may be longer. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates. Interest rates on participant loans range from 5.25% to 9.50% at December 31, 2015. Principal and interest are paid ratably through monthly payroll deductions and are credited to participants' accounts at that time. Participant loans are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2015 or 2014. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

(g) Administrative Expenses

Plan administrative expenses are charged across all participant accounts.

(2) Summary of Significant Accounting Policies

(a) Basis of Presentation

The financial statements of the Plan have been prepared on the accrual basis of accounting.

In May 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2015-07, *Fair Value Measurement (Topic 820), Disclosures for Investment in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)*. ASU 2015-07 removes the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value (NAV) per share practical expedient. It also removes the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the net asset value per share practical expedient. The requirements of the standard are effective for reporting periods in fiscal years that begin after December 13, 2016, with early adoption permitted. ASU 2015-07 is to be applied retrospectively. The Plan has elected to early adopt ASU 2015-07, to reduce the complexity of reporting investments. There was no impact on the financial statements.

In June 2015, the FASB issued Accounting Standards Update (ASU) 2015-10, *Technical Corrections and Improvements*. This guidance included amendments to the definition of readily determinable fair value (RDFV) and clarified that investments in both mutual funds and investments in structures similar to mutual funds have a RDFV when certain criteria are met. The Plan adopted the provisions of ASU 2015-10 during the annual reporting period beginning January 1, 2015 and applied retrospectively to fiscal year 2014.

During the year, Plan management re-evaluated the Plan's investments as to whether they have a readily determinable fair value. Based on that re-evaluation, certain accounting policy and NAV disclosures have been revised. Plan management has adjusted the disclosed 2014 fair value hierarchy leveling table to reflect the correction of the error of investments reported as Level 2 to be reclassified as Level 1 investments. Plan management assessed the effect of the correction on the 2014 financial statements, and determined it to be immaterial.

In July 2015, the FASB issued ASU No. 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient*. Part I eliminates the requirements to measure the fair value of fully benefit-responsive investment contracts and provide certain disclosures. Contract value is the only required measure for fully benefit-responsive investment contracts. Part II eliminates the requirements to disclose individual investments that represent 5% or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. Part II also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general

type; however, plans are no longer required to also disaggregate investments by nature, characteristics, and risks. Further, the disclosure of information about fair value measurements shall be provided by general type of plan asset. Part III is not applicable to the Plan. The ASU is effective for fiscal years beginning after December 15, 2015, with early adoption permitted. Parts I and II are to be applied retrospectively. Management has elected to early adopt Parts I and II, as allowed by the standard, to reduce the complexity of reporting investments. The adoption resulted in the elimination of measuring any fully benefit-responsive investments at fair value and certain disclosures noted above. There was no impact on the financial statements.

(b) Use of Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein and the disclosure of contingent assets and liabilities. Estimates also affect the reported amount of increases and decreases to net assets available for benefits during the reporting period. Actual results could differ from those estimates.

(c) Investments

The investments of the Plan are held in trust by Wells Fargo Trust Operations (the Custodian of the Plan) and are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation includes the Plan's realized gains and losses on investments bought and sold as well as held during the year.

(d) Reclassifications

Certain 2014 amounts have been reclassified to conform to the 2015 financial statement presentation.

(e) Subsequent Events

In connection with the preparation of the financial statements and in accordance with ASC Topic 855, *Subsequent Events*, the Plan has evaluated subsequent events through October 7, 2016, which was the date the financial statements were available to be issued.

(3) Information Certified by the Custodian

The Plan Sponsor has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Certain information related to investments and notes receivable from participants disclosed in the accompanying financial statements and supplemental schedule, including investments and notes receivable from participants held at December 31, 2015 and 2014, and net depreciation in fair value of investments, interest income on notes receivable from participants, and dividend income for the year ended December 31, 2015, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by Wells Fargo Trust Operations (the Custodian of the Plan).

Certain plan investments are shares of mutual funds managed by the Custodian; therefore, these transactions qualify as party-in-interest transactions.

(4) Related-Party Transactions

Certain plan investment options are managed by the Custodian of the Plan, whereby these transactions qualify as party in interest. Fees charged to the Plan by the Custodian during the year ended December 31, 2015 $35,815.

(5) Plan Termination

Although it has not expressed any intent to do so, the Plan's sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts.

(6) Fair Value Measurements

The Plan applies the provisions of ASC Subtopic 820-10, *Fair Value Measurements and Disclosures – Overall*, for fair value measurements of financial assets and financial liabilities and for fair value measurements of nonfinancial items that are recognized or disclosed at fair value in the financial statements on a recurring basis. ASC Subtopic 820-10 establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to measurements involving significant unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are as follows:

Level 1 – inputs to the valuation methodology are quoted prices (unadjusted) in active markets for identical assets or liabilities that the Plan has the ability to access the measurement date.

Level 2 – inputs are observable inputs to the valuation methodology other than Level 1 prices such as quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – inputs to the valuation methodology are unobservable and significant inputs for the asset or liability.

The Plan recognizes transfers between levels of the hierarchy on the date of transfer (note 2(a)).

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2015:

	Total	Quoted prices in active markets for identical assets (Level 1)	Significant other observable inputs (Level 2)	Significant unobservable inputs (Level 3)
Net assets available for benefits:				
Mutual funds	$ 46,640,304	46,640,304	—	—
Common collective fund	13,379,208	13,379,208	—	—
	$ 60,019,512	60,019,512	—	—

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2014:

	Total	Quoted prices in active markets for identical assets (Level 1)	Significant other observable inputs (Level 2)	Significant unobservable inputs (Level 3)
Net assets available for benefits (excluding cash and cash equivalents of $5,984):				
Mutual fund	$ 43,918,849	43,918,849	—	—
Common collective fund	12,113,497	12,113,497	—	—
	$ 56,032,346	56,032,346	—	—

(7) Tax Status

The Plan received an IRS opinion letter dated March 31, 2008 related to the Plan prototype, indicating that it is qualified under Section 401(a) of the Internal Revenue Code (IRC), and therefore, the Plan is exempt from tax under Section 501(a) of the IRC. Although the Plan has been amended since receiving the opinion letter, the plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2015, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2012.

(8) Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risk such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

(1) Description of Plan

The following description of the Vi Retirement Plan (the Plan) (formerly known as the Classic Residence by Hyatt Retirement Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions. The Plan was adopted on January 1, 1990.

(a) General

The Plan is a defined contribution plan sponsored by Classic Residence Management Limited Partnership and affiliated participating corporations (the Plan Sponsor) and covers substantially all employees who have attained age 21 and completed two months of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Board of Directors is responsible for oversight of the Plan. The Retirement Committee determines the appropriateness of the Plan's investment offerings, monitors investment performance and reports to the Plan's Board of Directors.

During 2011, certain affiliated operating communities of Classic Residence Management Limited Partnership entered into a purchase agreement to sell certain assets and liabilities to an unrelated party. Of the nine affiliated communities, eight closed on the sale during 2011 and one closed on the sale during 2012. As a result of this sale, the participants from the nine affiliates that were sold became fully vested in employer-matching contributions.

(b) Payment of Benefits

In the event of a participant's termination of employment by reason of voluntary or involuntary severance of employment, death, disability, or retirement, the participant shall be immediately entitled to their benefits under the Plan. Benefits are recorded when paid.

(c) Vesting of Benefits

Participants are immediately vested in their contributions, qualified nonelective contributions, and rollover account balances plus actual earnings thereon. Effective January 1, 2007, employer-matching contributions become 100% vested after three years of service. Prior to completion of three years of service, employer-matching contributions are 0% vested.

Effective January 1, 2013, the three year vesting period no longer applies to the employer-matching contributions that are made for 2013 employee contributions, and the new employer-matching contributions become 100% vested immediately. The three year vesting period will still apply to the employer-match for plan years prior to 2013.

Forfeitures are applied to reduce company contributions to the Plan. At December 31, 2015 and 2014, forfeited nonvested accounts totaled $4,256 and $4,111, respectively. Forfeitures used to reduce employer contributions were $182,200 in 2015.

(d) Contributions and Funding Policy

Eligible participants can enroll in the Plan once age and service requirements are met. Plan participants may contribute up to 25% of pretax annual compensation, as defined in the Plan, or the Internal Revenue Service (IRS) limits of their compensation for each regular pay period. The limit for total participant contributions under IRS limits is $18,000 for 2015. The percentage election is made at the time of enrollment into the Plan, but may be changed or discontinued at any time. Prior to January 1, 2005, employer-matching contributions were equal to 50% of the first 3% of an employee's elective contribution and employer discretionary contributions were 3% of eligible participant compensation. Effective January 1, 2005, employer-matching contributions are equal to 100% of the first 4% of an employee's elective contribution. For every dollar in excess of 4% of a participant's salary and limited to 6% of a participant's salary, the employer matches each participant's contribution in an amount equal to 50% of the participant's deferral. Effective January 1, 2005, discretionary contributions are no longer allowed under the provisions of the Plan.

In 2012 and prior years, employer-matching contributions were funded subsequent to year-end in accordance with IRS regulations. Effective January 1, 2013, the Plan increased the frequency of the employer-matching contribution from an annual match to a per-pay period match with the employer-matching contributions being funded concurrently with remittance of employee deferrals to the Plan.

(e) Participant Accounts

Each participant's account is credited with the participant's contribution and an allocation of (a) the employers' contributions and (b) plan earnings. Allocations are based on participant account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers multiple investment options for participants, including mutual funds, money market funds, and fixed income funds.

(f) Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. Loan terms range from one to five years, with the exception of real estate loans, which may be longer. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates. Interest rates on participant loans range from 5.25% to 9.50% at December 31, 2015. Principal and interest are paid ratably through monthly payroll deductions and are credited to participants' accounts at that time. Participant loans are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2015 or 2014. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

(g) Administrative Expenses

Plan administrative expenses are charged across all participant accounts.

(2) Summary of Significant Accounting Policies

(a) Basis of Presentation

The financial statements of the Plan have been prepared on the accrual basis of accounting.

In May 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2015-07, *Fair Value Measurement (Topic 820), Disclosures for Investment in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)*. ASU 2015-07 removes the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value (NAV) per share practical expedient. It also removes the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the net asset value per share practical expedient. The requirements of the standard are effective for reporting periods in fiscal years that begin after December 13, 2016, with early adoption permitted. ASU 2015-07 is to be applied retrospectively. The Plan has elected to early adopt ASU 2015-07, to reduce the complexity of reporting investments. There was no impact on the financial statements.

In June 2015, the FASB issued Accounting Standards Update (ASU) 2015-10, *Technical Corrections and Improvements*. This guidance included amendments to the definition of readily determinable fair value (RDFV) and clarified that investments in both mutual funds and investments in structures similar to mutual funds have a RDFV when certain criteria are met. The Plan adopted the provisions of ASU 2015-10 during the annual reporting period beginning January 1, 2015 and applied retrospectively to fiscal year 2014.

During the year, Plan management re-evaluated the Plan's investments as to whether they have a readily determinable fair value. Based on that re-evaluation, certain accounting policy and NAV disclosures have been revised. Plan management has adjusted the disclosed 2014 fair value hierarchy leveling table to reflect the correction of the error of investments reported as Level 2 to be reclassified as Level 1 investments. Plan management assessed the effect of the correction on the 2014 financial statements, and determined it to be immaterial.

In July 2015, the FASB issued ASU No. 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient*. Part I eliminates the requirements to measure the fair value of fully benefit-responsive investment contracts and provide certain disclosures. Contract value is the only required measure for fully benefit-responsive investment contracts. Part II eliminates the requirements to disclose individual investments that represent 5% or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. Part II also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general

type; however, plans are no longer required to also disaggregate investments by nature, characteristics, and risks. Further, the disclosure of information about fair value measurements shall be provided by general type of plan asset. Part III is not applicable to the Plan. The ASU is effective for fiscal years beginning after December 15, 2015, with early adoption permitted. Parts I and II are to be applied retrospectively. Management has elected to early adopt Parts I and II, as allowed by the standard, to reduce the complexity of reporting investments. The adoption resulted in the elimination of measuring any fully benefit-responsive investments at fair value and certain disclosures noted above. There was no impact on the financial statements.

(b) Use of Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein and the disclosure of contingent assets and liabilities. Estimates also affect the reported amount of increases and decreases to net assets available for benefits during the reporting period. Actual results could differ from those estimates.

(c) Investments

The investments of the Plan are held in trust by Wells Fargo Trust Operations (the Custodian of the Plan) and are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation includes the Plan's realized gains and losses on investments bought and sold as well as held during the year.

(d) Reclassifications

Certain 2014 amounts have been reclassified to conform to the 2015 financial statement presentation.

(e) Subsequent Events

In connection with the preparation of the financial statements and in accordance with ASC Topic 855, *Subsequent Events*, the Plan has evaluated subsequent events through October 7, 2016, which was the date the financial statements were available to be issued.

(3) Information Certified by the Custodian

The Plan Sponsor has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Certain information related to investments and notes receivable from participants disclosed in the accompanying financial statements and supplemental schedule, including investments and notes receivable from participants held at December 31, 2015 and 2014, and net depreciation in fair value of investments, interest income on notes receivable from participants, and dividend income for the year ended December 31, 2015, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by Wells Fargo Trust Operations (the Custodian of the Plan).

Certain plan investments are shares of mutual funds managed by the Custodian; therefore, these transactions qualify as party-in-interest transactions.

(4) Related-Party Transactions

Certain plan investment options are managed by the Custodian of the Plan, whereby these transactions qualify as party in interest. Fees charged to the Plan by the Custodian during the year ended December 31, 2015 $35,815.

(5) Plan Termination

Although it has not expressed any intent to do so, the Plan's sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts.

(6) Fair Value Measurements

The Plan applies the provisions of ASC Subtopic 820-10, *Fair Value Measurements and Disclosures – Overall*, for fair value measurements of financial assets and financial liabilities and for fair value measurements of nonfinancial items that are recognized or disclosed at fair value in the financial statements on a recurring basis. ASC Subtopic 820-10 establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to measurements involving significant unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are as follows:

Level 1 – inputs to the valuation methodology are quoted prices (unadjusted) in active markets for identical assets or liabilities that the Plan has the ability to access the measurement date.

Level 2 – inputs are observable inputs to the valuation methodology other than Level 1 prices such as quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – inputs to the valuation methodology are unobservable and significant inputs for the asset or liability.

The Plan recognizes transfers between levels of the hierarchy on the date of transfer (note 2(a)).

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2015:

	Total	Quoted prices in active markets for identical assets (Level 1)	Significant other observable inputs (Level 2)	Significant unobservable inputs (Level 3)
Net assets available for benefits:				
Mutual funds	$ 46,640,304	46,640,304	—	—
Common collective fund	13,379,208	13,379,208	—	—
	$ 60,019,512	60,019,512	—	—

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2014:

	Total	Quoted prices in active markets for identical assets (Level 1)	Significant other observable inputs (Level 2)	Significant unobservable inputs (Level 3)
Net assets available for benefits (excluding cash and cash equivalents of $5,984):				
Mutual fund	$ 43,918,849	43,918,849	—	—
Common collective fund	12,113,497	12,113,497	—	—
	$ 56,032,346	56,032,346	—	—

(7) Tax Status

The Plan received an IRS opinion letter dated March 31, 2008 related to the Plan prototype, indicating that it is qualified under Section 401(a) of the Internal Revenue Code (IRC), and therefore, the Plan is exempt from tax under Section 501(a) of the IRC. Although the Plan has been amended since receiving the opinion letter, the plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2015, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2012.

(8) Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risk such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

(1) Description of Plan

The following description of the Vi Retirement Plan (the Plan) (formerly known as the Classic Residence by Hyatt Retirement Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions. The Plan was adopted on January 1, 1990.

(a) General

The Plan is a defined contribution plan sponsored by Classic Residence Management Limited Partnership and affiliated participating corporations (the Plan Sponsor) and covers substantially all employees who have attained age 21 and completed two months of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Board of Directors is responsible for oversight of the Plan. The Retirement Committee determines the appropriateness of the Plan's investment offerings, monitors investment performance and reports to the Plan's Board of Directors.

During 2011, certain affiliated operating communities of Classic Residence Management Limited Partnership entered into a purchase agreement to sell certain assets and liabilities to an unrelated party. Of the nine affiliated communities, eight closed on the sale during 2011 and one closed on the sale during 2012. As a result of this sale, the participants from the nine affiliates that were sold became fully vested in employer-matching contributions.

(b) Payment of Benefits

In the event of a participant's termination of employment by reason of voluntary or involuntary severance of employment, death, disability, or retirement, the participant shall be immediately entitled to their benefits under the Plan. Benefits are recorded when paid.

(c) Vesting of Benefits

Participants are immediately vested in their contributions, qualified nonelective contributions, and rollover account balances plus actual earnings thereon. Effective January 1, 2007, employer-matching contributions become 100% vested after three years of service. Prior to completion of three years of service, employer-matching contributions are 0% vested.

Effective January 1, 2013, the three year vesting period no longer applies to the employer-matching contributions that are made for 2013 employee contributions, and the new employer-matching contributions become 100% vested immediately. The three year vesting period will still apply to the employer-match for plan years prior to 2013.

Forfeitures are applied to reduce company contributions to the Plan. At December 31, 2015 and 2014, forfeited nonvested accounts totaled $4,256 and $4,111, respectively. Forfeitures used to reduce employer contributions were $182,200 in 2015.

(d) Contributions and Funding Policy

Eligible participants can enroll in the Plan once age and service requirements are met. Plan participants may contribute up to 25% of pretax annual compensation, as defined in the Plan, or the Internal Revenue Service (IRS) limits of their compensation for each regular pay period. The limit for total participant contributions under IRS limits is $18,000 for 2015. The percentage election is made at the time of enrollment into the Plan, but may be changed or discontinued at any time. Prior to January 1, 2005, employer-matching contributions were equal to 50% of the first 3% of an employee's elective contribution and employer discretionary contributions were 3% of eligible participant compensation. Effective January 1, 2005, employer-matching contributions are equal to 100% of the first 4% of an employee's elective contribution. For every dollar in excess of 4% of a participant's salary and limited to 6% of a participant's salary, the employer matches each participant's contribution in an amount equal to 50% of the participant's deferral. Effective January 1, 2005, discretionary contributions are no longer allowed under the provisions of the Plan.

In 2012 and prior years, employer-matching contributions were funded subsequent to year-end in accordance with IRS regulations. Effective January 1, 2013, the Plan increased the frequency of the employer-matching contribution from an annual match to a per-pay period match with the employer-matching contributions being funded concurrently with remittance of employee deferrals to the Plan.

(e) Participant Accounts

Each participant's account is credited with the participant's contribution and an allocation of (a) the employers' contributions and (b) plan earnings. Allocations are based on participant account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers multiple investment options for participants, including mutual funds, money market funds, and fixed income funds.

(f) Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. Loan terms range from one to five years, with the exception of real estate loans, which may be longer. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates. Interest rates on participant loans range from 5.25% to 9.50% at December 31, 2015. Principal and interest are paid ratably through monthly payroll deductions and are credited to participants' accounts at that time. Participant loans are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2015 or 2014. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

(g) Administrative Expenses

Plan administrative expenses are charged across all participant accounts.

(2) Summary of Significant Accounting Policies

(a) Basis of Presentation

The financial statements of the Plan have been prepared on the accrual basis of accounting.

In May 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2015-07, *Fair Value Measurement (Topic 820), Disclosures for Investment in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)*. ASU 2015-07 removes the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value (NAV) per share practical expedient. It also removes the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the net asset value per share practical expedient. The requirements of the standard are effective for reporting periods in fiscal years that begin after December 13, 2016, with early adoption permitted. ASU 2015-07 is to be applied retrospectively. The Plan has elected to early adopt ASU 2015-07, to reduce the complexity of reporting investments. There was no impact on the financial statements.

In June 2015, the FASB issued Accounting Standards Update (ASU) 2015-10, *Technical Corrections and Improvements*. This guidance included amendments to the definition of readily determinable fair value (RDFV) and clarified that investments in both mutual funds and investments in structures similar to mutual funds have a RDFV when certain criteria are met. The Plan adopted the provisions of ASU 2015-10 during the annual reporting period beginning January 1, 2015 and applied retrospectively to fiscal year 2014.

During the year, Plan management re-evaluated the Plan's investments as to whether they have a readily determinable fair value. Based on that re-evaluation, certain accounting policy and NAV disclosures have been revised. Plan management has adjusted the disclosed 2014 fair value hierarchy leveling table to reflect the correction of the error of investments reported as Level 2 to be reclassified as Level 1 investments. Plan management assessed the effect of the correction on the 2014 financial statements, and determined it to be immaterial.

In July 2015, the FASB issued ASU No. 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient*. Part I eliminates the requirements to measure the fair value of fully benefit-responsive investment contracts and provide certain disclosures. Contract value is the only required measure for fully benefit-responsive investment contracts. Part II eliminates the requirements to disclose individual investments that represent 5% or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. Part II also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general

type; however, plans are no longer required to also disaggregate investments by nature, characteristics, and risks. Further, the disclosure of information about fair value measurements shall be provided by general type of plan asset. Part III is not applicable to the Plan. The ASU is effective for fiscal years beginning after December 15, 2015, with early adoption permitted. Parts I and II are to be applied retrospectively. Management has elected to early adopt Parts I and II, as allowed by the standard, to reduce the complexity of reporting investments. The adoption resulted in the elimination of measuring any fully benefit-responsive investments at fair value and certain disclosures noted above. There was no impact on the financial statements.

(b) Use of Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein and the disclosure of contingent assets and liabilities. Estimates also affect the reported amount of increases and decreases to net assets available for benefits during the reporting period. Actual results could differ from those estimates.

(c) Investments

The investments of the Plan are held in trust by Wells Fargo Trust Operations (the Custodian of the Plan) and are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation includes the Plan's realized gains and losses on investments bought and sold as well as held during the year.

(d) Reclassifications

Certain 2014 amounts have been reclassified to conform to the 2015 financial statement presentation.

(e) Subsequent Events

In connection with the preparation of the financial statements and in accordance with ASC Topic 855, *Subsequent Events*, the Plan has evaluated subsequent events through October 7, 2016, which was the date the financial statements were available to be issued.

(3) Information Certified by the Custodian

The Plan Sponsor has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Certain information related to investments and notes receivable from participants disclosed in the accompanying financial statements and supplemental schedule, including investments and notes receivable from participants held at December 31, 2015 and 2014, and net depreciation in fair value of investments, interest income on notes receivable from participants, and dividend income for the year ended December 31, 2015, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by Wells Fargo Trust Operations (the Custodian of the Plan).

Certain plan investments are shares of mutual funds managed by the Custodian; therefore, these transactions qualify as party-in-interest transactions.

(4) Related-Party Transactions

Certain plan investment options are managed by the Custodian of the Plan, whereby these transactions qualify as party in interest. Fees charged to the Plan by the Custodian during the year ended December 31, 2015 $35,815.

(5) Plan Termination

Although it has not expressed any intent to do so, the Plan's sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts.

(6) Fair Value Measurements

The Plan applies the provisions of ASC Subtopic 820-10, *Fair Value Measurements and Disclosures – Overall*, for fair value measurements of financial assets and financial liabilities and for fair value measurements of nonfinancial items that are recognized or disclosed at fair value in the financial statements on a recurring basis. ASC Subtopic 820-10 establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to measurements involving significant unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are as follows:

Level 1 – inputs to the valuation methodology are quoted prices (unadjusted) in active markets for identical assets or liabilities that the Plan has the ability to access the measurement date.

Level 2 – inputs are observable inputs to the valuation methodology other than Level 1 prices such as quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – inputs to the valuation methodology are unobservable and significant inputs for the asset or liability.

The Plan recognizes transfers between levels of the hierarchy on the date of transfer (note 2(a)).

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2015:

	Total	Quoted prices in active markets for identical assets (Level 1)	Significant other observable inputs (Level 2)	Significant unobservable inputs (Level 3)
Net assets available for benefits:				
Mutual funds	$ 46,640,304	46,640,304	—	—
Common collective fund	13,379,208	13,379,208	—	—
	$ 60,019,512	60,019,512	—	—

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2014:

	Total	Quoted prices in active markets for identical assets (Level 1)	Significant other observable inputs (Level 2)	Significant unobservable inputs (Level 3)
Net assets available for benefits (excluding cash and cash equivalents of $5,984):				
Mutual fund	$ 43,918,849	43,918,849	—	—
Common collective fund	12,113,497	12,113,497	—	—
	$ 56,032,346	56,032,346	—	—

(7) Tax Status

The Plan received an IRS opinion letter dated March 31, 2008 related to the Plan prototype, indicating that it is qualified under Section 401(a) of the Internal Revenue Code (IRC), and therefore, the Plan is exempt from tax under Section 501(a) of the IRC. Although the Plan has been amended since receiving the opinion letter, the plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2015, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2012.

(8) Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risk such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
