The Absinthe Group, Inc. 401(k) Plan

Notes to Financial Statements

Note 1 - Plan Description:

The following description of The Absinthe Group, Inc. 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

a. General

The Plan, a prototype defined contribution plan, was established January 1, 1999 by The Absinthe Group, Inc. (the Company and the Plan Administrator). The Plan was designed to provide participants with a means to defer a portion of their compensation for retirement funds and to provide benefits in the event of disability, death, or financial hardship. The Plan was most recently amended effective July 1, 2012. See also Note 2(g) relating to a new adoption agreement.

The Plan Administrator believes that the Plan is currently designed and operated in compliance with the applicable requirements of the Internal Revenue Code and the provisions of the Employee Retirement Income Security Act of 1974 (ERISA) as amended.

b. Eligibility

All employees who have completed a year of service (1,000 hours) with a minimum age of 21, except those covered by a collective bargaining agreement and nonresident aliens, are eligible to enroll in the Plan on the first day of the 1st and 7th month of the Plan year after they have met the eligibility service requirement and minimum age requirement.

c. Contributions

Employees may make contributions to the Plan on a pre-tax basis not to exceed the amount allowable under current income tax regulations. Employees who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Roth contributions are not allowed. Participants may also rollover amounts representing distributions from other qualified plans.

Employer matching and profit sharing contributions are discretionary. For the year ended December 31, 2015, employer matching contributions are calculated at 100% of each participant's contribution up to 3% of compensation.

Employees are eligible to share in the employer profit sharing contribution if employed on the last day of the Plan year and completed at least 1,000 hours of service during the Plan year. Each eligible participant will be allocated a percentage of the employer profit sharing contribution based on their compensation as compared to the total compensation of all participants eligible to share in the employer profit sharing contribution. There were no profit sharing contributions for the year ended December 31, 2015.

d. Payment of Benefits

Upon termination of employment due to retirement, disability, or death, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested account. The Plan allows for automatic distributions of the terminated participants' entire vested account balances not exceeding $1,000.

A participant may elect to defer payment of benefits unless a distribution is required to be made because the participant's vested account balance does not exceed $1,000. If a participant is a 5% owner, distributions are required to begin not later than the April 1st following the end of the year in which the participant reaches age 70 ½. If a participant is not a 5% owner, distributions are required to begin not later than the April 1st following the later of the end of the year in which the participant reaches age 70 ½ or retires.

In addition, the Plan allows for in-service distributions. A participant is eligible for an in-service distribution once they have reached the age of 59 ½ or qualify for a hardship withdrawal as outlined in the Plan document.

e. Participant Accounts

Each participant's account is credited with the participant's salary deferral contributions, the participant's qualified rollover contributions, the Company's discretionary contributions, if any, Plan earnings or losses thereon, and is charged with an allocation of administrative expenses. Allocations are based on participant compensation, account balances, or specific participant transactions, as defined. The benefit to which a participant balance is entitled is the benefit that can be provided from the participant's vested account.

f. Participant Investment Options

Upon enrollment in the Plan, a participant must direct employee and the Company's contributions in any of the selected investments as made available and determined by the Plan Administrator. Participants may change their investment options any time throughout the year (subject to specific limitations placed by certain investment funds) via the T. Rowe Price Retirement Plan Services' telephone system or Internet website.

g. Vesting

Participants are vested immediately in their employee contributions, including rollovers of funds from other qualified retirement plans and earnings thereon. The portion of the participants' accounts attributable to the Company's contributions has a six-year graded vesting schedule.

h. Forfeitures

Forfeitures are the non-vested portion of a participant's account that is lost upon termination of employment. Forfeitures are retained in the Plan and will first be used to pay plan administrative expenses, with any remaining amounts used to reduce future Company contributions. As of December 31, 2015 and 2014, forfeited non-vested accounts totaled $23,127 and $16,181, respectively.

i. Notes Receivable from Participants

The Plan allows participants to borrow not less than $1,000 and up to a maximum of the lesser of $50,000 or 50% of their vested account balances. The loans are secured by the participant's vested balance. Participants may have no more than two notes outstanding at any given time. Under the terms of the Plan, all loans shall bear a commercially reasonable rate of interest. As of December 31, 2015, the rates of interest on outstanding notes ranged from 4.25% to 8.25%.

j. Plan Trustee

State Street Bank and Trust Company is the Trustee of the Plan (the Trustee). Substantially all the Plan's assets are held by the Trustee as of December 31, 2015 and 2014.

k. Administrative Expenses

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. Certain other administrative expenses are paid directly by the Company.

Note 2 - Summary of Significant Accounting Policies:

a. Basis of Accounting

The financial statements of the Plan are prepared under the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

b. Investment Valuation and Income Recognition

Investments of the Plan are managed by State Street Bank and Trust Company (the Trustee) and invested based solely upon instructions received from participants. The Plan's investments are valued at fair value as of the last day of the Plan year. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividend income is recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

The market volatility of equity-based investments could substantially impact the value of such investments at any given time.

It is likely that the value of the Plan's investments, both in total and in individual participant accounts, has fluctuated since December 31, 2015.

Management fees and operating expenses charged to the Plan for investments are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of net appreciation (depreciation) in fair value of investments.

c. Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

d. Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balances plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. No allowance for credit losses has been recorded as of December 31, 2015 or 2014. Delinquent notes receivable from participants are recorded as a distribution based upon the terms of the Plan document.

e. Benefits to Participants

Benefits to participants are recorded when paid.

f. Recent Accounting Pronouncements

Adopted

In May 2015, the FASB issued ASU No. 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)*. The amendments in this update remove the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient.

However, sufficient information must be provided to permit reconciliation of the fair value of assets categorized within the fair value hierarchy to the amounts presented in the Statement of Net Assets Available for Plan Benefits. The amendments also remove the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the net asset value per share practical expedient. The amendments in this update are effective for public business entities for fiscal years beginning after December 15, 2015. For all other entities, the amendments in this update are effective for fiscal years beginning after December 15, 2016.

Early adoption is permitted. Upon adoption, the amendments shall be applied retrospectively to all periods presented. The adoption of this update in 2015 did not have a significant impact on the Plan's financial statements for 2015 and 2014.

In July 2015, the FASB issued ASU No. 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965) – (I) Fully Benefit-Responsive Investment Contracts, (II) Plan Investment Disclosures, and (III) Measurement Date Practical Expedient (a consensus of the FASB Emerging Issues Task Force)*. The purpose of this update is to simplify plan accounting.

The amendments in Part I of this update designate contract value as the only required measure for direct investments in fully benefit-responsive investment contracts. Fully benefit-responsive investment contracts will be presented at contract value; accordingly there will no longer be an adjustment from fair value to contract value on the face of the financial statements.

The amendments in Part II of this update will eliminate the requirements for plans to disclose (1) individual investments that represent 5 percent or more of net assets available for plan benefits and (2) the net appreciation or depreciation for investments by general type for both participant-directed investments and nonparticipant-directed investments. The net appreciation or depreciation in investments for the period will still be required to be presented in the aggregate. In addition, if an investment is measured using the net asset value per share (or its equivalent) practical expedient in Topic 820 and that investment is in a fund that files a U.S. Department of Labor Form 5500, *Annual Return/Report of Employee Benefit Plan,* as a direct filing entity, disclosure of that investment's strategy will no longer be required.

The amendments in Part III of this update reduce complexity in employee benefit plan accounting by providing a practical expedient that permits plans to measure investments and investment-related accounts as of a month-end date that is closest to the Plan's fiscal year-end, when the fiscal period does not coincide with month-end.

The update may be adopted in whole or by part (I, II, and III), as applicable. The amendments in this update are effective for fiscal years beginning after December 15, 2015. Early adoption is permitted. Upon adoption, the amendments in Parts I and II shall be applied retrospectively to all periods presented; the amendments in Part III shall be applied prospectively. The Plan adopted amendments of this update for the 2015 Plan year ended December 31, 2015, and the amendments in Part II were retrospectively applied to the 2014 Plan year ended December 31, 2014. Prior year disclosures have been revised to reflect the retrospective application. Part I and Part III did not have an impact on the Plan. The impact of adopting these amendments is reflected in the financial statements.

g. Subsequent Events

The Plan Administrator has evaluated subsequent events from December 31, 2015 through October 6, 2016, the date the financial statements were available to be issued, and except as disclosed below, there were no other material subsequent events that required recognition or additional disclosure in the financial statements.

On April 21, 2016 a new adoption agreement covering the Plan was signed and approved with no changes or updates from the previous agreement.

Note 3 - Information Certified by State Street Bank and Trust Company:

The following is a summary of the Plan's asset information as of December 31, 2015 and 2014, and for the year ended December 31, 2015, included throughout the Plan's financial statements and supplemental schedule, that was prepared by or derived from information certified by State Street Bank and Trust Company (the Trustee) and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the Trustee that information provided to the Plan Administrator by the Trustee related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule related to the following assets as of December 31:

	2015	2014
Investments, at fair value:		
Mutual funds	$ 2,092,623	$ 2,106,114
Notes receivable from participants	$ 69,568	$ 78,034

State Street Bank and Trust Company also certified to the completeness and accuracy of $(102,940) of net depreciation in fair value of investments, $107,497 of interest and dividends and $3,124 of interest income on notes receivable from participants, related to the aforementioned Plan assets for the year ended December 31, 2015.

Note 4 - Fair Value Measurements:

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs. The three levels of the fair value hierarchy under Topic 820 are described as follows:

Level 1: Inputs to the valuation methodology are quoted prices (unadjusted) in active markets for identical assets or liabilities in active markets that the Plan can access at the measurement date.

Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs that are unobservable inputs for the asset or liability.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Mutual Funds: Valued based on the net asset value (NAV) of shares of stock held by the Plan at year end.

These funds are considered open-end mutual funds, meaning that the fund is ready to redeem its shares at any time and offers its shares for sale to the public, either through retail outlets or through institutional investors continuously. For institutional funds, NAV's are received daily from fund managers, and the managers stand ready to transact at these quoted amounts.

The calculation of the NAV for funds composed of other funds (e.g., retirement target date funds) is essentially the same as the calculation of the NAV for any other fund: the total market value of assets across all underlying funds less any liabilities is divided by the outstanding shares. Again, this resulting NAV is published and/or the fund managers are ready to transact at the quoted prices.

The method described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2015, and 2014. Classification within the fair value hierarchy table is based on the lowest level of any input that is significant to the fair value measurement:

December 31, 2015	Level 1	Level 2	Level 3	Total
Mutual funds	$ 2,092,623			$ 2,092,623
Investments, at fair value	$ 2,092,623	$ -	$ -	$ 2,092,623

December 31, 2014	Level 1	Level 2	Level 3	Total
Mutual funds	$ 2,106,114			$ 2,106,114
Investments, at fair value	$ 2,106,114	$ -	$ -	$ 2,106,114

Note 6 - Plan Termination:

Although the Company has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

Note 7 - Tax Status:

The Plan adopted a prototype non-standardized defined contribution plan that has received a favorable opinion letter dated March 31, 2008 from the Internal Revenue Service stating that the form of the Plan qualifies under applicable provisions of the Internal Revenue Code. The Plan Administrator believes the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code and related state statutes, and the trust, which forms a part of the Plan, is tax exempt. Therefore, no provision for income taxes has been included in these financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan. Management evaluated the Plan's tax positions and concluded that the Plan had maintained its tax exempt status and had taken no uncertain tax positions that require recognition or disclosure in the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements.

Note 8 - Risks and Uncertainties:

The Plan provides for various investment options. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the nature of risks associated with investment securities, it is at least reasonably possible that changes in the level of risk in the near term would materially affect participants' account balances and the amounts reported in the statement of net assets available for plan benefits and the statement of changes in net assets available for plan benefits.

The following table presents the fair value of the participant directed single investments representing more than 10% of the Plan's net assets as of December 31, 2015 and 2014:

	2015	2014
T. Rowe Price Retirement 2015	$ 428,777	$ 413,216
T. Rowe Price Retirement 2020	$ 373,350	$ 353,841
T. Rowe Price Retirement 2030	$ 335,215	$ 322,392
T. Rowe Price Retirement 2035	$ 290,407	$ 351,325
T. Rowe Price Retirement 2045	$ 232,704	*

*****Not above 10% threshold

Note 9 - Party-in-Interest:

Certain Plan investments are managed by T. Rowe Price, an affiliate of State Street Bank and Trust. Any purchases and sales of these funds are open market transactions at fair market value. Such transactions, while considered party-in-interest transactions under ERISA regulations, are permitted under the provisions of the Plan and are specifically exempt from the prohibition of party-in-interest transactions under ERISA.
