EP RETIREMENT SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2015 and 2014

Note 1—Description of the plan

The following description of the EP Retirement Savings Plan (the “Plan”) is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan’s provisions.

General

The Plan is a defined contribution plan and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Substantially all hourly employees of EP Management Corporation (fka EaglePicher Corporation) and its subsidiaries (the Company) are eligible to participate in the Plan upon hire.

Contributions

Participants may elect to contribute up to 100% of their base compensation, or the maximum dollar amount allowed by law, as a pre-tax deferral. The Company makes a matching contribution equal to 50% of the first 6% of participant pre-tax deferral contributions.

The Company will make a special profit-sharing contribution to the Plan for each contribution period equal to \$1 for each straight time hour worked by each participant who is employed by EP Minerals and who is covered by a collective bargaining agreement between EP Minerals, LLC and Teamsters Chauffeurs, Warehousemen and Helpers and Professional, Clerical, Public and Miscellaneous Employees, Local Union No. 533 of Donner and the Tahoe Basin, Reno and Northern Nevada, Affiliated with the International Brotherhood of Teamsters, AFL-CIO, that provides for such contribution. Any special profit-sharing contribution made will be allocated to the account of each participant whose straight time hours were utilized to calculate the contribution and will be based ratably on the number of straight time hours performed by each participant.

Rollover contributions

Participants may contribute funds previously held for their account in another qualified employee benefit plan to the Plan. A participant shall be fully vested at all times in such amounts transferred into the Plan. Rollover contributions share in income and earnings under the terms of the Plan, but no employer contributions are made with respect to any rollover contributions.

Participant accounts

Individual accounts are maintained for each Plan participant. Each participant’s account is credited with the participant’s contribution and allocations of (a) the Company’s matching contribution, (b) Company discretionary contributions, and (c) Plan earnings (losses) and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s vested account.

EP RETIREMENT SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS – CONTINUED
December 31, 2015 and 2014

Note 1–Description of the plan–continued

Vesting

Participants are immediately vested in pre-tax deferral and rollover contributions plus actual earnings (losses) thereon. Participants will become vested in the Company's contributions plus actual earnings (losses) thereon upon being credited with three years of vested service.

Notes receivable from participants

Participants may borrow against their vested account balances a minimum of \$1,000 up to a maximum of the lesser of \$50,000 or 50% of the participant's vested account balance. Loans are secured by the vested balance in the participant's account and bear interest at rates commensurate with current interest rates charged for loans made under similar circumstances by lending institutions. The term of any loan shall not exceed five years, except in the case of a loan used to acquire any dwelling to be used as a primary residence.

Payment of benefits

On termination of service due to death, permanent disability, financial hardship, retirement or upon attainment of age 59 ½, a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account in either a lump-sum amount, or in annual installments over a fifteen year period. If the vested amount of the participant's account is \$1,000 or less, it will be paid out automatically in one lump-sum payment. Distributions must commence by March 31 of the calendar year following the calendar year the participant reaches age 70½ and has separated from service.

Forfeitures

When certain terminations of participation in the Plan occur, the nonvested portion of the participant's account, as defined by the Plan, represents a forfeiture. Forfeitures are used to reduce the Company's matching contributions or pay Plan expenses for the year. At December 31, 2015 and 2014, forfeited non-vested accounts totaled \$55,625 and \$87,729, respectively. These accounts will be used to reduce future matching contributions or Plan expenses.

Administrative expenses

The Plan's administrative costs are paid by either the Plan or the Company as provided by the Plan document.

Note 2–Significant accounting policies

Basis of accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

EP RETIREMENT SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS – CONTINUED
December 31, 2015 and 2014

Note 2—Significant accounting policies – continued

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based on the terms of the plan document.

Investment valuation and income recognition

Investment transactions are accounted for on a trade-date basis and realized gains and losses on sales of securities are determined using the average cost method. Income from investments is recognized when earned.

Purchases and sales of securities are recorded on a trade date basis. Interest income is rewarded on the accrual basis. Dividends are recorded on the ex-dividend basis.

The Plan has investments in common collective trust funds, which are comprised of fully benefit-responsive investment contracts. As described in Financial Accounting Standards Board Staff Position, FSP AAG INV-1 and SOP 94-4-1, Reporting of Fully Benefit-Responsive Investment Contracts Held by Certain Investment Companies Subject to the AICPA Investment Company Guide and Defined-Contribution Health and Welfare and Pension Plans (the “FSP”), investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement of attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. As required by FSP, the Statement of Net Assets available for Benefits presents the fair value of the investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Risks and uncertainties

The Plan utilizes various investment instruments, including mutual funds, common/collective trust funds, and investment contracts. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements.

Payment of benefits

Benefits are recorded when paid.

Income tax status

The Internal Revenue Service has determined and informed the Company by letter dated March 31, 2008 that the Plan and related trust are designed in accordance with applicable regulations of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter; however, the Company and the Plan Administrator believe that the Plan is currently designed and operated in compliance with the applicable requirements of the IRC and the Plan and related trust continue to be tax-exempt. Accordingly, no provision for income taxes has been included in the Plan’s financial statements.

EP RETIREMENT SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS – CONTINUED
December 31, 2015 and 2014

Note 2—Significant accounting policies – continued

Income tax status – continued

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2012.

Subsequent events

The Plan has evaluated all subsequent events through October 10, 2016, the date that the financial statements were available to be issued.

New Accounting Pronouncement

In July 2015, FASB issued Accounting Standards Update (ASU) 2015-12, Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part 1) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient. Part I clarifies fully benefit-responsive investment contracts are limited to direct investments between the Plan and the issuer. Part I also eliminates the requirements to measure the fair value of fully benefit-responsive investment contracts and provide certain disclosures. Contract value is the only required measurement for fully benefit-responsive investment contracts. Part II eliminates the requirements to disclose individual investments that represent five percent or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. Part II also simplifies the level of disaggregation of investments that are measured at fair value. Plans will continue to disaggregate investments that are measured at fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics, and risks. Further, the disclosure of information about fair value measurements should be provided by general type of plan asset. Part III is not applicable to the Plan. The ASU is effective for fiscal years beginning after December 15, 2015, with early adoption permitted. Parts I and II are to be applied retrospectively. The Plan Sponsor is evaluating the impact of this update but does not expect it will have a material effect on the Plan's financial statements.

Note 3—Investments

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Great-West Trust Company, LLC (Current Trustee) has certified that the following data, as of and for the period from May 1, 2015 to December 31, 2015, included in the accompanying financial statements is complete and accurate with respect to investments. Accordingly, Great-West Financial Retirement Plan Services, LLC, (Former Trustee) has certified that the following data, for the period from January 1, 2015 to April 30, 2015 and as of December 31, 2014, included in the accompanying financial statements is complete and accurate with respect to investments.

- Investments
- Net appreciation in fair value of investments
- Interest and other income
- Schedule of assets (held at end of year)

The Plan's independent public accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

Note 4—Fair value measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under Financial Accounting Standards Board Accounting Standards Codification Topic, Fair Value Measurement, are described as follows:

Level 1. Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2. Inputs to the valuation methodology include:

- a. Quoted prices for similar assets or liabilities in active markets;
- b. Quoted prices for identical or similar assets or liabilities in inactive markets;
- c. Inputs other than quoted prices that are observable for the asset or liability;
- d. Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3. Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Note 4–Fair value measurements – continued

Following is a description of the valuation techniques and inputs used for each major class of assets measured at fair value by the Plan. There have been no changes in the methodologies used at December 31, 2015.

Mutual Funds – valued at quoted market prices, which represent the net asset value (NAV) of shares held by the Plan at year end. The NAV is based on the fair value of the underlying investments held by the fund, less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

Common/Collective Trust Funds – valued at the NAV of units of a collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund, less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies and assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables present the Plan's fair value hierarchy for those assets and liabilities measured at fair value on a recurring basis:

Description	Total	Fair Value Measurements at December 31, 2015 Using		
		Quoted Prices in Active Markets for Identical Assets Level (1)	Significant Other Observable Inputs Level (2)	Significant Unobservable Inputs Level (3)

Under the terms of a trust agreement between the Trustee and the Company, the Trustee invests all contributions to the Plan in various fund options as directed by the individual participants.

Note 5–Fully benefit-responsive investment contracts

The Plan holds funds in the JPMorgan Stable Asset Income Fund (the “Fund”) that invest in synthetic guaranteed investment contracts (GICs) and wrapper contracts (also known as synthetic GICs). A synthetic investment contract is a contract issued by a financial institution to provide a stated rate of return to the buyer of the contract for a specified period of time. In a traditional GIC, the issuer takes a deposit from the Fund and purchases investments that are held in the issuer's general account. The issuer is contractually obligated to repay the principal and a specified rate of interest guaranteed to the Fund.

In a wrapper contract structure, the underlying investments are owned by the Fund and held in trust for plan participants. The Fund purchases a wrapper contract from an insurance company or bank. The wrapper contract amortizes the realized and unrealized gains and losses on the underlying fixed income investments, typically over the duration of the investments, through adjustments to the future interest crediting rate (which is the rate earned by participants in the Fund for the underlying investments). The issuer of the wrapper contract provides assurance that the adjustments to the interest crediting rate do not result in a future interest crediting rate that is less than zero. An interest crediting rate less than zero would result in a loss of principal or accrued interest. Issuers of wrap contracts in the Fund are limited to 50% of the Fund’s book value at time of purchase. Single issuers are limited to 5% of the Fund’s market value at time of purchase.

Note 5—Fully benefit-responsive investment contracts – continued

The objectives of the Fund is to protect the principal balance of participant accounts, and to generate stable, positive book value returns that exceed those of alternative principal protection vehicles, such as money market funds, during normal conditions.

Permitted instruments in the Fund may be invested on a cash/delivered basis, forward settle, short sale, repurchase agreements, reverse repurchase agreements and through exchange-traded and over-the-counter derivatives instruments such as options, futures contracts or swap agreements. Derivative instruments held outside of a Commingled Fund will be limited to Treasury futures contracts and interest rate swaps. The Fund may enter into a series of purchase and sale contracts such as TBA mortgages and dollar rolls.

The Trustee of the Fund will be responsible for selecting the maturities of individual fixed-income securities within the Fund. The effective or modified option-adjusted duration of the Portfolio will be managed to a target of 3 years, and at all times be within a range of 2 to 4 years. Under normal circumstances, the Fund will be maintained within a duration range of 2.5 to 3.5 years. The Fund may invest in unrated securities, in the opinion of the Trustee of the Fund that meets minimum quality standards.

The yield earned by the JPMorgan Stable Asset Income Fund at December 31, 2015 and 2014 was 1.99% and 1.62%, respectively. This represents the annualized earnings of all investments in the fund, including the earnings recorded at the underlying collective trust funds, divided by the fair value of all investments in the fund at December 31, 2015 and 2014.

The yield earned by the JPMorgan Stable Asset Income Fund with an adjustment to reflect the actual interest rate credited to the participants in the fund at December 31, 2015 and 2014 was 1.80% and 1.75%, respectively. This represents the annualized earnings credited to participants in the fund, divided by the fair value of all investments in the fund at December 31, 2015 and 2014.

Note 6—Plan termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at anytime and to terminate the Plan subject to provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts. Any unallocated assets of the Plan shall be allocated to participant accounts and distributed in such a manner as the Company may determine.

Note 7—Related party transactions and party in interest transactions

Certain Plan investments are managed by the trustee, therefore, these transactions qualify as party in interest transactions. Fees incurred by the Plan for the investment management services are included in net appreciation in fair value of the investment. There have been no known prohibited transactions with a party in interest.
