IA 401(k) PLAN
NOTES TO FINANCIAL STATEMENTS

NOTE 1 – Description of the Plan:

The following description of the IA 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan Document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all eligible employees of Interior Architects, Inc. (the "Company"). Employees who are age 21 or older are eligible to participate in the Plan on the first day of employment except for residents of Puerto Rico and employees covered by a collective bargaining agreement, unless the agreement requires the employees to be included under the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Plan Administrator is responsible for oversight of the Plan, determines the appropriateness of the Plan's investment offerings and monitors investment performance.

Contributions

Each year, participants may contribute up to 60% of pretax annual compensation, as defined in the Plan. Participants may choose to make contributions to the Plan on an after-tax basis, by designating a portion or all of their salary deferrals as Roth deferrals. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). Participants direct the investment of their contributions into various investment options offered by the Plan.

The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set at 5% of eligible compensation beginning thirty days after their date of hire and their contributions invested in a designated balanced fund until changed by the participant. Each year on January 1, participants who are still automatically enrolled in the Plan and have been a participant for at least six months will have their deferral rate increased by 1% until a deferral rate of 8% is reached.

The Company may make a discretionary matching contribution as determined by the Company's Board of Directors that is equal to a percentage of the amount the participant deferred during the Plan year. To be eligible for the discretionary matching contributions, participants must be employed by the Company on the last day of the Plan year. In 2015, the Company did not make a discretionary matching contribution.

Participant Accounts

Each participant's account is credited with the participant's contributions and Company discretionary matching contributions, if any, as well as allocations of Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested immediately in their contributions and of the Company's discretionary matching contributions plus actual earnings thereon.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 reduced by the highest outstanding loan balance in their account during the prior twelve month period or 50% of their vested account balance. Participants may only apply for one loan per calendar year, and may only have one outstanding loan at any given time. The loans are secured by the balance in the participant's account and bear interest at 4.25%, as determined by the Plan Administrator based on local prevailing rates. Principal and interest are paid ratably through payroll deductions.

Payment of Benefits

On termination of service, or upon attainment of age 59½, death, disability, or retirement, participants may elect to receive a lump-sum amount or installment payments equal to the value of their vested account balance. Hardship distributions are permitted if certain criteria are met. The vested account balances of terminated participants are automatically distributed if the vested account balance does not exceed $1,000. The vested account balance of terminated participants is automatically rolled over to an individual retirement account established if the vested account balance is between $1,000 and $5,000.

NOTE 2 – Summary of Accounting Policies:

Basis of Accounting

The accompanying financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan Administrator determines the Plan's valuation policies utilizing information provided by the custodian. See Note 3 for a discussion of fair value measurements.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2015 and 2014. If a participant ceases to make loan repayments and the Plan Administrator deems the participant loan to be in default, the participant's loan balance is reduced and a benefit payment is recorded.

Payment of Benefits

Benefits are recorded when paid.

Forfeited Accounts

As of December 31, 2015 and 2014, forfeited accounts totaled $1,662 and $2,421, respectively. The balance consists of outstanding checks issued in previous years for distributions not cashed as of December 31, 2015 and 2014. These checks were deemed to be forfeited and returned to the Plan. The Plan still intends to reissue the checks to the appropriate former participants.

Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net depreciation of fair value of investments.

Adoption of New Accounting Pronouncements

In May 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2015-07, *Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)* ("ASU 2015-07"), which removes the requirement to present certain investments for which the practical expedient is used to measure fair value at net asset value within the fair value hierarchy table. Instead, an entity would be required to include those investments as a reconciling item so that the total fair value amount of investments in the disclosure is consistent with the fair value investment balance on the statement of net assets available for benefits. The Plan elected to early adopt ASU 2015-07 as of December 31, 2015, as permitted and has applied ASU 2015-07 retrospectively, as required. The adoption of ASU 2015-07 has resulted in the reclassification of $8,592 related to the adjustment from fair value to contract value for a common/collective trust fund within its statement of net assets available for benefits as of December 31, 2014. Additionally, the Plan presents the investment disclosure required by ASU 2015-07 in the fair value hierarchy tables for 2015 and 2014 in Note 3, *Fair Value Measurements*. There was no other impact on the statements of net assets available for benefits as of December 31, 2015 and 2014 and the statement of changes in net assets available for benefits for the year ended December 31, 2015.

In July 2015, the FASB issued ASU No. 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965); (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient*, ("ASU 2015-12"), which simplifies the required disclosures related to employee benefit plans. Part II eliminates the requirement to disclose individual investments which comprise 5% or more of total net assets available for benefits, as well as the net appreciation or depreciation of fair values by type. Part II also requires plans to continue to disaggregate investments that are measured using fair value by general type, however plans are no longer required to also disaggregate investments by nature, characteristics and risks. Furthermore, the disclosure of information about fair value measurements shall be provided by general type of plan asset. Parts I and III are not applicable to the Plan. ASU 2015-12 is effective for fiscal years beginning after December 15, 2015 with early adoption permitted. The Plan elected to early-adopt ASU 2015-12, and has applied the provisions retrospectively. Certain disclosures that are no longer required were removed, including historical disclosure of individual investments which comprise 5% or more of total net assets available for benefits and the net appreciation or depreciation of fair value by type. There was no other impact on the statements of net assets available for benefits as of December 31, 2015 and 2014 and the statement of changes in net assets available for benefits for the year ended December 31, 2015.

Subsequent Events

The Plan has evaluated subsequent events through October 7, 2016, the date the financial statements were available to be issued.

NOTE 3 – Fair Value Measurements:

Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices in active markets for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Collective trust fund: Valued at the NAV of units of a bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchased and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure securities liquidations will be carried out in an orderly business manner.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2015, and 2014:

	Investments at Fair Value as of December 31, 2015			
	Level 1	Level 2	Level 3	Total
Mutual funds	$ 21,535,188	$ –	$ –	$ 21,535,188
Total investments in the fair value hierarchy	21,535,188	–	–	21,535,188
Collective trust fund measured at net asset value [(a)]	–	–	–	570,803
Total investments at fair value	$ 21,535,188	$ –	$ –	$ 22,105,991

	Investments at Fair Value as of December 31, 2014			
	Level 1	Level 2	Level 3	Total
Mutual funds	$ 18,760,115	$ –	$ –	$ 18,760,115
Total investments in the fair value hierarchy	18,760,115	$ –	–	18,760,115
Collective trust fund measured at net asset value [(a)]	–	–	–	579,212
Total investments at fair value	$ 18,760,115	$ –	$ –	$ 19,339,327

[(a)] In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

NOTE 4 – Related-Party Transactions and Party in Interest Transactions:

Certain Plan investments are managed by Fidelity Management Trust Company ("Fidelity"). Fidelity is the trustee and recordkeeper for the Plan and, therefore, these transactions qualify as party-in-interest transactions.

Fidelity provides certain administrative services to the Plan pursuant to a service agreement between the Company and Fidelity. Fidelity receives revenue from mutual funds and other investment service providers for services Fidelity provides to the funds. This revenue is used to offset certain amounts owed to Fidelity for its administrative services.

If the revenue received by Fidelity from such investment service providers exceeds the amount under the service agreement, Fidelity remits the excess to the Plan's trust on a quarterly basis. Such amounts may be applied to pay Plan administrative expenses or allocated to the accounts of the participants. The Plan or Plan Sponsor may make a payment to Fidelity for administrative expenses not covered by revenue sharing.

NOTE 5 – Plan Termination:

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would remain 100 percent vested in their accounts.

NOTE 6 – Tax Status:

The Company has adopted a prototype plan, which received an opinion letter from the Internal Revenue Service ("IRS") dated March 31, 2014, that the Plan is designed in accordance with the applicable sections of the Internal Revenue Code ("IRC"). Although the Plan has been amended since receiving the opinion letter, the Company believes the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believes the Plan is qualified, and the related trust is tax exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 7 – Risks and Uncertainties:

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market fluctuations and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the accompanying statements of net assets available for benefits.

NOTE 8 – Reconciliation of Financial Statements to Form 5500:

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500:

	2014
Net assets available for benefits per the financial statements	$ 19,646,547
Adjustment from contract value to fair value for fully benefit responsive investment contract	8,592
Participant contribution receivable	(282)
Net assets available for benefits per the Form 5500	$ 19,654,857

The following is a reconciliation of net increase in net assets available for benefits as reported on the accompanying financial statements to the net increase as reported on the Form 5500 for the year ended December 31, 2015:

Net increase in net assets available for benefits per the financial statements	$	2,748,796
Less: Adjustment from contract value to fair value for fully benefit responsive investment contract for 2014		(8,592)
Add: Participant contribution receivable for 2014		282
Net increase in net assets available for benefits per the Form 5500	$	2,740,486
