Note 1: Description of Plan

The following description of the Graebel Employees' 401(k) Plan (the "Plan") provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

The Plan is effective as of December 1, 2014. It is an amendment and restatement of a pre-existing plan which was originally adopted effective January 1, 1990. It is a multiple-employer, defined contribution plan sponsored by Graebel Companies, Inc. As of December 31, 2014 and 2015, Graebel Companies, Inc. and its subsidiaries (the "Companies") was the sole participating employer and the Plan covered substantially all nonunion full-time employees of the Companies. As discussed in Note 10, on December 31, 2014 and January 1, 2015, the Companies sold a significant segment of its business to one unrelated buyer. The buyer was also a participating employer in the Plan from January 1, 2015, until the plan assets belonging to the employees of the sold divisions were transferred on July 1, 2015 to a new plan set up by the buyer. Nonunion production employees become eligible to participate in the Plan on the first day of the month following the attainment of age 21 and completion of one year of service and 1,000 hours. Nonunion administrative employees become eligible to participate in the Plan on the first day of the month following the completion of one hour of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Contributions

Participants are allowed to contribute up to 50% of pretax annual compensation, as defined by the Plan, up to the annual maximum allowed by the Internal Revenue Service (IRS). Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. The Plan allows for Roth contributions. The Plan also includes an auto-enrollment provision whereby all newly eligible administrative employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set at 3% of eligible pretax compensation and their contributions invested in a designated fund until changed by the participant. Participants direct the investment of their contributions into various investment options offered by the Plan.

The Companies may make a discretionary matching contribution of 25% of the first 6% of each participant's elective deferrals. The Companies made $595,810 in discretionary matching contributions during 2015.

The Companies may also contribute a discretionary contribution as determined annually by the Board of Directors. These contributions are allocated to each eligible participant who completes 1,000 hours of service during the plan year and is employed on the last day of the plan year. The allocation is made on the last day of the plan year in proportion to the participant's compensation for the plan year. There were no discretionary employer contributions made during 2015.

Note 1: Description of Plan (Continued)

Participant Accounts

Each participant's account is credited with the participant's contribution and the Companies' discretionary matching contribution and allocations of (a) the Companies' discretionary contribution and (b) plan earnings (losses), and (c) charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their voluntary contributions plus actual earnings (losses) thereon. The Companies' contributions, plus earnings (losses) thereon, vest at a rate of 25% per year of service beginning with the first year of service. A participant is fully vested in the Companies' contributions after four years of vesting service. The Plan defines a year of vesting service as the completion of 1,000 hours of service in a plan year.

Notes Receivable From Participants

Participants may borrow from their fund accounts up to a maximum of $50,000 or 50% of their account balance. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined by the plan administrator. Interest rates on existing loans range from 3.25% to 9.50%. Principal and interest are paid ratably through payroll deductions or in installments at the end of each payroll period.

Payment of Benefits

On termination of service due to death, disability, or retirement, a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account in either a lump-sum amount, annual periodic payments, or in an annuity if the account balance is greater than $5,000. If the participant's vested account balance does not exceed $5,000, it can be distributed only in a single lump-sum payment. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution. In addition, hardship distributions out of the participant's voluntary contributions account are permitted if certain criteria are met. The Plan also allows for in-service distributions upon attaining age 59½.

Forfeitures

Plan forfeitures arise as a result of participants who terminate service with the Companies before becoming 100% vested in the Companies' contributions. These forfeitures are used to first pay plan expenses and then reduce future Companies' contributions. The amount of forfeitures available at December 31, 2015 and 2014 were $6,306 and $27,390, respectively. In 2015, forfeitures used to offset plan expenses were $61,724.

Note 2: Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements of the Plan are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States (GAAP).

Change in Accounting Policy

In July 2015, the Financial Accounting Standards Board issued Accounting Standards Update (ASU) No. 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient.* Part I eliminates the requirements to measure the fair value of fully benefit-responsive investment contracts and provide certain disclosures. Contract value is the only required measure for fully benefit-responsive investment contracts. Part II eliminates the requirements to disclose individual investments that represent 5% or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. Part II also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics, and risks. Further, the disclosure of information about fair value measurements shall be provided by general type of plan asset. Parts I and III are not applicable to the Plan. This ASU is effective for fiscal years beginning after December 31, 2015, with early adoption permitted. Management has elected to early adopt Part II, which is to be applied retrospectively.

In May 2015, the FASB issued ASU No. 2015-07, *Fair Value Measurement*. This ASU amends Accounting Standards Codification Topic 820 and removes the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value (NAV) per share practical expedient. This ASU also removes the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the NAV per share practical expedient. Rather, those disclosures are limited to investments for which the entity has elected to measure the fair value using that practical expedient. The guidance in this ASU is effective for the Plan's year ending December 31, 2017; however, the Plan chose to early adopt this new guidance for the year ended December 31, 2015. The presentation of the fair value of the Plan's common/collective trust fund as of December 31, 2014 has been removed from the hierarchy levels presented in Note 3 in order to conform to the presentation used as of December 31, 2015.

Use of Estimates in Preparation of Financial Statements

The preparation of financial statements in accordance with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results may differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Board of Trustees determines the Plan's valuation policies utilizing information provided by investment advisors and Fidelity Management Trust Company ("Fidelity").

Note 2: Summary of Significant Accounting Policies (Continued)

Investment Valuation and Income Recognition (Continued)

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable From Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. No allowance for credit losses has been recorded as of December 31, 2015 and 2014. Delinquent participant notes receivable are recorded as benefit payments on the basis of the terms of the plan document.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Certain administrative expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Companies. Expenses that are paid by the Companies are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment-related expenses are allocated proportionately to plan participants based on their respective account balances and are included in net investment income.

Subsequent Events

The Plan has evaluated subsequent events through October 11, 2016, which is the date the financial statements were available to be issued.

Note 3: Fair Value Measurements

GAAP establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority level. Level 2 inputs consist of observable inputs other than quoted prices for identical assets (Level 1). Level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 2 inputs are used for investments for which Level 1 inputs were not available. Level 3 inputs would only be used if Level 1 or Level 2 inputs were not available. There are no plan assets requiring the use of Level 2 or Level 3 inputs for the periods presented.

Note 3: Fair Value Measurements (Continued)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used as of December 31, 2015 and 2014.

Mutual funds (including a money market fund) and self-directed brokerage accounts (including mutual funds and a money market fund): Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Collective trust - Fidelity Managed Income Portfolio: Valued at the NAV of units of the collective trust. The NAV, as provided by the Trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different from the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner. As of December 31, 2015 and 2014, there are no unfunded commitments on the funds. The funds are able to be redeemed with written notice, on a daily basis, for the years ended December 31, 2015 and 2014. The fund does not require a redemption notice period.

The following tables set forth by level, within the fair value hierarchy, the Plan's investment assets at fair value as of December 31, 2015 and 2014. Classification within the fair value hierarchy table is based on the lowest level of any input that is significant to the fair value measurement:

	Assets at Fair Value as of December 31, 2015			
	Level 1	Level 2	Level 3	Total
Mutual funds	$ 27,549,922	$ -	$ -	$ 27,549,922

Investment assets measured at NAV				1,141,658
Total investment assets at fair value				$ 28,705,447

Note 3: Fair Value Measurements (Continued)

	Assets at Fair Value as of December 31, 2014

Participant self-directed brokerage accounts	88,304	-	-	88,304
Total investment assets in the fair value hierarchy	$ 53,344,397	$ -	$ -	53,344,397
Investment assets measured at NAV				2,724,756
Total investment assets at fair value				$ 56,069,153

Note 4: Information Prepared and Certified by the Trustee

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Certain information disclosed in the accompanying financial statements and supplemental schedule, including investments and notes receivable from participants held at December 31, 2015 and 2014, and net depreciation in fair value of investments, interest, and dividends for the year ended December 31, 2015, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by Fidelity Management Trust Company (the Trustee of the Plan).

Note 5: Plan Termination

Although it has not expressed any intent to do so, the Companies have the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100% vested in their Companies contributions.

Note 6: Tax Status

The IRS has determined and informed the Companies by a letter that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the plan administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified and the related trust is tax-exempt.

Note 7: Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 8: Related-Party Transactions and Party-in-Interest Transactions

Certain plan investments are managed by Fidelity. Fidelity is the Trustee, as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Trustee fees incurred and paid by the Plan for the investment management and administrative services were $182,498 for the year ended December 31, 2015. Cook Street Consulting, Inc. fees paid by the Plan for recordkeeping and other administrative services were $55,479. These are not considered prohibited transactions under ERISA.

Notes receivable from participants also qualify as party-in-interest transactions, which are exempt from the prohibited transaction rules of ERISA.

Note 9: Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2015 and 2014, to Form 5500:

	2015	2014
Net assets available for benefits per the financial statements	$ 29,136,886	$ 57,958,889
Adjustment from fair value to contract value for interest in collective trust	7,797	40,417
Net assets available for benefits per the Form 5500	$ 29,144,683	$ 57,999,306

The following is a reconciliation of total additions per the financial statements for the year ended December 31, 2015, to Form 5500:

Net decrease in net assets available for benefits per the financial statements	$ (28,822,003)
Transfer of assets due to divestiture of subsidiaries	26,431,337
Change in the adjustment from fair value to contract value for interest in collective trust	(32,620)
Net decrease in net assets available for benefits per Form 5500	$ (2,423,286)

Note 10: Discontinued Operations

During 2014, the Companies chose to discontinue a significant segment of its business and entered into a Stock Purchase Agreement to sell the stock of many of its subsidiaries and an Asset Purchase Agreement to sell the assets of another subsidiary. The stock sale was completed on December 31, 2014, and the asset sale was completed on January 1, 2015, to the same buyer. In anticipation of these transactions, the Plan was amended on December 1, 2014, to be a multiple employer plan whereby the Companies and the buyer of the discontinued operations could allow the employees of the sold operations to continue participating in the Plan. In addition, new hires of those operations would also be allowed to participate in the Plan. On July 1, 2015, the plan assets belonging to employees of the sold divisions totaling $26,431,337 were removed from the Plan and transferred to a new plan set up by the buyer.

Note 11: Reclassification

Certain reclassifications have been made to the 2014 financial statements to conform to the 2015 classifications.

Note 1: Description of Plan

The following description of the Graebel Employees' 401(k) Plan (the "Plan") provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

The Plan is effective as of December 1, 2014. It is an amendment and restatement of a pre-existing plan which was originally adopted effective January 1, 1990. It is a multiple-employer, defined contribution plan sponsored by Graebel Companies, Inc. As of December 31, 2014 and 2015, Graebel Companies, Inc. and its subsidiaries (the "Companies") was the sole participating employer and the Plan covered substantially all nonunion full-time employees of the Companies. As discussed in Note 10, on December 31, 2014 and January 1, 2015, the Companies sold a significant segment of its business to one unrelated buyer. The buyer was also a participating employer in the Plan from January 1, 2015, until the plan assets belonging to the employees of the sold divisions were transferred on July 1, 2015 to a new plan set up by the buyer. Nonunion production employees become eligible to participate in the Plan on the first day of the month following the attainment of age 21 and completion of one year of service and 1,000 hours. Nonunion administrative employees become eligible to participate in the Plan on the first day of the month following the completion of one hour of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Contributions

Participants are allowed to contribute up to 50% of pretax annual compensation, as defined by the Plan, up to the annual maximum allowed by the Internal Revenue Service (IRS). Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. The Plan allows for Roth contributions. The Plan also includes an auto-enrollment provision whereby all newly eligible administrative employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set at 3% of eligible pretax compensation and their contributions invested in a designated fund until changed by the participant. Participants direct the investment of their contributions into various investment options offered by the Plan.

The Companies may make a discretionary matching contribution of 25% of the first 6% of each participant's elective deferrals. The Companies made $595,810 in discretionary matching contributions during 2015.

The Companies may also contribute a discretionary contribution as determined annually by the Board of Directors. These contributions are allocated to each eligible participant who completes 1,000 hours of service during the plan year and is employed on the last day of the plan year. The allocation is made on the last day of the plan year in proportion to the participant's compensation for the plan year. There were no discretionary employer contributions made during 2015.

Note 1: Description of Plan (Continued)

Participant Accounts

Each participant's account is credited with the participant's contribution and the Companies' discretionary matching contribution and allocations of (a) the Companies' discretionary contribution and (b) plan earnings (losses), and (c) charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their voluntary contributions plus actual earnings (losses) thereon. The Companies' contributions, plus earnings (losses) thereon, vest at a rate of 25% per year of service beginning with the first year of service. A participant is fully vested in the Companies' contributions after four years of vesting service. The Plan defines a year of vesting service as the completion of 1,000 hours of service in a plan year.

Notes Receivable From Participants

Participants may borrow from their fund accounts up to a maximum of $50,000 or 50% of their account balance. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined by the plan administrator. Interest rates on existing loans range from 3.25% to 9.50%. Principal and interest are paid ratably through payroll deductions or in installments at the end of each payroll period.

Payment of Benefits

On termination of service due to death, disability, or retirement, a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account in either a lump-sum amount, annual periodic payments, or in an annuity if the account balance is greater than $5,000. If the participant's vested account balance does not exceed $5,000, it can be distributed only in a single lump-sum payment. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution. In addition, hardship distributions out of the participant's voluntary contributions account are permitted if certain criteria are met. The Plan also allows for in-service distributions upon attaining age 59½.

Forfeitures

Plan forfeitures arise as a result of participants who terminate service with the Companies before becoming 100% vested in the Companies' contributions. These forfeitures are used to first pay plan expenses and then reduce future Companies' contributions. The amount of forfeitures available at December 31, 2015 and 2014 were $6,306 and $27,390, respectively. In 2015, forfeitures used to offset plan expenses were $61,724.

Note 2: Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements of the Plan are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States (GAAP).

Change in Accounting Policy

In July 2015, the Financial Accounting Standards Board issued Accounting Standards Update (ASU) No. 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient.* Part I eliminates the requirements to measure the fair value of fully benefit-responsive investment contracts and provide certain disclosures. Contract value is the only required measure for fully benefit-responsive investment contracts. Part II eliminates the requirements to disclose individual investments that represent 5% or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. Part II also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics, and risks. Further, the disclosure of information about fair value measurements shall be provided by general type of plan asset. Parts I and III are not applicable to the Plan. This ASU is effective for fiscal years beginning after December 31, 2015, with early adoption permitted. Management has elected to early adopt Part II, which is to be applied retrospectively.

In May 2015, the FASB issued ASU No. 2015-07, *Fair Value Measurement*. This ASU amends Accounting Standards Codification Topic 820 and removes the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value (NAV) per share practical expedient. This ASU also removes the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the NAV per share practical expedient. Rather, those disclosures are limited to investments for which the entity has elected to measure the fair value using that practical expedient. The guidance in this ASU is effective for the Plan's year ending December 31, 2017; however, the Plan chose to early adopt this new guidance for the year ended December 31, 2015. The presentation of the fair value of the Plan's common/collective trust fund as of December 31, 2014 has been removed from the hierarchy levels presented in Note 3 in order to conform to the presentation used as of December 31, 2015.

Use of Estimates in Preparation of Financial Statements

The preparation of financial statements in accordance with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results may differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Board of Trustees determines the Plan's valuation policies utilizing information provided by investment advisors and Fidelity Management Trust Company ("Fidelity").

Note 2: Summary of Significant Accounting Policies (Continued)

Investment Valuation and Income Recognition (Continued)

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable From Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. No allowance for credit losses has been recorded as of December 31, 2015 and 2014. Delinquent participant notes receivable are recorded as benefit payments on the basis of the terms of the plan document.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Certain administrative expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Companies. Expenses that are paid by the Companies are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment-related expenses are allocated proportionately to plan participants based on their respective account balances and are included in net investment income.

Subsequent Events

The Plan has evaluated subsequent events through October 11, 2016, which is the date the financial statements were available to be issued.

Note 3: Fair Value Measurements

GAAP establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority level. Level 2 inputs consist of observable inputs other than quoted prices for identical assets (Level 1). Level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 2 inputs are used for investments for which Level 1 inputs were not available. Level 3 inputs would only be used if Level 1 or Level 2 inputs were not available. There are no plan assets requiring the use of Level 2 or Level 3 inputs for the periods presented.

Note 3: Fair Value Measurements (Continued)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used as of December 31, 2015 and 2014.

Mutual funds (including a money market fund) and self-directed brokerage accounts (including mutual funds and a money market fund): Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Collective trust - Fidelity Managed Income Portfolio: Valued at the NAV of units of the collective trust. The NAV, as provided by the Trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different from the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner. As of December 31, 2015 and 2014, there are no unfunded commitments on the funds. The funds are able to be redeemed with written notice, on a daily basis, for the years ended December 31, 2015 and 2014. The fund does not require a redemption notice period.

The following tables set forth by level, within the fair value hierarchy, the Plan's investment assets at fair value as of December 31, 2015 and 2014. Classification within the fair value hierarchy table is based on the lowest level of any input that is significant to the fair value measurement:

	Assets at Fair Value as of December 31, 2015			
	Level 1	Level 2	Level 3	Total

Note 4: Information Prepared and Certified by the Trustee

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Certain information disclosed in the accompanying financial statements and supplemental schedule, including investments and notes receivable from participants held at December 31, 2015 and 2014, and net depreciation in fair value of investments, interest, and dividends for the year ended December 31, 2015, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by Fidelity Management Trust Company (the Trustee of the Plan).

Note 5: Plan Termination

Although it has not expressed any intent to do so, the Companies have the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100% vested in their Companies contributions.

Note 6: Tax Status

The IRS has determined and informed the Companies by a letter that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the plan administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified and the related trust is tax-exempt.

Note 7: Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 8: Related-Party Transactions and Party-in-Interest Transactions

Certain plan investments are managed by Fidelity. Fidelity is the Trustee, as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Trustee fees incurred and paid by the Plan for the investment management and administrative services were $182,498 for the year ended December 31, 2015. Cook Street Consulting, Inc. fees paid by the Plan for recordkeeping and other administrative services were $55,479. These are not considered prohibited transactions under ERISA.

Notes receivable from participants also qualify as party-in-interest transactions, which are exempt from the prohibited transaction rules of ERISA.

Note 9: Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2015 and 2014, to Form 5500:

Net assets available for benefits per the Form 5500	$ 29,144,683	$ 57,999,306

Change in the adjustment from fair value to contract value for interest in collective trust	(32,620)
Net decrease in net assets available for benefits per Form 5500	$ (2,423,286)

Note 10: Discontinued Operations

During 2014, the Companies chose to discontinue a significant segment of its business and entered into a Stock Purchase Agreement to sell the stock of many of its subsidiaries and an Asset Purchase Agreement to sell the assets of another subsidiary. The stock sale was completed on December 31, 2014, and the asset sale was completed on January 1, 2015, to the same buyer. In anticipation of these transactions, the Plan was amended on December 1, 2014, to be a multiple employer plan whereby the Companies and the buyer of the discontinued operations could allow the employees of the sold operations to continue participating in the Plan. In addition, new hires of those operations would also be allowed to participate in the Plan. On July 1, 2015, the plan assets belonging to employees of the sold divisions totaling $26,431,337 were removed from the Plan and transferred to a new plan set up by the buyer.

Note 11: Reclassification

Certain reclassifications have been made to the 2014 financial statements to conform to the 2015 classifications.
